Chief, Individual Statistics Branch

This report contains data on sources of income, adjusted gross income, exemptions, deductions, taxable income, income tax, tax credits, self-employment tax, tax withheld, and taxpayments. Also shown are foreign and domestic dividends, capital gains and losses, and selected income and tax items for States. Classifications are by tax status, size of adjusted gross income, marital status, and form of deduction. Information on high income tax returns is contained in Section 5 of this report.

Additional unpublished information from individual income tax returns, classified by States and by size of adjusted gross income, is available on a reimbursable basis from the Internal Revenue Service, Statistics of Income Division. A public-use computer tape file—the Individual Tax Model File—containing the records selected for the Statistics of Income sample is also available on a reimbursable basis from the Statistics of Income Division. This file is suitable for making national level estimates and for returns with adjusted gross income under $200,000, State level estimates.

COMMISSIONER OF INTERNAL REVENUE

Washington, DC 20224

July 29, 1983

The Honorable Donald T. Regan
Secretary of the Treasury
Washington, DC 20220

Dear Mr. Secretary:

I am transmitting the complete report, Statistics of Income--1981, Individual Income Tax Returns. This report has been produced in accordance with the mandate of section 6108 of the Internal Revenue Code which requires the preparation and publication of statistics reasonably available with respect to the operation of the internal revenue laws.

The report, based on a sample drawn from the 95.4 million returns filed during Calendar Year 1982, presents information on taxpayers' income, exemptions, deductions, credits, and tax. These statistics reflect changes in the computation of individual income tax brought about by the Economic Recovery Tax Act of 1981.

Classifications used include size of adjusted gross income, marital status, and State of residence. Separate statistics are provided on returns with itemized deductions. There is an entire section devoted to high income returns, both taxable and nontaxable.

With kind regards,

Sincerely,

Acting Commissioner

Statistics of Income

SOI BULLETIN

The SOI Bulletin provides the earliest published annual financial statistics from the various types of tax and information returns filed with the Internal Revenue Service. The Bulletin also includes information from periodic or special analytical studies of particular interest to tax administrators. In addition, historical data from 1970 to the present are provided for selected types of taxpayers, as well as on tax rates for individuals and gross internal revenue collections.

The SOI Bulletin is published quarterly and available from the Superintendent of Documents, U.S. Government Printing Office during the following months:

Summer Issue ..... **July**
Fall Issue ..... **October**
Winter Issue ..... **January**
Spring Issue ..... **April**

See Order Blank Below

The following topics are among those described and analyzed in the SOI Bulletin:

- Controlled foreign corporations
- Corporation income tax returns
- Domestic international sales corporations
- Employee benefit plans
- Estate tax returns
- Foreign source income of U.S. taxpayers
- Individual income by ZIP code area
- Individual income tax returns
- Investment tax credit
- Marginal and average tax rates
- Occupation data
- Partnership returns
- Private foundations
- Projections of return filings
- Residential energy credit
- Safe harbor leasing
- Sales of capital assets
- Sole proprietorship returns
- Superfund for environmental taxes
- Taxpayers age 65 or over
- The underground economy
- Trends in personal wealth
- Trends in selected industries
- Windfall profit tax

B Returns with itemized deductions: average amount of itemized deductions, 1972-1981, 6
C Returns with total unemployment compensation as a percent of all returns by State, 1981, 8

The statistics presented in this report are estimates based on a stratified probability sample of individual income tax returns, selected before audit, and represent coverage of the 95.4 million Forms 1040 and 1040A filed by the Nation's taxpayers for Income Year 1981. The number of returns filed for 1981 represents an increase of approximately 1.6 percent over those filed for 1980.

The Internal Revenue Code of 1954, as amended, provided the legal basis for tax activity detailed in this report. Criteria specified by the Internal Revenue Code covering the filing of a tax return and, therefore, determining the basic coverage of the information in this report are outlined under "Requirements for Filing." Revisions to the Code which affected the comparability of some of the data in this report with data presented for previous years are described later in this section.

Organizationally, this report is divided into seven sections. This first section provides some summary data for 1981, as well as information on law changes from 1980 to 1981. In Section 2, there is a detailed description of the sample of income tax returns upon which the statistics for 1981 are based, as well as a discussion of the method of estimation used, the sampling variability of the data, and other limitations. Section 3 presents the basic tables that contain detailed statistics on income (Part 1), deductions and exemptions (Part 2), and the computation of tax liability (Part 3), as well as selected data items classified by State (Part 4).

Section 4 contains, in alphabetical order, a detailed explanation of each of the terms employed in the statistical tables. Section 5 presents data formerly published in the report, High Income Tax Returns, prepared by the Department of the Treasury, Office of Tax Analysis. Special definitions apply to the terms used in this section, and are given in the accompanying text. Facsimiles of the tax return forms (and their instructions) from which the data were gathered for 1981 are reproduced in Section 6. Section 7 is an index to the information provided in this report. The last page of the report is a User Survey, designed to let the Internal Revenue Service know, in a period of budget restrictions, which parts of this report are most important to the users.

REQUIREMENTS FOR FILING

The principal criterion which determined whether an individual had to file a return was the size of gross income (all income received in the form of money, property, and services, that was not, by law, expressly exempt from taxation). For 1981, as for 1980, a return had to be filed by:

(1) a single person (other than a surviving spouse) under age 65 with gross income of at least $3,300;

(2) a single person (other than a surviving spouse) age 65 or over with gross income of at least $4,300;

(3) a surviving spouse under age 65 with gross income of at least $4,400;

(4) a surviving spouse age 65 or over with gross income of at least $5,400;

(5) a married couple, filing a joint return, with both spouses under age 65 and with a combined gross income of at least $5,400;

(6) a married couple, filing a joint return, with one spouse age 65 or over and with a combined gross income of at least $6,400;

(7) a married couple, filing a joint return, with both spouses age 65 or over and with a combined gross income of at least $7,400;

(8) a married person, regardless of age, whose spouse was filing a separate return, if that married person had a gross income of at least $1,000.

Notwithstanding these provisions, any individual claimed as a dependent on another person's return had to file if he or she had "unearned income" (such as dividends, interest, or capital gains) of $1,000 or more. Self-employed persons had to file if they had "self-employment income" of at least $400, in order to

*This report was prepared under the direction of Noreen Hoffmeier, Chief, Returns Analysis Section, Individual Statistics Branch.

pay self-employment tax. Any person who received any advance earned income credit payments from an employer in 1981 was also required to file. In addition, even if income was less than the above amounts, an individual had to file for taxes owed for social security on tips not reported to an employer, minimum tax, tax on an individual retirement arrangement, and tax from recomputing prior-year investment credit.

Coverage of returns below these income levels was generally limited to persons filing for a refund of income tax withheld or to obtain the earned income credit.

Most taxpayers were required to file tax returns within 3-1/2 months after the close of their accounting periods. Since the accounting period used by nearly all individuals for Tax Year 1981 was the calendar year, this meant that returns were due by April 15, 1982. However, each taxpayer could be granted, upon request, one automatic 2-month extension of time to file. In addition, U.S. citizens residing or traveling outside the United States and Puerto Rico were automatically granted (without requesting) the 2-month extension.

NUMBER OF RETURNS AND SOURCES OF INCOME

Table A shows that there were 95.4 million returns filed for Tax Year 1981--an increase of 1.5 million over 1980. Of these, taxable returns increased by 2.8 million to 76.7 million while nontaxable returns dropped 1.3 million to 18.7 million. These changes could be a result of the overall increase in adjusted gross income, which was actually the result of increases in income from salaries and wages, interest, pensions, dividends, and royalties. Salaries and wages increased by 10 percent from 1980 and pensions increased by 20 percent; investment income rose even more sharply. For example, royalty income increased by 49 percent. Interest income increased by 38 percent from 1980, a result primarily of the steep growth in interest rates over the last several years. In fact, Figure A shows the growing part that interest income played as a component of adjusted gross income from 1972 to 1981. For 1979, it comprised 5 percent of adjusted gross income compared to 8 percent for 1981. More details on the number of returns and sources of income are shown in the tables of Section 3, Part 1.

Even though the shift was not as strong as in previous years, Tables B and C again show the same upward movement of returns into the higher income classes. Also, the total number of returns declined in all income classes below $20,000. One result of this shift is that the proportion of nontaxable returns dropped since 1977. Most of this substantial decrease, as shown in Table C, was caused by a drop in the number of nontaxable returns with incomes under $5,000 for Tax Year 1981.

ITEMIZED DEDUCTIONS

Table D indicates a continuing shift towards itemizing for Tax Year 1981, with 2.6 million more returns showing itemized deductions than for 1980. This increase in itemized deductions was due in part to the increases in average adjusted gross income which lead to higher amounts that could be claimed as a sales tax deduction and as a contributions deduction, and the lack of an increase in the zero bracket amount.

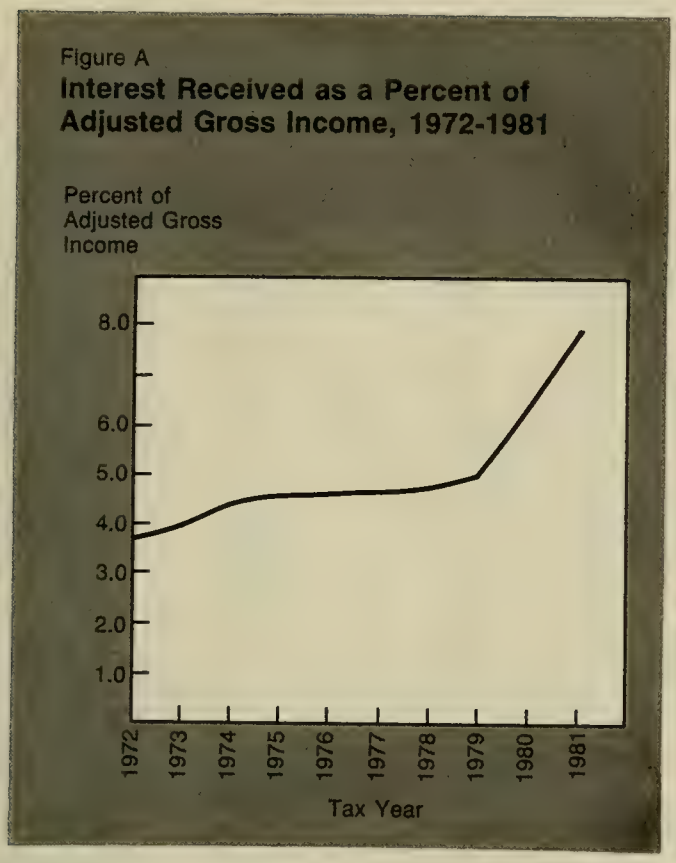
Table A. — Sources of Income and Selected Tax Items, 1980 and 1981

[All figures are estimates based on samples — money amounts are in thousands of dollars]

Item	1980	1981	Change, 1980 to 1981
	(1)	(2)	(3)
Number of returns, total	93,902,469	95,396,123	1,493,654
Taxable	73,906,244	76,724,724	2,818,480
Nontaxable	19,996,225	18,671,399	-1,324,826
Adjusted gross income less deficit	1,613,731,497	1,772,604,303	158,872,806
Sources of income:			
Salaries and wages	1,349,842,802	1,486,100,497	136,257,695
Pensions and annuities in adjusted gross income	43,339,736	51,886,406	8,546,670
Business or profession net profit less loss	55,129,154	53,071,628	-2,057,526
Farm net profit less loss	-1,792,466	-7,811,958	-6,019,492
Partnership net profit less loss	9,428,596	-137,650	-9,566,246
Small Business Corporation net profit less loss	670,751	-817,171	-1,487,922
Sales of capital assets net gain less loss	29,659,600	30,818,535	1,158,935
Sales of property other than capital assets net gain less loss	76,285	232,444	156,159
Dividends and interest:			
Dividends received	40,375,626	48,161,460	7,785,834
Interest received	102,009,444	140,559,366	38,549,922
Interest and dividends in adjusted gross income	140,770,696	178,097,705	37,327,009
Rent net income less loss	200,397	-2,765,090	-2,965,487
Royalty net income less loss	3,904,984	5,826,913	1,921,929
Estate or trust net income less loss	4,560,031	3,965,822	-594,210
All other sources (net)[1]	6,554,990	5,578,509	-976,481
Total statutory adjustments	28,614,061	31,442,288	2,828,228
Total itemized deductions	218,028,139	256,448,021	38,419,881
Number of exemptions	227,925,098	231,222,374	3,297,276
Taxable income	1,279,985,360	1,410,880,665	130,895,305
Zero bracket amount	234,839,843	240,752,400	5,912,557
Income tax before credits	256,294,315	293,590,035	37,295,720
Total credits	7,215,839	11,288,005	4,072,166
Income tax after credits	249,078,475	282,302,029	33,223,554
Additional tax for tax preferences:			
Total	1,262,964	1,826,960	563,996
Minimum tax	412,638	565,641	153,003
Alternative minimum tax	850,326	1,261,318	410,993
Total income tax	250,341,440	284,128,989	33,787,550
Self-employment tax	5,659,897	6,687,400	1,027,503
Total tax liability	256,251,076	291,126,542	34,875,466

[1]Consists of state income tax refunds, alimony received, unemployment compensation in adjusted gross income, and other income less loss. For 1981, also includes windfall profit tax refunds less net adjustment for windfall profit tax withheld

NOTE: Detail may not add to total because of rounding



The number of returns with itemized deductions has risen back to the level they were for 1974, the year preceding a period of major law changes which increased the standard deduction and later (for 1977) introduced the zero bracket amount.

Returns with itemized deductions

Tax Year	Number	Percent of all returns
1972	26,980,339	34.8
1973	28,047,409	34.8
1974	29,564,363	35.4
1975	26,074,061	31.7
1976	25,951,389	30.6
1977	22,896,507	26.4
1978	25,756,298	28.7
1979	26,483,877	28.6
1980	28,950,282	30.8
1981	31,571,246	33.1

As shown in Figure B, the average amount of itemized deductions more than doubled over the previous ten years from $3,600 for 1972 to $8,100 for 1981. This has occurred even though the number of returns showing itemized deductions actually declined from 1974 through 1977. This increase can be explained, in part, by increases in disposable income, prices, and interest rates. Also contributing was the fact that the Tax Reduction and Simplification Act of 1977 generally required the amount of itemized deductions to be larger than the zero bracket amount (standard deduction) before a taxpayer could itemize.

Details on the types of itemized deductions, as well as the types of exemptions, for 1981 are found in the tables in Section 3, Part 2.

COMPUTATION OF TAX

The taxpayer, in determining the 1981 total tax liability, had to take into account several factors. These included:

Table B. — Number of Returns by Size of Adjusted Gross Income and by Marital Status, 1980 and 1981

[All figures are estimates based on samples]

Size of adjusted gross income and marital status	1980	1981	Change, 1980 to 1981
	(1)	(2)	(3)
Number of returns for all adjusted gross income classes	**93,902,469**	**95,396,123**	**1,493,654**
Joint returns of husbands and wives	45,243,211	45,697,648	454,437
Separate returns of husbands and wives	1,699,165	1,498,875	-200,290
Returns of heads of households	7,691,103	8,376,207	685,104
Returns of surviving spouses	125,646	112,893	-12,753
Returns of single persons	39,143,344	39,710,500	567,156
Under $5,000, total[1]	**20,055,529**	**18,746,376**	**-1,309,153**
Joint returns of husbands and wives	2,408,679	2,429,333	20,654
Separate returns of husbands and wives	492,184	372,749	-119,435
Returns of heads of households	1,636,565	1,562,353	-74,212
Returns of surviving spouses	21,841	12,194	-9,647

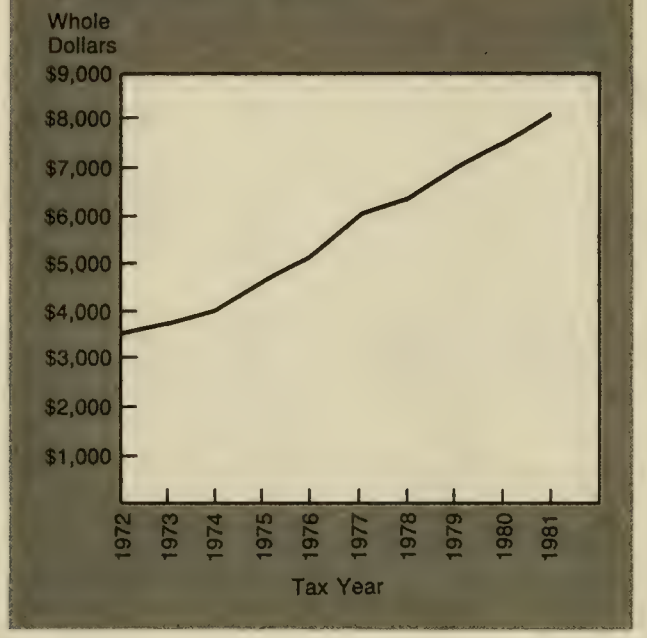
Figure B
Returns with Itemized Deductions: Average Amount of Itemized Deductions, 1972-1981



(1) "income subject to tax," generally adjusted gross income minus the personal exemption amount and, if applicable, excess itemized deductions, or plus the unused zero bracket amount,

(2) the method of tax computation applicable to "income subject to tax" (the regular, income averaging, alternative, or maximum tax computation),

(3) marital status, which determined the applicable set of tax rates,

(4) taxes from any of the special computations,

(5) any tax credits the taxpayer was entitled to apply against income tax,

(6) the additional tax for tax preferences (the minimum tax and alternative minimum tax), and

(7) any other taxes (such as the self-employment tax).

Whether the taxpayer had a balance due at time of filing or was eligible for a refund depended on the following factors:

(1) any taxpayments made during the year (notably through withholding or payments of estimated tax),

(2) the availability of a refundable earned income credit, and

(3) any advance payments of the earned income credit.

Table E shows that 91 percent of the returns with income tax before credits used the regular method (tax tables or tax rate schedules). Nonetheless, some 31 percent of income tax before credits came from other tax computations.

Additional tables on the computation of tax liability are presented in Part 3 of Section 3.

STATE DATA

The tables in Part 4 of Section 3 of this report classify taxpayers according to the State address reported on the tax return, including the District of Columbia and, as described below, Puerto Rico. Returns of citizens living in U.S. possessions or abroad are classified in a separate category, as are returns of service personnel who filed from Army Post Office (APO) and Fleet Post Office (FPO) addresses.

Residents of Puerto Rico had to file U.S. income tax returns only if they had income from sources outside Puerto Rico or income earned in Puerto Rico as employees of the U.S. Government, and the income on their returns was limited to these amounts. U.S. citizens residing abroad had to file tax returns and indicate the amount of income excluded or deducted even if they ultimately had no tax liability as a result of these reductions to income.

State data on total unemployment compensation received are shown in Figure C. As might be expected, the data parallel the unemployment rate in the States at that time. Even though 8.8 percent of the returns in the United States reported total unemployment compensation, 4 States exceeded 13 percent while 3 States were under 5 percent.

Method of Geographic Coding

Geographic coding of returns for this study was based on the address at the top of each tax return. With one exception, only the State given in the address determined the classification of the return. Returns showing Washington, DC in the address were coded (as Maryland or District of Columbia) according to the street address and ZIP Code, rather than on the basis of "District of Columbia" in the address because the ZIP Code delineated the actual State location.

Coding returns on the basis of the address alone was subject to certain limitations. Not all taxpayers gave their home address; some reported:

(1) the address of the tax lawyer or accountant who prepared the return,

(2) the address of their place of business, or

(3) a post office box number.

To the extent that such an address was located in a State different from the taxpayer's home, the accuracy of the data was affected.

CHANGES IN LAW

Most of the changes in the law for 1981 individual returns were a result of the Economic Recovery Tax Act of 1981. Major provisions of the Act were intended to increase savings and spur investments. The law provided for such things as an overall reduction in tax rates, an exclusion for qualified interest, and a larger exclusion for dividend and interest income. In general, fourteen items pertaining to the individual return were affected by the changes instituted for Tax Year 1981 and are described in alphabetical order below.

Additional First-Year Depreciation

The Economic Recovery Tax Act of 1981 repealed this item in computing partnership income or loss for property placed in service after 1980. Therefore, data in this report reflect only those taxpayers with deductions from partnerships reporting on a fiscal-year basis and are reported on the individual return on Schedule E, Supplemental Income Schedule.

Additional Tax for Tax Preferences

The Economic Recovery Tax Act of 1981 affected both the minimum tax and alternative minimum tax. As shown in Table F, for returns with these two characteristics, the largest increase in the number of returns filed, 33,000, was reflected in those with a minimum tax; while the largest in the amount of tax, $411 million, occurred on those with the alternative minimum tax.

*Estimate should be used with caution because of the small number of sample returns on which it is based.
NOTE: Detail may not add to total because of rounding.

The changes were as follows:

Alternative minimum tax.--The highest tax rate for the alternative minimum tax, applicable to long-term capital gains excluded from adjusted gross income, was reduced from 25 percent to 20 percent under the Economic Recovery Tax Act of 1981 for transactions entered into after June 9, 1981. The total alternative minimum tax was the lesser of the gross alternative minimum tax as computed for 1981, or the tax on alternative minimum taxable income other than excluded long-term capital gains, plus a 20 percent tax on those gains.

Minimum tax.--For tangible property placed in service after 1980, a new tax preference item, depreciation, had to be included in the computation of minimum tax. It was defined as the excess of the Accelerated Cost Recovery System (ACRS) depreciation deduction over the straight-line depreciation which was computed without regard to salvage value and used a specified recovery period. The recovery periods ranged from 5 years for a 3-year property to 22 years for a 15-year public utility property.

All-Savers Certificate Interest

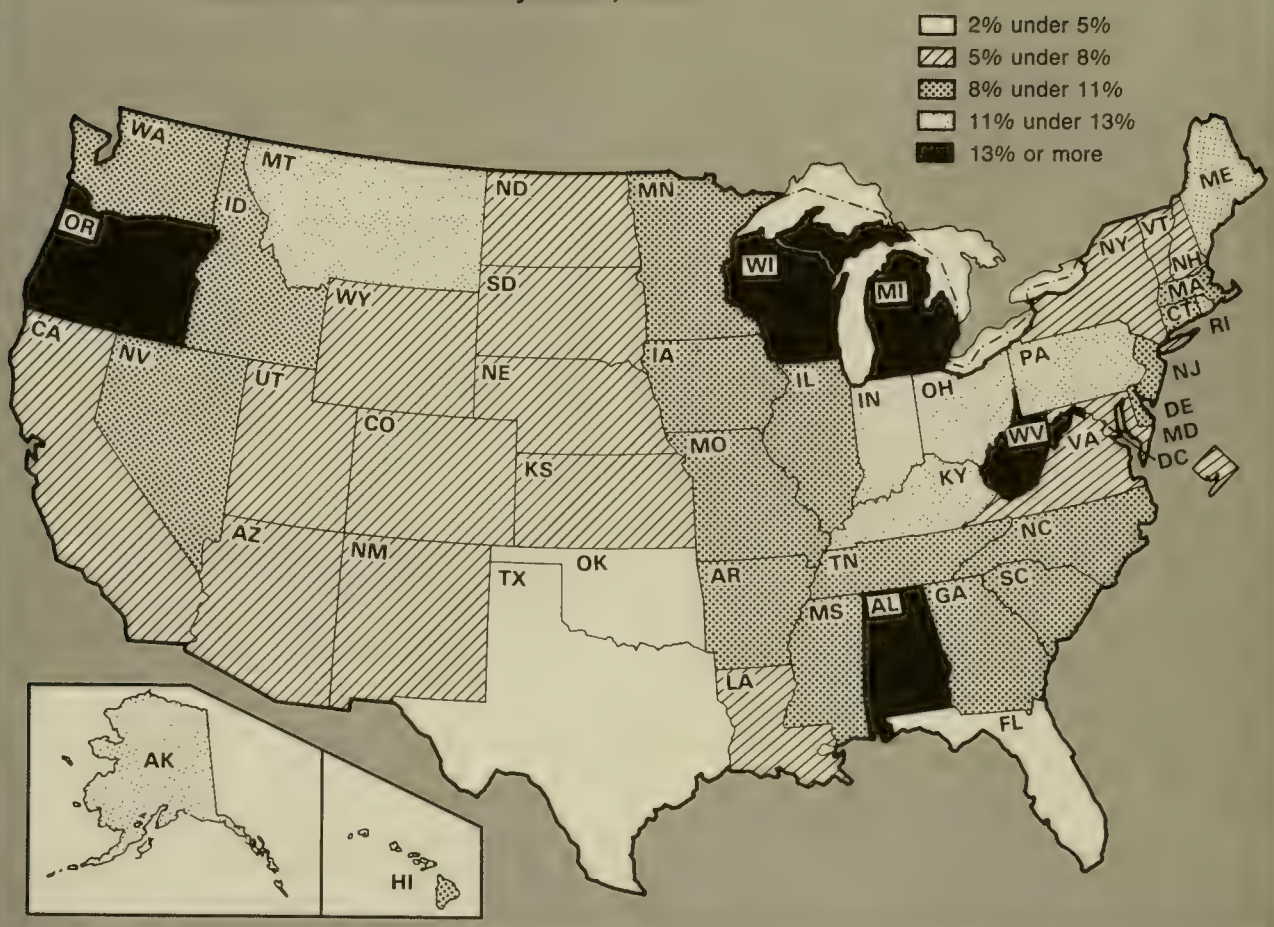
In order to increase savings and spur investment, a lifetime exclusion of interest was allowed up to $1,000 ($2,000 on a joint return) on certain savings certificates issued between September 30, 1981, and January 1, 1983. The interest paid on these certificates was equal to 70 percent of the average investment yield for 52-week U.S. Treasury bills.

Data reported for this item are not shown in the tables. However, there were about 6,000 returns which had interest from all-savers certificates. The low response for this item was probably due to the policy of many financial institutions to credit the interest only when the certificate matured. As a result, most of the interest was reportable for 1982.

Alternative Tax

The alternative method of tax computation on Schedule D, Capital Gains and Losses, made it possible for certain taxpayers to reduce their "tax generated" from the regular tax computation. To benefit from this tax computation, the taxpayer must have had long-term gains in excess of short-term losses from the sale of capital assets between June 9, 1981, and December 31, 1981. Income subject to the alternative tax was computed as the lesser of (1) the net capital gain for the year, or (2) the net capital gain for the year taking into account only gains or losses from sales or exchanges between June 9, 1981, and December 31, 1981.

Figure C
Returns with Total Unemployment Compensation as a Percent of All Returns by State, 1981



This method of tax computation could only be advantageous to taxpayers with a marginal tax rate over 50 percent, whose filing status was:

1) Single with taxable income over $41,500,
2) Joint or qualifying widower with dependent child and with taxable income over $60,000,
3) Head of household with taxable income over $44,700, or
4) Married filing separately with taxable income over $30,000.

There were 1.3 million returns with gains or losses from sales of capital assets, as shown in Table G. Of these returns, 158,000 had a tax savings from alternative tax, amounting to $577 million. Over 58 percent of this savings was for returns with adjusted gross income of $500,000 or more.

Dividend and Interest Exclusion

For 1981 only, Congress changed the dividend exclusion to cover both dividends and interest. In addition, the exclusion was raised to $200 ($400 on a joint return regardless of who earned the income) of qualifying dividends and interest. This exclusion will subsequently revert back to $100 ($200 on a joint return) of qualifying dividends for 1982. For a description of what qualified for this exclusion, see "Domestic and Foreign Dividends Received" and "Interest Received" in Section 4.

About 45.5 million returns claimed the dividend and interest exclusion amounting to $10.6 billion. This compares to only 13.7 million returns excluding dividends amounting to $1.6 billion for 1980. The exclusion was reported on returns of all sizes of adjusted gross income and averaged about $234 per return.

Size of adjusted gross income	Returns claiming dividend and interest exclusion	
	Number	Amount (000's)
Total	45,463,151	$10,623,120
Under $10,000	10,759,108	2,060,081
$10,000 under $20,000	11,064,991	2,332,781
$20,000 under $30,000	9,726,293	2,169,563
$30,000 under $40,000	6,743,220	1,764,071
$40,000 under $50,000	3,407,748	1,012,026
$50,000 or more	3,761,791	1,284,598

Investment Credit

For 1981, the investment tax credit was limited to the lesser of income tax liability or $25,000, plus 80 percent of tax liability exceeding $25,000. This was an increase from the 70 percent applicable for 1980.

The amount of investment in used property that was eligible was also increased, to $125,000 a year from $100,000.

NOTE: Detail may not add to total because of rounding.

Jobs Credit

A change was made in the definition of two of the targeted groups that qualified for the credit. That is, (1) a credit was allowed for any former Comprehensive Employment and Training Act (CETA) employee hired, if he or she was involuntarily terminated from a CETA job after December 31, 1980, and rehired after August 13, 1981; and (2) the age limit for Vietnam veterans that were hired no longer applied after August 13, 1981.

Miscellaneous Deductions

Effective for 1981, qualified adoption expenses up to $1,500 could be claimed as a miscellaneous itemized deduction, if a child with special needs was adopted by the taxpayer. This child was defined as one who was eligible for social security adoption assistance program payments. That is, there was a special condition which made it difficult to place the child with adoptive parents without this assistance. These factors included such things as age, handicaps, or minority status.

Rate Reduction Credit

The 1981 tax was reduced by a new one-year credit that was built into the tax tables. This credit was the first of four tax cuts provided for by the Economic Recovery Tax Act of 1981. It resulted in the tax being reduced by 1.25 percent. Overall, there were 74.9 million returns taking benefit of this credit resulting in a tax savings of $3.4 billion.

Research and Experimentation Credit

A new credit was allowed to encourage businesses to increase the amounts spent on research and experimentation, after June 30, 1981, and before 1986. The credit was equal to 25 percent of the amount by which the qualified expense for a year exceeded the average qualified expenses during an earlier base period. This credit could not exceed income tax.

Qualified expenses were those related to research in the experimental or laboratory sense. They excluded research in the social science or humanities, or the part funded by any grant or contract by another person or government entity. In addition, to be eligible, the research must have taken place within the United States.

For 1981, there were 2,600 returns claiming the credit, amounting to $2.7 million.

Sales of Capital Assets Net Gain or Loss

The replacement period for exempting the gain on the sale of a principal residence was extended from 18 months to 2 years by the Economic Recovery Tax Act of 1981. In addition, the one-time exclusion on gain from the sale was increased from $100,000 to $125,000. These changes were effective for sales or exchanges after July 20, 1981.

Statutory Adjustments

The repayment of supplemental unemployment benefits became an adjustment to income in 1981, rather than an itemized deduction as it was previously.

Windfall Profit Tax

The amount that an oil royalty owner could claim as a credit was raised to $2,500 from $1,000. This credit was for the windfall profit tax already paid during 1981.

Table G. — Returns With Gains or Losses from Sales of Capital Assets: Computation of Net Gains and Alternative Tax, 1981

[All figures are estimates based on samples — money amounts are in thousands of dollars]

Item	All returns		Under $20,000		$20,000 under $50,000		$50,000 under $100,000		$100,000 under $200,000		$200,000 under $500,000		$500,000 or more

SOURCES OF THE DATA

The data in this report were estimated from a stratified probability sample of unaudited Individual Income Tax Returns, Forms 1040 and 1040A, filed by U.S. citizens and residents. The sample was designated at the National Computer Center and was processed in each of the ten Internal Revenue Service Centers during Calendar Year 1982. The total sample of 144,392 returns was selected from a population count of 95,520,265 returns.

The estimates in this report are intended to represent all returns filed for Income Year 1981. While about 99 percent of the returns processed during 1982 were for Calendar Year 1981, a few were for noncalendar years ending during 1981 and 1982 and some were returns for prior years. Returns for prior years were used in place of 1981 returns received and processed after December 31, 1982. This was done in the belief that the characteristics of returns due but not yet filed could best be represented by the returns for previous income years that were processed in 1982.

Analysis of prior-year returns indicated similar reporting characteristics, but income averages of prior-year returns were generally less than corresponding averages of current-year returns. This is due at least in part to the impact of inflation on individual incomes. Also, for no readily apparent reason, prior-year returns show larger deficits. Further analysis of prior-year returns is currently being done, but some results were included in a paper given at the 1981 American Statistical Association meetings.[1]

All returns processed during 1982 were subjected to sampling except tentative and amended returns. Tentative returns were not subjected to sampling because the revised returns may have been sampled later on, while amended returns were excluded because the original returns had already been subjected to sampling.

SAMPLE CRITERIA AND SELECTION

Form 1040 and 1040A returns filed and processed into the Internal Revenue Service's Individual Master File System at the National Computer Center during 1982 were stratified, by computer, into sample strata based on: the presence or absence of a Schedule C (Profit or (Loss) from Business or Profession); State from which filed; form used (Form 1040 or 1040A); size of adjusted gross income (or deficit) or largest of specific income (or loss) items; and size of business plus farm receipts. Returns were then selected from the sample strata using the ending digits of the Social Security Number (SSN) at rates ranging from 0.05 percent to 100 percent.

The five State groups listed in Table H were formed on the basis of the combined total number of Forms 1040 and 1040A from each State. For each State contained in each State group the sample was designed to select a minimum number of 800 returns. This caused the returns for the smallest States in three of the five State groups to be selected at the same set of sampling rates. For each of the two remaining State groups, a different set of sampling rates was used. In addition, within each State group, the sample was allocated so that the estimates in the high income classes of this publication would be more reliable. A return was assigned to one of the sample strata when the reported amounts for the larger of adjusted gross income or largest of specific income items and size of business plus farm receipts both fit into the boundaries of a sample stratum.

Table H contains the number of returns in the population and sample by sample stratum and State group, along with a description of the sample strata. A comparison of the population count in Table H with the total estimated population shown in the national tables of this report will disclose a small difference. This difference resulted from an estimated 124,000 returns being excluded from the national tables since they contained no income information or were identified as amended or tentative returns after sampling.

METHOD OF ESTIMATION

Weighting factors were obtained by dividing the computer population count of returns in a sample stratum by the number of sample returns for that

*Ray Shadid designed the sample and prepared the analytical material in this section. Dan Trevors coordinated the processing of the data in the service centers.

NOTE: In addition to the number of returns shown in the population and sample, there were 163 Nonbusiness and farm returns and 68 Business returns with adjusted gross income $200,000 or more with no income tax after credits and no additional tax for tax preferences in the population and sample used for these statistics. These data have been deleted to avoid disclosure of information for specific taxpayers.

stratum. The weighting factors were then converted to "integer weighting factors" which were applied to each return. For example, if a weight of 44.24 were computed for a stratum, 24 percent of the sample returns in that stratum would receive an integer weight of 45, and 76 percent a weight of 44.

SAMPLING VARIABILITY AND CONFIDENCE INTERVALS

The particular sample used in this study is one of a large number of all possible samples that could have been selected using the same sample design. Estimates derived from the different samples would differ from each other. The deviation of a sample estimate from the average of all possible samples is called the sampling error. The standard error of an estimate is a measure of the variation among the estimates from the possible samples and thus is a measure of the precision with which an estimate from a particular sample approximates the average result of all possible samples.

The coefficient of variation (CV) is the standard error of the estimate expressed as a percent of the estimate. Coefficients of variation, computed using a sum-of-squares method, are shown for selected frequency and amount estimates and appear in Tables J, K, and L of this section. Estimates of the coefficient of variation shown in Table I were computed using an upper limit formula based on the sum-of-squares method. These coefficients, applicable to frequencies only, are meant as a general guide for use when computed coefficients of variation are not shown in this report.

The sample estimate and an estimate of its standard error permit the construction of interval estimates with prescribed confidence that the interval includes the population value. For example, from Table 1.3, the amount estimate, X, of State income tax refunds is $4.371 billion and, from Table J its related coefficient of variation, CV(X), is 1.2 percent. The standard deviation (error) of the estimate, SE(X), is needed to construct the interval estimate and is the product of the estimate and its coefficient of variation:

$$\begin{aligned} SE(X) &= X \cdot CV(X) \\ &= (\$4.371 \text{ billion}) \cdot (0.0123) \\ &= \$0.054 \text{ billion.} \end{aligned}$$

This SE(X) value is then subtracted from and added to the estimate, X, to construct a 68 percent confidence interval estimate. The interval is calculated using the formula: $(X - SE(X)) \leq Y \leq (X + SE(X))$, where Y is the population value estimated by X. Based on these data, the interval estimate is from $4.317 billion to $4.425 billion ($4.371 - $0.054 and $4.371 + $0.054). A conclusion that the average estimate of State income tax refunds lies within an interval computed in this way would be correct for approximately two-thirds of all possible similarly selected samples. To obtain this interval estimate

Table I. — Estimated Number of Returns for Selected Estimates of the Coefficient of Variation (CV) by Size of Adjusted Gross Income/Deficit, 1981

CV (percent)	Size of adjusted gross income/deficit					
	Under $15,000[1]	$15,000 under $50,000	$50,000 under $100,000	$100,000 under $200,000	$200,000 under $500,000	$500,000 or more

20.0	50,300	42,400	13,700	2,400	590	
30.0	22,400	18,800	6,100	1,100	260	
35.0	16,400	13,800	4,500	800	190	
40.0	12,600	10,600	3,400	600	150	
50.0[3]	8,100	6,800	2,200	400	90	

[1]Use this column for estimated numbers of returns which are not classified by size of adjusted gross income/deficit.
[2]The estimated number of returns is greater than the total population.
[3]Estimates with CV's of 50 percent have standard deviations which are about one-half as large as the estimates themselves.
NOTE: This table is applicable to frequencies only and not to estimated amounts.

with 95 percent confidence, multiply the SE(X) value by two. (For these data the resulting interval would be from $4.263 billion to $4.479 billion.)

Whenever a weighted frequency is less than 3, the estimate and, in most cases, its corresponding amount are combined or deleted in order to avoid disclosure of information for specific taxpayers. These combinations and deletions are indicated by a double asterisk (**) and by a dagger (†), respectively. Estimates based on less than 10 sampled returns are considered to be unreliable. These estimates are noted by a single asterisk (*) to the left of the data unless all of the sampled returns are selected with certainty (at the 100 percent rate).

A dash in place of a frequency or amount estimate indicates that no return in the sample had that characteristic. A dash in place of a coefficient of variation for which an estimate is shown indicates that all returns with that characteristic were selected at the 100 percent rate.

Further details concerning confidence intervals, including the approximation of CV's for combined sample estimates, may be obtained by writing to the Statistics of Income Division, D:R:S:I, Internal Revenue Service, 1111 Constitution Avenue, NW, Washington, DC 20224.

PROCESSING AND MANAGEMENT OF THE SAMPLE

While the sample was being selected, the selection process was monitored by applying prescribed sampling rates for each stratum to the population count for that stratum. A follow-up was required to reconcile differences between the actual number of returns selected and the expected number.

In transcribing and tabulating the information from the returns in the sample, checks were imposed to improve the quality of the resulting estimates. Incorrect or missing entries on the sampled record were altered during statistical editing to make them consistent with other entries on the return and accompanying schedules. Data were also adjusted during editing in an attempt to achieve consistent statistical definitions. For example, a taxpayer may have reported director's fees on the other income line of the Form 1040 return. If this situation had been detected during statistical editing, the amount of director's fees would have been entered into the salaries and wages field of the sample record.

Quality of the basic data abstracted was controlled at the processing centers by means of a continuous verification system that used computer tests to check for mathematical errors and inconsistencies in the return data. These tests were performed while the returns were still available to aid in resolving the error conditions. Prior to tabulation of the data at the IRS Data Center, additional computer tests were applied to each return record to determine the need for adjustments to the data. Also, as a further check on processing, the IRS Data Center conducted an independent reprocessing of a small subsample of the returns previously processed for the study.[2]

Finally, prior to publication, all statistics and tables were reviewed for accuracy and reasonableness in light of provisions of the tax laws, taxpayer reporting variations and limitations, economic conditions, comparability with other statistical series, and statistical techniques used in data processing.

[2]For more details on the techniques used to process the returns in the sample, particularly those steps designed to ensure the quality of the statistical data, see:

Table J—Coefficient of Variation for Sources of Income and Adjustments by Size of Adjusted Gross Income—Continued

[Coefficient of variation for number of returns and amount (percent)]

Size of adjusted gross income	Rent				Royalty				Sales of capital assets					
	Net income		Net loss		Net income		Net loss		Capital gain distributions reported on Form 1040		Sales of capital assets reported on Schedule D			
											Returns with short-term capital gains or losses			
											Current-year gains less losses		Post-1969 short-term capital loss carryover	
	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount
	(30)	(31)	(32)	(33)	(34)	(35)	(36)	(37)	(38)	(39)	(40)	(41)	(42)	(43)

[1]Returns filed from Army Post Office and Fleet Post Office addresses
[2]Returns filed by U.S. citizens living in U.S. possessions or abroad

Section 3 Basic Tables*

Part 1 - Returns Filed and Sources of Income

1.1 Selected income and tax items, by size and accumulated size of adjusted gross income, 34
1.2 All returns: sources of income, deductions, and tax items, by marital status, 37
1.3 All returns: sources of income and adjustments, by size of adjusted gross income, 38
1.4 Nontaxable returns: sources of income, itemized deductions, and tax items, by size of adjusted gross income or deficit, 48
1.5 Form 1040A returns: sources of income, deductions, and tax items, by size of adjusted gross income, 49

Part 2 - Exemptions and Itemized Deductions

2.1 Returns with itemized deductions: deductions by type and by size of adjusted gross income, 53
2.2 Returns with itemized deductions: sources of income, deductions, and tax items, by marital status, 55
2.3 All returns: exemptions by type, number of exemptions, sources of income, by size of adjusted gross income, 56
2.4 Exemptions by type and marital status, 66
2.5 Returns of taxpayers age 65 or over: selected tax items by marital status of taxpayer, 66
2.6 Returns of taxpayers age 65 or over: selected income and tax items, by size of adjusted gross income, 67

Part 3 - Tax Computation

3.1 Returns with income subject to tax: adjusted gross income, deductions, exemptions, taxable income, and tax items, by size of adjusted gross income and type of tax computation, 72
3.2 Returns with residential energy expenditures: expenditures by type and computation of the energy credit, by size of adjusted gross income, 76
3.3 Returns with total income tax: total income tax as a percent of adjusted gross income, by size of adjusted gross income, 80
3.4 Returns with income tax before credits: tax and credits, by size of adjusted gross income, 83
3.5 Returns with earned income credit: earned income by type and credit before and after phaseout, by size of adjusted gross income, 85
3.6 All returns: tax liability and taxpayments, by size of adjusted gross income, 86

Part 4 - State Data

4.1 Selected sources of income and tax items, by State, 90
4.2 All returns: income tax before credits, tax credits, and taxpayments, by State, 95
4.3 Returns with residential energy expenditures: expenditures by type and computation of the energy credit, by State, 98
4.4 All returns: adjusted gross income, salaries and wages, exemptions, and income tax, by size of adjusted gross income and State, 101

*Production and review of tables were coordinated by June Walters, Richard Hillelson, Terry M. Smith, Janet L. Barnhardt, and Jon Maiden. Specific responsibility for the subject matter was as follows: Part 1: June Walters and Raymond Wolfe; Part 2: Richard Thompson and Thomas F. Gearin; Part 3: Charles Hicks, Norman Waits, and Linda Thompson; Part 4: John A. Kozielec, Antoinette Jones-Lyles, and Brenda L. Harrison.

Table 1.1—Selected Income and Tax Items, by Size and Accumulated Size of Adjusted Gross Income

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Size and accumulated size of adjusted gross income	All returns					Taxable returns			
	Number of returns	Percent of total	Adjusted gross income less deficit			Number of returns	Percent of total	Adjusted gross income less deficit	
			Amount	Percent of total	Average (dollars)			Amount	Percent of total

*Estimate should be used with caution because of the small number of sample returns on which it is based.
**Data combined to avoid disclosure of information for specific taxpayers.
[1]Consists of business or profession, farm, partnership, and Small Business Corporation net profit less loss.
[2]Consists of gain less loss from sales of capital assets, and gain less loss from sales of property *other* than capital assets.
[3]Consists of dividends and interest in adjusted gross income, rent, royalty, estate or trust net income less loss, pensions and annuities in adjusted gross income, state income tax refunds, alimony, unemployment compensation in adjusted gross income, and other income less loss, less statutory adjustments. For 1981, includes windfall profit tax refunds less net adjustments for windfall profit tax withheld.
NOTE: Detail may not add to total because of rounding.

*Estimate should be used with caution because of the small number of sample returns on which it is based.
**Data combined to avoid disclosure of information for specific taxpayers.
[1]Consists of business and profession, farm, partnership, and Small Business Corporation net profit less loss.
[2]Consists of state income tax refunds, windfall profit tax refunds, alimony, unemployment compensation in adjusted gross income, other income less loss, less net adjustment for windfall profit tax withheld.
NOTE: Detail may not add to total because of rounding.

Table 3.1—Returns With Income Subject to Tax: Adjusted Gross Income, Deductions, Exemptions, Taxable Income, and Tax Items, by Size of Adjusted Gross Income and Type of Tax Computation

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Type of tax computation by size of adjusted gross income	Number of returns	Adjusted gross income	Unused zero bracket amount		Excess itemized deductions		Exemptions	
			Number of returns	Amount	Number of returns	Amount	Number of exemptions	Amount
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

Table 3.2—Returns With Residential Energy Expenditures: Expenditures by Type and Computation of the Energy Credit, by Size of Adjusted Gross Income—Continued

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Size of adjusted gross income	Returns with energy conservation expenditures—Continued						Returns with renewable energy source expenditures			
	Prior-year energy conservation expenditures		Maximum allowable current-year energy conservation expenditures		Energy conservation credit (before limitation)		Total expenditures		Expenditures for solar energy

*Estimate should be used with caution because of the small number of sample returns on which it is based.
†Data deleted to avoid disclosure of information for specific taxpayers. Deleted data are included in the appropriate totals.
[1]Returns filed from Army Post Office and Fleet Post Office addresses.
[2]Returns filed by U.S. citizens living in U.S. possessions or abroad.
NOTE: Detail may not add to total because of rounding.

Table 4.2—All Returns: Income Tax Before Credits, Tax Credits, and Taxpayments, by State

[All figures are estimates based on samples—money amounts are in thousands of dollars]

*Estimate should be used with caution because of the small number of sample returns on which it is based.
†Data deleted to avoid disclosure of information for specific taxpayers. Deleted data are included in the appropriate totals.
[1]Returns filed from Army Post Office and Fleet Post Office addresses.
[2]Returns filed by U.S. citizens living in U.S. possessions or abroad.
NOTE: Detail may not add to total because of rounding.

Table 4.3—Returns With Residential Energy Expenditures: Expenditures by Type and Computation of the Energy Credit, by State

[All figures are estimates based on samples—money amounts are in thousands of dollars]

State	Number of returns	Number of principal residences	Returns with energy conservation expenditures: Total expenditures		Expenditures for insulation		Expenditures for storm windows or doors		Expenditures for caulking		Other current-year conservation expenditures	
			Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount	Number of returns	Amount

*Estimate should be used with caution because of the small number of sample returns on which it is based.
†Data deleted to avoid disclosure of information for specific taxpayers. Deleted data are included in the appropriate totals.
[1]Returns filed from Army Post Office and Fleet Post Office addresses.
[2]Returns filed by U.S. citizens living in U.S. possessions or abroad.
NOTE: Detail may not add to total because of rounding.

Table 4.4—All Returns: Adjusted Gross Income, Salaries and Wages, Exemptions, and Income Tax, by Size of Adjusted Gross Income and State

[All figures are estimates based on samples—money amounts are in thousands of dollars]

Size of adjusted gross income	All returns								Joint returns of husbands and wives							
	Number of returns	Adjusted gross income less deficit	Salaries and wages		Total number of exemptions	Number of exemptions *other* than age or blindness	Total income tax		Number of returns	Adjusted gross income less deficit	Salaries and wages		Total number of exemptions	Number of exemptions *other* than age or blindness	Total income tax

Section 4

Explanation of Terms*

Explanations of terms are designed to aid the user in interpreting the statistical content of this report and should not be construed as interpretations of the Internal Revenue Code or related regulations, procedures, or policies. Code sections cited were those in effect for 1981. Definitions marked with the symbol (#) have been modified from prior reports to reflect processing or tax law changes. Section 6, 1981 Forms and Instructions, provides further information about many of the items in this report. The terms used in Section 5 differ substantially from those applicable to the remainder of the report and are defined separately in that section.

Additional First-Year Depreciation (#)

See "Partnership Net Profit or Loss."

Additional Tax for Tax Preferences (#)

The sum of "minimum tax" and "alternative minimum tax." Both terms are explained below.

Adjusted Gross Income (#)

This amount was the result of reducing gross income from all sources subject to tax by adjustments such as the following:

(1) ordinary and necessary expenses of operating a trade or business,

(2) employee business and moving expenses,

(3) expense deductions attributable to rents and royalties, and net adjustment for windfall profit tax withheld,

(4) expenses of outside salespersons attributable to earning a salary, commission, or other compensation,

(5) depreciation and depletion allowed life tenants and income beneficiaries of property held in trust,

(6) exclusion of allowable "disability income" if the disability income was included in gross salary,

(7) deductible losses from sales of capital assets and other property,

(8) excludable portion of the excess of net long-term capital gain over net short-term capital loss,

(9) excludable portion of qualified interest and dividends up to $200 ($400 on a joint return),

(10) excludable lifetime interest of up to $1,000 ($2,000 on a joint return) for All-Savers Certificates issued after September 30, 1981, and before January 1, 1983,

(11) excludable unemployment compensation,

(12) business net operating loss deduction,

(13) contributions to a self-employed retirement fund ("Keogh Plan") by the self-employed, and to individual retirement arrangements by employees or self-employed persons,

(14) forfeited interest penalties, incurred by persons who made premature withdrawals of funds from time savings accounts,

(15) alimony payments,

(16) exclusion of the ordinary income portion (in contrast to the amount treated as long-term capital gain) of the taxable amount of a lump-sum distribution from a qualified pension or retirement plan, taxed separately from other sources of income at the taxpayer's election,

(17) deductions for certain excess costs of living abroad, and

(18) certain repayments of supplemental unemployment compensation.

A deficit occurred when the allowable deductions or losses exceeded gross income.

Adjustments

See "Statutory Adjustments."

Advance Earned Income Credit Payments

Under a provision of the Revenue Act of 1978, taxpayers who believed they would be eligible for the earned income credit at the end of the year could receive the credit from their employers as an additional payment in their paychecks during the year. Those payments were then shown on the tax return, where they became either an increase to balance due or a reduction of overpayment. (See also "All Other Taxes.")

Age 65 or Over

The presence of the additional exemption allowed taxpayers age 65 or over was used as the basis of this classification. In the case of joint returns of husbands and wives, some had only one additional exemption for age 65 or over while others had two additional exemptions for age, indicating that both husband and wife were age 65 or more. Whether one or two exemptions were claimed, the return was considered as a return of a taxpayer age 65 or over.

Alimony

Payments received as alimony or separate maintenance were income to the person receiving them and an adjustment to gross income for the person paying them if the payments were:

(1) required under the terms of a decree of divorce or separation or a written instrument incident to that decree;

(2) paid in discharge of a legal obligation based on the marital relationship; or

(3) paid after the decree and on a periodic basis.

*Janet L. Barnhardt was responsible for this section of the text. She was assisted by Mary Haigler, Roselind Vinson, Clementine Brittain, Mary Green and Debra Grissom.

All Other Taxes

For purposes of this report, this amount represents the sum of the self-employment tax, tax from recomputing prior-year investment credit, social security taxes on tip income, any penalty taxes on individual retirement arrangements (IRA's), and any other unspecified taxes. This was in contrast to the "other taxes" portion of the Form 1040 itself, which was composed of the taxes listed above plus the minimum and alternative minimum taxes and the advance earned income credit payments received. The minimum and alternative minimum taxes are tabulated in this report as part of "total income tax" and serve as part of the requirements for determining the taxable or nontaxable classification of a return. Advance earned income credit payments are shown as a separate item in computing balance due or refund. (See also "Taxable and Nontaxable Returns" and "Total Income Tax" in this section.)

All-Savers Certificate Interest (#)

Interest earned on special tax-exempt savings certificates, commonly referred to as All-Savers Certificates, was eligible for a lifetime exclusion of up to $1,000 ($2,000 on a joint return). These certificates were issued after September 30, 1981, and before January 1, 1983. (See also "Changes in Law" in Section 1.)

Alternative Minimum Tax (#)

This was a tax on "alternative minimum taxable income," which was defined as the sum of alternative tax preferences (explained below) and taxable income, reduced by the zero bracket amount. For 1981, four graduated rates (from 0 percent to 25 percent) were applied to this sum, except for capital gain transactions after June 9, 1981, which were subject to a 20 percent rate. (The Economic Recovery Tax Act of 1981 reduced the rate to 20 percent. Also as a result of the Economic Recovery Tax Act of 1981, the alternative minimum tax was the lesser of the tax as computed for 1981, or the tax on alternative minimum taxable income other than excluded long-term capital gains, plus the 20 percent tax on those gains.) The result was then reduced by income tax after credits, the minimum tax, and tax from recomputing prior-year investment credit. Most tax credits could also be used to offset all or part of the alternative minimum tax. The foreign tax credit was recomputed on a separate Form 1116, Computation of Foreign Tax Credit, as follows: instead of limiting the credit to the same proportion of income tax before credits as taxable income from foreign sources bore to the entire taxable income, the taxpayer was to limit the credit to the same proportion of alternative minimum tax as alternative minimum taxable income from foreign sources bore to the entire alternative minimum taxable income. Credits other than the foreign tax credit could be used only to offset that portion of the alternative minimum tax which was generated by taxable income, not the portion generated by alternative minimum tax preferences. In addition, the investment, work incentive (WIN), and jobs credits could be used to offset the alternative minimum tax only to the extent that these credits were attributable to the taxpayer's active conduct of a trade or business.

The alternative tax preferences used in the computation of alternative minimum taxable income consisted of the adjusted itemized deductions tax preference and the capital gains tax preference.

The adjusted itemized deductions tax preference was computed by reducing total itemized deductions by deductions for medical and dental expenses; deductions for State, local, and foreign taxes; and deductions for casualty or theft losses. Adjusted gross income was then reduced by the same three deduction items. The amount by which the reduced itemized deductions exceeded 60 percent of the reduced adjusted gross income was considered an itemized deductions tax preference.

The capital gains tax preference was that portion (generally 60 percent) of the excess of net long-term capital gains over net short-term capital losses which was excluded from adjusted gross income. (See also "Sales of Capital Assets Net Gain or Loss," below.)

When alternative minimum tax is added to minimum tax, the result is additional tax for tax preferences. (See also "Minimum Tax.")

Alternative Tax (#)

The alternative method of tax computation on Schedule D, Capital Gains and Losses, made it possible for certain taxpayers to reduce their "tax generated" from the other tax computation methods. To benefit from this tax computation, the taxpayer must have had long-term gains in excess of short-term losses from the sale of capital assets between June 9, 1981, and December 31, 1981. Alternative income was computed as the lesser of (1) the net capital gain for the year, or (2) the net capital gain for the year taking into account only gains or losses from sales or exchanges after June 9, 1981. This method of tax computation could only be advantageous to taxpayers with a marginal tax rate over 50 percent, whose filing status was:

1) Single with taxable income over $41,500,
2) Joint, or qualifying widow or widower with dependent child, with taxable income over $60,000,
3) Head of household with taxable income over $44,700, or
4) Married filing separately with taxable income over $30,000.

To compute the tax, alternative income was taxed at 20 percent while the remaining taxable income, if any, was taxed using the applicable tax computation, i.e., regular, maximum, or income averaging. (See also "Changes in Law" in Section 1.)

Blindness Exemptions

See "Exemptions."

Business or Profession Net Profit or Loss

This source of income was reported by individuals who were sole proprietors of a nonfarm business or self-employed members of a profession. When there were two or more sole proprietorships operated by the same taxpayer(s), the single amount of profit or loss included in adjusted gross income represented the combined profit and loss from all business activities. The proprietor was required to exclude investment income from business profits and to include it, instead, with the various types of investment income for which separate provision was made on the individual income tax return.

Business costs and expenses were deductible from gross receipts or gross sales in arriving at net profit or loss. Compensation of the proprietor was taxable income and, therefore, not allowed as a business deduction in computing net profit. The deduction of net operating losses from other years was not considered a business expense, but was offset, instead, against "other income" on the proprietor's income tax return.

Information on business receipts and expenditures can be found in Statistics of Income--1981, Sole Proprietorship Returns.

Capital Assets

See "Sales of Capital Assets Net Gain or Loss."

Capital Gain Distributions Reported on Form 1040

These distributions included the following:

(1) Long-term capital gains credited or distributed to individual taxpayers by regulated investment companies and mutual funds. Gains credited but not distributed were reported as income, but the taxpayer was also credited with the amount of tax paid on the gains by the regulated investment company or mutual fund.

(2) Long-term capital gains distributed by real estate investment trusts.

Normally, taxpayers would have reported these distributions on the supporting schedule used for this type of income (Schedule D, Capital Gains and Losses). However, if the taxpayers did not need Schedule D to report any other gains or losses, they then entered 40 percent of the capital gain distributions directly on line 13, Form 1040.

For purposes of this report, "capital gain distributions reported on Form 1040" are tabulated as part of "sales of capital assets" and are reflected in the long-term capital gain and loss and net capital gain and loss data. (See also "Sales of Capital Assets Net Gain or Loss" in this section.)

Capital Gains and Losses

See "Sales of Capital Assets Net Gain or Loss."

Capital Loss Carryover

See "Sales of Capital Assets Net Gain or Loss."

Carryover from Prior Years' Deduction

See "Contributions Deduction."

Cash Contributions Deduction

See "Contributions Deduction."

Casualty or Theft Loss, Net

Personal casualty and theft losses not compensated for by insurance were deductible from adjusted gross income to the extent that the loss for each casualty or theft exceeded $100. A casualty was defined as a complete or partial destruction of property resulting from an identifiable event of a sudden, unexpected, or unusual nature such as a fire or storm. In contrast to the reporting requirements of Schedule A, Itemized Deductions, this amount is included as part of "total miscellaneous deductions."

Child Care Credit

This credit was claimed by taxpayers who incurred expenses for the care of dependent children under age 15 (or other dependents or spouses who were disabled) while these taxpayers were working. Qualifying expenses included both those for services performed within the home--babysitters, maids, or cooks--and, in the case of children under age 15, services outside the home--day-care centers or nursery schools.

The actual credit equalled 20 percent of the smallest of the following three amounts:

(1) total qualifying expenses, as described above;

(2) earned income received while these expenses were being incurred; for this purpose, earned income meant salaries, wages, tips, and other employee compensation plus net earnings from self-employment. In the case of a married couple, neither of whom was disabled, the lower of the two earned incomes had to be used; couples with only one earned income, or who did not file a joint return, did not qualify for the credit unless one spouse was a full time student at an educational institution during each of 5 calendar months during the tax year;

(3) $2,000 ($4,000 for two or more qualifying dependents).

The child care credit was not refundable and was limited to income tax before credits minus the credit for the elderly, foreign tax credit, investment credit, work incentive (WIN) credit, and political contributions credit.

Contributions Deduction

Contributions deductible as an itemized deduction from adjusted gross income included gifts, in the form of cash or property ("other than cash" contributions), to (a) organizations created in the United States or its possessions, or under its laws, and operated for religious, charitable, scientific, literary, or educational purposes exclusively, or for the prevention of cruelty to children or animals, (b) veterans' organizations, and (c) governmental agencies which used the gifts for public purposes. Out-of-pocket expenses that the taxpayer paid to do volunteer work for these organizations were also deductible. Individuals who were members of a partnership also included their pro-rata share of partnership contributions.

In general, a deduction was allowed for all contributions up to 50 percent of adjusted gross income, with the exception of contributions to certain private nonoperating foundations which were subject to a 20 percent limitation. However, contributions of certain capital assets which had appreciated in value were subject to a 30 percent limitation unless the taxpayer elected to take the unrealized appreciation into account for tax purposes by reducing the contribution deduction by 40 percent of the potential long-term capital gain on a sale of the property. Contributions exceeding the 50 (or 30) percent limitation could be carried over to be deducted in the next 5 years. (Contributions subject to the 20 percent rule could not be carried over.) Therefore, in addition to contributions made in 1981, the statistics also include amounts carried over from 1976-1980 that were within the current year's percentage limitations.

Contributions to Candidates Credit

See "Political Contributions Credit."

Credit for Tax on Certain Gasoline, Fuel, and Oil

This was a credit allowed in full or in stated amounts by section 39 of the Internal Revenue Code for excise taxes paid on: (1) gasoline used on farms for farming purposes, (2) operation of public passenger land transportation services (taxicab operators), and (3) for certain nontaxable purposes. These taxes could be applied as a credit to reduce income tax liability when the return was filed (with any amount in excess of tax liability refunded) or refunded during the taxable year if the credit for any fuel category or any lubricating oil in any of the first three quarters of the year was at least $1,000.

Credit for the Elderly

The credit for the elderly was available to all taxpayers age 65 or over (within certain income limitations) and to those taxpayers under age 65 who received a taxable pension or annuity from a public retirement system (also within certain income limitations). The credit equalled 15 percent of the amount determined to be subject to the credit, not to exceed

tax liability. This amount was determined under one set of rules for taxpayers age 65 or over and under another set of rules for government retirees under age 65. A government retiree (under age 65) whose spouse was 65 or older could use whichever set of rules resulted in the larger credit.

Credit from Regulated Investment Companies

The taxpayer was instructed to include in gross income any amounts which were allocated to him or her as capital gain dividends, even if they were not actually received. If the investment company paid a tax on the capital gain, the taxpayer was entitled to claim a refundable credit for his or her proportionate share of the tax.

Credit on 1982 Estimated Tax

This credit was part of the overpayment of 1981 tax which taxpayers specifically requested to be credited to their estimated tax for 1982. (See also "Overpayment" in this section.)

Deduction for Expense of Living Abroad

In order to give U.S. citizens living and working abroad equitable tax treatment with those individuals working in the United States, a statutory adjustment to gross income for an employee's excess cost of living abroad was provided for by the Foreign Earned Income Act of 1978. The deduction was limited, in general, to the individual's net earned income from sources outside the United States. The amount of the deduction was the sum of the following qualified amounts: (1) cost-of-living differential, (2) housing expenses, (3) schooling expenses, (4) home leave travel expenses, (5) hardship area expenses, and (6) in certain instances, maintenance for a separate household.

Dependent Exemptions

See "Exemptions."

Disability Income Exclusion

The disability income exclusion was available only to taxpayers who retired on disability before age 65, who had not reached age 65 before the close of the taxable year, and who were totally and permanently disabled upon retirement. The maximum exclusion was figured at a weekly rate of $100 per spouse. However, if the taxpayer's adjusted gross income, before this exclusion, exceeded $15,000, the excess reduced the amount of the exclusion dollar-for-dollar. Thus, the exclusion was eliminated entirely for taxpayers whose adjusted gross incomes exceeded $20,200 ($25,400 in the case of a married couple filing jointly, where both spouses were eligible for the exclusion).

Dividend and Interest Exclusion (#)

For Tax Year 1981, a taxpayer could exclude up to $200 ($400 on a joint return) of eligible dividends and interest from adjusted gross income. For an explanation of eligible dividends, see "Domestic and Foreign Dividends Received" and, similarly for interest, see "Interest Received" in this section.

Dividends and Interest in Adjusted Gross Income (#)

Total domestic and foreign dividends and interest less the dividend and interest exclusion equalled dividends and interest in adjusted gross income. (See also "Domestic and Foreign Dividends Received," "Interest Received," and "Dividend and Interest Exclusion" in this section.)

Domestic and Foreign Dividends Received

Domestic and foreign dividends received consisted of:

(1) dividends eligible for the combined dividend and interest exclusion, which were dividends received from domestic corporations, either directly or indirectly (e.g., as a beneficiary of income from estates or trusts, or as a partner for his or her distributive share of partnership profits) and qualifying distributions from real estate investment trusts or regulated investment companies and qualifying distributions from real estate investment trusts or regulated investment companies; and

(2) dividends not eligible for the dividend and interest exclusion, which were dividends received from foreign corporations, tax-exempt farmers' cooperatives, tax-exempt organizations, certain trusts that were in their final year, and corporations most of whose business was conducted in U.S. possessions.

Domestic and foreign dividends did not include capital gain distributions from regulated investment companies and real estate investment trusts, nontaxable distributions of stock or stock rights, returns of capital, or liquidation distributions. Taxpayers were also instructed to exclude so-called dividends on deposits or withdrawable accounts in mutual savings banks, cooperative banks, savings and loan associations, and credit unions, which were to be treated as interest income; and patronage dividends declared by farmers' cooperatives and other cooperative organizations.

Earned Income Credit

This was a credit available to low-income workers who maintained a household and had a dependent child or children whom they claimed as exemptions. This credit was based on earned income, consisting of wages, salaries, and other employee compensation, plus net earnings from self-employment, and was intended to offset the impact of social security taxes on low-income individuals and to encourage them to obtain employment.

The maximum credit was 10 percent of the first $5,000 of earned income, or $500, and was reduced by an amount equal to 12.5 percent of the taxpayer's adjusted gross income or earned income, whichever was larger, above $6,000. Thus, at the $10,000 adjusted gross income level (or earned income level) the credit was eliminated.

Taxpayers were eligible to claim the earned income credit if they:

(1) had less than $10,000 of adjusted gross income or earned income, whichever was larger,

(2) maintained a household which was the principal place of abode for the taxpayer and either a child who was under 19 years of age or was a full-time student, or a dependent child who was disabled,

(3) maintained their principal home in the United States,

(4) were not entitled to exclude from gross income any amount of income earned from sources outside the United States or from sources within U.S. possessions, or claim a deduction for certain expenses of living abroad,

(5) had a taxable year that represented a full 12 months, and

(6) filed a joint return if married.

The earned income credit could result in a refund to the extent it was not used to offset the income tax liability. Thus, even if an individual was not otherwise required to file a return, it was to his or her benefit to do so in order to claim a refund of the earned income credit. For purposes of this report,

the earned income credit was divided into three parts: that used to offset income tax before credits (limited to the amount needed to reduce income tax after credits to zero); that used to offset all other taxes (limited to the amount needed to reduce total tax liability to zero); and the refundable portion. (See also "Advance Earned Income Credit Payments.")

Employee Business Expenses

An employee was allowed a deduction in arriving at adjusted gross income for certain unreimbursed business expenses incurred in connection with any employment. These expenses were reported as an "adjustment" to income on the tax return and were separate from employee expenses treated as an itemized deduction. Expenses which qualified for the adjustment included:

(1) cost of travel, meals, and lodging while away from home in the performance of services as an employee,

(2) any other expenses to the extent covered by a reimbursement or expense allowance arrangement with the employer,

(3) business transportation costs, other than commuting, and

(4) outside salesperson's expenses of soliciting business for the employer.

If employees accounted for deductible expenses to their employers, they were not required to report the reimbursement in income, except for any amount of reimbursement in excess of expenses.

Certain expenses of employees, such as work clothes, union dues, and employment agency fees, were not deductible in the computation of adjusted gross income, but were deductible as itemized deductions in the computation of taxable income. These expenses were included in "miscellaneous itemized deductions."

Estate or Trust Net Income or Loss

This was the beneficiaries' share of fiduciary income (with the exception of the items described below which were reported separately) from any estate or trust. Income from estates or trusts included amounts required to be distributed and amounts credited to beneficiaries' accounts from current-year fiduciary income, whether or not actually received.

Also included was the beneficiaries' share of any accumulation distribution made in the current year by the fiduciary of a complex trust for income accumulated in prior tax years. Beneficiaries' share of these distributions was reduced by their share of depletion and depreciation deductions before reporting the net amount as part of adjusted gross income.

Taxpayers excluded from estate or trust income their share of dividends and gains or losses from sales of capital assets and other property. Such income (which made up the largest portion of income from an estate or trust) was included on the tax return on the separate lines provided for these income types and was not separately identified for the statistics. A loss from an estate or trust was allocated to the beneficiary only upon settlement or termination of an estate or trust which, for its last tax year, (a) still had a net operating loss carryover or a capital loss carryover, or (b) had deductions (other than those for exemptions and charitable contributions) in excess of gross income.

The data shown include the number of returns showing just net income received from all estates or trusts and the number showing just the net loss from all estates or trusts. In other words, if a return showed net income from one estate or trust, and a net loss from another, that return was tabulated in both the "total income" and "total loss" columns. The columns labelled "net income" and "net loss" represent the sum of all income and losses reported from all estates or trusts, i.e., the net amount, on a return-by-return basis.

Estimated Tax Payments

This figure represented the total of the amounts paid quarterly and reported on the 1981 Declaration of Estimated Income Tax, Form 1040ES. The amount reported included any credit which was applied against the estimated tax by reason of an overpayment of the 1980 tax liability.

Excess Itemized Deductions

This deduction concept represented the amount by which total itemized deductions exceeded the zero bracket amount. Since the zero bracket amount was built into the tax tables and the tax rate schedules, only "excess itemized deductions" (and not "total itemized deductions") was used in the calculation of taxable income.

Excess Social Security Taxes Withheld (#)

If the total social security (FICA) tax withheld was greater than $1,975.05 for 1981 ($1,587.67 for 1980) because an employee worked for more than one employer, the excess could be taken as a credit toward payment of the employee's income tax. Any amount in excess of tax liability was refundable. In the case of a joint return, the credit was computed separately for each taxpayer.

Exemptions

In the computation of taxable income, a $1,000 deduction was allowed for each exemption claimed.

An exemption was allowed for each taxpayer shown on a return (on joint returns, husband and wife were each regarded as a taxpayer). If either husband or wife filed a separate return, the spouse's exemption could be claimed on that return only if that spouse did not file a return, had no gross income, and was not the dependent of another taxpayer. Additional exemptions were allowed for a taxpayer or spouse who indicated being age 65 or over, blind, or both.

Exemptions were also allowed for qualified dependents. In general, an individual qualified as a dependent if that person had gross income less than $1,000 ($1,000 or more if in category (2) below), received more than half his or her support from the taxpayer, was related to the taxpayer (such as a son, daughter, or parent), or lived in the taxpayer's home or was a member of the household for the whole year.

The total number of exemptions shown in this report includes some duplication. This occurred in the case of:

(1) dependents other than children who had gross income less than $1,000, but filed a return to obtain a refund of tax withheld on wages,

(2) dependent children with unearned income of $1,000 or more (dividends, interest, capital gains, and the like), and

(3) dependent children under 19 years of age or students regardless of age who either (a) were required to file a return because their gross income was $3,300 or more, or (b) had gross income of less than $3,300, all of it earned income, and filed a return only to obtain a refund of tax withheld on wages.

In each of these instances individuals were counted twice, as taxpayers filing their own returns and as dependents on another taxpayer's return.

Farm Net Profit or Loss

This source of income was reported by individuals who were sole proprietors of a farm. When there were two or more farms operated by the same taxpayer, the single amount of profit or loss included in adjusted gross income represented the combined profit and loss from all farming activities.

Farm business costs and expenses were deductible from farm gross business receipts in arriving at farm net profit or loss. Excluded from farm net profit or loss were gains from certain sales of livestock and crops which qualified for capital gains treatment, as well as farm rental income. Gains from sales of livestock (other than poultry) qualified for capital gains treatment if the livestock had been held for 12 months or more (in the case of cattle or horses acquired after 1969, for 24 months or more), as long as livestock were held for breeding, dairying, or sporting purposes. Gains from sales of unharvested crops, when sold with the land on which they were growing, qualified for capital gains treatment if the land had been held for 12 months or more. For taxation purposes (and for purposes of this report), these types of income were included in long-term capital gains. On the other hand, farm rental income--that based on crops or livestock produced solely by the tenant, without material participation of the landowner or sublessor in the operation or management of the farm--was included in rent net income or loss.

Foreign Tax Credit

A credit against income tax was permitted for foreign taxes paid. The credit was for the income and profits taxes paid to foreign countries or U.S. possessions and included the taxpayer's share of such taxes paid through partnerships and fiduciaries.

In general, the tax credit was limited to the same proportion of the income tax before credits as the taxable income from foreign sources bore to the entire taxable income, but could not exceed the foreign taxes paid. In addition, the credit was further limited to income tax before credits minus the credit for the elderly. The remainder could be carried back 2 years and then forward 5 years for use in computing the credit for those years.

Additional information can be found in the Supplemental Report, Statistics of Income--1976-1979, International Income and Taxes, Foreign Income and Taxes Reported on U.S. Tax Returns.

Forfeited Interest Penalty Adjustment

Taxpayers who had paid penalties for the premature withdrawal of funds from time savings accounts or deposits could deduct those penalties as an adjustment to gross income.

Form of Deduction

For purpose of this classification, returns were categorized into one of three groups: those with nonbusiness itemized deductions, those with a zero bracket amount only, and those with no deductions. For a return to fall into either of the first two groups, there had to be positive adjusted gross income and in the case of the zero bracket amount only returns, adjusted gross income had to exceed the exemption amount. The reason adjusted gross income had to exceed the exemption amount was that the exemption amount was subtracted from adjusted gross income first, before the zero bracket amount; the zero bracket amount, no longer a deduction from adjusted gross income, was actually the first portion of taxable income, the amount "taxed" at the first, or zero percent, tax rate. Returns in the third group, those with neither itemized deductions nor zero bracket amount only, were either (1) deficit or "breakeven" returns, since there was no income from which to subtract any deductions, or (2) returns with no itemized deductions and with adjusted gross income less than the exemption amount.

Fully Taxable Pensions and Annuities

See "Pensions and Annuities."

General Sales Taxes Deduction

See "Taxes Paid Deduction."

Heads of Households, Returns of

These returns were filed by "unmarried" persons who furnished over half the cost of maintaining a household for the entire year for at least one qualifying relative. Unmarried persons, for purposes of this classification, were defined as single persons, married persons legally separated, certain married individuals living apart but not legally separated, or persons married to nonresident aliens. "Qualifying" relatives, such as children, parents, brothers, and sisters, generally had to qualify as the taxpayer's dependents and actually had to live with the taxpayer.

There were two exceptions to this rule. Parents of the taxpayer had to be dependents, but did not have to live in the same household; children of the taxpayer did not have to be dependents, but did have to reside in the same household as the taxpayer.

A special tax rate schedule was provided for heads of households which gave a portion of the benefits for lower rates accorded joint returns.

Home Mortgage Interest Deduction

See "Interest Paid Deduction."

H.R. 10 Plan

See "Self-Employed Retirement (Keogh) Plan Deduction."

Income Averaging

A taxpayer with unusual fluctuations in income was able to reduce the tax in higher income years by using income averaging. The standard income averaging computation permitted a part of an unusually large amount of taxable income for any one year to be taxed at lower rates, thus resulting in a lower amount of tax due than would have resulted if the taxpayers had computed their tax using the regular tax computation method. An eligible individual could choose this computation if the "averageable income" for the year was more than $3,000.

"Averageable income" was the amount by which "adjusted taxable income" (taxable income for the computation year) exceeded 120 percent of the average "base period income" (the average of taxable income, with certain other adjustments, for the 4 preceding tax years). Briefly, the income averaging computation operated to tax all averageable income at the same rate which applied to the first one-fifth of such income. "Adjusted taxable income," from which the "averageable income" was derived, covered all income except "excess community property income" and certain amounts received by owner-employees. "Base period income" included taxable income and income earned outside the United States or within U.S. possessions which had been excluded from taxation under sections 911 and 931 of the Internal Revenue Code.

Taxpayers choosing the income averaging tax computation were not eligible for the special 50 percent rate applicable to personal service income under the maximum tax computation.

Income Subject to Tax

For taxpayers using the regular or maximum tax computation methods, income subject to tax was the same as taxable income (adjusted gross income less the personal exemption amount and excess itemized deductions).

On returns with alternative tax, income subject to tax was also the same as taxable income unless income eligible for the alternative tax treatment was greater than taxable income. On these returns, income subject to tax was equal to capital gains subject to alternative tax treatment.

For taxpayers using the income averaging method, income subject to tax was a reduced amount of taxable income specially computed for the statistics by working backward from the tax itself.

On returns with both income averaging and alternative tax computations, income subject to tax was alternative income plus the amount of income that would generate the remainder of tax generated.

Income Tax After Credits (#)

Income tax after credits was equal to "income tax before credits" minus the rate reduction credit, research and experimentation credit, credit for the elderly, investment credit, foreign tax credit, work incentive (WIN) credit, political contributions credit, jobs credit, child care credit, residential energy credit, other tax credits (as defined below), and, for purposes of this report, to the extent that it did not result in a negative amount, the earned income credit. The portion of the earned income credit which did not result in a negative amount is tabulated as "earned income credit used to offset income tax before credits."

Income Tax Before Credits (#)

This amount consisted of two components: "tax generated" and "taxes from special computations." Generally, "tax generated" was the tax liability computed on current-year "taxable income" based on:

(1) the regular tax, whether derived from the tax tables or tax rate schedules,
(2) the income averaging tax,
(3) the alternative tax, or
(4) the maximum tax on personal service income.

"Taxes from special computations" generally were related either to prior-year income or to income that had been excluded from adjusted gross income. As a result, it was possible for a taxpayer to have "income tax before credits" without having "taxable income." (See also "Tax Generated" and "Taxes from Special Computations.")

Income Tax Withheld

Tax withheld included amounts deducted from salaries, wages, tips, and other forms of remuneration. An employer could use either the "percentage" or "wage bracket" method, both of which were based on graduated rates ranging from 14 to 37 percent, or any of the alternative methods permitted by the Internal Revenue Service in determining the amount to be withheld.

In addition to income tax withheld on salaries as reported on Form W-2, tax withheld from pensions and annuities, as reported on Form W-2P, was included in this amount. Tax withheld on certain gambling winnings, as reported on Form W-2G, was also included.

Individual Retirement Arrangement

For taxable years beginning after December 31, 1974, an individual who was not covered by a qualified private or governmental retirement plan was able to set up an individual retirement arrangement (IRA) (a) at a bank or other qualified financial institution, (b) by investing directly in individual annuity contracts issued by an insurance company, or (c) by investing in special retirement bonds issued by the Federal Government. Contributions to such a plan, which were limited to the lesser of $1,500 or 15 percent of the individual's earned income (wages, salaries, and net earnings from self-employment), could be deducted from the employee's gross income in arriving at adjusted gross income. Taxpayers could not start withdrawing funds from the account until they reached age 59-1/2 and had to start doing so upon reaching age 70-1/2. Penalty taxes were assessed in the event the taxpayer failed to comply with these limitations.

The Tax Reform Act of 1976 provided for the establishment of an IRA (separate from that of the working spouse) for a nonworking spouse, effective for 1977. The total deduction from gross income in this instance was limited to the smallest of (a) $1,750, (b) 15 percent of the working spouse's earned income, or (c) twice the smaller amount contributed to either spouse's IRA (thus making it advantageous to contribute the same amount to each IRA).

Interest Paid Deduction

Interest paid on personal debts, credit cards, mortgages, bank loans, and installment purchases of real or personal property was deductible, but interest paid on money borrowed to buy tax-exempt securities or single premium life insurance and endowment contracts was not. The amounts deductible as an interest expense included "investment interest" (that amount paid or accrued on indebtedness incurred, or continued, to purchase or carry property held for investment) as reported on Form 4952, Investment Interest Expense Deduction, subject to the limitations prescribed in the law. Interest relating to business, royalty, and rental income was deducted directly from these items and was, therefore, not reflected in the interest paid statistics. For installment purchases, interest paid included amounts stated in the contract, certain unstated amounts of interest as provided in Code section 483, and finance charges.

Interest Received (#)

This amount was the taxable portion of interest received from bonds, debentures, notes, mortgages, personal loans, bank deposits, savings accounts, All-Saver Certificates, tax refunds, U.S. savings bonds, and money-market funds. Taxpayers were also instructed to include so-called dividends on deposits or withdrawable accounts in mutual savings banks, cooperative banks, savings and loan associations, and credit unions. Excluded was the interest on a State or local Government obligation. Such interest was tax-exempt and, therefore, did not have to be reported on the tax return.

For 1981, taxpayers were allowed an exclusion of up to $200 of qualifying dividends and interest. Interest that qualified for the exclusion included all interest except that received from another individual or from an All-Savers Certificate. Also, interest earned on an All-Savers Certificate, a special tax-exempt savings certificate, was eligible for a lifetime exclusion of up to $1,000. (See also "All-Savers Certificate Interest," and "Dividends and Interest Exclusion;" and "Changes in Law" in Section 1.)

Investment Credit (#)

This tax credit generally equalled 10 percent of "qualified investment" in certain new and used depreciable assets used for business purposes, chiefly machinery and equipment with a useful life of 3 years or more. For 1981, the credit could not exceed the lesser of income tax liability or $25,000 plus 80 percent of tax liability over $25,000 (70 percent for 1980).

The cost of the property determined the taxpayer's qualified investment, which was an amount that took into account the length of the property's intended life and whether the property was new or used. Small Business Corporations and partnerships were eligible for the credit, although the credit itself was claimed not by these entities but by the shareholders and partners, respectively, on their individual income tax returns. There were also limitations on the credit itself, depending on the presence or size of income tax before credits reduced by the foreign tax credit, credit for the elderly, and special types of taxes. Amounts in excess of these limitations could be carried back 3 years and the remainder carried forward, in general, to the succeeding 15 years, for use in computing the credit for these years.

Included in the statistics for the investment credit were amounts claimed as a "business energy investment credit." This was an additional investment credit for energy property used for business purposes. Property eligible for the business energy investment credit had to have a useful life of 3 years or more and had to fall into one of the following ten categories: (1) alternative energy property; (2) specially defined energy property; (3) recycling equipment; (4) shale oil equipment; (5) equipment for producing natural gas from geopressured brine; (6) cogeneration equipment; (7) certain qualified intercity buses; (8) qualified hydroelectric generating property; (9) ocean thermal and geothermal property; and (10) solar and wind energy property. The credit for the first seven items was set at 10 percent of qualified investment; for the eighth item, it was 11 percent; and for the final two items, it was 15 percent. In certain situations, it was possible for property eligible for the energy investment credit not to qualify for the regular investment credit.

Itemized Deductions

See "Total Itemized Deductions," and specific types.

Jobs Credit (#)

This was a tax credit which was granted to employers who provided employment for the hard-core unemployed and other groups with special employment needs. This "targeted" jobs credit was limited to 50 percent of the first $6,000 of FUTA wages (i.e, wages subject to unemployment insurance) paid by an employer to an eligible employee for the employee's first year of employment, and to 25 percent of such wages for the second year of employment of such an individual. The employee groups targeted for this credit were: (1) recipients of Supplemental Security Income; (2) handicapped individuals who were undergoing or had completed qualified vocational rehabilitation; (3) individuals aged 18-24 who were members of economically disadvantaged families; (4) Vietnam veterans under age 35 (if hired after August 13, 1981, no age requirement applied), who were members of economically disadvantaged families; (5) recipients of general assistance for a period of 30 or more days; (6) individuals aged 16 to 19 who were participants in a qualified cooperative education program; and (7) ex-convicts who were members of economically disadvantaged families, if hired within 5 years of the date of release from prison or date of conviction; and (8) effective for 1981, certain former Comprehensive Employment and Training Act (CETA) employees. Effective after August 13, 1981, any new employee could not qualify for the jobs credit if he or she were a relative or dependent of the employer, or a rehired employee who previously did not qualify for the credit.

In addition to the limit on the amount of credit for any one eligible employee, the amount of qualifying wages paid by an employer to eligible first-year employees was limited to 30 percent of the aggregate FUTA wages paid to all employees during the calendar year ending in the employer's taxable year. Moreover, an employer's deduction for such wages was reduced by the amount of the credit; the credit was limited to 90 percent of the employer's income tax liability less all other nonrefundable credits; and it was not applicable with respect either to employees for whom the employer received on-the-job training payments or for whom the Work Incentive (WIN) credit was claimed.

The credit could be carried back 3 years, and effective for 1981, carried forward 15 years for unused credit years beginning after 1976.

Joint Returns of Husbands and Wives

These were returns of married taxpayers claiming the joint return filing status. The income of each spouse had to be reported on these returns.

Marital Status

The five marital status classifications were:
(1) joint returns of husbands and wives,
(2) separate returns of husbands and wives,
(3) returns of heads of households,
(4) returns of surviving spouses, and
(5) returns of single persons (not heads of households or surviving spouses).

Marital status was usually determined as of the last day of the taxable year. If one spouse died during the tax year, the other was considered married for the entire year. If a taxpayer was divorced during the tax year and did not remarry, the taxpayer was considered to be unmarried for the entire year. Each of the above classifications is defined under a separate heading in this section.

Maximum Tax on Personal Service Income

"Tax generated" was usually computed by applying to taxable income graduated tax rates ranging from 0 to 70 percent. However, qualifying taxpayers with large amounts of "personal service income" could elect to limit the top tax rate on such income to a maximum of 50 percent. This was done by splitting taxable income into "personal service" and "other" taxable income. The graduated regular rates up to 50 percent were applied to personal service taxable income; the 50 percent limitation was applied to amounts which would have been subject to rates higher than 50 percent. Other taxable income was taxed at regular rates higher than 50 percent.

To qualify, a taxpayer must have been:

(1) Single with personal service taxable income exceeding $41,500,

(2) Married filing jointly (or a surviving spouse) with personal service taxable income exceeding $60,000, or

(3) Head of household with personal service taxable income exceeding $44,700.

"Personal service income" was gross income earned from salaries, wages, professional fees, and other compensation for personal services. If the taxpayer engaged in a trade or business where both services and

capital were material income-producing factors, income that constituted reasonable compensation for services actually rendered, but not more than the business net profit, was considered personal service income. Net proceeds from the sales of property created by the taxpayer were also considered. Pensions, annuities, and other deferred compensation for personal services rendered in the past could also be included. Personal service net income was personal service income as here defined less allocable deductions and expenses.

Personal service net income was used to determine "personal service taxable income." Taxable income was multiplied by the ratio of personal service net income to adjusted gross income. The result (limited to the amount of taxable income) was then subject to reduction by the "tax preference offset," the total amount of tax preferences reported on Form 4625 (see "Minimum Tax" in this section). "Personal service taxable income," then, was the result of applying an earnings ratio to taxable income and then subtracting from that result those items which had already received special tax treatment, namely the tax preferences. The part of taxable income which was not personal service taxable income was "other taxable income."

Tax generated was the sum of tax on personal service taxable income, computed as described in the first paragraph, plus the tax on "other taxable income." The tax on "other taxable income" was the regular tax on taxable income less the regular tax on personal service taxable income.

The maximum tax computation was not available to married persons filing separate returns or to taxpayers electing income averaging.

Medical and Dental Expense Deduction

In general, medical and dental expenses could be claimed as itemized deductions to the extent that they exceeded 3 percent of adjusted gross income. Expenditures considered for this deduction were the actual amounts paid during the tax year for health care of the taxpayer, spouse, dependents, and any other person who, except for the fact that he or she had $1,000 or more of gross income or filed a joint return with his or her spouse, could be claimed as a dependent. Amounts paid for drugs and medicines were included in medical expenses only to the extent that they exceeded 1 percent of adjusted gross income.

Any insurance payment, received on account of medical expenses incurred, reduced the amount which could be considered as medical expenses actually paid by the taxpayer. However, one-half of the cost of medical insurance up to $150 was fully deductible as a medical expense without regard to the 3 percent limitation, while the remaining one-half of the cost plus any excess over $150 was subject to the 3 percent limitation.

Minimum Tax (#)

This was a 15 percent tax imposed on certain "tax preferences." This tax could be reduced by:

(1) 15 percent of any 1981 net operating loss which the taxpayer could carry to a future year (this amount to be paid as a deferred minimum tax for the year to which the net operating loss was carried);

(2) "unused" portions of the credit for the elderly, the political contributions credit, the child care credit, and the residential energy credit; the unused portion was the amount by which these credits exceeded income tax before credits.

The following income and deduction items, which were given special treatment in the computation of taxable income, were considered tax preferences and were subject to the minimum tax:

(1) Accelerated depreciation on (a) low-income rental housing; (b) other real property (defined in Code section 1250); and (c) leased personal property (defined by section 1245). The excess of accelerated depreciation over the amount computed under the straight-line method was considered a tax preference.

(2) Amortization of (a) certified pollution control facilities; (b) railroad rolling stock; (c) on-the-job training facilities; and (d) child care facilities. The excess of these special rapid write-offs, over what otherwise would have been a straight-line depreciation deduction, was considered a tax preference.

(3) Stock options. Upon exercising a stock option, an employee did not actually receive income when the fair market value of the stock was greater than the option price. This price difference was, however, treated as a tax preference in the year the option was exercised.

(4) Bad debt reserves. Financial institutions were allowed deductions toward a reserve for bad debts under prescribed rules. When these deductions exceeded the amount required by actual experience, the excess was considered a tax preference.

(5) Depletion. The excess of depletion over the adjusted basis of property (reduced by depletion taken in prior years) was a tax preference. Thus, when the taxpayer had written off the investment, a tax preference was realized.

(6) Intangible drilling costs. Intangible drilling expenses incurred by operators of oil and gas wells were chargeable, at the operator's option, either to capital or to current expenses. However, beginning with Tax Year 1976, to the extent that any amount deducted as a current expense exceeded the amount that could have been charged to capital and deducted over the applicable number of years, it had to be reported as a tax preference.

(7) Accelerated cost recovery (ACRS) depreciation deduction. The excess of the ACRS allowance, for each personal recovery property subject to a lease and real recovery property, over the straight-line ACRS allowance was considered a tax preference item based on specified recovery periods.

The above items were considered tax preferences, whether incurred directly, by individual taxpayers, or distributed or allocated to them as owners, beneficiaries, or shareholders of partnerships, estates and trusts, Small Business Corporations, or regulated investment companies.

Tax preferences subject to tax was the base for computing the minimum tax. It was the result of subtracting total exclusions from recomputed tax preference income--concepts explained below.

Recomputed tax preference income, on most returns, equalled total tax preferences. However, under section 58(h) of the Internal Revenue Code, taxpayers could deduct any tax preferences from which they derived no benefit from their total tax preferences.

Exclusions from total tax preferences took one of two forms. The standard exclusion equalled a flat $10,000 ($5,000 for married persons filing separately). The tax exclusion equalled one-half of the sum of income tax after credits, tax from recomputing prior-year investment or work incentive (WIN) credits, and the penalty tax on premature redemption of individual retirement bonds, less the special income averaging tax, the tax on accumulation distributions of trusts, and penalty taxes on self-employed pension plans. The taxpayer could take whichever exclusion was more beneficial.

When minimum tax is added to alternative minimum tax, the result is additional tax for tax preferences. (See also "Alternative Minimum Tax.")

Miscellaneous Deductions (#)

Included under this heading in the statistics were all specified nonbusiness deductions from adjusted gross income for which separate categories were not provided on the return form, plus personal casualty and theft losses.

On the return form, miscellaneous deductions included expenses incurred in the collection of income; or for the management, conservation, or maintenance of property held for the production of income subject to tax; gambling losses not in excess of winnings reported in income; expenses connected with the taxpayer's employment (for example, dues to professional societies, union dues, cost of tools and supplies for the job, and fees to employment agencies); fees paid for the preparation of a tax return; qualified adoption expenses; and allowable expenses of an employee in connection with the employer's business.

Casualty or theft losses, while shown as a separate category on the return form, were included as "miscellaneous deductions" for the statistics. (See also "Casualty or Theft Loss, Net" in this section.)

For purposes of the statistics, miscellaneous deductions also includes any amount of earned income substituted for itemized deductions by taxpayers who qualified as "dependents with unearned income." (See also "Unused Zero Bracket Amount" in this section.)

Moving Expense Adjustment

An employee who had to move to a new residence as a result of changing jobs could deduct from gross income certain reasonable expenses for moving and househunting. To qualify for this deduction the new job location had to be at least 35 miles farther from the former residence than the old job was. In addition, the employee had to work full-time for at least 39 weeks of the 12 months after the move.

Deductible expenses included those incurred from moving household goods and personal effects; and travel, meals, and lodging of the taxpayer and household members in route to the new residence. There were no dollar limitations for these expenses. Other allowable expenses, subject to a $3,000 limitation, included househunting trips, cost of meals, lodging in temporary quarters for up to 30 days, and costs related to settlement of an unexpired lease or acquisition of a new lease, or selling of a residence and purchase of a new residence. In addition, the househunting trip and temporary quarters component of the $3,000 deduction could not exceed $1,500.

Nontaxable Returns

See "Taxable and Nontaxable Returns."

Other Income

Included here were such items as prizes, awards, sweepstakes winnings, gambling profits, recovery of bad debts, insurance received as reimbursement for medical expenses taken in a previous year, and any other income subject to tax for which there was no specific line provided on the return form. Taxpayers were required to apply any deduction for carryovers or carrybacks of business net operating losses against "other income."

Other Tax Credits

"Other tax credits" included, in general, only those statutory credits which were used to offset income tax before credits and could not be identified as a rate reduction, research and experimentation, elderly, child care, investment, work incentive (WIN), foreign tax, jobs, political contributions, or residential energy credit. Other tax credits, to the extent that they were in excess of total tax liability and were refundable, were tabulated as part of "other taxpayments."

Other Taxpayments

"Other taxpayments" included the "throwback tax credit" allowed trust beneficiaries for certain taxes previously paid by the trust, and any other unidentified amounts that could not be allocated to one of the specified taxpayment items. Other tax credits, to the extent that they were in excess of total tax liability and were refundable, were also included in other taxpayments.

Other Than Cash Contributions Deduction

See "Contributions Deduction."

Overpayment

An overpayment of tax occurred when the "taxpayments" exceeded "total tax liability," or if the taxpayer had any "refundable portion of the earned income credit." Overpayments could be refunded; or, at the taxpayer's election, taken as a credit on the subsequent year's estimated tax; or taken partly as a refund and partly as a credit against estimated tax. (See also "Credit on 1982 Estimated Tax" and "Refund" in this section.)

Overpayment of Windfall Profit Tax (#)

The windfall profit tax, which went into effect on March 1, 1980, was a tax imposed on producers of crude oil, but withheld and reported to the Internal Revenue Service by the first purchaser of such oil. If the tax was over-withheld in the course of the year, the producer could claim a refund on his or her income tax return.

The overpayment could be due to three possible reasons. Whenever withholding errors occurred, the purchaser was responsible for correcting that error by adjusting amounts withheld in succeeding quarters. Where this was not possible, a refund of the amounts overwithheld could be claimed by filing a Form 6249, Computation of Overpaid Windfall Profit Tax, with the Form 1040. Secondly, any over-withholding due to the net income limitation could also be claimed on the Form 6249. Finally, royalty owners could claim a credit of up to $2,500 (for 1980, the credit was $1,000) of windfall profit tax imposed on their share of the oil removed during 1981. This credit could be claimed on Form 6249 (Computation of Overpaid Windfall Profit Tax) or 6249-A (Royalty Owner's Credit for Overpaid Windfall Profit Tax).

The three types of overpayment were combined and carried over to the Form 1040 and entered in the margin of the taxpayments section. For purposes of this report, overpayment of windfall profit tax was reported as a separate item.

Partnership Net Profit or Loss (#)

Partnership net profit or loss was reported by persons who were members of a partnership, syndicate, joint venture, or unincorporated association. The taxpayer's profit or loss shown was only his or her share of the ordinary income or loss of the enterprise, together with payments made to the taxpayer for the use of capital or as a salary. If the individual was a member of more than one partnership, the single amount of partnership profit or loss reported in adjusted gross income, whether actually received or not, was the net result of all shares.

One of the deductions from partnership gross income, additional first-year depreciation, was tabulated and shown separately in this report. However, the Economic Recovery Tax Act of 1981 repealed the deduction for property placed in service after 1980. To this end, the data in this report reflect only those taxpayers with deductions from fiscal-year 1980/1981 partnerships.

Data shown include the total number of returns showing any net income received from all partnerships and the total number showing any net loss from all partnerships. In other words, if a return showed net income from one partnership and a net loss from another, that return was tabulated in both the "total income" and "total loss" columns. The columns labelled "net income" and "net loss" represent the sum of all income and loss reported from all partnerships; i.e, the net amount, on a return-by-return basis.

Additional information for partnerships can be found in Statistics of Income--1981, Partnership Returns.

Payment with Request for Extension of Filing Time

This payment was made when the taxpayer filed Form 4868, Application for Automatic Extension of Time to File U.S. Individual Income Tax Return, and gained a 2-month extension of time to file the Form 1040. The application did not extend the time for payment of expected tax since full payment of any tax due had to be made with the application for extension. When the taxpayer filed the Form 1040 return, he or she entered the amount paid with Form 4868 to determine any tax still due or any overpayment of tax.

Payments to an Individual Retirement Arrangement

See "Individual Retirement Arrangement."

Penalty Tax on Individual Retirement Arrangements

A taxpayer could start withdrawing funds from an arrangement if he or she was disabled or after reaching age 59-1/2, and had to start doing so after reaching age 70-1/2. Withdrawals prior to reaching age 59-1/2 were subject to a penalty tax equal to 10 percent of the premature distribution. Failure to withdraw funds after reaching age 70-1/2 resulted in the taxpayer's paying a 50 percent excise tax on the amount by which the minimum required distribution exceeded the distributions actually received by the individual during the year. Contributions to the retirement arrangement in excess of the legal limitation for the year (15 percent of earned income; $1,500 maximum) were subject to an excise tax equal to 6 percent of the excess contribution. (See also "Individual Retirement Arrangement" in this section.)

Pensions and Annuities

Generally, pensions represented periodic income received after retirement and made in consideration of past services with an employer, while annuities were income payable at stated intervals in consideration of a specific premium. A taxpayer could acquire a pension or annuity either by purchase from a commercial organization (usually life insurance, endowment, or annuity contracts) or under a plan or contract connected with the taxpayer's employment. Those pensions or annuities obtained in connection with employment could be purchased entirely by the taxpayer or could be financed in part (a contributory plan) or in whole (a noncontributory plan) by contributions of the employer.

Since a noncontributory pension was one paid for entirely by an employer, the amount received by the employee was fully taxable. This fully taxable pension was reported on line 15, "Fully taxable pensions and annuities," of Form 1040 rather than on line 16, "Other pensions and annuities."

For the taxpayer who participated in a contributory retirement plan while employed, the amount received was only partially taxable. In general, the amount excludable from gross income, the nontaxable portion, represented the taxpayer's contributions under the plan, while the taxable portion represented the employer's contribution. (In the case of a survivor-beneficiary of a deceased employee, a death benefit exclusion of up to $5,000 could be excluded in addition to the deceased employee's contribution.) The entire amount of pensions received for the year was reported on line 16a, "Other pensions and annuities," of the Form 1040, with the taxable portion being computed on a separate worksheet and entered on line 16b, "Taxable amount."

When it was possible for the retired employee or a survivor to recover the employee's contributions within 3 years by the annuity payments received, the payments were nontaxable until recovered, after which time the pension or annuity was fully taxable. This was the three-year rule computation method. If this method was inapplicable, the taxpayer's yearly receipts were prorated into taxable and nontaxable portions based on life expectancy at the time that the pension or annuity started (or term certain, if the annuity was not payable for life).

Receipts from individually purchased annuities were usually prorated into taxable and nontaxable portions, since the taxpayer could expect to receive more than the cost, but not within 3 years.

Personal Property Taxes Deduction

See "Taxes Paid Deduction."

Political Contributions Credit

An individual taxpayer was allowed to take a credit against income tax for political contributions paid during the year. This political contribution could be to a candidate or candidates for election to a Federal, State, or local office, in a primary, general, or special election; or a political campaign committee; or a newsletter fund. The credit equalled 50 percent of the amount contributed, limited to $50 ($100 on a joint return).

Rate Reduction Credit (#)

The first of the tax cuts introduced by the Economic Recovery Tax Act of 1981 was accomplished by means of a new one-year credit of 1.25 percent. This credit was built into the tax tables but had to be computed by taxpayers who used the tax rate schedules. It reduced the tax by 1.25 percent and was available to all taxpayers.

For the purposes of this report, the rate reduction credit was treated as a tax credit and is reflected in the data for total tax credits.

Real Estate Taxes Deduction

See "Taxes Paid Deduction."

Refund

A refund of tax included all overpayments not applied by the taxpayer as a credit to the next year's estimated tax. (See also "Overpayment" in this section.)

Regular Tax Computation

Typically, the taxpayer, in determining "tax generated," first computed taxable income. Depending on

marital status and size of taxable income, the taxpayer then used the tax tables or applied rates from one of three tax rate schedules to determine tax. In some instances, he or she requested the Internal Revenue Service to compute the tax. Returns of all such taxpayers are classified under the regular tax computation method. In addition, the returns of taxpayers whose taxable income was greater than zero, but less than or equal to the zero bracket amount, were also shown as having a regular tax computation. For these returns, no "tax generated" is shown.

Rent Net Income or Loss

Rent net income or loss constituted a part of adjusted gross income and was determined by deducting from gross rent amounts for depreciation, repairs, maintenance, interest, taxes, commissions, advertising, fuel, insurance, janitorial services, and any other allowable expenses related to the rented property. Rental income from farming operations conducted solely by the tenant without material participation of the landowner was also included here.

Research and Experimentation Credit (#)

This credit was established to encourage businesses to increase the amounts spent on certain qualified research and experimentation after June 30, 1981. The credit was equal to 25 percent of the amount by which the qualified expenses for the year exceeded the average qualified expenses during an earlier base period, limited to income tax after reduction by all other credits.

The credit applied to research in the experimental or laboratory sense. It excluded research in the social sciences or humanities, or the part funded by any grant or contract by another person or government entity. In addition, to be eligible, the research had to have taken place within the United States.

Residential Energy Credit

In order to reduce energy consumption and to encourage the development and use of alternative energy sources, a residential energy credit was provided by the Energy Tax Act of 1978. The credit was made up of two separate parts, one based on qualified "energy conservation expenditures" and the other on qualified "renewable energy source expenditures," with different requirements for each type of qualifying expenditures. The entire residential energy credit was available for qualified items installed in or on the taxpayer's principal residence from April 20, 1977, through December 31, 1985. A maximum amount was specified for each part of the credit, although a minimum $10 amount for the sum of both credits was required before any credit was allowed. None of the credit was refundable, but any credit exceeding income tax reduced by all other statutory credits, except the research and experimentation credit, could be carried over to subsequent years through 1987. Before the credit was carried over to a subsequent year, however, it could have been used to reduce the minimum tax for the current year. Amounts of credit which could not be used to offset any tax for 1980 are shown as "residential energy credit carryover from 1980" in the tabulations.

The credit for energy conservation property was 15 percent of the first $2,000 of expenditures, including original installation costs, with a maximum credit of $300 per residence over the entire period the credit was to be in effect. The credit was available for each dwelling unit used by the taxpayer as a principal residence; however, the construction of the dwelling unit had to be substantially completed before April 20, 1977, in order for the energy conservation expenditures to qualify. In addition, the taxpayer had to be the first person to use the property installed and that property had to be expected to remain in use for at least 3 years. Energy conservation property consisted of insulation, storm windows and doors, caulking and weather-stripping, and certain other items (such as an automatic energy-saving setback thermostat, furnace replacement burner, or a meter displaying the cost of energy usage).

The maximum energy conservation expenditures allowable in computing the energy credit were $2,000. However, in computing the 1981 credit, a taxpayer who had claimed a credit for Tax Years 1978, 1979, or 1980 had to further reduce the $2,000 by his or her cumulative energy conservation expenditures on the same residence. The result of limiting expenditures for 1981 to $2,000 minus prior-year expenditures is shown in the tabulations as "maximum allowable current-year energy conservation expenditures."

The credit for renewable energy source property was 40 percent of the first $10,000 of expenditures, including labor costs for on-site preparation, assembly, or original installation, with a maximum credit of $4,000 per residence over the entire period the credit was to be in effect. In contrast to the credit for energy conservation property, the renewable energy source credit was available for items installed on both existing and newly constructed principal residences. The taxpayer had to be the first person to use the property and that property had to be expected to remain in use for at least 5 years. Renewable energy source property consisted of solar, wind, and geothermal energy property.

The maximum renewable energy source expenditures allowable in computing the energy credit were $10,000. However, in computing the 1981 credit, a taxpayer who had claimed a credit for Tax Years 1978, 1979, or 1980 had to further reduce the $10,000 by his or her cumulative renewable energy source expenditures on the same residence. The result of limiting expenditures for 1981 to $10,000 minus prior-year expenditures is shown in the tabulations as "maximum allowable current-year renewable energy source expenditures."

Royalty Net Income or Loss

Net royalties consisted of gross royalties less deductions for depletion, depreciation, office rent, legal fees, clerical help, interest, taxes, and similar items. Gross royalties included revenues from oil, gas, and other mineral rights; revenue from patents; and revenue from literary, musical, or artistic works. Certain royalties received under a lease agreement on timber, coal, and domestic iron ore were eligible for capital gains or ordinary loss treatment under Code section 1231, and as a result of the separate computation required by that section are reflected in the statistics for "sales of capital assets" and "sales of property other than capital assets."

Salaries and Wages

Salaries and wages as reported on the tax return were amounts of compensation for personal services. Also included were commissions, bonuses, tips, fees, excess reimbursement over employee business expenses, and the value of nonmonetary payments for services, e.g., merchandise, accommodations, or property. Identifiable amounts for any of these categories which may have been reported by taxpayers as "other income" were treated as salaries and wages for the statistics. Excluded were portions of salaries and wages earned in hardship areas abroad which could be excluded under special provisions of the law.

Sales of Capital Assets Net Gain or Loss (#)

In general, capital assets for tax purposes included all property held for personal use or investment. Examples of such assets were personal residences, furniture, automobiles, and stocks and bonds. Assets used in the normal course of business activities (such as inventory held for sale during the ordinary conduct of business), and depreciable or real property held for sale or used in a trade or business were specifically excluded from treatment as capital assets.

In addition, net gains from the disposition of certain types of property which were not classified as capital assets could be treated as capital gains under section 1231 of the Code. This included property used in business, such as buildings and machinery, and also certain specific types of assets such as cut timber, coal, domestic iron ore and timber royalties, and unharvested crops sold with the land, if the land were held for more than one year.

On the other hand, all or a portion of net gains from some types of property included under the definition of capital gains could be denied capital gains treatment under certain other sections of the Code. Generally, these sections denied capital gains treatment to gain that resulted from the recapture of depreciation already claimed on the asset.

As a result of the Economic Recovery Tax Act of 1981, the replacement period on sale of residence was extended from 18 months to 2 years and the one-time exclusion of gain on the sale of a principal home was increased from $100,000 to $125,000.

The following concepts were used in the computation of net capital gain or loss for the purposes of this report:

Net short-term gain or loss--Gains and losses from the sales or exchanges of capital assets held for one year or less, beginning with 1978, were considered to be short-term. For 1977, the holding period was 9 months or less while for 1976 and earlier years it was 6 months or less. Short-term gains from current-year sales were combined with any short-term capital loss carryover and any net short-term gain or loss received from partnerships or fiduciaries.

Net long-term gain or loss--Gains and losses from sales or exchanges of capital assets held for more than one year were considered long-term and were eligible for special tax treatment (see "Net capital gain" below). To obtain the net long-term gain or loss, gains or losses from current-year transactions were combined with:

(1) net long-term gain or loss received from partnerships, fiduciaries, or Small Business Corporations, (2) capital gain distributions of regulated investment companies (mutual funds) and real estate investment trusts, and

(3) long-term capital loss carryover from prior years.

Short-term capital loss carryover--This carryover equalled that portion of short-term capital loss incurred, but not deducted, in a previous tax year because of the limitation to net capital loss claimable, as discussed below under "Net capital loss."

Long-term capital loss carryover--This carryover equalled that portion of long-term capital loss incurred, but not deducted, in a previous tax year because of the limitation to net capital loss claimable, as discussed below under "Net capital loss."

Net capital gain--If the combination of net short-term gain or loss and net long-term gain or loss resulted in a positive amount, the taxpayer had a net capital gain. For taxpayers with long-term capital gains, the actual amount shown as net capital gain (and thus carried into adjusted gross income) was computed by first subtracting short-term capital losses (if any), and then subtracting 60 percent of the remaining amount. Short-term capital gains, on the other hand, were always fully includable in net capital gain.

Net capital gain also included capital gain distributions which would have been reported on Schedule D, Capital Gains and Losses, except for the provision that taxpayers who had no other gains or losses could simply enter the portion of capital gain distributions included in adjusted gross income on line 13 of Form 1040. These distributions were always considered to be long-term capital gains. The statistics include a separate tabulation of capital gain distributions not reported on Schedule D.

Net capital loss--If the combination of net short-term gain or loss and net long-term gain or loss resulted in a negative amount, the taxpayer generally showed a net capital loss. In many cases, however, the actual amount included in net capital loss (and thus carried into adjusted gross income) was less than the computed combined amount. For taxpayers with long-term capital losses, only 50 percent of such losses (reduced by any short-term capital gains) was includable in net capital loss. After this reduction, net capital loss was further limited to the lesser of (a) net capital loss, (b) taxable income (computed without regard to capital loss or personal exemptions) or (c) $3,000 ($1,500 for married persons filing separately).

Amounts of capital losses in excess of the above limitations, whichever was applicable, could be carried over to subsequent tax years, as described above.

Sales of Property Other Than Capital Assets Net Gain or Loss

Property other than capital assets generally included property of a business nature, in contrast to personal and investment property which were capital assets. Some types of property specifically included were (1) certain depreciable, depletable, and real business property; (2) accounts and notes receivable in the ordinary course of business generated from the sale of goods and services ordinarily held for sale by the business or includable in the inventory of the business; (3) certain copyrights; literary, musical, or artistic compositions; or similar properties; (4) any share of gain or loss received through partnerships and fiduciaries; and (5) amounts resulting from certain "involuntary conversions," including net losses from casualty and theft. Gains from the disposition of some property types not considered to be capital assets could be treated as capital gains under certain conditions. Conversely, under certain other conditions gains from the disposition of some property types considered to be capital gains could be denied capital gains treatment. Taxpayers reported all gains and losses not receiving capital gains treatment on Form 4797, Supplemental Schedule of Gains and Losses.

Self-Employed Retirement (Keogh) Plan Adjustment

In general, self-employed individuals could contribute to a qualified retirement plan (Keogh or H.R. 10 plan) and deduct all or a part of such contributions in computing adjusted gross income. The amount which could be deducted was based on earned income, defined as (1) net earnings from self-employment, but only with respect to a trade or business in which personal services of the taxpayer were a material income-producing factor, and (2) income from the disposition of certain property by individuals whose personal efforts created the property. The maximum amount of the annual contribution to the plan and of the deduction was the lesser of 15 percent of earned income or $7,500.

Self-Employment Income

See "Earned Income Credit."

Self-Employment Tax (#)

This tax, levied under the social security system, was reported by each individual who had self-employment earnings of at least $400 derived from a sole proprietorship or from any share of partnership profits. U.S. citizens employed by foreign governments or international organizations were subject to self-employment tax on salaries. Certain types of income and deductions such as investment income, capital gains and losses, deductions for net operating losses, and casualty and theft losses were not allowed in computing self-employment earnings.

The maximum amount subject to self-employment tax for 1981 was $29,700, reduced by any wages on which social security tax had been withheld by any employer. The maximum self-employment tax payable was $2,762.10, based on the 9.3 percent rate in effect for that year. For 1980, the rate was 8.1 percent with the maximum amount of earnings being $25,900 and the maximum tax, $2,097.90.

Separate Returns of Husbands and Wives

Generally, these were returns of married persons, each of whom filed a return independently of his or her spouse and reported only his or her own income, exemptions, and tax. Also included were returns of married persons where only one spouse had income, but elected to use this classification, and returns with community property income divided between husband and wife.

If only one spouse filed a separate return, the other spouse's exemption could be claimed on that return, but only if the spouse who was not filing had no gross income and was not the dependent of another taxpayer.

Single Persons, Returns of

These were returns of (a) unmarried persons who did not qualify as head of household or surviving spouse, or (b) certain married individuals living apart from their spouses who maintained a home, independently of the spouse, that was the home of the individual's child or stepchild (who could be claimed as a dependent) for more than 6 but less than 12 months of the year.

Size of Adjusted Gross Income

The amount of adjusted gross income reported by the taxpayer on the return was the basis for classifying data by size of adjusted gross income. Returns without positive adjusted gross income, such as deficit returns or returns on which income and loss were equal, were classified as having no adjusted gross income and appear as a separate class in most basic tables. The absence of a class labelled "no adjusted gross income" indicates that any deficit or breakeven returns in a table were included in the lowest income class.

Small Business Corporation Net Profit or Loss

Net income of a qualified Small Business Corporation (defined in section 1371 of the Code), whether or not distributed, was taxed directly through each stockholder. Net losses were allocated to each stockholder to be offset against income from other sources.

Small Business Corporation income shown in this report was the amount taxable to stockholders as ordinary income. Net long-term capital gain, reduced by the special tax imposed at the corporate level, retained its character in the hands of the stockholders and is included in the statistics for net gain or loss from sales of capital assets. Undistributed income earned in previous years was taxable to stockholders in the year it was earned and could be distributed during the current year without any further tax.

The data shown for 1981 include the number of returns showing just net income received from all Small Business Corporations and the number showing just a net loss from all Small Business Corporations. In other words, if a return showed net income from one Small Business Corporation and a net loss from another, that return was tabulated in both the "total income" and "total loss" columns. The columns labelled "net income" and "net loss" represent the sum of all income and loss reported from all Small Business Corporations; i.e., the net amount, on a return-by-return basis.

Information on Small Business Corporations can be found in Statistics of Income--1980 Corporation Income Tax Returns.

Social Security Taxes on Tip Income

This amount consisted of social security tax on unreported tip income and uncollected employee social security tax on tips.

Cash tips amounting to $20 or more that the taxpayer received in a month while working for any one employer were subject to withholding of income tax and social security tax. Cash tips counted toward social security benefits and an employee was required to report these tips to the employer; the employer then withheld the social security tax. However, if the employer was unable to withhold the amount of social security tax, the amount of uncollected social security tax on tips was indicated on the employee's Form W-2, and the taxpayer was required to report the uncollected tax and pay it with the Form 1040.

If the employee did not report the tips to the employer, the employee was required to compute the social security tax on unreported tips on Form 4137 and attach it to Form 1040.

State

State classifications were based on the taxpayer's address shown on the preprinted address label or reported by the taxpayer on the return. (See also "State Data" in Section 1, Introduction and Changes in Law.)

State and Local Income Taxes Deduction

See "Taxes Paid Deduction."

State Income Tax Refunds

These amounts represented that part of a refund of State income tax attributable to itemized deductions taken in a prior year that resulted in a Federal tax benefit. Taxpayers were instructed not to net the refundable amount against the current year's itemized deduction for State and local income tax.

Statutory Adjustments (#)

These were certain adjustments to gross income allowed as deductions in arriving at adjusted gross income. Statutory adjustments consisted of the disability income exclusion, moving expense deduction, employee business expense deduction, payments to a

self-employed retirement (Keogh) plan, forfeited interest penalty, payments to an individual retirement arrangement (IRA), alimony paid, and deduction for expense of living abroad. Each of the above is described under a separate heading in this section. In addition, statutory adjustments included forestation/reforestation amortization deduction, and for 1981, the repayment of supplemental unemployment benefits (which was an itemized deduction prior to 1981).

Surviving Spouses, Returns of

These returns were filed by widows or widowers whose spouse had died during either of the 2 preceding years, who had not remarried, and who had maintained a home which was the principal abode of a child or stepchild for whom the taxpayer was entitled to an exemption.

Surviving spouse taxpayers could use the joint return tax rates for the 2 taxable years following the year of death of the spouse; however, the deceased spouse could not be claimed as an exemption, except for the year of death.

Tax Credits (#)

Tax credits consisted of:
(1) rate reduction credit,
(2) credit for the elderly,
(3) foreign tax credit,
(4) investment credit,
(5) political contributions credit,
(6) work incentive (WIN) credit,
(7) child care credit,
(8) jobs credit,
(9) residential energy credit,
(10) research and experimentation credit, and
(11) "other" tax credits.

The above credits were used to reduce income tax before credits in the order in which they are listed. In addition, for purposes of this report, the amount of earned income credit used to offset income tax before credits was included under this classification.

Each of the above is described under a separate heading in this section.

Tax Due at Time of Filing

"Tax due" was reported on returns where the "total tax liability" exceeded the "total taxpayments."

Tax From Recomputing Prior-Year Investment Credit

The investment credit provisions of the law included a "recapture" rule which required taxpayers to pay back all or a portion of any investment credit taken on property disposed of before the end of the useful life claimed in computing the credit. The law specified that if property qualifying for the credit was disposed of before the end of its intended useful life, the tax for the year of disposal was increased by the difference between the credit originally claimed and the credit that would have been allowed based on the shorter actual life.

Tax credits could not be applied against this additional tax.

Tax Generated

This amount was the tax on "taxable income." On most returns (those without one of the "taxes from special computations"), this equalled "income tax before credits."

Tax Savings From Special Tax Computations

In this report, the amount of tax savings is the difference between the tax resulting from using the provisions of one of the special tax computations (i.e., maximum tax, alternative tax, or tax from income averaging), and the amount of regular tax that would have resulted from not using these provisions.

Taxable and Nontaxable Returns

Taxability of a return for purposes of this report was determined by the presence of "total income tax" (the sum of income tax after credits and the additional tax for tax preferences). Some returns classified as "nontaxable" may have had a liability for tax from self-employment tax, social security taxes on tip income, tax from recomputing prior-year investment credit, penalty taxes on individual retirement arrangements, or all other taxes; however, these taxes were disregarded for purposes of this classification, since the first two were considered social security (rather than income) taxes, and since the remaining ones were either based on prior-year's income or were penalty taxes. For the purposes of this report, the earned income credit was treated as an amount which could be used to offset income tax before credits. (Since the earned income credit was refundable, it was subtracted from income tax after reduction by all other statutory credits for the statistics.) As a result, some returns became nontaxable strictly because of the earned income credit when there was no additional tax for tax preferences and the earned income credit equalled or exceeded income tax before credits reduced by any other credits.

It should be noted that classification as taxable or nontaxable was generally based on each return as it was originally filed; the classification does not reflect any changes resulting from audit or other enforcement activities.

Taxable Income

Taxable income was the amount to which taxpayers applied the tax tables or the tax rate schedules to arrive at "tax generated." It was determined by subtracting from adjusted gross income "excess itemized deductions" (or by adding the "unused zero bracket amount") and the exemption amount. The zero bracket amount, that portion of income subject to tax at the zero percent rate, represented the first portion of taxable income.

Taxable income was not tabulated for deficit returns or for returns on which excess itemized deductions plus the exemption amount equalled or exceeded adjusted gross income.

Taxes From Special Computations

These represented the second component of "income tax before credits" (in addition to "tax generated") and consisted of:

(1) the "special averaging tax" (from Form 4972), computed by a taxpayer who received a lump-sum distribution from a qualified pension or retirement plan;

(2) the "multiple recipient special averaging tax" (from Form 5544), computed by a taxpayer who received a share of a single lump-sum distribution from a qualified pension or retirement plan;

(3) the tax on accumulation distributions of trusts (from Form 4970), computed by a taxpayer who received a distribution in the current year which was based on income accumulated by a trust in prior years;

(4) the tax from recapture of prior-year credit for purchase of a new principal residence (from Form 5405), computed by a taxpayer who had claimed the "new house

credit" for 1976, but then sold the new house in 1979 within 3 years after the purchase date and failed to replace it with another qualifying new house within an 18 month period; and

(5) the Section 72(m)(5) penalty tax from premature or excess distributions from a self-employed retirement (Keogh) plan or a trust.

Taxes Paid Deduction

Taxes allowed as a deduction from adjusted gross income included personal property taxes, State and local income taxes, certain State and local retail sales taxes, taxes paid to foreign countries or U.S. possessions unless a foreign tax credit was claimed, and real estate taxes except those levied for improvements that tended to increase the value of the property. Federal taxes (except for the windfall profit tax) and State and local taxes on cigarettes, tobacco, and alcoholic beverages were not deductible, nor were State and local fees for vehicle license plates (unless the fees were based on the value of the vehicle) or driver's licenses.

Taxes paid on business property were deducted separately on the schedules for business, rent, and royalty income, and are, therefore, excluded from the taxes paid statistics.

Taxpayments

These payments were, generally, made before the return was filed and were applied against tax liability to determine any amount payable or refundable at the time of filing. They consisted of the following:

(1) income tax withheld,

(2) excess social security taxes withheld,

(3) credit for tax on certain gasoline, fuel, and oil,

(4) payments on 1981 declaration of estimated tax,

(5) payment with request for extension of filing time,

(6) credit from regulated investment companies,

(7) overpayment of windfall profit tax, and

(8) other taxpayments.

Each of the above is described under a separate heading in this section.

While the earned income credit was shown as a taxpayment on the tax return itself, it is tabulated separately for purposes of this report and not included as part of taxpayments. (See also "Earned Income Credit" in this section.)

Total Income Tax

Total income tax was the sum of income tax after credits and the additional tax for tax preferences. It did not include any of the other taxes which made up "total tax liability." Total income tax was the basis for classifying returns as "taxable or nontaxable."

Total Itemized Deductions

Itemized deductions from adjusted gross income could be claimed for contributions, interest paid, taxes, medical and dental expenses, casualty or theft loss, union dues, tax return preparation fees, and other qualifying expenditures for which no specific line or schedule was provided on the return. Such other expenditures included educational expenses and certain expenses connected with the taxpayer's employment.

The Tax Reduction and Simplification Act of 1977 required that four groups of taxpayers itemize their deductions, even if those deductions were less than the zero bracket amount. Those individuals were either dependents with unearned income, married and filing a separate return when the taxpayer's spouse elected to itemize, dual status aliens (i.e., one who was both a nonresident alien and a resident alien or U.S. citizen during the year), or persons excluding income received from sources in U.S. possessions. Dependents with unearned income could substitute their earned income, if it was larger than their itemized deductions.

Total itemized deductions was the amount before the zero bracket amount was taken into account. It was tabulated only from returns showing positive adjusted gross income.

Total Tax Liability

Total tax liability was the sum of income tax after credits, additional tax for tax preferences, self-employment tax, social security tax on tips, tax from recomputing prior-year investment credit, taxes from individual retirement arrangements, and other taxes, reduced by the "earned income credit used to offset all other taxes" (defined under "Earned Income Credit" in this section). For purposes of this report, total tax liability did not include any advance earned income credit payments.

Type of Tax Computation (#)

There were four methods of computing the tax on income subject to tax. These methods were:

(1) regular tax, as computed from the tax tables or tax rate schedules accompanying the Forms 1040 or 1040A;

(2) alternative tax, computed on Schedule D, Capital Gains and Losses;

(3) income averaging, computed on Schedule G, Income Averaging; and

(4) maximum tax, computed on Form 4726, Maximum Tax on Personal Service Income.

All of these tax computation methods are described in this section. Returns with no income subject to tax are shown as having "no tax computation." While such returns have no tax generated, they could have had "taxes from special computations" (such as the special averaging tax, the penalty tax from premature or excess distributions from self-employed retirement plan, etc.).

Unemployment Compensation

Taxpayers were required to show amounts received as unemployment compensation on their Form 1040, effective for 1979. All or a portion of such compensation was also includable in adjusted gross income, and thus subject to tax. The includable portion was computed by adding total unemployment compensation to all other sources of income, and subtracting out an exclusion of $20,000 for unmarried taxpayers, or $25,000 for married taxpayers filing jointly; one-half of the excess over the exclusion, but not more than total unemployment compensation, was includable in adjusted gross income. Married taxpayers filing separately were not eligible for the exclusion.

Unused Zero Bracket Amount

This deduction concept represented the amount by which the zero bracket amount exceeded total itemized deductions. It could arise only on returns of taxpayers who were required, by law, to itemize their deductions. Such taxpayers consisted of: (1) married persons filing separately whose spouse chose to itemize; (2) dual status aliens; (3) persons excluding income from sources in U.S. possessions and (4) dependents with unearned income if their earned income was less than the zero bracket amount.

This last category of taxpayers consisted of any individual who could be claimed as a dependent by another taxpayer and had to file a tax return if he or she had unearned income (such as interest, dividends, or capital gains) in excess of $1000. In addition, as a result of the Tax Reduction and Simplification Act of 1977, these taxpayers were required to itemize their deductions, even if the total amount of deductions was less than the appropriate zero bracket amount. (This was in contrast to most other taxpayers who could itemize their deductions only if the total itemized deductions exceeded their zero bracket amount.) If these taxpayers also had earned income (such as wages), they could substitute the earned income, if larger, for the amount of itemized deductions; the amount of any earned income substituted, however, was limited to the zero bracket amount. For purposes of the statistics, those returns with earned income equal to or greater than the zero bracket amount were tabulated as zero bracket amount only returns. Those returns with earned income less than the zero bracket amount were tabulated as returns with itemized deductions, with any specified itemized deductions tabulated as reported by the taxpayer and any earned income used tabulated as part of "miscellaneous deductions."

(See also "Zero Bracket Amount," "Form of Deduction," and "Total Itemized Deductions" in this section.)

Windfall Profit Tax Refund (#)

Under certain situations, any credit for, or refund of overpaid windfall profit tax received in 1981 for Tax Year 1980 was to be reported as income on Schedule E. In general, the amount of credit or refund was income to the extent the taxpayer deducted windfall profit tax withheld for 1980 as an oil royalty expense on Schedule E, and received a tax benefit for the deduction in Tax Year 1980.

The net adjustment for windfall profit tax withheld was the amount actually withheld in 1981 reduced by any royalty owner's credit or refund for 1981, including any part of the credit used to offset any liability.

Work Incentive (WIN) Credit (#)

Taxpayers could take a credit against their income tax liability for wages paid an employee hired under the Federal Work Incentive (WIN) Program and to federal welfare recipients eligible for the Aid to Families with Dependent Children (AFDC) program. The WIN credit was equal to 50 percent of the first $6,000 of first-year WIN program wages plus 25 percent of the first $6,000 of second-year WIN program wages for each eligible employee. This program was intended to provide welfare recipients with the training and job opportunity needed to help them become economically independent.

The credit was limited to the tax liability (defined as total tax reduced by the elderly, foreign tax, investment, child care and political contributions credits). Amounts in excess of the tax liability limitations could be carried back 3 years and the remainder carried forward to the 15 years subsequent to 1981 for use in computing the credit for these years.

Zero Bracket Amount

This amount replaced the "standard deduction" which was in effect for 1976 and earlier years. For 1981, the zero bracket amount was $3,400 for married taxpayers filing jointly and surviving spouses, $2,300 for single persons and heads of households, and $1,700 for married taxpayers filing separately.

Introduction

The Tax Reform Act of 1976 (Section 2123) required the annual publication of data on individuals with high incomes as defined under four different income concepts, including the number of such individuals who did not pay any income tax and the importance of various tax provisions in making those individuals nontaxable. Data for the individuals with incomes of $200,000 or more as well as analyses of the reasons for the nontaxability or very low taxes of some individuals have been, or will be, published for the years 1975 through 1978 by the Office of Tax Analysis, Office of the Secretary of the Treasury. In order to make such data available on a more timely basis and to a wider audience, beginning with data for 1979, selected data for high income individuals, taxable as well as nontaxable, have been published, without analysis, as part of the Internal Revenue Service's Statistics of Income program.

This section contains 12 tables with data from income tax returns with incomes of $200,000 or more. Data are shown for all returns, taxable returns, and nontaxable returns. Separate parts of each of the four text tables contain data on high income returns as defined by each of the four different income concepts, whereas two income concepts, adjusted gross income (AGI) and expanded income, are depicted in the eight basic tables. The tables show:

- the numbers of high income returns (total, taxable, and nontaxable) under the various income concepts (Tables 5A and 5B);
- the distribution of taxable income as a percentage of total income (Tables 5C and 5D);
- the frequency and amount of various sources of income, exclusions, deductions, and tax credits as well as the relationships between the two income concepts (Tables 5.1 and 5.2);
- the frequencies with which various deductions and tax credits are the most important and second most important items in reducing (or eliminating) income taxes (Tables 5.3 and 5.4);
- the frequency with which various itemized deductions and tax credits occur as certain percentages of income (Table 5.5 and 5.6); and

*Allen H. Lerman, of the Office of Tax Analysis, U.S. Treasury Department, designed the tables and prepared the text for this section.

-- the distribution of effective tax rates, that is, income tax as a percentage of income (Tables 5.7 and 5.8).

Tables 5A, 5C, 5.1, 5.3, 5.5, and 5.7 contain data with "Foreign Tax Credits" treated as items which reduce U.S. income taxes; this is the treatment on tax returns. Tables 5B, 5D, 5.2, 5.4, 5.6, and 5.8 are similar to the first set of six tables but treat "Foreign Tax Credits" as part of the individual's income tax liability. This different treatment is explained in more detail below under "Foreign Tax Credits."

Economic Income, the Ideal Measure

High income tax return data are published to help analysts assess the equity and impact of the income tax system on high income individuals. For this purpose, both income and income taxes must be measured accurately.

Economists generally agree that, for analyzing the impact of taxes, the ideal measure of income over a particular period of time, say a year, is the amount that the individual or family has consumed over that period plus the change in its net worth. For example, if a family spends $10,000 and saves $2,000 during the year, economists would say that the family has had an income of $12,000. Similarly, if the family spends $10,000 but owns an asset that has decreased in value by $1,000, economists would say that the family has had an income of only $9,000.

A brief examination of the differences between income as defined by economists, so-called economic income, and the "adjusted gross income" concept currently used for purposes of income tax administration, illustrates some of the problems of measuring income, especially for high income individuals.

Adjusted Gross Income

The concept of "adjusted gross income" (AGI) was developed for tax administration. It has never been meant to be an accurate measure of so-called economic income, and it is well-recognized that AGI is deficient as a measure of a taxpayer's economic income. AGI excludes income from certain sources, such as interest from tax-exempt State and local government bonds, social security benefits, imputed rent on owner-occupied housing, and the value of many employee fringe benefits. Also, while not strictly excluded from AGI, income from other activities is deferred to a later year, or indefinitely, for income tax purposes. Depreciation deductions allowed for income tax purposes which exceed the decrease in economic value often reduce AGI early in the life of an asset, but the resulting lower depreciation deductions in later years may raise AGI. The net effect of accelerated depreciation is to postpone taxes, perhaps indefinitely.[1]

Adjusted gross income excludes most changes in net worth, such as the excluded portion of realized long-term capital gains and all accrued, but unrealized, capital gains.[2]

Even though some types of income are excluded, AGI may overstate economic income because some expenses incurred in the production of income are not deductible in the computation of AGI. Most of these expenses are deductible from AGI in calculating taxable income, but only if the taxpayer "itemizes" his or her deductions. Expenses which fall into this category include certain employee expenses and expenses attributable to a taxpayer's investments (as opposed to his or her active operation of a trade or business), including, but not limited to, interest expense incurred in connection with investments in securities. Although net capital losses reduce economic income, only the first $3,000 of net realized capital losses may be deducted in the computation of AGI. Any additional realized losses must be carried forward to future years.

Redefining Income

Ideally, the impact of all taxes should be measured relative to economic income. However, no accurate, detailed data on such a broadly-defined income measure are available from income tax returns (or from any other source) for a cross-section of American taxpayers. As a practical matter, any broad income measure must be calculated from data already available from Federal individual income tax returns. Thus, a more comprehensive income measure must start from AGI and, to the extent that data are available, must make adjustments for omitted income items and for expenses which ought to be deductible in calculating economic income.

Omitted Income

Tax returns contain information about only a portion of the income which is included in economic income but excluded from AGI. The omitted income which can be identified on tax returns consists of the dividend and interest exclusion of up to $200 per tax return (up to $400 on joint returns), the excluded portion of long-term capital gains (and current-year losses), and the income from sources which were considered to be tax preferences for purposes of the minimum tax. It should be noted that unless such preferences exceed $10,000, the total

[1] The Internal Revenue Code defines AGI as all gross income that is not specifically excluded or reduced by statutory adjustments. Among the exclusions are (1) trade or business deductions (including some deductions by employees), (2) the deduction for 60 percent of net long-term capital gains, (3) limited deductions for losses from the sale or exchange of property, (4) deductions attributable to rents and royalties, (5) the moving expenses adjustment, and (6) deductions for contributions to individual retirement arrangements (IRA's) and H.R. 10 (Keogh) retirement plans.

[2] Gross income includes only income which has been "realized." Thus, for tax purposes, accrued increases or decreases in the value of assets generally are not included in income until a gain or loss is realized by a sale or exchange. Similarly, gross income does not include the value of the services received from the use of durable goods, such as imputed net rent of owner-occupied housing. Finally, gross income and, hence, AGI do not include interest on State and local government debt, social security benefits, workers' compensation benefits, and most types of welfare benefits.

NOTE: Detail may not add to total because of rounding.

amount of such preferences is not recorded, since the taxpayer did not have to file Form 4625.[3]

Even after including preference income which is not in AGI but which is identifiable on tax returns, several major sources of income for high income taxpayers are still omitted:

-- interest on tax-exempt State and local bonds;
-- certain agricultural expenses which are deducted when paid even though related income items are not includable in income until a later year;
-- straight-line depreciation deductions on real estate to the extent that they exceed economic depreciation; and
-- the value of employee fringe benefits.[4]

For real estate, the combination of a shorter life for tax purposes than the true economic life of the property and the use of accelerated depreciation methods may produce tax depreciation deductions which exceed economic depreciation, especially in the early years of ownership. At some future time, income may be correspondingly higher; but in the meantime, the taxpayer has had the interest-free use of the deferred taxes. Also, if taxed in the future, the income may be converted into a long-term capital gain which is taxed at a lower rate than ordinary income is.

Because sources of income not identifiable from tax return data are excluded, all of the income measures which are used in this report may understate economic income. As a consequence, some individuals with high economic incomes may have been omitted completely from the high income group covered by this report. Moreover, even for the individuals included, the income of some will be understated and taxes as a percentage of income (that is, the effective tax rate) will be overstated.

Investment Expenses

In determining economic income, it generally would be appropriate to deduct all expenses incurred in the production of income, including those related to any income-producing investments. Since economic income would include all investment income, it would be proper to deduct all investment expenses without limit. Investment expenses in excess of income would then represent a net economic loss, roughly akin to a net operating loss from a trade or business. However, such a liberal deduction from investment-related expenses is not necessarily correct when all income items are not included currently.

If all income is not included currently, the full deduction for investment expenses might represent a mismatching of receipts and expenses and might result in understating income. For example, if a taxpayer borrows funds to purchase securities, his or her net income would be understated if the taxpayer deducts all of his or her interest payments on the loan but does not include as income any accrued gains on the securities. A similar mismatching of income and expenses could occur if investment expenses that should properly be capitalized are deducted when they are paid. In these instances, a more accurate measure of income might be obtained by postponing the deduction of the expense until such time as the income is included on the tax return.

Additional problems are created when a person with a loan has both income-producing assets, such as securities, and non-income-producing assets, such as a vacation home or yacht. It is not possible to determine what portion of the interest expense should be attributed to the income-producing assets and, therefore, ought to be deductible in measuring income.

As a result of these problems, it has been necessary to set arbitrary limits on the amount of investment expenses which are deductible in calculating a broader measure of income.

Investment expenses which have not been deducted in determining AGI appear on a Federal individual income tax return in two places. Investment interest appears as part of the itemized deduction for interest; other investment expenses such as management fees are included in the miscellaneous category of itemized deductions. For purposes of determining expenses which should be deductible in calculating an approximation to economic income, investment expenses have been defined as the entire interest deduction other than interest paid on a home mortgage. Other investment expenses could not be determined since they could not be separated from the remainder of "Miscellaneous Deductions." Hence, they have not been used in the adjustment for investment expenses.

To the extent that interest expenses do not exceed investment income, they are a deduction in the computation of broadly-measured income. One consequence of this definition is that investment expenses can never turn positive net investment income into an investment loss. Generally, allowing investment expenses to offset all of investment income is generous and tends to understate broadly-measured income. On the other hand, limiting investment expenses to investment income may overstate income by disallowing genuine investment losses. This arbitrary procedure has been selected because, with the omission of accrued capital gains from income, allowing all investment expenses to be deducted would represent a mismatching of income and expenses.

The amount of investment income against which investment interest can be offset depends on the amount of investment income included in the income measure under consideration. Investment income consists of interest, dividends, and net capital gains (or losses). However, if only a portion of capital gains are included in the income concept, as is the case with AGI, then only that portion is considered to be investment income. A similar

[3] If the sum of tax preferences which were subject to the "minimum tax" exceeded $10,000 ($5,000 in the case of married persons filing separate returns), the taxpayer was required to file a Form 4625, listing preferences by amount and type. For such taxpayers, the "tax preferences excluded from adjusted gross income," as tabulated in Tables 5.1 and 5.2, include the following items: the dividend and interest exclusion; the excluded portion of long-term capital gains; the excess of accelerated depreciation over straight-line depreciation on certain real property and property subject to a lease; the excess of rapid amortization allowable on certain capital expenditures (such as pollution control facilities) over depreciation otherwise allowable; the excess of percentage depletion over the "adjusted basis" of the property; unrealized gain on the exercise of stock options; and certain intangible drilling costs to the extent that they exceed the otherwise-allowable amortization deduction.

The itemized deduction tax preference item (which, along with the excluded long-term capital gains, is reported on Form 6251) does not represent income which has been omitted; hence, it has not been counted as a preference item in calculating a broader measure of income.

[4] The omission of social security benefits and certain other items is relatively unimportant for high income taxpayers.

adjustment is also made for the dividend and interest exclusion of up to $200 per tax return ($400 on a joint return).

Expanded Income

The Congress has asked for high income data to be tabulated on the basis of a measure closely approximating economic income but using only data available on tax returns. This measure is called "expanded income."

Expanded income is defined as adjusted gross income plus items of tax preference income excluded from AGI less investment expenses to the extent that they do not exceed investment income.[5] Tax preferences that are included are the $200 per tax return exclusion for qualifying dividends and interest ($400 on a joint return), the excluded portion of net long-term capital gains, and, where the taxpayer has filed a minimum tax form with his or her tax return, all other preferences subject to the minimum tax.[6] For individuals, the only preference income items of significance other than the excluded portion of capital gains are the excess of accelerated depreciation over straight-line depreciation on real property and on personal property subject to a lease, the excess of percentage depletion over the cost of the property, and deductions for intangible drilling costs in excess of the amount deductible if these costs had been amortized. Because expanded income is based on tax return data, it excludes items such as interest on tax-exempt State and local bonds, accrued but unrealized capital gains, straight-line depreciation on real estate in excess of economic depreciation, and most employee fringe benefits.

Four Income Measures

The Congress has mandated that high income tax return data be selected and classified on the basis of four definitions of income. Expanded income and AGI have already been discussed. Each of the two other measures embodies only one of the two major conceptual differences between expanded income and AGI. "Adjusted gross income plus tax preferences" is AGI plus the amount of tax preference income. "Adjusted gross income less investment interest" is AGI less the amount of investment interest to the extent that it does not exceed investment income.

When ranked according to size of income, AGI plus preferences is largest, AGI less investment interest is smallest, and AGI and expanded income fall in the middle. For any given taxpayer, AGI can be larger or smaller than expanded income depending on whether preferences are larger or smaller than investment interest.

The four income concepts are related in the following manner:[7]

Expanded Income
= Adjusted Gross Income + Preferences - Investment Interest

Adjusted Gross Income
= Expanded Income - Preferences + Investment Interest

Adjusted Gross Income plus Preferences
= Adjusted Gross Income + Preferences
or = Expanded Income + Investment Interest

Adjusted Gross Income less Investment Interest
= Adjusted Gross Income - Investment Interest
or = Expanded Income - Preferences

Expanded income is the measure which most closely approximates economic income.

Foreign Tax Credits

United States income taxes are based on global (worldwide) income. Thus, U.S. citizens and residents generally must include income on their U.S. income tax returns regardless of whether it is obtained in the United States or in a foreign country. However, when a taxpayer has foreign-source income, the U.S. income tax computed on global income may often be reduced on a dollar-for-dollar basis by the amount of foreign income taxes which have been paid on that foreign income. These offsets for foreign income taxes are called "Foreign Tax Credits."[8]

Statistics of Income (SOI) data (which are collected as a by-product of tax administration) include global income as reported on U.S. income tax returns, but SOI data usually only include U.S. income taxes after deducting Foreign Tax Credits. Where taxpayers have income from foreign sources, this procedure understates their tax liabilities and their effective tax rates. If all incomes are reported on U.S. tax returns, a more accurate measure of their tax burden is obtained if all income taxes--U.S. as well as foreign--are also included. Analysis of high income tax returns has indicated that a substantial portion of the so-called high income nontaxables had a large share of their income from non-U.S. sources and had paid substantial amounts of foreign income taxes on that income. Thus, it does not seem appropriate to classify these individuals as nontaxable or to classify their foreign tax credits as special tax benefits.

In order to give a more realistic picture of the taxation of individuals with foreign-source income, this section includes six tables for which income tax liability has been redefined to consist of the total amount of U.S. income taxes (income taxes after credits plus the minimum tax) plus the amount of Foreign Tax Credits. Because information on foreign tax liabilities is not available on, or tabulated from, U.S. income tax returns, Foreign Tax Credits were selected as a proxy for foreign tax liabilities. Where foreign tax rates exceed U.S. rates, and in certain other instances, Foreign Tax Credits will be less than foreign tax liabilities. In such cases, using Foreign Tax Credits as a proxy for foreign taxes understates global income taxes.

---

[5] For the sake of brevity, "investment interest to the extent that it does not exceed investment" income is called "investment interest." "Investment interest in excess of investment income" is called "excess investment interest."

[6] See footnote 3.

[7] The borderline between excess and nonexcess investment interest depends on the income items actually included under each income concept. Hence, the investment interest adjustment differs depending on which income definition is used.

[8] Certain amounts of income earned abroad are excluded from AGI by statute. Any foreign taxes paid on such income are not creditable against U.S. income taxes. The tables in this section do not reflect either the amounts of income or taxpayments so excluded.

In cases where Foreign Tax Credits are for taxes paid on income from earlier years, use of Foreign Tax Credits may either overstate or understate global taxes on the current year's income.

Tables 5A, 5C, 5.1, 5.3, 5.5, and 5.7 are based on Foreign Tax Credits as treated on tax returns; that is, as tax credits reducing U.S. income taxes. In those tables, tax liabilities consist solely of U.S. income tax liabilities after deducting any Foreign Tax Credits. Tables 5E, 5D, 5.2, 5.4, 5.6, and 5.8 repeat the contents of the above six tables under the assumption that Foreign Tax Credits represent income tax liabilities. Thus, these tables permit a comparison of global income tax liabilities with global income. For purposes of these tables, income taxes are defined as the amount of U.S. income taxes plus the amount of Foreign Tax Credits.

Comparing Exclusions, Deductions, Tax Credits, and Special Tax Computations

In order to compare the importance of various exclusions, deductions, tax credits, and special tax computations (such as the minimum tax on tax preferences, the maximum tax on personal service income, and income averaging), the different types of items must be put on the same basis. One way of doing so is to calculate the size of the deduction which would be necessary to reduce (or increase) income tax by the same amount as a tax credit. This amount is called the "deduction equivalent" of the tax credit, etc.

The deduction equivalent of a tax credit or special tax computation is the difference between the taxable income which, using ordinary tax rate schedules, would yield the actual tax before the provision in question is considered and the actual tax after the provision. For example, the "deduction equivalent of all tax credits" is equal to the difference between "taxable income which would yield tax before credits" and "taxable income which would yield tax after credits."

Under this method of equating the value of deductions, exclusions, credits, and special tax computations, the order in which the various credits and special tax computations are calculated affects the value of their deduction equivalents. Because the tax rate schedules are progressive with successive increments to income taxed at successively higher tax rates, the deduction equivalent of the credit converted last to a deduction equivalent will be larger (for the same amount of a credit) than the item converted first.

The deduction equivalents of tax credits shown in Tables 5.5 and 5.6 were computed by assuming that deductions and exclusions reduced taxes before tax credits. As a result, the deduction equivalent of tax credits is biased upwards.

The total impact of various deductions, exclusions, tax credits, and special tax computations can only be measured if the aggregate value of these items in reducing, or increasing, income taxes is put on a comparable basis. Two often-used measures of the value of deductions and exclusions are (1) the share of income which has been excluded from tax and (2) the share of income which remains subject to tax. The latter measure can also include the impact of tax credits and special tax computations if the deduction equivalent of these items is added to "taxable income" defined in the ordinary manner. Doing so yields what this report calls "Taxable Income which would yield Income Tax Before Credits," "Taxable Income which would yield Income Tax After Credits," and "Taxable Income which would yield Total Income Tax." These measures could be computed directly from taxable income and from the deduction equivalents of the appropriate items. However, these measures were computed by using the tax rate schedules to calculate the amount of taxable income which would have been necessary (when subject to tax under the appropriate, ordinary tax rate schedule) to yield the given amount of tax.

Unaudited Data

Tax return data used in the Statistics of Income program are as they have been reported on tax returns filed with the Internal Revenue Service. Certain, obvious arithmetic errors have been corrected and certain adjustments have been made to achieve consistent statistical definitions, but otherwise the data have not been altered. In particular, the data do not reflect any changes which may have been made as a result of audits by IRS. While this is true of data throughout the SOI report, it is of particular relevance for high income tax returns. Because of the greater complexity of these returns, there is a higher probability of error and more scope for disagreement about the proper interpretation of tax laws.

The fact that the data have been drawn from returns which have not been audited is of even greater importance for those high income returns which are nontaxable. Almost any audit changes would make such returns taxable. Even where the tax consequences were minor, such returns would be reclassified from nontaxable to taxable, thereby changing the counts of nontaxable returns.

Numbers of High Income Tax Returns

For 1981, the number of tax returns with incomes of $200,000 or more ranged from 127,768 to 186,890 depending on the income concept. These numbers represent from thirteen one-hundredths of one-percent (0.13 percent) to twenty one-hundredths of one-percent (0.20 percent) of all tax returns filed. Although the total number of tax returns filed increased by only two percent between 1980 and 1981, the number of high income returns increased by 17 percent to 18 percent.

Of all high income returns, only 188 to 363 were nontaxable, even if only income taxes paid to the United States are included. Even though nontaxable high income returns represent only a very small proportion (0.15 percent to 0.19 percent) of all high income returns, both their total number and their proportion increased substantially between 1980 and 1981. As measured by expanded incom , high income, nontaxable returns increased by 54 percent from 198 returns (0.13 percent of the total) for 1980 to 304 returns (0.17 percent of the total) for 1981. As measured by AGI, nontaxable returns increased by 58 percent from 143 returns (0.12 percent of the total) for 1980 to 226 returns (0.16 percent of the total) for 1981.

If nontaxability is measured by worldwide income tax liabilities, only 54 to 156 returns were not subject to tax. Thus, treating Foreign Tax Credits as if they represent tax payments reduces the number of nontaxable high income tax returns by between 57 percent and 71 percent. Between 1980 and 1981, the number of such returns as measured by expanded income remained the same. However, as measured by AGI, the number of nontaxable returns increased by 41 percent from 56 to 79.

Using expanded income, there were 175,092 high income returns. Also, 304 returns, or 0.17 percent, showed no U.S. income tax liability, but only 114 returns, or 0.07 percent, showed no worldwide income tax liability.

Using AGI, there were 138,136 high income returns. Two hundred twenty six returns, or 0.16 percent, showed no U.S. income tax liability, but only 79, or 0.06 percent, showed no worldwide income tax liability.

Table 5.1—Returns With and Without Total Income Tax and With Income $200,000 or More Under Alternative Concepts: Income, Deductions, Credits and Tax, Classified by Tax Status

( ) Less than $500

*Estimate should be used with caution because of the small number of sample returns on which it is based.
†Data deleted to avoid disclosure of information for specific taxpayers. Deleted data are included in the appropriate totals
[1]Includes unemployment compensation in adjusted gross income
[2]After subtraction of rate reduction credit.
[3]Does not include rate reduction credit
[4]Computed by dividing .9875 to allow for rate reduction credit, and looking up result in the tax rate schedule
NOTE: Detail may not add to total because of rounding

*Estimate should be used with caution because of the small number of sample returns on which it is based.
†Data deleted to avoid disclosure of information for specific taxpayers. Deleted data are included in the appropriate totals.
[1]Includes unemployment compensation in adjusted gross income
[2]After subtraction of rate reduction credit
[3]Does not include rate reduction credit
[4]Computed by dividing .9875 to allow for rate reduction credit, and looking up result in the tax rate schedule
NOTE: Detail may not add to total because of rounding

Instructions for preparing Form 1040

Department of the Treasury / Internal Revenue Service

and instructions for

Schedules A, B, C, D, E, F, R, RP, and SE

(Tax Table—pages 34–39)

From the Commissioner

Here is the information you need to prepare Form 1040 and related schedules. You may, however, be able to file the shorter Form 1040A instead. We have changed the 1040A this year so that it may be used by taxpayers with higher incomes and more interest and dividends. Check "Which Form to File" on page 3 of the instructions to see which form you should use this year.

Although there have been some changes as a result of recent tax legislation, you will find that most of the lines on Form 1040 and the related schedules are the same as last year. Major changes are explained on page 2 under "Changes for 1981."

Be sure to report your taxable income from all sources. In fairness to the vast majority of taxpayers who report all their income, we make every effort to identify others who underreport.

If you need help completing your return, call us at the number listed for your area on page 44 or 45. If you have suggestions for improving the forms or instructions, please write and let us know.

After completing your return, check to make sure it is correct, sign it, and mail it early. If you owe tax, please include payment of the full amount with your return. Be sure to keep a copy for your records.

Thank you for your cooperation.

Roscoe L. Egger, Jr.
Commissioner of Internal Revenue

Changes for 1981

New Rate Reduction Credit

Your 1981 tax has been reduced by a new one-year credit. The rate reduction credit has been built into the Tax Table for you. Filers who use the Tax Rate Schedules should see the instructions for the Tax Computation Worksheet (on the same page as the Tax Rate Schedules).

Tax Table Changes

Generally, all filers with taxable incomes of less than $50,000 must use the recently expanded Tax Table. See the instructions for "Tax Computation" on page 12 for more details.

Also, the built-in deduction for exemptions has been removed from the 1981 Tax Table. Instead, the deduction for exemptions is now shown on line 33 of the 1981 Form 1040 and is then subtracted to arrive at taxable income. You then compute your tax from the Tax Table using this taxable income figure. This change enables us to provide you with one tax table instead of four. Keep this change in mind if you want to compare this year's tax table with last year's tax tables.

Form 1040A Interest and Dividend Ceiling Removed

If you filed Form 1040 last year **only** because your interest or dividend income was over $400, you may be able to use Form 1040A this year. Form 1040A is easier than Form 1040 to fill out. See "Which Form to File" on page 3 of the instructions.

New Exclusion for Interest and Dividend Income

Generally, you can now exclude up to $200 ($400 if married and filing a joint return) of qualifying interest and dividend income. See the instructions for line 8d on page 9 for more details.

New Exclusion for Qualified Interest from All-Savers Certificates

You are entitled to a lifetime exclusion of up to $1,000 ($2,000 if married filing a joint return) of qualifying interest from All-Savers Certificates. Claim this exclusion on Schedule B (Form 1040). Please see the instructions on page 20 for more details.

Pension Reporting Simplified

Filers who had to use Schedule E (Form 1040) to report pension and annuity income in the past can now report these amounts directly on Form 1040. A new line (16 a and b) has been added to eliminate the need to fill out Schedule E by those taxpayers who used only Part I in prior years.

Gain on Sale of Principal Residence

You can exclude up to $125,000 of gain from the sale of your principal residence after July 20, 1981, if you were 55 or over and met certain other tests. See **Form 2119** for more information.

Alternative Tax Computation

If you had a net long-term capital gain, you may pay less tax by using the alternative tax computation on Schedule D. Please read the instructions for Schedule D to see if you qualify.

Important Reminders for 1981

Estimated Tax Payments by Retirees

If you are retired now or plan to retire in 1982, you may have to make estimated tax payments on Form 1040–ES. Or, you may choose to have income tax withheld from your pension or annuity **by giving the payer Form W–4P.** If you do not pay enough estimated tax or have enough tax withheld, you may be charged a penalty. For more details, see **Publication 505,** Tax Withholding and Estimated Tax

Do You Want More or Less Income Tax Withheld in 1982?

If the refund you receive is large, you may want to decrease your withholding for 1982. If you are a working married couple, or had two or more jobs, or had income not subject to withholding, you may need to have more tax withheld to avoid owing IRS a large amount. See **Income Tax Withholding for 1982** on page 17 for more details.

IRS Will Figure Credit for the Elderly

If you want us to figure your credit for the elderly, see **IRS Will Figure Your Credits,** on pages 3 and 4 of the instructions.

Could You Pay Less By Income Averaging?

If there has been a large increase in your income this year, you may be able to pay less tax by using the income averaging method to figure your tax. Please get Schedule G (Form 1040) to see if you qualify.

Divorced Persons—Property Settlement

If you transfer assets to your spouse as part of a property settlement because of divorce, you may have a taxable gain. If you transfer business or investment property, you may have a taxable gain or a deductible loss. Please get **Publication 504,** Tax Information for Divorced or Separated Individuals, for details.

Form 1040 General Instructions

Who Must File

Your income and your filing status generally determine whether or not you must file a tax return.

You must file a return for 1981, even if you owe no tax:	And your income was at least:
If you were single (this also means legally separated, divorced, or married with a dependent child and living apart from your spouse for all of 1981) and:	
Under 65	$3,300
65 or over	4,300
If you were married filing a joint return and were living with your spouse at the end of 1981 (or on the date your spouse died), and:	
Both were under 65	5,400
One was 65 or over	6,400
Both were 65 or over	7,400
If you were married filing a separate return or married but were not living with your spouse at the end of 1981	1,000
If you could be claimed as a dependent on your parents' return, and had taxable dividends, interest, or other unearned income of $1,000 or more	1,000
If you were a qualifying widow(er) with a dependent child and:	
Under 65	4,400
65 or over	5,400
If you could exclude income from sources within U.S. possessions	1,000
If you were self-employed and your net earnings from this work were at least $400	
If you received any advance earned income credit (EIC) payments from your employer(s) during 1981	

Even if your income was less than the amounts shown above, you must file a return if you owe any taxes, such as:

- FICA (Social Security) on tips you did not report to your employer.
- Minimum Tax.
- Tax on an IRA (Individual Retirement Arrangement).
- Tax from recomputing a prior year investment credit.

These rules apply to all U.S. citizens and resident aliens, including those under 21 years of age. They also apply to those nonresident aliens and resident aliens who are married to citizens or residents of the United States at the end of 1981 and who file a joint return as discussed on page 6, under *Special Rule for Aliens*.

Note: *Different rules apply if you were a nonresident alien at any time during 1981 (unless you file a joint return as mentioned above). You may have to file* **Form 1040NR,** *U.S. Nonresident Alien Income Tax Return. Also get* **Publication 519,** *U.S. Tax Guide for Aliens.*

Who Should File

Even if you do not have to file, you should file to get a refund if income tax was withheld from your pay. Also file if you can take the earned income credit. If you file for either of these reasons only, you may be able to use Form 1040A.

Which Form to File

You MAY Be Able to Use Form 1040A if:

- You had only wages, salaries, tips, unemployment compensation, interest, or dividends

AND

- Your taxable income is less than $50,000

Since Form 1040A is easier to complete than Form 1040, you should use it if you can unless Form 1040 lets you pay less tax. However, even if you meet the above tests, you may still have to file Form 1040

You MUST Use Form 1040 if:

- You itemize deductions.
- Your spouse files a separate return and itemizes deductions. Exception: You can still use Form 1040A if you have a dependent child and can meet the tests on page 6 under Married Persons who Live Apart (and Abandoned Spouses).
- You can be claimed as a dependent on your parents' return AND had interest, dividends, or other unearned income of $1,000 or more.
- You are a qualifying widow(er) with a dependent child.
- You were a nonresident alien during any part of 1981 and do not file a joint return (or **Form 1040NR**).
- You were married to a nonresident alien at the end of 1981 who had U.S. source income and you do not file a joint return. Exception: You can still use Form 1040A if you meet the tests on page 6 under Married Persons Who Live Apart (and Abandoned Spouses).
- You take any of the Adjustments to Income shown on Form 1040, lines 22 through 29.
- You file any of these forms:

Form 1040–ES, Declaration of Estimated Tax for Individuals, for 1981 (or if you want to apply any part of your 1981 overpayment to estimated tax for 1982).

Schedule G, Income Averaging.

Form 2210, Underpayment of Estimated Tax by Individuals.

Form 2555, Deduction from, or Exclusion of, Income Earned Abroad.

Form 4563, Exclusion of Income from Sources in United States Possessions.

- You owe any of the taxes on Form 1040, line 36 or lines 48 through 52.
- You claim any of the credits on Form 1040, lines 39 through 45.
- You claim any of the payments on Form 1040, lines 58, 60, 61, or 62.
- You are required to fill in Part III of Schedule B for Foreign Accounts and Foreign Trusts (see page 21 of instructions).

When to File

You should file as soon as you can after January 1, but not later than April 15, 1982. If you file late, you may have to pay penalties and interest. Please see the instructions for **Penalties and Interest** on page 16. If you know that you cannot meet the April 15 deadline, you should ask for an extension on **Form 4868,** Application for Automatic Extension of Time to File U.S. Individual Income Tax Return.

IRS Will Figure Your Tax and Some of Your Credits

If you want us to, we will figure your tax for you. If you paid too much, we will send you a refund. If you did not pay enough, we will bill you for the balance. You will not be charged interest or penalties if the bill for tax due is paid within 30 days of the notice date, or by the due date for your return, whichever is later.

We can figure your tax if you meet all of the conditions below.

- All of your income for 1981 was from one or more of these:

a. Salaries and Wages.
b. Tips
c. Interest
d. Dividends
e. Pensions or Annuities.

- You do not itemize deductions.
- You do not file **Schedule G,** Income Averaging
- You do not file **Form 2555,** Deduction from, or Exclusion of, Income Earned Abroad
- Your adjusted gross income (line 31) is not more than $50,000.
- You (and your spouse if filing a joint return) sign and date your return and mail it by April 15, 1982
- You do not want any of your refund applied to next year's tax.
- You give us enough information so that we can figure the tax. Please read the following instructions

a. Fill in the parts of your return through line 31 that apply to you. The Line By Line Instructions which start on page 5 explain how to fill in your return.

b. If you are filing a joint return, use the space under the words "Adjustments to Income" on the front of your return to show your adjusted gross income and your spouse's adjusted gross income separately.

c. Read lines 38 through 61. Fill in the lines that apply to you, but do not fill in the Total lines. See the instruction below if you want us to figure your Credit for the Elderly or Earned Income Credit.

d. Fill in any forms or schedules asked for on the lines you completed, and attach them to the return when you file it.

We will figure some of your credits too

Fill in your return through line 31 as explained above. Follow the instructions below and sign, date, and mail it before the due date. We will then figure these credits if you qualify:

Credit for the Elderly. Follow the instructions below. Be sure to attach the schedule to your return. Write "CFE" on Form 1040, line 39.

Schedule R.—Check the box for your filing status and age, and fill in line 2(a)

Schedule RP.—Enter the name of the public retirement system. Also check the box for your filing status and age, and fill in lines 2 and 5.

Earned Income Credit. On line 57 of your return write "EIC."

Other Information

Death of Taxpayer

Did the taxpayer die before filing a return for 1981?—If so, the taxpayer's spouse or personal representative must file and sign a return for the person who died if the deceased was required to file a return. A personal representative can be an executor, administrator, or anyone who is in charge of the taxpayer's property

If the taxpayer did not have to file a return but had tax withheld, a return must be filed to get a refund.

If your spouse died in 1981 and you did not remarry in 1981, you can file a joint return. You can also file a joint return if your spouse died in 1982 before filing a return.

A joint return should show your spouse's 1981 income before death and your income for all of 1981. Write "deceased" and show the date of death in the name and address space of Form 1040 Also write "Filing as surviving spouse" in the area where you sign the return. If someone else is the personal representative, he or she must also sign

If you are claiming a refund as a surviving spouse filing a joint return with the decedent and you follow the above instructions, no other form is needed to have the refund issued to you. However, all other filers requesting a refund due a decedent must file **Form 1310,** Statement of Person Claiming Refund Due a Deceased Taxpayer, to claim the refund

If you want more details, please get **Publication 559,** Tax Information for Survivors, Executors, and Administrators

U.S. Citizens Living Abroad

Generally, foreign source income must be reported on your return. Please get **Publication 54,** Tax Guide for U.S. Citizens Abroad, for more information.

Voluntary Income Tax Assistance (VITA) and Tax Counseling for the Elderly (TCE)

In addition to the tax assistance available in most local IRS offices, free help is available in most communities to lower income, elderly, handicapped, and non English speaking individuals in preparing Form 1040A and the basic Form 1040. Call the toll-free telephone number for your area for the location of the volunteer assistance site near you

Unresolved Tax Problems

IRS has a Problem Resolution Program for taxpayers who have been unable to resolve their problems with IRS. If you have a tax problem you have been unable to resolve through normal channels, call the toll free telephone number for your area and ask for the Problem Resolution Office. This office will take responsibility for your problem and insure that it receives proper attention. Although the Problem Resolution Office cannot change the tax law or technical decisions, it can frequently clear up misunderstandings that resulted from previous contacts

Where to File

Please use the addressed envelope that came with your return. If you do not have an addressed envelope, or if you moved during the year, mail your return to the **Internal Revenue Service Center** for the place where you live. No street address is needed

Steps for Preparing Your Return

We have set up this year's instructions using 9 steps. You should complete the first 4 steps that follow BEFORE you begin to fill out your return.

Then, you may find it helpful to follow the Line-By-Line Instructions. They begin on this page and end on page 16.

Finally, steps 6 through 9 are on page 16. They are the steps you should take after your Form 1040 (and other schedules and forms you need) are filled in.

If you follow these steps and read the Line-By-Line Instructions, we feel you can fill in your return quickly and accurately. If you have any questions, call or visit an Internal Revenue Service office.

Step 1

Get all of your income records together.

These include any Forms **W–2, W–2G, W–2P, 1087,** and **1099** that you may have. If you don't get a Form W–2 by January 31, or if the one you get isn't correct, please contact your employer as soon as possible. Only your employer can give you a Form W–2, or correct it. If you cannot get a Form W–2 by February 15, please contact an IRS office.

If you have someone prepare your return for you, make sure that person has all your income records and expense records so he or she can fill in your return correctly. Remember, if someone else prepares your return incorrectly—you are still responsible.

Step 2

If you plan to take tax credits or itemize deductions, get all the information and expense records you will need.

Pages 13 through 20 of these instructions tell you what credits and deductions you can take. Some of the records you may need are:

- Medical and dental payment records.
- Real estate and personal property tax receipts.
- Interest payment records for items such as a home mortgage and installment payments on cars or appliances.

Step 3

Get any forms, schedules, or publications you need.

In general, we mail forms and schedules directly to you based on what you filed last year. Before you fill in your return, look it over to see if you need more forms or schedules.

If you think you will need any other forms, get them before you start to fill in your return. Your local bank or post office, or any IRS office, should have most of them. Or, you can use the order blank on the next to the last page of this instruction booklet. We will send you the forms, schedules, instructions, and publications you ask for.

Step 4

Use the mailing label from the forms booklet we sent you and make sure it is correct.

If it isn't, mark through it and correct it on the label. Show your apartment number if you have one. Use of the label helps us identify your account, saves processing time, and speeds refunds.

If the label is for a joint return and the social security numbers are not listed in the same order as the first names, show the numbers in the correct order.

Do not attach your label to your return until you finish filling it in and check all entries.

If you don't have a social security number, please get **Form SS–5** from a Social Security Administration (SSA) office. File it with your local SSA office early enough to get your number before April 15. If you do not get the number by then, file your return without it and write "Applied for" in the block for your social security number.

Step 5

Fill in your return.

Line-By-Line instructions for filling in the Form 1040 begin below and end on page 16. Please follow them

Step 6 picks up on page 16.

Line-By-Line Instructions—Form 1040

Name, Address, and Social Security Number Blocks

Please use the mailing label from the forms booklet we sent you. If you did not receive a booklet with a label, print or type your name and address. If you are married, give social security numbers for both you and your spouse whether you file joint or separate returns.

If your spouse is a nonresident alien, has no income, and does not have a social security number, please write "NRA" in the block for your spouse's social security number.

If you have changed your name because of marriage, divorce, etc., make sure you immediately notify the Social Security Administration (SSA) so the name on your tax return is the same as the name SSA has on its records. This may prevent delays in issuing your refund.

If you are filing a joint return, show the social security numbers in the same order that you show your first names. If you are filing a joint return and have different last names, please separate the names with an "and." For example: "John Brown and Mary Smith."

Remember to show your occupations in the spaces in the upper right corner just below the social security number blocks.

Presidential Election Campaign Fund

This fund was established by Congress to support public financing of Presidential election campaigns.

You may have $1 go to the fund by checking the **Yes** box. On a joint return, both of you may choose to have $1 go to this fund, or both may choose not to. One may choose to have $1 go to this fund and the other may choose not to.

If you check **Yes**, it will not change the tax or refund shown on your return.

Do not claim this amount as a credit for contributions to candidates for public office on line 38.

Filing Status

Boxes 1 through 5

Were You Single or Married?

Consider yourself single if on December 31 you were unmarried or separated from your spouse either by divorce or separate maintenance decree and you do not qualify for another filing status. State law governs whether you are married, divorced, or legally separated.

If you were married on December 31, consider yourself married for the whole year. If you meet the tests for *Married Persons Who Live Apart (and Abandoned Spouses)*, on page 6, you may consider yourself single for the whole year.

If your spouse died during 1981, consider yourself married to that spouse for the whole year, unless you remarried before the end of 1981.

Married Persons

Joint or Separate Returns?

Joint Return. In most cases, married couples will pay less tax if they file a joint return. You must report all income, exemptions, deductions, and credits for you and your spouse. Both of you must sign the return, even if only one of you had income.

You and your spouse can file a joint return even if you did not live together for the whole year. Both of you are responsible for any tax due on a joint return, so if one of you does not pay, the other may have to.

If your spouse died in 1981, or in 1982 before filing a return for 1981, write in the signature area "Filing as surviving spouse." Also write "deceased" after the name of the decedent and show the date of death in the name and address space.

Tax Savings.—If you decide not to file a joint return and plan to file a separate return, see if you can lower your tax by meeting the tests described below under *Married Persons Who Live Apart (and Abandoned Spouses)*. If you can, you should check Box 1 for Single or, if you qualify, Box 4 for Head of household.

Special Rule for Aliens.—If at the end of 1981, you were a nonresident alien or dual-status alien married to a citizen or resident of the United States, you may be able to file a joint return with your spouse. If you do file a joint return, you and your spouse must agree to be taxed on your combined worldwide income.

For more details, please get **Publication 519**, U.S. Tax Guide for Aliens.

Separate Returns. You can file separate returns if both you and your spouse had income, or if only one of you had income. If you both file, you and your spouse must figure your tax the same way. This means if one itemizes deductions, the other must itemize. You each report only your own income, exemptions, deductions, and credits, and you are responsible only for the tax due on your own return.

If you file a separate return, write your spouse's full name in the space after Box 3 and your spouse's social security number in the block provided for that number.

If your spouse does not file, check the boxes on line 6b that apply if you can claim the exemptions for your spouse. Please see **For Your Spouse** on page 7.

Community Property States.—Community property States are: Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Texas, and Washington.

If you and your spouse live in a community property State, you must follow State law to determine what is community income and what is separate income. However, new rules could apply for 1981 if:

- you and your spouse lived apart all year,
- you do not file a joint return, and
- no part of the community income you earn is transferred to your spouse.

Please get **Publication 555**, Community Property and the Federal Income Tax, for more details.

Married Persons Who Live Apart (and Abandoned Spouses) —Some married persons who do not live with their husband or wife may file as Single or as Head of household and use tax rates that are lower than those for married persons filing separate returns. This means that if your spouse itemizes deductions, you do not have to. Both you and your spouse can file this way if you both meet the tests.

You should check Box 1 for Single if you meet **ALL** of the following tests:

a. You file a separate return,

b. You paid more than half the cost to keep up your home in 1981,

c. Your spouse did not live with you at any time during 1981, and

d. For over 6 months of 1981, your home was the principal residence of your child or stepchild **whom you can claim as a dependent.**

You should check Box 4 for Head of household if your home in test **d**, above, was the dependent child's principal residence for **ALL** of 1981. The tax rates for Head of household are even lower than the rates for Single. You may also be able to claim the earned income credit.

Were You a Head of Household?

There are special tax rates for a person who can meet the tests for Head of household. These rates are lower than the rates for Single or Married filing a separate return.

You may use this filing status **ONLY IF** on December 31, 1981, you were unmarried (including certain married persons who live apart) or legally separated and meet test **a** or **b** below:

a. You paid more than half the cost of keeping up a home which was the principal residence of your father or mother whom you can claim as a dependent. (You must be able to claim this parent as your dependent without a Multiple Support Declaration, but you did not have to live with that parent.) OR

b. You paid more than half the cost of keeping up the home in which you lived and in which one of the following also lived all year (except for temporary absences for vacation or school):

1. Your **unmarried** child, grandchild, foster child, or stepchild. (This person did not have to be your dependent.) **Note:** *If you are filing as Head of household because of an unmarried child, grandchild, foster child, or stepchild, who is not your dependent, enter that person's name in the space provided on line 4. Enter only one name. If any other person qualifies you for Head of household, no entry is needed.*
2. Your **married** child, grandchild, foster child, or stepchild. (You must be able to claim this person as your dependent without a Multiple Support Declaration.)
3. Any other person listed below whom you can claim as a dependent. However, this person does not qualify you if he or she is your dependent under a Multiple Support Declaration. Please see the rules on page 7 for Dependent Supported by Two or More Taxpayers.

Grandparent	Brother-in-law
Brother	Sister-in-law
Sister	Son-in-law
Stepbrother	Daughter-in-law, or
Stepsister	if related by blood:
Stepmother	Uncle
Stepfather	Aunt
Mother-in-law	Nephew
Father-in-law	Niece

Note: *If you receive payments under the Aid to Families with Dependent Children (AFDC) program and use them to pay part of the cost of keeping up this home, you may not count these amounts as furnished by you.*

Were You a Qualifying Widow or Widower With a Dependent Child?

If so, you may be able to use joint return tax rates for 1981.

If your spouse died during 1980 or 1979 and you did not remarry before the end of 1981, file a return for 1981 showing only your own income, exemptions, deductions, and credits. However, you can figure your tax at joint return rates if you meet all 3 of the following tests:

- You could have filed a joint return with your spouse for the year your spouse died. (It does not matter whether you actually filed a joint return.)
- Your dependent child, stepchild, or foster child lived with you (except for temporary absences for vacation or school).
- You paid over half the cost of keeping up the home for this child for the whole year.

Check Box 5, Qualifying widow(er) with dependent child, and show the year your spouse died in the space provided. **Do not** claim an exemption for your spouse. (You can claim the exemption only for the year your spouse died.)

If your spouse died in 1981 and you did not remarry, consider yourself married for the whole year. If your spouse died before 1979 and you did not remarry, you may check Box 4 if you met the tests under **Were You a Head of Household?** Otherwise you must file as Single.

Exemptions

Line 6a Boxes

For Yourself

You can always take one exemption for yourself. Take two exemptions if you were blind, or 65 or over. Take three exemptions if you were blind and 65 or over. Be sure to check all the boxes on line 6a for the exemptions you can take for yourself.

You can take the extra exemptions for age 65 or over and blindness only for yourself and your spouse. You cannot take them for dependents.

Age and blindness are determined as of December 31. However, if your 65th birthday was on January 1, 1982, you can take the extra exemption for age for 1981.

Proof of Blindness

If you are completely blind, attach a statement to this effect.

In cases of partial blindness, you must attach to your return each year a certified statement from an eye physician or registered optometrist that:

a. You cannot see better than 20/200 in the better eye with glasses, or

b. Your field of vision is not more than 20 degrees.

If this eye condition will never improve beyond the standards in **a** or **b**, you may submit a certified opinion to this effect from an examining eye physician. You must attach this certification to your

return only once. In later years you can just include a statement referring to it.

Line 6b Boxes

For Your Spouse

You can take exemptions for your spouse if you file a joint return. If you file a separate return you can take your spouse's exemptions only if your spouse is not filing a return, had no income, and was not the dependent of someone else.

Your spouse's exemptions are like your own. Take one exemption if your spouse was neither blind nor 65 or over. Take two exemptions if he or she was blind or 65 or over. Take three exemptions if blind and 65 or over. Be sure to check all the boxes on line 6b for the exemptions you can take for your spouse.

If at the end of 1981, you were divorced or legally separated, you cannot take an exemption for your former spouse. If you were separated by a divorce that is not final (interlocutory decree), you may take an exemption for your spouse if you file a joint return.

If your spouse died during 1981 and you did not remarry before the end of 1981, check the boxes for the exemptions you could have taken for your spouse on the date of death.

Nonresident Alien Spouse. If you do not file a joint return, you may claim your spouse's exemptions only if your spouse had no income from United States sources and is not the dependent of another taxpayer. Use the boxes on line 6b to claim exemptions for a nonresident alien spouse. When claiming your spouse's exemption, please write "NRA" above the word Spouse on line 6b.

Lines 6c and 6d

Children and Other Dependents

Please enter on line 6c the first names of your dependent children who lived with you. Fill in the total number in the box to the right of the arrow.

Please enter on line 6d the full names and other information for your other dependents including your dependent children who did **not** live with you. Fill in the total number in the box to the right of the arrow.

Each person you claim as a dependent has to meet ALL 5 of these tests:

a. income;
b. support;
c. married dependent;
d. citizenship or residence; and
e. relationship.

These tests are explained below.

a. Income

The dependent received less than $1,000 gross income. (This test does not have to be met for your child who was under 19 at the end of the year, or a full-time student at least 5 months of the year. Please see instructions for **Student Dependent** on this page.)

Note: *Gross income does not include nontaxable benefits such as social security or welfare benefits.*

b. Support

The dependent received over half of his or her support from you, or is treated as receiving over half of his or her support from you, under the rules for **Children of Divorced or Separated Parents,** or **Dependent Supported by Two or More Taxpayers,** on this page. If you file a joint return, the support can be from you or your spouse.

In figuring total support, you must include money the dependent used for his or her own support, even if this money was not taxable (for example, social security benefits, gifts, savings, welfare benefits, etc.). If your child was a student, do not include amounts he or she received as scholarships.

Support includes items such as food, a place to live, clothes, medical and dental care, and education. In figuring support, use the actual cost of these items. However, the cost of a place to live is figured at its fair rental value.

Do not include in support items such as income and social security taxes, premiums for life insurance, or funeral expenses.

Capital items—You must include capital items such as a car or furniture in figuring support, but only if they are actually given to, or bought by, the dependent for his or her use or benefit. Do not include the cost of a capital item such as furniture for the household or for use by persons other than the dependent.

If you care for a foster child, see **Publication 501,** Exemptions, for special rules that apply.

c. Married Dependent

The dependent did not file a joint return with his or her spouse. However, if neither **the dependent nor the dependent's spouse is required to file, but they file a joint return to get a refund of tax withheld, you may claim him or her if the other four tests are met.**

d. Citizenship or Residence

The dependent was a citizen or resident of the United States, a resident of Canada or Mexico, or an alien child adopted by and living with a U.S. citizen in a foreign country.

e. Relationship

The dependent met test 1. or 2. below.

1. Was related to you (or your spouse if you are filing a joint return) in one of the following ways:

Child	Stepbrother	Son-in-law
Stepchild	Stepsister	Daughter-in-law
Mother	Stepmother	or, if related by
Father	Stepfather	blood:
Grandparent	Mother-in-law	Uncle
Brother	Father-in-law	Aunt
Sister	Brother-in-law	Nephew
Grandchild	Sister-in-law	Niece

2. Was any other person who lived in your home as a member of your household for the whole year.

A person is not a member of your household if at any time during your tax year the relationship between you and that person is against local law.

The word child includes:

- Your son, daughter, stepson, or stepdaughter.
- A child who lived in your home as a member of your family if placed with you by an authorized placement agency for legal adoption.
- A foster child (any child who lived in your home as a member of your family for the whole year).

Student Dependent. Even if your child had income of $1,000 or more, you can claim the child as a dependent if he or she can meet tests b, c, and d above: AND

- was enrolled as a full-time student at a school during any 5 months of 1981, or
- took a full-time, on-farm training course during any 5 months of 1981. (The course had to be given by a school or a State, county, or local government agency.)

The school must have a regular teaching staff, a regular course of study, and a regularly enrolled body of students in attendance.

The word school includes:

- elementary, junior and senior high schools;
- colleges and universities; and
- technical, trade, and mechanical schools.

However, school does not include on-the-job training courses or correspondence schools.

Children of Divorced or Separated Parents. If a child's parents together paid more than half of the child's support, the parent who has custody for most of the year can generally take the exemption for that child. However, the parent who does **NOT** have custody (or who has the child for the shorter time), may take the exemption if **a** or **b** below, applies.

a. That parent gave at least $600 toward the child's support in 1981, and the decree of divorce or separate maintenance (or a written agreement between the parents) states he or she can take the exemption, OR

b. That parent gave $1,200 or more for each child's support in 1981, and the parent who had custody cannot prove that he or she gave more than the other parent.

Note: *To figure the amount of support, a parent who has remarried and has custody may count the support provided by the new spouse.*

Dependent Supported by Two or More Taxpayers. Sometimes two or more taxpayers together pay more than half of another person's support, but no one alone pays over half of the support. One of the taxpayers may claim the person as a dependent only if the tests for income, married dependent, citizenship or residence, and relationship discussed earlier (tests **a, c, d,** and **e**) are met.

In addition, the taxpayer who claims the dependent must:

a. have paid more than 10% of the dependent's support; and

b. attach to his or her tax return a signed **Form 2120,** Multiple Support Declaration, from every other person who paid more than 10% of the support. This form states that the person who signs it will not claim an exemption in 1981 for the person he or she helped to support.

Birth or Death of Dependent. You can take an exemption for a dependent who was born or who died during 1981 if he or

she met the tests for a dependent while alive. This means that a baby who lived only a few minutes can be claimed as a dependent.

For more information, please get **Publication 501,** Exemptions.

Line 6e

Add the numbers you entered in the boxes for lines 6a, b, c, and d. Enter the total in the box on line 6e.

Income

Examples of Income You Do Not Report

Federal social security benefits.
Welfare benefits.
Disability retirement payments and other benefits paid by the Veterans Administration.
Workmen's compensation benefits, insurance damages, etc. for injury or sickness.
Child support.
Gifts, or money or other property you inherited or that was willed to you.
Dividends on veterans' life insurance.
Life insurance proceeds received because of a person's death.
Interest on certain State and municipal bonds
Amounts you received from an insurance company because you lost the use of your home due to fire or other casualty to the extent the amounts were more than the cost of your normal expenses while living in your home. (You must report reimbursements for normal living expenses as income.)
Amounts an employer contributed on your behalf and benefits provided to you as an employee or the spouse or dependent of an employee, under a qualified group legal services plan.

Examples of Income You Must Report

The following kinds of income should be reported on Form 1040, or related forms and schedules. You may need some of the forms and schedules listed below.

Wages, including salaries, bonuses, commissions, fees, and tips.
Dividends (Schedule B).
Interest (Schedule B) on:
tax refunds;
bank deposits, bonds, notes;
All-Savers Certificates;
U.S. Savings Bonds;
certain arbitrage bonds issued by State and local governments; and
accounts with savings and loan associations, mutual savings banks, credit unions, etc.
Unemployment compensation (insurance) (see page 10).
Amounts received from accident and health plans in place of wages, if your employer paid for the policy.
Bartering income (fair market value of goods or services you received in return for your services).
Business expense reimbursements you received that are more than you spent for these expenses.
Alimony, separate maintenance or support payments received from and deductible by your spouse or former spouse.
Refunds of State and local taxes if you deducted the taxes in an earlier year and got a tax benefit.
Life insurance proceeds from a policy you cashed in if the proceeds are more than the premiums you paid.
Profits from businesses and professions (Schedule C).
Your share of profits from partnerships and small business corporations (Schedule E).
Profits from farming (Schedule F).
Pensions, annuities, and endowments.
Lump-sum distributions (Form 4972 or Form 5544).
Gains from the sale or exchange (including barter) of real estate, securities, coins, gold, silver, gems or other property (Schedule D or Form 4797).
Gains from the sale of your personal residence (Schedule D and Form 2119).
Rents and royalties (Schedule E).
Your share of estate or trust income (Schedule E), including accumulation distributions from trusts (Form 4970).
Supplemental annuities under the Railroad Retirement Act (but not regular Railroad Retirement Act benefits).
Prizes and awards (contests, raffles, lottery and gambling winnings).
Earned income from sources outside the United States (Form 2555).
Directors fees.
Fees received for jury duty and precinct election board duty.
Fees received as an executor or administrator of an estate.
Embezzled or other illegal income.

Rounding Off to Whole Dollars

You may round off cents to the nearest whole dollar on your return and schedules. But, if you do round off, do so for all amounts. You can drop amounts under 50 cents. Increase amounts from 50 to 99 cents to the next dollar. For example: $1.39 becomes $1 and $2.69 becomes $3

Line 7

Wages, Salaries, Tips, Etc.

Show the total of all wages, salaries, fees, commissions, tips, bonuses, supplemental unemployment benefits, and other amounts you were paid before taxes, insurance, etc., were taken out.

Include in this total:

- **The amount shown on Form W–2 in the box Wages, tips, other compensation.** Report all wages you received, even if you do not have a Form W–2.
- Tips you did not report to your employer. (Show any social security tax due on these tips on line 51a—see the instructions on page 14.)
- Certain disability pensions if you are under age 65.
- Payments by insurance companies, etc., not included on Form W–2. If you receive sick-pay or a disability payment from anyone other than your employer, and it is not included in the wages shown on Form W–2, include it on line 7. Attach a statement showing the name and address of the payer and amount of sick-pay or disability income. (See **Form W–4P** for information on voluntary withholding of Federal income tax from your pension or sick pay.)
- Fair market value of meals and living quarters if given by your employer as a matter of your choice and not for your employer's convenience. (Don't report the value of meals given you at work if they were provided for your employer's convenience. Also do not report the value of living quarters you had to accept as a condition of employment.)
- Strike and lockout benefits paid by a union from union dues. Include cash and the fair market value of goods received. Don't report benefits that were meant as a gift.

Note: *You must report on line 7 all wages, etc., paid for your personal services, even if the income was signed over to a trust, another person, a corporation, or tax exempt organization.*

If you want more information on reporting income received in the form of goods, property, meals, stock options, educational assistance provided by your employer under a qualified written plan, etc., please get **Publication 525,** Taxable and Nontaxable Income.

Line 8a

Interest Income

Enter your total interest income. If the total is more than $400 or you have any interest from All-Savers Certificates, first fill in Schedule B. (The instructions for Schedule B begin on page 20.)

Report any interest you received or that was credited to your account so you could withdraw it. (It does not have to be entered in your passbook.)

If you were charged an interest penalty for early withdrawal of your savings, see the instructions for line 26 on page 11.

Examples of Interest Income You MUST Report

- Accounts with banks, credit unions, and savings and loan associations.
- Building and loan accounts.
- Notes and loans.
- Tax refunds (report only the interest on them as interest income).
- Bonds and debentures. Also arbitrage bonds issued by State and local governments after October 9, 1969. (Do not report interest on other State and local bonds and securities.)
- The discount for the part of the year you held corporate bonds or other notes first issued at a discount after May 27, 1969.
- U.S. Savings Bonds. The interest is the yearly increase in the value of the bond. Interest on Series E or EE bonds can be reported using method **a** or **b** below:

a. Report the total interest when you cash the bonds, or when they reach final maturity and no longer earn interest.

b. Or, each year on your return, report the yearly increase of the bonds' value.

If you change to method **b,** report the entire increase in all your bonds from the date they were issued. Each year after, report only the yearly increase. Once you have used method **b** to report your

interest, you must continue to do so for all your U.S. Savings Bonds.

For more information, get **Publication 550, Investment Income and Expenses**, or **Publication 537**, Installment Sales.

Exclusion of Qualifying Interest From All-Savers Certificates

Beginning in 1981, you can claim a lifetime exclusion of up to $1,000 of interest received from All-Savers Certificates. If you file a joint return, you can exclude up to $2,000, regardless of which spouse received the interest.

An **All-Savers Certificate** is a one-year certificate issued by a qualified savings institution after September 30, 1981, and before January 1, 1983, having a yield equal to 70% of the average investment yield on 52-week Treasury bills. (For a definition of "qualified savings institution," see **Publication 550.**)

If you received interest from an All-Savers Certificate, you MUST complete Schedule B of Form 1040. See the instructions for Schedule B on page 20.

Line 8b

Dividends

Dividends are distributions of money, stock, or other property that corporations pay to stockholders. They also include dividends you receive through a partnership or an estate or trust. Payers include nominees or other agents.

If the total, including capital gain and nontaxable distributions, is more than $400, first fill in Schedule B. (The instructions for Schedule B begin on page 20.) If you received $400 or less in dividends, include only the ordinary dividends on line 8b.

Dividends Include

- **Ordinary dividends.** These are paid out of earnings and profits and are ordinary income. Assume that any dividend you receive is an ordinary dividend unless the paying corporation tells you otherwise.
- **Capital gain distributions.** If you have other capital gains or losses, you should also enter your capital gain distributions on Schedule D. If you don't need Schedule D to report any other gains or losses, don't use it. Instead, show 40% of your capital gain distributions on Form 1040, line 13.
- **Nontaxable distributions.** Some distributions are nontaxable because they are a return of your investment. They will not be taxed until you recover your cost. You must reduce your cost (or other basis) by the amount of nontaxable distributions received. After you get back all of your cost (or other basis), you must report these distributions as capital gains.

Do Not Report as Dividends

- Mutual insurance company dividends that reduced the premiums you paid.
- Amounts paid on deposits or accounts from which you could withdraw your money such as mutual savings banks, cooperative banks, and credit unions.

Remember to report these amounts as interest on Form 1040, line 8a.

For more information, please get **Publication 550, Investment Income and Expenses.**

Line 8c

Total

Add the amounts on lines 8a and 8b and enter the result on line 8c.

Line 8d

Exclusion

For 1981, you can exclude (subtract) up to $200 of qualifying interest and dividend income. If you and your spouse file a joint return, you can subtract up to $400, regardless of which spouse received the interest or dividends.

For example, you had $300 in interest from your savings account and your spouse had $150 in dividends on stock owned separately. If you file a joint return, you can subtract $400. If, however, you and your spouse file separately, you can subtract $200 and your spouse can subtract $150.

Only certain types of interest and dividend income qualify for the exclusion. Examples of qualifying interest are: interest from U.S. bank accounts, mutual savings banks, credit unions, savings and loan associations, and similar institutions; interest on bonds and notes issued by domestic corporations in registered form; and interest on obligations of the United States.

Interest paid to you by individuals does not qualify for the exclusion.

For more details on what interest income qualifies for the exclusion, please get **Publication 550.**

Dividends must be from a domestic corporation to qualify for the exclusion. Taxable dividends from the following corporations do not qualify for the exclusion:

- Foreign corporations, including dividends from controlled foreign corporations.
- Exempt organizations (charitable, fraternal, etc.) and exempt farmers' cooperative organizations.
- Regulated investment companies (including Money Market Funds) and real estate investment trusts, unless the companies have told you how much of the dividends qualify for the exclusion.
- Electing small business corporations to the extent the amounts are distributions out of current earnings and profits.

Line 8e

Subtract line 8d from line 8c. Enter the result on this line.

Line 9

Refunds of State and Local Income Taxes

If you received a refund or credit in 1981 for State or local income taxes you paid before 1981, you may have to report it as income on your Federal income tax return.

Do not report the refund as income if it was for a tax you paid in a year for which you did not itemize deductions on Schedule A (Form 1040).

If the refund was for a tax you paid in a year for which you itemized deductions on Schedule A (Form 1040), report the entire refund as income if the entire deduction in the year of payment resulted in a Federal income tax savings.

If only part of the deduction resulted in a Federal income tax savings, report only that part of the refund that resulted in the savings. (If you need help in figuring this amount, please get **Publication 525**, Taxable and Nontaxable Income.)

If you itemize deductions for 1981, do not reduce the deduction for taxes by any refund of those taxes for an earlier year.

Line 10

Alimony Received

Show amounts you received as alimony or separate maintenance on line 10. For more information, please get **Publication 504**, Tax Information for Divorced or Separated Individuals.

Line 11

Business Income or (Loss)

Please see the instructions for **Schedule C.** Enter your income or (loss) from Schedule C.

Line 12

Capital Gain or (Loss)

Please see the instructions for **Schedule D.** Enter the gain or (loss) from Schedule D.

Line 13

Capital Gain Distributions

If you do not need Schedule D for other capital transactions or to figure the alternative tax, enter 40% of your capital gain distributions for the year on line 13.

If you have other capital gains or losses, you must use Schedule D.

Line 14

Supplemental Gains or Losses

If you sold or exchanged assets used in a trade or business, see the instructions for **Form 4797.**
Enter the gain or (loss) from Form 4797.

Line 15

Fully Taxable Pensions and Annuities

Use this line to report fully taxable pension and annuity income you receive. Your pension or annuity payments are fully taxable if:

- You did not contribute to the cost of your pension or annuity, or
- You got back your entire cost before 1981.

Fully taxable pensions and annuities also include: military retirement pay shown on Form W–2P, and distributions from an individual retirement arrangement (IRA) (except for rollovers).

Other pensions and annuities should be shown on lines 16a and 16b.

Line 16

Other Pensions and Annuities

Use lines 16a and 16b to report pension and annuity income that is not fully taxable. Also use these lines to report distributions from profit sharing, retirement plans, and individual retirement arrangements (rollovers).
The pension or annuity may not be taxable until a later year if:
a. Both you and your employer contributed to it, and
b. You will get back your full cost in 3 years or less beginning on the date you receive the first payment.

If you meet the requirements of a and b, complete the worksheet below to figure the taxable part of your pension or annuity. After you get back your full cost, all payments you receive are fully taxable. Your cost includes amounts you contributed and amounts your employer contributed which you reported as income.

Example: You retired in 1981, with a monthly pension of $200. Both you and your employer contributed to it. Your pension cost was $4,925. The amount you can expect to receive within 3 years is $7,200 (36 months x $200 = $7,200). Since this amount is more than your cost ($4,925), you should exclude your pension until the payments total $4,925. After that, they are fully taxable and you should report them on line 15. For more information get **Publication 575**, Pension and Annuity Income.

Complete the worksheet below to figure the taxable part of your pension or annuity:

1a. Enter your cost	_____
b. Cost recovered in prior years	_____
c. Subtract line 1b from line 1a	_____
2. Amount received this year. Also, enter this amount on Form 1040, line 16a	_____
3. Amount on line 2 that is not taxable (but not more than line 1c)	_____
4. Taxable part (subtract line 3 from line 2). Enter here and on Form 1040, line 16b	_____

(Keep a copy of this worksheet for your records)

Note: *If you had more than one pension or annuity that is not fully taxable, figure the taxable part of each separately. Enter the total of the taxable parts on Form 1040, line 16b.*

If you cannot recover your cost within 3 years, you must use special rules to report your pension or annuity income. For more details, please get **Publication 575.** If you must use this method, enter the amount you received this year on line 16a. Enter the taxable part on line 16b.

Total Distributions from Profit-Sharing, Retirement Plans and Individual Retirement Arrangements

If you are reporting a "rollover" of a profit-sharing or retirement plan distribution into an individual retirement arrangement (IRA) or other profit-sharing or retirement plan, enter the amount of the distribution on line 16a. If the total distribution was rolled over, enter zero on line 16b. Otherwise, enter the taxable part of the distribution as ordinary income on line 16b

For more information on "rollovers" of distributions into an IRA, get **Publication 590**, Tax Information on Individual Retirement Arrangements.

If you received a lump-sum distribution from a profit-sharing or retirement plan, report the ordinary income part on line 15 of Form 1040 and the capital gain part on Schedule D (Form 1040). **Form 1099R**, Statement for Recipients of Total Distributions from Profit-Sharing, Retirement Plans and Individual Retirement Arrangements, shows the amount of the distribution. You may pay less tax on this distribution if you are eligible to use the special averaging methods. For more details, get **Form 4972**, Special 10-Year Averaging Method, or **Form 5544**, Multiple Recipient Special 10-Year Averaging Method, and separate instructions.

Beneficiaries—Death Benefit Exclusion

If you are the beneficiary of a decedent, you may be entitled to a death benefit exclusion of up to $5,000 if either of the following applies:
a. The decedent received no retirement pension or annuity payments, or
b. The decedent received disability income payments that were not treated as pension or annuity income.

If you are entitled to this exclusion, add it to the cost of the pension or annuity. For details, get **Publication 575.**

Disability Pensions and Annuities

You may not have to pay tax on part or all of your disability payments if you meet certain tests about your age, date of retirement, whether you are permanently and totally disabled, etc.

If you use **Form 2440** or your disability payments are fully taxable, DO NOT USE lines 16a or 16b of Form 1040. Instead, report disability payments you are not treating as a pension or annuity on Form 1040, line 7, regardless of whether you can exclude any part of them on Form 2440.

For more information, get **Form 2440**, Disability Income Exclusion, and **Publication 522**, Disability Payments.
Note: *Also see* **Should You File a Declaration of Estimated Tax?** on page 17.

Line 17

Rents, Royalties, Partnerships, Estates or Trusts

See the instructions for Schedule E. Enter the income or (loss) from Schedule E.

Line 18

Farm Income or (Loss)

See the instructions for **Schedule F.**
Enter the income or (loss) from Schedule F.

Line 19

Unemployment Compensation

Unemployment compensation (insurance) you receive may be taxable under certain conditions.

You should receive a statement, on Form 1099–UC, showing the total unemployment compensation paid to you during the year. For payments in 1981, you should receive this statement by January 31, 1982.
Note: *Supplemental unemployment benefits received from a company-financed supplemental unemployment benefit fund are wages. They are not considered unemployment compensation for purposes of this computation. Report these benefits on Form 1040, line 7.*

If you received any unemployment compensation during 1981, please enter the total from Form(s) 1099–UC on line 19a. To see if any of the unemployment compensation is taxable, fill in the following worksheet:

Check only one box

- ☐ **A.** Single—enter $20,000 on line 8 below.
- ☐ **B.** Married filing a joint return—enter $25,000 on line 8 below.
- ☐ **C.** Married not filing a joint return and lived with your spouse at any time during the year—enter –0– on line 8 below.
- ☐ **D.** Married not filing a joint return and DID NOT live with your spouse at any time during the year—enter $20,000 on line 8 below.

1. Total unemployment compensation from Form(s) 1099–UC	_____
2. If you received an overpayment of unemployment compensation in 1981 and repaid it in 1981, enter the repayment here. Also write "repayment" and the amount you repaid in the margin of Form 1040 to the left of line 19a	_____
3. Subtract line 2 from line 1	_____
4. Enter the total of the amounts on Form 1040, lines 7, 8e through 18, and 20 (do not include any unemployment compensation in this figure)	_____
5. Add lines 3 and 4	_____
6. Enter the total of the amounts shown on Form 1040, lines 22 through 27 and 29	_____
7. Subtract line 6 from line 5	_____
8. Enter { $20,000 if you checked box A or D, or $25,000 if you checked box B, or –0– if you checked box C }	_____
9. Subtract line 8 from line 7. If zero or less, stop here and enter –0– on Form 1040, line 19b	_____
10. Enter one-half (50%) of the amount on line 9	_____
11. Taxable unemployment compensation. Enter the amount from line 3 or line 10, whichever is smaller. Also enter on Form 1040, line 19b.	_____

Line 20

Other Income

Use line 20 to report any income you can't find a place for on your return or other schedules. Also show the nature and source of the income.

Caution: *Do not report any income from self-employment on line 20. If you do have any income from self-employment, you must use Schedule C or Schedule F.*

Examples of income to be reported on line 20 are:

- Prizes, awards and gambling winnings. Proceeds from lotteries, raffles, etc., are gambling winnings. You must report the full amount of your winnings on this line. You cannot offset losses against winnings and report the difference.

If you had any gambling losses, you may take them as an itemized deduction on Schedule A. However, you cannot deduct more losses than the winnings you report.

- Repayment of medical expenses or other items such as real estate taxes that you deducted in an earlier year, if they reduced your tax.
- Amounts you recovered on bad debts that you deducted in an earlier year.
- Amounts your employer paid you for business expenses that are more than you spent for the actual business expenses.

Net operating loss. If you had a net operating loss in an earlier year to carry forward to 1981, enter it as a minus figure on line 20. Attach a statement showing how you figured the amount. See **Publication 535,** Business Expenses and Operating Losses, for more details.

Line 21

Total Income

Add the amounts in the column for line 7 through line 20. Enter the total on line 21.

Adjustments to Income

Line 22

Moving Expense

Employees and self-employed persons (including partners) can deduct certain moving expenses. The move had to be in connection with your job or business.

You can take this deduction only if your change in job location has added at least 35 miles to the distance from your old residence to your work place. If you had no former principal work place, your new principal work place must be at least 35 miles from your former residence.

If you meet these requirements, you should see **Form 3903** for details. Use Form 3903 to figure the amount of moving expenses to show on line 22. If you moved outside the United States or its possessions, see **Form 3903F.**

If your employer paid for any part of the move, you must report that as income on Form 1040, line 7. Your employer should give you **Form 4782** and include that amount in total wages, tips and other compensation on **Form W–2.**

Line 23

Employee Business Expenses

You can deduct certain business expenses that were not paid by your employer. Travel, transportation (but not commuting to and from work) and meals and lodging can be deducted on line 23 by using **Form 2106** even if you do not itemize deductions on Schedule A. All other business expenses such as union or professional dues, tools, and uniforms can be deducted only if you itemize deductions on Schedule A. Outside salespersons should claim their business expenses on line 23 by using Form 2106. For details, get **Publication 463,** Travel, Entertainment and Gift Expenses.

Line 24

Payments to an Individual Retirement Arrangement (IRA)

Use the following worksheet to figure your deduction for payments to an IRA (including those made under a Simplified Employee Pension (SEP) plan). **Schedule C or F filers with a SEP and partners with a SEP take the deduction on line 25.**

You may include payments made on or before the due date of this return (including any extensions). Do not include 1981 payments made before the due date of your 1980 income tax return and deducted on your 1980 tax return. If both spouses work and both have IRAs, figure each spouse's deduction separately. Enter the total of the two deductions on line 24.

Also enter the number which identifies your situation in the code space on line 24.

One individual IRA	1
Two individual IRAs	2
One individual IRA and one spousal IRA	3
One SEP	4
Two SEPs	5
One individual IRA and one SEP	6

For more information, see **Publication 590,** Tax Information on Individual Retirement Arrangements.

Worksheet

1. Amount paid to your IRA. (Do not include rollovers or your employer's SEP payments.) . . _____
2. Your employer's SEP payments to your IRA . . . . . _____
3. Add lines 1 and 2 . . . . . _____
4. Amount paid to your non-working spouse's IRA. (Do not include rollovers.) . . . . _____
5. Add lines 3 and 4. (If you made excess payments in earlier years you may be able to include them on this line. See instructions for Form 5329, line 3) . _____
6. Wages and other earned income from Form 1040. (Do not include spouse's income and do not reduce your wages by losses from self employment.) . . . _____
7. Enter employer's SEP payments . . . . . _____
8. Subtract line 7 from line 6. Enter result . . . . . _____

Complete limitation 9, 10, or 11 below, whichever one applies to you. If your employer contributes to your IRA and your non-working spouse's IRA under a SEP, use the limitation on line 10.

9. **Regular IRA.** Enter $1,500 or 15% of line 8, whichever is smaller . . . . . _____
10. **IRA for you and your non-working spouse.** Enter the smallest of: (a) 15% of line 8; or (b) $1,750; or (c) 2 times the amount on line 3; or (d) 2 times the amount on line 4 . . _____
11. **Simplified Employee Pension (SEP).** Enter the smaller of: (a) 15% of line 8; or (b) the total of: line 2 (but not more than $7,500); and $1,500 minus line 2 (but not less than zero) . . . . . _____
12. **Allowable deduction.** Enter the smaller of: (a) the amount from line 5; or (b) your limitation from line 9, 10, or 11. Also enter on Form 1040, line 24. . _____

(If line 5 is larger than line 12 and you do not withdraw this excess payment before your return is due, you must file **Form 5329** and pay the tax due.)

Caution: *If you were covered by a pension plan during any part of 1981, you may not deduct payments to an IRA.*

Line 25

Payments to a Keogh (H.R. 10) Retirement Plan

Sole proprietors and partners enter the allowable deduction for contributions to your Keogh (H.R. 10) plan and your SEP on line 25.

If you need help, contact an IRS office or get **Publication 560,** Tax Information on Self-Employed Retirement Plans.

Line 26

Interest Penalty on Early Withdrawal of Savings

The Form 1099–INT or 1099–ASC given to you by your bank or savings and loan association will show the amount of any interest penalty you were charged because you withdrew funds from your time savings deposit before its maturity. Enter this amount on line 26. (Be sure to include the interest income on Form 1040, line 8a)

Line 27

Alimony Paid

You can deduct periodic payments of alimony or separate maintenance made under a court decree. You can also deduct payments made under a written separation agreement entered into after August 16, 1954, or a decree for support entered into after March 1, 1954. Don't deduct lump-sum cash or property settlements, voluntary payments not made under a court order or a written separation agreement, or amounts specified as child support. For details, get **Publication 504,** Tax Information for Divorced or Separated Individuals.

Line 28

Disability Income Exclusion

This exclusion is for persons who are retired on permanent and total disability.

You must meet ALL these tests:

- You had not reached mandatory retirement age on January 1, 1981.
- You were under age 65 on December 31, 1981.
- You were permanently and totally disabled—

a. when you retired, or

b. on January 1, 1976, or January 1, 1977, if you retired before the later date on disability or under circumstances which entitled you to retire on disability.

Use **Form 2440,** Disability Income Exclusion, to figure the amount of any exclusion. Enter the exclusion from Form 2440 on this line.

Note: *Be sure to include the full amount of your disability pension on Form 1040, line 7.*

Line 29

Other Adjustments

If you can claim any one of the following adjustments, identify it in the space provided and enter the amount on line 29.

Excess Foreign Living Expenses.—If you have income earned abroad and you claim excess foreign living expenses on Form 2555, enter your total deductions on line 29. Write "Expenses from Form 2555" in the space provided.

Forestation/Reforestation Amortization.—If you can claim a deduction for amortization of the costs of forestation or reforestation and you do not have to file Schedule C or Schedule F for this activity, enter your deduction on line 29. Write "Reforestation" in the space provided.

Repayment of Sub-pay under the Trade Act of 1974.—If you repaid supplemental unemployment benefits (sub-pay) that you previously reported in income because you became eligible for payments under the Trade Act of 1974, enter the amount you repaid in 1981. Write "Sub-pay TRA" in the space provided.

Or, you may be able to claim a credit against your tax instead. See **Publication 525,** Taxable and Nontaxable Income, for more details.

Note: *If you claim more than one of these amounts, enter the total on line 29 and identify the adjustments separately in the margin to the left.*

Line 30

Total Adjustments

Add lines 22 through 29. Enter the total on this line.

Line 31

Adjusted Gross Income

Subtract line 30 from line 21. If line 31 is less than $10,000, you may be eligible to claim the Earned Income Credit. Please see the instructions for line 57 on page 15.

If line 31 is less than zero (0), you may have a net operating loss that you can carry to another tax year. If you carry the loss back to earlier years, see **Form 1045.**

For more information, please get **Publication 535,** Business Expenses and Operating Losses.

Tax Computation

Line 32a

Enter the amount from line 31.

Line 32b

You will fall into one of the three classes below:

- You MUST itemize deductions, or
- You choose to itemize, or
- You do not itemize.

The three classes are described below.

You MUST Itemize Deductions

You must itemize deductions if:

A. You can be claimed as a dependent on your parents' return and had interest, dividends, or other unearned income of **$1,000 or more. Generally,** this means that you must complete Schedule A and the worksheet on this page.

There are two exceptions to this rule:

1. You don't have to itemize or complete Schedule A or the worksheet if you have earned income* of $2,300 or more if single ($1,700 or more if married filing a separate return). Enter zero (0) on line 32b and go on to line 32c.
2. You don't have to itemize and use Schedule A if you know that your earned income* is more than your itemized deductions. In this case go directly to the worksheet below after completing line 32a of Form 1040.

Note: *If your unearned income is less than $1,000, you don't have to use Schedule A or the worksheet—enter zero (0) on line 32b and go on to line 32c.*

In any case, be sure to check the box on line 32b.

B. You are married, filing a separate return, and your spouse itemizes. (There is an exception to this rule: You don't have to itemize if your spouse is described in item A above and enters earned income* instead of itemized deductions when completing the worksheet.)

C. You file Form 4563 and exclude income from sources in U.S. possessions. (Please see **Form 4563,** and **Publication 570,** Tax Guide for U.S. Citizens Employed in U.S. Possessions, for more details.)

D. You had dual status as a nonresident alien for part of 1981, and during the rest of the year you were either a resident alien or a U.S. citizen. However, you do not have to itemize if you file a joint return with your spouse who was a U.S. citizen or resident at the end of 1981 and you and your spouse agree to be taxed on your combined worldwide income.

After you've completed Schedule A:

a. If Schedule A, line 40, is more than line 39, do not fill in Form 1040, line 32b. Go to the worksheet instead and complete it to figure the amount to enter on Form 1040, line 32c.

b. If Schedule A, line 39, is more than line 40, enter the amount from Schedule A, line 41, on Form 1040, line 32b.

Worksheet

1. Enter the amount from Form 1040, line 32a . . . . . _____
2. If you checked Form 1040, Filing Status Box:
   2 or 5, enter $3,400 . . .
   1 or 4, enter $2,300 . . .
   3, enter $1,700 . . . . . _____
3. Enter the amount from Schedule A, line 39 . . . . . _____
   Caution: If you can be claimed as a dependent on your parents' return, see **A** to the left. Be sure you check the box below line 32b of Form 1040.
4. Subtract line 3 from line 2 . . . _____
5. **Add lines 1 and 4.** Enter here and on Form 1040, line 32c. (Leave Form 1040, line 32b blank. Disregard the instruction to subtract line 32b from line 32a. Follow the rest of the instructions for Form 1040, line 32c). _____

The example below may help you to complete the worksheet.

Example.—Walter Green, a single individual, is claimed as a dependent on his parents' return. Walter's adjusted gross income, Form 1040, line 32a, is $4,000. Of this amount, $1,500 was earned income from a summer job and $2,500 was unearned income that he received as a beneficiary of a trust. Because Walter is being claimed as a dependent on his parents' return and has unearned income of $1,000 or more and earned income of less than $2,300, he must use the worksheet. Walter knows that his total itemized deductions are only $500. Since this is less than his earned income ($1,500), he does not have to complete Schedule A. Walter enters $2,300, the zero bracket amount for a single individual, on line 2 and his earned income on line 3. He completes the worksheet as shown below and enters the total of $4,800 on Form 1040, line 32c. He then completes his return using the instructions that follow.

1	Adjusted gross income . . .	$4,000
2	Zero bracket amount for a single individual . .	$2,300
3	Earned income . . .	1,500
4	Subtract line 3 from line 2 . .	800
5	Add lines 1 and 4. Enter here and on Form 1040, line 32c . .	$4,800

Note: *If Walter's itemized deductions are more than his earned income, he must complete Schedule A first.*

***Earned Income** is income you receive for personal services you have performed. It includes wages, salaries, tips and professional fees*

Generally, your earned income is the total of the amount(s) you reported on Form 1040, lines 7, 11, and 18.

Earned income does not include pay for your services that included a distribution of earnings and profits other than reasonable compensation for your work for a corporation.

If you were engaged in a trade or business in which both your services and capital were important income-producing factors, your earned income will be based on a reasonable allowance for the services you performed. However, the earned income may not be more than 30 percent of your share of the net profits from the business.

You Choose to Itemize

You may choose to itemize your deductions if you are:

- Married and filing a joint return, or a Qualifying widow(er) with dependent child, and your itemized deductions are more than $3,400.
- Married and filing a separate return, and your itemized deductions are more than $1,700.
- Single, or a Head of household, and your itemized deductions are more than $2,300.

If you do itemize, complete Schedule A and enter the amount from Schedule A, line 41, on Form 1040, line 32b.

Caution: *Certain taxpayers must itemize even though their itemized deductions are less than the amount shown here for their filing status. See "You MUST Itemize Deductions" on page 12.*

You Do Not Itemize

If your itemized deductions are less than the amount shown above for your filing status (or you choose not to itemize), enter zero on line 32b unless you MUST itemize as described on page 12.

Line 32c

Subtract line 32b from line 32a. Remember—if you completed the worksheet, the amount on line 32c will be the amount from line 5 of the worksheet and line 32c will be more than line 32a.

Line 33

Exemptions

Multiply $1,000 by the total number of exemptions you claimed on line 6e.

Line 34

Taxable Income

Subtract line 33 from line 32c.

Line 35

Tax

To figure your tax, you will use one of the following methods. Read the conditions below to see which you should use.

Tax Rate Schedules

You must use the Tax Rate Schedules to figure your tax if your taxable income is $50,000 or more.

Also use the Tax Rate Schedules if you figure your tax using any of the methods listed below.

Alternative Tax, Schedule D.—If you have a net long-term capital gain, you may pay less tax by using this method. Please get Schedule D to see if you qualify.

Income Averaging, Schedule G.—You may pay less tax by using this method if there has been a large increase in your income this year. Get Schedule G to see if you qualify.

Maximum Tax on Personal Service Income, Form 4726.—If part of your income was for personal services you performed, you may get a tax benefit by using this method. The tax on this income is limited to a maximum rate of 50 percent. You should get **Form 4726** for more information if your taxable income, or personal service taxable income, was over:

a. $41,500 and you checked Form 1040, Filing Status Box 1, OR
b. $60,000 and you checked Form 1040, Filing Status Box 2 or 5, OR
c. $44,700 and you checked Form 1040, Filing Status Box 4.

You can't use Form 4726 if you checked Form 1040, Filing Status Box 3.

Tax Table

If none of the above conditions apply to you, you MUST use the Tax Table to find your tax.

Be sure you use the correct column in the Tax Table. After you have found the correct tax, enter that amount on line 35.

There is an example at the beginning of the table to help you find the correct tax.

The allowance for the zero bracket amount and the rate reduction credit have already been built into the Tax Table for you.

Line 36

Additional Taxes

Use this line to report any of the additional taxes listed below. Check the box(es) on line 36 for the taxes that apply to you.

Form 4970, Tax on Accumulation Distribution of Trusts.

Form 4972, Special 10-Year Averaging Method.

Form 5544, Multiple Recipient Special 10-Year Averaging Method.

Section 72(m)(5) penalty tax. If you are or were an owner-employee and received income from a premature or excessive distribution from a Keogh (H.R. 10) plan or trust, you will have to pay a penalty tax of 10 percent of the distribution. The penalty is in addition to the regular income tax. (Note: Only the credits on lines 38, 39, 40, and 45 can be used to reduce this tax. On a separate sheet, show how you applied any of these credits.) See **Publication 560**, Tax Information on Self-Employed Retirement Plans, for more details.

Residence Credit Recapture. If you claimed the credit for a new residence in 1976, and sold it in 1979, you may have to repay the credit in 1981. See **Publication 523**, Tax Information on Selling Your Home, for more details. If you must repay the credit in 1981, include it in your total for line 36. On the dotted line next to this total, please write "Residence Credit Recapture" and show the amount.

Line 37

Total

Add lines 35 and 36. Enter the total on line 37.

Credits

Line 38

Credit for Contributions to Candidates for Public Office

You may take a tax credit on this line for contributions to candidates for public office and to newsletter funds and political committees of candidates and elected public officials.

Do not take this credit for the $1 or $2 you checked to go to the Presidential Election Campaign Fund.

To figure your credit, add up the amounts you gave. Enter half of this total on line 38, but do not enter more than the smaller of the following:

a. $50 ($100 if you are married and filing a joint return), or
b. The amount on line 37 reduced by the credits on lines 39, 41, and 42.

For more information, please see **Publication 585**, Voluntary Tax Methods to Help Finance Political Campaigns.

Line 39

Credit for the Elderly

You may be able to take this credit and reduce your tax if you are:

- Age 65 or over, or
- Under age 65 and retired under a public retirement system.

For more information, please see the instructions for **Schedules R & RP.** Enter the credit on this line.

If you want IRS to figure the credit for you, see **IRS Will Figure Your Tax and Some of Your Credits** on pages 3 and 4.

Line 40

Credit for Child and Dependent Care Expenses

You may be able to take a credit on line 40 for payments you made for child and disabled dependent care while you or your spouse worked or looked for work.

The credit is allowed if you kept up a home that included a child under age 15 or your dependent or spouse who could not care for himself or herself.

Please see **Form 2441** for more information, including a special rule for divorced or separated taxpayers.

Line 41

Investment Credit

You are allowed a credit for investing in certain types of trade or business property. Use **Form 3468** to figure the amount of any credit. Enter the credit from Form 3468 on this line.

Line 42

Foreign Tax Credit

Form 1116 explains when you can take this credit for payment of income tax to a foreign country. Also see **Publication 514**, Foreign Tax Credit for U.S. Citizens and Resident Aliens. Enter the credit from Form 1116 on this line.

Line 43

Credit for Work Incentive (WIN) Program Expenses

You may be able to take a credit on this line for hiring employees under a WIN program. You may also claim a credit for employing certain persons who receive AFDC payments. For more details, get **Form 4874.**

Line 44

Jobs Credit

Business employers who hire individuals who are members of special targeted groups may qualify for this credit.

Please get **Form 5884** and **Publication 906**, Targeted Jobs, WIN, and Research Credits, for more information.

Line 45

Residential Energy Credit

Generally, if you installed energy saving items in your principal residence during 1981, or you have an energy credit carryover from a prior tax year, you may take a credit against your tax. **Form 5695**, Residential Energy Credit, tells you which energy saving items qualify and how to take the credit. Also, see **Publication 903**, Energy Credits for Individuals, for more information.

Alcohol Fuel Credit

You may be able to take a credit for alcohol used as fuel after 9/30/80. This applies to straight alcohol you sell at retail or use as fuel in your trade or business. It also applies to an alcohol mixture you sell or use as fuel in your trade or business. Use **Form 6478** to figure the credit. Include the credit in your total for line 46. On the dotted line next to this total, please write "Alcohol Fuel Credit" and show the amount.

Credit for Fuel From a Nonconventional Source

A credit is allowed for the sale of qualified fuels produced from a nonconventional source. See I.R. Code section 44D for a definition of qualified fuels, provisions for figuring the credit, and other special rules. Attach a separate schedule showing how you figured the credit. Include the credit in the total for line 46 and write "FNS" on the dotted line next to this total.

Credit for Increasing Research Activities

You may be able to take a credit for research and experimental expenditures paid or incurred in carrying on your trade or business. Generally, the credit is 25% of the increased research expenses after June 30, 1981. Use **Form 6765**, to figure the credit. Include the credit in your total for line 46. On the dotted line next to this total, please write "Research" and show the amount.

Line 46

Total Credits

Add lines 38 through 45. Include any of the three credits above that you claimed. Enter the total on this line.

Line 47

Balance

Subtract line 46 from line 37 and enter the result on this line. If the amount is less than zero, enter zero.

Other Taxes

Line 48

Self-Employment Tax

If you had self-employment income in 1981, and earned under $29,700 in wages from which social security tax (FICA) or RRTA tax was withheld, you may have to pay self-employment tax. Please see **Schedule SE** and instructions. If you have to pay self-employment tax, enter the amount from Schedule SE, line 18.

Line 49a

Minimum Tax

You may be liable for minimum tax if you have any of the following tax preference items:

- accelerated depreciation;
- amortization;
- reserves for bad debts of financial institutions;
- stock options;
- depletion; and
- intangible drilling costs.

Attach **Form 4625** and enter the tax, if any, on this line if you have:

- Items of tax preference of more than $10,000 ($5,000 if married filing a separate return) even if there is no minimum tax; or
- any minimum tax liability deferred from an earlier tax year.

See **Form 4625** for more information.

Line 49b

Alternative Minimum Tax

You may be liable for the alternative minimum tax if you have:

- tax preference items for adjusted itemized deductions or capital gain deduction;
- an entry on Schedule D, line 9a, and credits on Form 1040, line 46; or
- nonbusiness credits for investment credit, WIN credit, or jobs credit.

In general, you have adjusted itemized deductions if your itemized deductions exceed 60% of your adjusted gross income.

Get **Form 6251** to see if you are liable for this tax.

Line 50

Tax from Recomputing Prior Year Investment Credit

You may owe this tax if you disposed of investment credit property before the end of its useful life.

See **Form 4255** for details. Enter any tax from Form 4255 on this line.

You may also need Form 4255 if you disposed of more than one-third of your interest in a partnership or small business corporation.

Line 51a

Social Security (FICA) Tax on Tip Income Not Reported to Employer

If you received tips of $20 or more in any month and you did not report the full amount to your employer, you must pay the social security or railroad retirement tax on the unreported tips.

To figure the amount of social security tax on unreported tips, complete **Form 4137** and attach it to your Form 1040. Enter the tax on this line.

To determine the amount of railroad retirement tax on unreported tips, contact your nearest Railroad Retirement Board office. On line 51a, enter the tax and next to it, write "RRTA" in the margin.

Be sure all your tips are included as income on Form 1040, line 7.

Line 51b

Uncollected Employee FICA and RRTA Tax on Tips

If you did not have enough wages to cover the social security tax (FICA) or railroad retirement tax (RRTA) due on tips you reported to your employer, the amount of tax due will be shown on your **Form W–2.** Enter that amount on line 51b.

Line 52

Tax on an IRA

If you have an IRA (Individual Retirement Arrangement), including an IRA under a SEP, add any taxes from **Form 5329.** Enter the total taxes on line 52.

Line 53

Advance Earned Income Credit (EIC) Payments

Enter the total of the advance earned income credit payments as shown on your Forms W–2. (The amount of earned income credit to which you are actually entitled will be figured on page 15 of these instructions and entered later on line 57.)

Line 54

Total Tax

Add lines 47 through 53. Put the total on line 54.

Payments

Line 55

Total Federal Income Tax Withheld

Add the Federal income tax withheld as shown on your Forms W–2, W–2G, and W–2P. Enter the total on this line.

Line 56

1981 Estimated Tax Payments

Enter on this line any payments you made on your estimated Federal income tax **(Form 1040–ES)** for 1981. Include any overpayment from your 1980 return that you applied to your 1981 estimated tax.

If you and your spouse paid joint estimated tax but are now filing separate income tax returns, either of you can claim all of the amount paid. Or you can each claim a part of it. Please be sure to show both social security numbers on the separate returns.

If you or your spouse paid separate estimated tax, but you are now filing a joint income tax return, add the amounts you each paid.

Follow the above instructions even if your spouse died.

If you were divorced during 1981, you may have filed a joint declaration of estimated tax with your former spouse. If so, please enter your former spouse's social security number in the block provided on the front of Form 1040. In the upper right corner of the return, above the blocks for the social security numbers, write "DIV."

If you were divorced and remarried in 1981, enter your present spouse's social security number in the block provided on the front of Form 1040. Also, enter your former spouse's social security number in the upper right corner above the blocks and write "DIV" above that number.

To see if you can take the Earned Income Credit, complete Form 1040 through line 32a, and answer the questions below.

	Yes	No
1. Is the amount you listed on Form 1040, line 32a, less than $10,000?	☐	☐
2. Did you receive any wages, salaries, tips, or other earned income (see "What is Earned Income?" on this page)?	☐	☐
3. Did you have a child (see **Note 1** below) who lived with you in the same principal residence in the U S during all of 1981?	☐	☐
4. If you checked Filing Status box 2 or box 5 on Form 1040, did you claim your child as a dependent on Form 1040, line 6c? **OR** If you checked Filing Status box 4 on Form 1040 and your child was **married** for 1981, did you claim that child as a dependent on Form 1040, line 6c? **OR** If you checked Filing Status box 4 on Form 1040 and your child was **unmarried** for 1981, did you enter that child's name on Form 1040, line 4 (or 6c if you claimed that child as a dependent)?	☐	☐

Note 1—For this purpose, the word **child** means:

- Your son or daughter.
- Your stepchild, adopted child, or a child placed with you by an authorized placement agency for legal adoption (even if the child became your stepchild or adopted child, or was placed with you, during the year).
- Any other child whom you cared for as your own child for the whole year, unless the child's natural or adoptive parents provided more than half of the support for that year

If you answered **NO** to any question, you can't take the earned income credit. Do not fill in the worksheet. Instead write "NO" on line 57 of Form 1040.

If you answered **YES** to all the questions, you may be able to take the credit. Use the Earned Income Credit Worksheet to figure the amount of any credit.

Note 2—If you expect to answer **YES** to all of the above questions for 1982 and want to receive advance payments of the credit, file Form W-5 with your employer

Earned Income Credit Worksheet

To figure your credit, follow the instructions below.

1. Enter the amount from Form 1040, line 7, plus any other compensation from your employer, regardless of whether it is taxable. Include disability pensions but do not include other pensions or annuities.	$
2. If you were self-employed, enter the amount, even if a loss, from Schedule SE, line 13. If you have self-employment income that you reported on line 1 above, do not include it here. (Clergy and religious workers, see **Publication 517**)	
3. **Earned income.** Add lines 1 and 2. However, if line 2 is a loss, subtract line 2 from line 1. If the amount on line 3 is $0 or less, do not complete the rest of this worksheet, you cannot take the credit. If it is more than zero, complete 4 and either 5 or 6 below.	
4. **Adjusted gross income.** Enter the amount from Form 1040, line 32a.	
5. If line 4 above is **$6,000 or less**, use the amount from line 3 above to find your credit in the table on page 41. Enter the credit here and on Form 1040, line 57.	
6. If line 4 above is over $6,000: a. First find the amount from line 3 above in the table on page 41 and enter the credit for that amount here. $ b. Then find the amount from line 4 in the table and enter the credit for that amount here. $ c. Enter the amount from line **6a** or **6b**, whichever is smaller, here and on Form 1040, line 57.	$

Do NOT file this worksheet with your return—Keep it for your tax records

Line 57

Earned Income Credit

What Does the Earned Income Credit Do?

The earned income credit helps many taxpayers who have incomes under $10,000. If you can take the earned income credit, you can subtract it from tax you owe or get a refund even if you had no tax withheld from your pay. The credit can go as high as $500.

What Is Earned Income?

In most cases, you had earned income if you worked last year.

Earned income includes:

- wages, salaries, and tips.
- anything else of value (money, goods, or services) you get from your employer for services you performed regardless of whether it is taxable.

Note: *The following are examples of amounts received from your employer that must be included in line 1 of the worksheet—*

a. Housing allowance (or rental value of a parsonage) for members of the clergy.

b. Meals and lodging.

c. Disability pensions which qualify for exclusion on Form 2440.

- earnings from self-employment—this is usually the amount shown on Schedule SE (Form 1040), line 13. If you had a net loss from self-employment, see the note on page 29.

Earned income does not include items such as interest, dividends, social security payments, welfare benefits, veterans' benefits, workmen's compensation or unemployment compensation (insurance).

Who Can't Take the Earned Income Credit?

You can't take the credit if:

- your income is $10,000 or more; or
- you are single (Filing Status Box 1); or
- you are married filing a separate return (Filing Status Box 3); or
- you are entitled to file Form 2555 to exclude income earned overseas or claim excess foreign living expenses; or
- you are entitled to file Form 4563 to exclude income earned from sources in U S. possessions.

If you can take the credit, enter on line 57 the credit from line 5 or line 6c of this worksheet, whichever applies.

If you want IRS to figure the credit for you, see **IRS Will Figure Your Tax and Some of Your Credits** on pages 3 and 4.

Line 58

Amount Paid with Form 4868 (Extension of Time to File)

If you filed Form 4868 to get an extension of time to file Form 1040, enter the amount you paid with Form 4868.

Line 59

Excess FICA and RRTA Tax Withheld—Two or More Employers

If you had two or more employers in 1981 who together paid you more than

$29,700 in wages, too much social security tax (FICA) and railroad retirement tax (RRTA) may have been withheld from your wages. If so, you may be able to take credit for it against your income tax.

If you are filing a joint return, you must figure this separately for you and your spouse.

If you are a railroad employee, contact an IRS office for information on how to figure your excess RRTA tax. **Do not** use this worksheet.

Please follow the steps below to see if you can take credit.

Step 1. Add all FICA tax withheld (but not more than $1,975.05 for each employer).* Enter total here	$
Step 2. From Form 1040, line 51b, enter all uncollected FICA tax on tips, if any	
Step 3. Add 1 and 2 above	
Step 4. Less	−1,975.05
Step 5. Subtract 4 from 3. Enter this amount on line 59	$

*Note: *If any one employer withheld more than $1,975.05, you should ask the employer to refund the excess to you. You cannot take credit for it on your return.*

Line 60

Credit for Federal Tax on Special Fuels and Oils

If you can take a credit for tax on gasoline, special fuels, and lubricating oils used in your business, please attach **Form 4136** or **Form 4136–T.** Enter the credit on line 60.

Line 61

Regulated Investment Company Credit

Enter on this line the total amount of the credit from **Form 2439.** Be sure to attach Copy B of Form 2439.

Overpaid Windfall Profit Tax

You may be allowed credit for overpaid windfall profit tax. Use **Form 6249** (or Form 6249–A) to figure the overpayment. Include this amount in your total for line 62. On the dotted line next to this total, please write "Overpaid Windfall Profit Tax" and show the amount.

Line 62

Total

Add lines 55 through 61. Include any Overpaid Windfall Profit Tax. Enter the total on line 62.

Refund or Balance Due

Line 63

Amount Overpaid (If line 62 is larger than line 54)

Subtract line 54 from line 62. You can choose to have all, or part, of this amount refunded to you (line 64). The remainder, if any, can be applied to your estimated tax for 1982 (line 65). If line 63 is under $1, we will send you a refund only on written request.

Line 64

Refund

Enter the amount from line 63 that you want refunded to you. If your refund is large, you may want to have less income tax withheld from your pay. See the instructions on page 17 for **Income Tax Withholding for 1982.**

Line 65

Applied to 1982 Estimated Tax

Subtract line 64 from line 63. This is the amount that will be applied to your estimated tax for 1982. Enter this amount on line 65.

We will apply amounts to your account unless you attach a request to apply it to your spouse's account. The request should include your spouse's social security number.

Line 66

Balance Due (If line 54 is larger than line 62)

Subtract line 62 from line 54. This is the amount you owe. Enter the amount on this line.

Attach your check or money order for the full amount when you file Make it out to "Internal Revenue Service" and be sure to write your social security number and "1981 Form 1040" on it. If line 66 is under $1, you do not have to pay.

In most cases, people who have income tax withheld from their wages will find that the amount withheld will be fairly close to their tax for the year. Sometimes it is not, and this is more likely to happen if both you and your spouse worked.

If you do owe tax for 1981, you may want to increase the amount of income tax withheld from your pay. Otherwise, you may be required to file a Declaration of Estimated Tax on **Form 1040–ES.** See the instructions on page 17 for **Income Tax Withholding for 1982** and **Should you File a Declaration of Estimated Tax?**

Underpayment of Estimated Tax

If line 66 is $100 or more and more than 20% of line 54, or you underpaid your 1981 estimated tax liability for any payment period, you may owe a penalty. Get **Form 2210** (Form 2210F for farmers and fishermen) to see if you meet one of the exceptions to the penalty. Please attach that form to Form 1040 to show how you figured the penalty or which exceptions you believe you meet.

If you attach Form 2210 or 2210F, be sure you check the box below line 66. If you owe a penalty, show the amount in the space below line 66.

If you owe tax, add the penalty amount to the tax due and show the total on line 66. Or, if you are due a refund, subtract the penalty amount from the overpayment you show on line 63.

Now continue with step 6 below

Step 6

Check your return to make sure it is correct.

Step 7

Sign and date your return.

Form 1040 is not considered a return unless you sign it. Your spouse must also sign if it is a joint return.

Step 8

Did you have someone else prepare your return?

If you fill in your own return, the Paid Preparer's space should remain blank If someone prepares your return and **does not charge you,** that person **should not** sign your return.

Generally, anyone who is paid to prepare your tax return must sign your return and fill in the other blanks in the Paid Preparer's Use Only area of your return.

If you have questions about whether a preparer is required to sign your return, please contact an IRS office.

The preparer required to sign your return MUST complete the required preparer information and:

- *Sign it, by hand, in the space provided for the preparer's signature. (Signature stamps or labels are not acceptable)*
- *Give you a copy of your return in addition to the copy to be filed with IRS.*

Tax return preparers should be familiar with their responsibilities. They should see **Publication 1045,** Information and Order Blanks for Preparers of Federal Income Tax Returns for more details.

Step 9

Attachments

Attach the first copy or Copy B of Forms **W–2, W–2G,** and **W–2P** to the front of Form 1040. Attach schedules in alphabetical order and other forms in numerical order to the back of Form 1040.

If you need more space on forms or schedules, attach separate sheets and use the same arrangement as the printed forms. But show your totals on the printed forms. Please use sheets that are the same size as the forms and schedules. Be sure to put your name and social security number on these separate sheets.

If you owe tax, be sure to attach your payment to the front of Form 1040.

Reminders

Penalties and Interest

a. **Interest.** Interest will be charged on taxes not paid by their due date, even if an extension of time to file is granted.

b. **Late Filing of Return.** The law provides a penalty of 5% of the tax due for

each month, or part of a month, the return is late (maximum 25%) unless you can show reasonable cause for the delay. If you file a return late, attach a full explanation to your return.

c. **Late Payment of Tax.** The penalty for not paying tax when due is ½ of 1% of the unpaid amount for each month or part of a month it remains unpaid. The maximum penalty is 25% of the unpaid amount. The penalty applies to any unpaid tax shown on a return. It also applies to any additional tax shown on a bill that is not paid within 10 days after the date of the bill. This penalty is in addition to interest charges on late payments.

Note: *If you include interest or either of these penalties with your payment, identify and enter these amounts in the bottom margin of Form 1040, page 2. Do not include the interest or penalty amounts in* **Balance Due** *on line 66.*

Income Tax Withholding for 1982

If the amount you overpaid (line 63) or the balance you owe IRS (line 66) is large, please see your payroll office. Ask about filling out a new **Form W–4** to change the amount of income tax to be withheld from your wages. For example, working married couples and persons with two or more jobs often need to have more tax withheld to avoid owing a large payment when the return is filed. You may also owe more tax because you have other income on which there is no withholding.

If the amount you owe IRS is large, you may have to file a Declaration of Estimated Tax for 1982. See **Should You File a Declaration of Estimated Tax?**, below.

Or, if you got a large refund, get a copy of Form W–4 from your employer and read the instructions. If you are entitled to additional allowances, file a new W–4 with your employer.

If you go back to work after a period of unemployment, you may reduce the amount of income tax withheld if your employer agrees to use the part-year method of withholding. There are also other methods which could reduce your withholding.

For more details, see your employer or get **Publication 505,** Tax Withholding and Estimated Tax.

Should You File a Declaration of Estimated Tax?

In general, you do not have to file a declaration if you expect that your 1982 Form 1040 will show a tax refund, or a tax balance due IRS of less than $200. If your total estimated tax is $200 or more, please get **Form 1040–ES.** It contains a worksheet that you can use to see if you have to file a declaration of estimated tax.

Address Change

If you move after you file your return and you are expecting a refund, you should notify the post office serving your old address. Also notify the IRS service center where you filed your return of your address change. This will help to forward your check to your new address as soon as possible. Be sure to include your social security number in any correspondence with the IRS.

How Long Should Records Be Kept?

Keep records of income, deductions, and credits shown on your tax return until the statute of limitations runs out for that return. Usually this is 3 years from the date the return was due or filed, or 2 years from the date the tax was paid, whichever is later. Also keep copies of your filed tax returns as part of your records. You should keep some records longer. For example, property records (including those on your own home) should be kept as long as they are needed to figure the basis of the original or replacement property. For more details, get **Publication 552,** Recordkeeping Requirements and a List of Tax Publications.

Amended Return

If you file your income tax return and later become aware of any changes you must make to income, deductions, or credits, file **Form 1040X,** Amended U.S. Individual Income Tax Return, to change the Form 1040 or 1040A you already filed.

If your return is changed for any reason, it may affect your State income tax liability. This would include changes made as a result of an examination of your return by the IRS. Contact your State tax agency for more information.

Instructions for Schedule A Itemized Deductions

Purpose

Some taxpayers must itemize their deductions and some should itemize because they will save money. See **You MUST Itemize Deductions** and **You Choose to Itemize** *on pages 12 and 13.*

If you itemize, you can deduct part of your medical and dental expenses, and amounts you paid for certain taxes, interest, contributions, casualty and theft losses, and other miscellaneous expenses. These are explained below.

If your deductions are more than 60% of the amount on Form 1040, line 31, you may be liable for the alternative minimum tax. See the instructions for line 49b on page 14 for more information

Lines 1 through 10

Medical and Dental Expenses

Before you can figure your total deduction for medical expenses, you must complete your Form 1040 through line 31.

Only that part of your medical and dental expense that is more than 3% of your adjusted gross income on Form 1040, line 31, is deductible.

However, you may deduct one-half of your medical insurance premiums, up to a maximum of $150, without reducing that amount by 3% of your adjusted gross income. Include amounts you paid for hospital, medical, and extra Medicare (Medicare B) insurance. Show half of your payments, up to $150, on line 1 and put the balance on line 5. You can deduct the amount on line 1, even if you had no other medical expenses.

Only medicine and drug costs that are more than 1% of Form 1040, line 31, are deductible as medical expenses, subject to the 3% limitation.

Lines 1 through 10 of Schedule A explain how to deduct your medical and dental expenses. When you figure them, you can include medical and dental bills you paid for:

- yourself;
- your spouse;
- all dependents you list on your return; and
- any person that you could have listed as a dependent on your return if that person had not received $1,000 or more of gross income or had not filed a joint return

Example.—You gave more than half of your mother's support but cannot list her as a dependent because she received $1,000 of wages during 1981. If part of your support was the payment of her medical bills, you can include that part in your medical expenses.

You should include all amounts you paid during 1981, but do not include amounts repaid to you, or paid to anyone else, by hospital, health or accident insurance, or your employer.

Examples of Medical and Dental Payments You CAN Deduct

To the extent you were not reimbursed, you can deduct what you paid for:

- Medicine, drugs, birth control pills, vaccines, and vitamins your doctor told you to take.
- Medical doctors, dentists, eye doctors, gynecologists, chiropractors, osteopaths, podiatrists, psychiatrists, psychologists, physical therapists, acupuncturists, and psychoanalysts (medical care only).
- Medical examinations, X-ray and laboratory services, insulin treatment, and whirlpool baths the doctor ordered.
- Nursing help. If you pay someone to do both nursing and housework, you can deduct only the cost of the nursing help.
- Hospital care (including meals and lodging), clinic costs, lab fees.
- Medical treatment at a center for drug addicts or alcoholics.
- Medical aids such as hearing aids (and batteries), false teeth, eyeglasses, contact lenses, braces, orthopedic shoes, crutches, wheelchairs, guide dogs and the cost of maintaining them.
- Ambulance service and other travel costs to get medical care. If you used your own car, you can claim what you spent for gas and oil to go to and from the place you received medical care; or you can claim 9 cents a mile. Add parking and tolls to the amount you claim under either method.

Examples of Medical and Dental Payments You CANNOT Deduct

You cannot deduct the following:

- The basic cost of Medicare insurance (Medicare A).

Note: *If you are 65 or over and not entitled to Social Security benefits, you may deduct premiums you voluntarily paid for Medicare A coverage.*

- Life insurance or income protection policies.
- The 1.3% hospital insurance benefits tax withheld from your pay as part of the social security tax or paid as part of social security self-employment tax.
- Nursing care for a healthy baby. (You may qualify for the child care credit; see Form 2441.)
- Illegal operations or drugs.
- Travel your doctor told you to take for rest or change.
- Funeral, burial, or cremation costs

Publication 502, Medical and Dental Expenses, has a checklist of medical expenses that can be deducted and those that can't. It also explains when you can deduct capital expenditures and special care for handicapped persons.

Lines 11 through 16

Taxes

Taxes You CAN DEDUCT

- **State and local income taxes (line 11)**

Include on this line State and local income taxes that were withheld from your salary and any estimated payment made. Also include payments you made in 1981 on a tax for a prior year.

If you received a refund of (or credit for) prior year taxes in 1981, see the instructions for Form 1040, line 9. **Do not reduce your itemized deductions by this amount.**

- **Real estate taxes (line 12)**

Include taxes that you paid on property you own that was not used for business. **Publication 530,** Tax Information for Homeowners, and **Publication 588,** Condominiums, Cooperative Apartments, and Homeowners Associations, explain the deductions homeowners can take.

If you pay your real estate taxes as part of your mortgage payments, do not take a deduction for that amount. Deduct the taxes in the year the mortgage company actually paid them to the taxing authority.

- **General sales taxes (line 13)**

The Optional State Sales Tax Tables show how much you can deduct for your income and family size if you did not keep detailed records. You can add to the tax table amount the general sales tax you paid if you bought

—A car, motorcycle, motor home, or truck. (Note: West Virginia (before 6/1/81) and Vermont charge a higher sales tax for these than they do for other items. Figure how much tax you would have paid at the general sales tax rate and add only that amount to the tax table amount.)

—A boat, plane, home (including mobile or prefabricated) or materials to build a new home if:

1. The tax rate was the same as the general sales tax rate, and
2. Your sales receipt or contract shows how much tax you paid.

If you kept records that show you paid more State sales tax than the tables list, you may deduct the larger amount on line 13a. Separately show the sales tax you paid on any motor vehicle you bought during 1981 on line 13b. Include State or local selective sales or excise taxes if the rates were the same as the general sales tax rates.

The sales tax tables include income through $40,000. When you figure your income, count all available income. This includes the amount on Form 1040, line 31, plus most amounts you received that are not taxed. The instructions at the top of the first page of the table give steps to help you figure your deduction.

If your available income was more than $40,000, see the following example.

Example.—Mr. & Mrs. Green live in Virginia and have a family size of 4. Their total available income is $56,025.

Using the table for Virginia, they find the deduction for their family size (4) with income between $38,001 and $40,000. This amount is $356.

For each $5,000 or part of $5,000 in excess of $40,000, the deduction is increased by the amount on the $40,001–$100,000 line for their family size. This amount is $18. The Greens' available income exceeds $40,000 by 4 units of $5,000 (or parts of $5,000). So, they increase their sales tax deduction by ($18×4)=$72.

Their total sales tax deduction is ($356+$72)=$428. The Greens then compare this figure to the amount their receipts show they actually paid for sales tax. The Greens enter the larger figure on Schedule A, line 13a.

- **Personal property taxes (line 14)**

This tax must be based on value alone. For example, if part of the fee you paid for the registration of your car was based on the car's value and part was based on its weight, you can deduct only the part based on value.

- **Other (line 15)**

If you had any deductible tax not listed on Schedule A, lines 11 through 14 (such as foreign income tax), describe the tax and show the amount on line 15.

If you paid tax to a foreign country or U.S. possession, you may want to list it as a credit instead of a deduction. Please see **Publication 514,** Foreign Tax Credit for U.S. Citizens and Resident Aliens.

Taxes You CANNOT Deduct

- Federal income tax.
- Social security tax (FICA).
- Railroad retirement tax (RRTA).
- Federal excise tax on personal property, transportation, telephone, and gasoline.
- Customs duties.
- Federal estate and gift taxes. (However, see Miscellaneous Deductions on page 19.)
- Certain State and local taxes, including:

a. Tax on gasoline.
b. Car inspection fees.
c. Tax on liquor, beer, wine, cigarettes, and tobacco.
d. Assessments for sidewalks or other improvements to your property.
e. Taxes paid for your business or profession. (Use Schedule C, E, or F of Form 1040 to deduct these business taxes.)
f. Tax you paid for someone else.
g. License fees (marriage, driver's, dog, hunting, etc.).

Lines 17 through 20

Interest Expense

You should show on Schedule A interest on nonbusiness items only.

In general, a cash basis taxpayer who in 1981 paid interest that includes amounts that apply to any period after 1981 can deduct only the amount that applies for 1981.

Interest Expense You CAN Deduct

Include the interest you paid on—

- Your home mortgage (line 17).
- Bank and other general purpose credit cards. Deduct the finance charge as interest if no part of it was for service charges, membership fees, loan fees, credit investigation fees, etc. (line 18).
- Revolving charge accounts. Deduct any finance charge a retail store added if the charges are based on your monthly unpaid balance (line 18).
- Your personal note for money you borrowed from a bank, a credit union, or another person.
- Loans on life insurance if you paid the interest in cash.
- Installment contracts on personal property, such as cars and televisions.
- Taxes you paid late. Show only the interest; do not include any amount that is considered a penalty. If the tax is deductible, show it under Taxes (lines 11 through 16 of this schedule).
- Loans on Investment property. Report the nonbusiness part of interest on these loans on line 19. (If your total investment interest is more than $10,000 ($5,000 if married filing a separate return), you may have to complete **Form 4952,** Investment Interest Expense Deduction, to figure your correct deduction. Also see **Publication 550,** Investment Income and Expenses, for details.)

Interest Expense You CANNOT Deduct

Do not include the interest you paid for—

- Tax-exempt income. This includes interest on money you borrowed to buy or carry wholly tax-exempt securities. This also includes interest paid to purchase or carry obligations or shares, or to make deposits or other investments, to the extent any interest income received from the investment is excluded on line 8d of Form 1040 or line 1e of Schedule B.
- A loan on life insurance if the interest is added to the loan and you report on the cash basis.
- A debt to buy a single-premium life insurance or endowment contract.
- Any kind of business transaction. Use Schedule C, E, or F to report business interest expenses.

For more information, please get **Publication 545, Interest Expense.**

Lines 21a through 24

Contributions

You can deduct what you gave to organizations that are religious, charitable, educational, scientific, or literary in purpose. You can also deduct what you gave to organizations that work to prevent cruelty to children or animals.

Examples of these organizations are:

- Churches, temples, synagogues, Salvation Army, Red Cross, CARE, Goodwill Industries, United Way, Boy Scouts, Girl Scouts, Boys Club of America, etc.
- Fraternal orders, if the gifts will be used for the purposes listed above.
- Veterans' and certain cultural groups.
- Nonprofit schools, hospitals, and organizations whose purpose is to find a cure for, or help people who have arthritis, asthma, birth defects, cancer, cerebral palsy, cystic fibrosis, diabetes, heart disease, hemophilia, mental illness or retardation, multiple sclerosis, muscular dystrophy, tuberculosis, etc.
- Federal, State, and local governments if the gifts are solely for public purposes.

If you contributed to a charitable organization and also received a benefit from it, you can deduct only the amount that is more than the benefit you received.

If you do not know whether you can deduct what you gave to an organization, check with that organization or with IRS.

Contributions You CAN Deduct

Contributions can be cash (including checks and money orders), property, or out-of-pocket expenses you paid to do volunteer work for the kinds of organizations described above. If you drive to and from the volunteer work, you can take 9 cents a mile or the actual cost of gas and oil. Add parking and tolls to the amount you claim under either method. (But don't deduct any amounts that were repaid to you.)

Line 21a. Enter on line 21a all of your cash contnbutions except those that total $3,000 or more to any one organization.

Line 21b. Enter on line 21b cash contributions totaling $3,000 or more to any one organization. Show to whom and how much you gave.

Line 22. If you gave property, state the kind of property you gave and the name of the organization you gave it to. Include the date you gave it, show how you figured its value at the time you gave it, and state whether it was capital gain or ordinary income property. If you determine the value of a gift by an appraisal, attach a signed copy of it for gifts for which you claim a deduction of over $200. For gifts valued at over $200, also attach a statement showing:

a. The address of the organization.
b. A description of the property.
c. Any conditions attached to the gift.
d. How you got the property.
e. The cost or other basis of the property if:
   1. You owned it less than 5 years, or
   2. You must reduce it by any ordinary income or capital gain that would have resulted if the property had been sold at its fair market value.
f. How you figured your deduction if you chose to reduce your deduction for contributions of capital gain property.
g. If the gift was a "qualified conservation contribution" under section 170(h), also include the fair market value of the underlying property before and after the gift, the type of legal interest donated, and describe the conservation purpose furthered by the gift.

If you gave used items, such as clothing or furniture, deduct their fair market value at the time you gave them. Fair market value is what a willing buyer would pay a willing seller when neither has to buy or sell and both are aware of the conditions of the sale.

Special rules apply if your contributions are more than 20% of Form 1040, line 31. If you gave gifts of property that increased in value, made bargain sales to charity, or gave gifts of the use of property, other rules apply.

For additional information, please get **Publication 526,** Charitable Contributions.

Contributions You CANNOT Deduct

- Political contributions (but see instructions for Form 1040, line 38).
- Dues, fees, or bills paid to country clubs, lodges, fraternal orders, or similar groups.
- Cost of raffle, bingo, or lottery tickets.
- Tuition to a private school.
- The value of your time or services.
- Value of blood given to a blood bank.
- The transfer of a future interest in tangible personal property (generally, until the entire interest has been transferred).
- Gifts to:

a. Individuals.
b. Foreign organizations.
c. Groups that are run for personal profit.
d. Groups whose purpose is to lobby for changes in the laws.
e. Civic leagues, social and sports clubs, labor unions, and chambers of commerce.

Lines 25 through 29

Casualty and Theft Losses

Use these lines to report casualty or theft losses of property that is not trade, business, or income-producing property. Use the following worksheet if you had only one casualty or theft loss during the tax year and only one item was lost or damaged by that loss.

1. Cost or other basis	_____
2. Fair Market Value of property before casualty or theft	_____
3. Fair Market Value of property after casualty or theft	_____
4. Subtract line 3 from line 2 . . .	_____
5. Enter line 1 or line 4, whichever is smaller. Also enter on Schedule A, line 25	_____

Use **Form 4684** in the following cases:

- you had a net casualty or theft loss of $1,000 or more (after subtracting any reimbursement and the $100 limitation), or
- you had more than one casualty or theft during the tax year, or
- you had more than one item lost or damaged by one or more casualties or thefts, or
- you had a gain from casualty or theft, or
- your casualty or theft involved trade, business, or income-producing property.

Losses You CANNOT Deduct

- Money or property misplaced or lost.
- Breakage of china, glassware, furniture, and similar items under normal conditions.
- Progressive damage to property (buildings, clothes, trees, etc.) caused by termites, moths, other insects, or disease.

Losses You CAN Deduct

You may be able to deduct all or part of each loss caused by theft, vandalism, fire, storm, and car, boat, and other accidents or similar causes.

How to Deduct These Losses

On line 25, enter the amount from line 5 of the worksheet. Then fill in the amount paid by insurance or other sources on line 26.

Next, subtract line 26 from line 25, and enter the difference on line 27. If the amount is $100 or less, you cannot deduct the casualty or theft loss.

On line 28, enter $100 or the amount on line 27, whichever is smaller.

Subtract line 28 from line 27 and enter the result on line 29. If the amount on line 29 is $1,000 or more, you must attach Form 4684.

Use line 31 of Schedule A to deduct the costs of proving that you had a property loss. (Examples of these costs are appraisal fees and photographs used to establish the amount of your loss.)

For more details, get **Publication 547,** Tax Information on Disasters, Casualties, and Thefts. It also gives information about Federal disaster area losses.

Lines 30a through 32

Miscellaneous Deductions

Miscellaneous Expenses You CAN Deduct

Business Use of Home. You can deduct expenses for business use of part of your home only if you use that part exclusively and continuously in your work and for the convenience of your employer.

See **Publication 587,** Business Use of Your Home, for detailed information.

Educational Expenses. Generally, you can deduct what you paid for education required by your employer, or by law or regulations, to keep your present salary or job. In general, you can also deduct the cost of maintaining or improving skills you must have in your present position.

You cannot deduct some educational expenses. Among them are expenses for study that helps you meet minimum requirements for your job, or qualifies you to get a new job. Also, do not deduct expenses that were repaid to you.

For more details, see **Publication 508,** Educational Expenses.

Gambling Losses. You can deduct gambling losses, but not more than the gambling winnings you reported on Form 1040, line 20.

Income in Respect of a Decedent. You can deduct the Federal estate tax attributable to income in respect of a decedent that is ordinary income.

Employee Expenses. Examples of the expenses you can deduct (if you were not reimbursed for them) are:

- Union dues (line 30a).
- Safety equipment, small tools, and supplies you needed for your job.
- Uniforms your employer said you must have, and which you cannot usually wear away from work.
- Protective clothing, such as hard hats and safety shoes.
- Physical examinations your employer said you must have.
- Dues to professional organizations and chambers of commerce.
- Subscriptions to professional journals.
- Fees to employment agencies and other costs to get a new job in your present trade or profession.

Expenses of Producing Income. You can deduct what you paid to produce or collect taxable income or to manage or protect property held for producing income.

Examples of these expenses are:

- Tax return preparation fees (line 30b).
- Safe deposit box rental.
- Certain legal and accounting fees.
- Clerical help.
- Office rent.
- Custodial (e.g. trust accounts) fees.

Qualified Adoption Expenses. Beginning in 1981, you may be able to deduct up to $1,500 of **qualified adoption expenses** you paid to adopt a child who has been determined by the State to be a child with "special needs" and who is eligible for "adoption assistance payments."

For more information on qualified adoption expenses, get **Publication 529,** Miscellaneous Deductions.

Miscellaneous Expenses You CANNOT Deduct

Expenses you cannot deduct include:

- Political contributions (but see instructions for Form 1040, line 38).
- Legal fees for personal matters.
- Lost or misplaced cash or property.
- Expenses for meals during regular or extra work hours.
- The cost of entertaining friends.
- Expenses of going to or from work.
- Education that you need to meet minimum requirements for your job or that will qualify you for a new occupation.
- Fines and penalties.
- Expenses of producing tax-exempt income.

For more details, see **Publication 529.**

Lines 33 through 40

Summary of Itemized Deductions

If you have not already entered the totals from each group of deductions on lines 33 through 38, do so now. Add lines 33 through 38, and enter the total on line 39. Enter the amount for your filing status on line 40.

Line 41

If line 39 is more than line 40, subtract line 40 from line 39 and enter the difference on Schedule A, line 41, and on Form 1040, line 32b.

Note: *You will receive the full benefit of your itemized deductions because the zero bracket amount you entered on line 40 has been built into the Tax Table and Tax Rate Schedules for you.*

If line 40 is more than line 39, enter zero on Schedule A, line 41, and on Form 1040, line 32b, unless you are required to itemize deductions (see page 12 for **You MUST Itemize Deductions**). If you MUST itemize deductions, enter **TC** on line 41 and see the instructions for line 32b on page 12.

Instructions for Schedule B

Interest and Dividend Income

Purpose

Use Schedule B to list interest and dividend income. Part III of the schedule asks you to answer questions about foreign accounts and trusts. You must use Schedule B if you are filing Form 1040 and:

- Had more than $400 in interest,
- Had any interest from an All-Savers Certificate,
- Had more than $400 in dividends,
- Had a foreign account, or
- Were a grantor of, or transferor to, a foreign trust.

Please follow the instructions below.

Part I

Interest Income

To see what interest income you must report, read the instructions for Form 1040, line 8a, on page 8.

The payer will usually send you a Form 1099–INT or similar statement showing interest you must report. If the total interest is over $400 or you had any interest from an All-Savers Certificate, fill in Part I. Also, fill in Part III of this schedule if the total interest is over $400.

Line 1a

Report on line 1a all interest (other than qualifying interest from an All-Savers Certificate) that you received or that was credited to your account so you could withdraw it. List the name of each payer. Next to each name, show the amount of income.

Report qualifying interest from an All-Savers Certificate on line 1c. However, if you redeemed an All-Savers Certificate before its maturity, report any interest received on the certificate on line 1a instead of on line 1c.

Line 1b

Add up all the interest and enter it on this line except as noted below in **Nominee** and **Accrued Interest.**

Nominee and Accrued Interest. When you buy bonds between interest payment dates and you pay accrued interest to the seller, this amount is taxable interest to the seller.

List on line 1a all interest received, including interest you received as a nominee (interest received in your name for someone else) or as a purchaser of a bond with accrued interest. Several lines above line 1b, enter a subtotal of all interest income listed on line 1a. Below this subtotal, write "Nominee Distribution" or "Accrued Interest" as appropriate and enter the interest amounts you paid to others. Subtract these amounts from the subtotal, and enter the result on line 1b.

Note: *If you received interest as a nominee for the actual owner, give that person* **Form 1087–INT.**

Line 1c

Report all qualifying interest from **All-Savers Certificates (ASC's)** on this line. List the name of the payer. Next to the name show the amount of income.

However, **do not** include on line 1c any interest you received from an ASC that you redeemed before its maturity. Instead, report the interest on line 1a.

Line 1d

Add up all the interest on line 1c and enter it on this line.

Line 1e

Enter the amount of your allowable exclusion on line 1e. You can exclude up to $1,000 ($2,000 if a joint return). This is a lifetime exclusion and applies to the total of all qualifying interest you receive from all ASC's.

The amount you can exclude in any year is the amount of qualifying interest received during the year less the amount you excluded in any earlier year(s), subject to the maximum amount of the exclusion.

Example.—You are married filing a joint return and bought an ASC in October 1981, and received $600 interest from this ASC in 1981. You can exclude the entire $600 in 1981. In 1982 you can exclude up to $1,400 additional interest received from the ASC. (On a joint return, each spouse is treated as having claimed one-half the amount of the exclusion.)

If you redeem any part of an ASC before its maturity, you may NOT exclude any interest received from that certificate during the year. If you exclude interest in one year, and redeem the certificate before its maturity in the next year, you must include in income in the year you redeem the certificate any interest you excluded in the prior year.

If you use all or part of the certificate as collateral or security for a loan, you are treated as having redeemed the certificate early.

Example.—You are single and in October 1981 you bought an ASC. You received $250 interest from this ASC in 1981, all of which you excluded from your 1981 income. During 1982, you redeem this certificate before its maturity. Since you redeemed the ASC before its maturity, you must include in your 1982 interest income the $250 you excluded in 1981, as well as any additional interest you received from this ASC in 1982. However, if you reinvest in another qualified certificate, you can exclude up to $1,000 of interest from the new ASC.

You may NOT exclude any interest received from an ASC under the general interest and dividend exclusion rules that apply in 1981 (line 8d of Form 1040). (This applies even if you cannot exclude

the interest because you redeem the certificate early.)

For more details on the exclusion of qualified interest from All-Savers Certificates get **Publication 550**, Investment Income and Expenses.

Line 1f

Subtract line 1e from line 1d.

Line 2

Add lines 1b and 1f. Enter the total on line 2. Also enter this amount on Form 1040, line 8a.

Part II

Dividend Income

To see what dividend income you must report, read the instructions for Form 1040, line 8b, on page 9.

The payer will usually send you a Form 1099–DIV or similar statement showing dividends you must report. If the total dividends are over $400, fill in Part II AND Part III of this schedule.

Line 3

Report all of your dividend income on this line. Include cash and the value of stock, property, or merchandise you received as a dividend. If you owned shares in a mutual fund, **Publication 564**, Mutual Fund Distributions, may be helpful.

List the name of each payer. If the securities are held in a brokerage account, list the name of the brokerage firm as the payer. Next to each name, show the amount of income. Be sure to include capital gain and nontaxable distributions on this line. They will be deducted on lines 5 and 6.

Nominees. List on line 3 all dividends you received, including dividends you received as a nominee, even if you later distributed some or all of this income to others. Several lines above line 4, enter a subtotal of all dividend income listed on line 3. Below this subtotal write "Nominee Distribution" and enter the amounts distributed. Subtract these distributions from the subtotal and enter the result on line 4.

Note: *If you received dividends as a nominee for the actual owner, give that person* **Form 1087–DIV.**

Line 4

Add the amounts you listed on line 3 except as noted above in *Nominees*. Enter the total on this line.

Line 5

If you listed any capital gain distributions on line 3, add those amounts. Enter the total on this line.

Line 6

Enter the total of your nontaxable distributions on this line.

Line 7

Add lines 5 and 6. Enter the total on this line.

Line 8

Subtract line 7 from line 4. Enter on line 8 and on Form 1040, line 8b. (Be sure to take your exclusion on line 8d.)

Part III

Foreign Accounts and Foreign Trusts

Fill in this part if you had more than $400 of interest or dividend income; if you had a foreign financial account; or if you were the grantor of, or transferor to, a foreign trust.

Line 9. Check the **Yes** box if either **1** or **2** below applies to you.

1. At any time during the year you had an interest in or signature or other authority over a bank account, securities account, or other financial account in a foreign country. *Exception:* Check **No** if any of the following apply to you.

- The combined value of the accounts was $1,000 or less during the whole year.
- The accounts were with a U.S. military banking facility operated by a U.S. financial institution.
- You are an officer or employee of a commercial bank that is supervised by the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, or the Federal Deposit Insurance Corporation; the account is in your employer's name; AND you do not have a personal financial interest in the account.
- You are an officer or employee of a domestic corporation with securities listed on national securities exchanges or with assets of more than $1 million and 500 or more shareholders of record; the account is in your employer's name; you do not have a personal financial interest in the account; and the chief financial officer of the corporation has given you written notice that the corporation has filed a current report that includes the account.

2. You own more than 50% of the stock in any corporation that owns one or more foreign bank accounts.

Get Form 90–22.1 to see if you are considered to have an interest in or signature or other authority over a bank account, securities account, or other financial account in a foreign country.

If you checked **Yes** on line 9, file Form 90–22.1 by June 30, 1982, with the Department of the Treasury at the address shown on the form. Form 90–22.1 is not a tax return, so **do not** attach it to Form 1040 or file it with the IRS. But be sure to file your **Form 1040 with the IRS.**

You can get Form 90–22.1 from many IRS offices or by writing to the IRS forms distribution center for your State, as shown on the inside back cover.

Line 10. Check the **Yes** box if you were a grantor of, or a transferor to, a foreign trust that existed during the tax year.

Instructions for Schedule D

Capital Gains and Losses

Purpose

Use Schedule D (Form 1040) to report the sale or exchange of a capital asset. See the definition of "capital asset" below.

In the following cases you have to use **Form 4797**, Supplemental Schedule of Gains and Losses, instead of Schedule D:

- The sale, exchange, or involuntary conversion (other than casualty or theft) of business property, certain depreciable and amortizable property, certain oil, gas and geothermal property, and section 126 property.
- The involuntary conversion (other than casualty or theft) of certain capital assets.
- The disposition of other noncapital assets not mentioned above.

If property is involuntarily converted because of a casualty or theft, use **Form 4684**, Casualties and Thefts.

Two publications you should find useful are **Publication 544**, Sales and Other Dispositions of Assets, and **Publication 550**, Investment Income and Expenses.

Capital Asset

Most property you own and use for personal purposes, pleasure, or investment is a capital asset. For example, your house, furniture, car, and stocks and bonds are capital assets.

A transfer of patent rights is generally considered a sale or exchange of a capital asset held for more than one year.

A nonbusiness bad debt must be treated as a short-term capital loss.

A capital asset as defined by law is any piece of property held by a taxpayer except the following:

a. Stock in trade or other property included in inventory or held for sale to customers.

b. Accounts or notes receivable you received for services in the ordinary course of your trade or business or from the sale of any property described in **(a)** or for services you performed as an employee.

c. Depreciable property used in your trade or business even if it was fully depreciated.

d. Real property (real estate) used in your trade or business.

e. A copyright, literary, musical or artistic composition, letter, memorandum, or similar property

1. created by your personal efforts, or
2. prepared or produced for you (in the case of a letter, memorandum, or similar property), or
3. that you received from a taxpayer mentioned in **1** or **2**, in a way (such as by gift) that entitled you to the basis of the previous owner.

f. U.S. Government publications (including the Congressional Record) that you received from the government other than by purchase at the normal sales price, or that you got from another taxpayer who had received it in a similar way if your

basis is determined by reference to the previous owner.

g. Certain government obligations issued at a discount on or after March 1, 1941, and acquired before June 24, 1981, payable without interest, and maturing at a fixed date not more than one year from the date of issue.

Short-Term or Long-Term

When you list your capital gains and losses, separate them according to how long you held or owned the property. The holding period for determining long term capital gains and losses is more than one year.

When you figure the length of the period you held property, begin counting on the day after you got the property and include the day you disposed of it.

Limits on Capital Losses

The limit on capital losses that can be applied against other income after offsetting capital gains is $3,000. If you are married and filing separately, the limit is $1,500.

Losses That Are Not Deductible

Do not deduct a loss from the sale or exchange of property directly or indirectly between any of the following:

- Members of a family.
- A corporation and an individual or a fiduciary owning more than 50 percent of the corporation's stock (not counting liquidations).
- A grantor and a fiduciary of a trust.
- A fiduciary and a beneficiary of the same trust.
- A fiduciary and a fiduciary or beneficiary of another trust created by the same grantor.
- An individual and a tax-exempt organization controlled by the individual or the individual's family.
- A partnership and a partner owning directly or indirectly more than 50 percent of the capital interest, or profits interest in the partnership (other than a sale or exchange of an interest in the partnership).

If you sell or otherwise dispose of (1) an asset used in an activity to which the "at risk" rules apply or (2) any part of your interest in an activity to which the "at risk" rules apply (see I.R. Code section 465), combine the gain or loss on the disposition with the profit or loss from the activity. If you have a net loss, you may be subject to the "at risk" provisions.

Items for Special Treatment and Special Cases

The following items may require special treatment.

- Transactions by a securities dealer.
- Wash sales of stock or securities.
- Bonds and other evidence of indebtedness if an original issue discount is a factor.
- Gain from sale or exchange of certain short-term government obligations acquired after 6/23/81.
- Certain real estate subdivided for sale which may be considered a capital asset.
- Distributions received from an employee pension, profit-sharing, or stock bonus plan. (Please see **Form 4972**, Special 10-Year Averaging Method, or **Form 5544**, Multiple Recipient Special 10-Year Averaging Method.)
- Gain on the sale of depreciable property between husband and wife or between shareholder and a controlled corporation treated as ordinary gain.
- Gain on disposition of stock in a Domestic International Sales Corporation.
- Gain or loss on options to buy or sell, including closing transactions.
- Transfer of property to a foreign corporation as paid-in surplus or as a contribution to capital, or to a foreign trust or partnership.
- Transfer of property to a partnership which would be treated as an investment company if the partnership were incorporated.

For rules on nontaxable exchanges, gifts of property, and inherited property, please see **Publication 544**, Sales and Other Dispositions of Assets.

Transfer of Appreciated Property to a Political Organization

If you transfer property to a political organization when the fair market value of the property is more than your adjusted basis, treat the transaction as a property sale on the transfer date. Report the fair market value of the property at the time of the transfer as the sales price. Ordinary income or capital gains provisions apply as if a sale took place.

Exchange of Like-Kind Property

Report the exchange of "like-kind" property on Schedule D or on Form 4797, whichever applies. You must report it even though no gain or loss is recognized when you exchange business or investment property for property of "like kind." (This does not include stock in trade or other property held primarily for sale. It also does not include stocks, bonds, notes, choses in action, certificates of trust or beneficial interest, or other securities or evidences of indebtedness or interest.)

If you use Schedule D, identify in column a, the property you disposed of. Enter the date you acquired it in column b, and the date you exchanged it in column c. Write "like-kind exchange" in column d. Enter the cost or other basis in column e. Enter zero in columns f and g.

Sale or Exchange (Other Than Involuntary Conversion) of Capital Assets Held for Personal Use

This type of gain is a capital gain. Report it on Schedule D, Part I or Part II. Loss from the sale or exchange of this property is not deductible.

Small Business Stock

Subject to limitations, you may deduct the loss on the sale, exchange, or worthlessness of Small Business (section 1244) stock as an ordinary loss on Form 4797. However, gains are reported as capital gains on Schedule D (Form 1040).

Disposition of Partnership Interest

A sale or other disposition of an interest in a partnership may result in ordinary income. Please see **Publication 541**, Tax Information on Partnerships, and **Publication 544**, Sales and Other Dispositions of Assets.

Long-term Capital Gains from Regulated Investment Companies

Include in income as a long-term capital gain the amount(s) shown on Form 2439 that represents your share of the undistributed capital gains of a regulated investment company. Enter the tax paid by the company as shown on Form 2439 on Form 1040, line 61. Add to the basis of your stock, the excess of the amount included in income over the credit.

Sale of Residence

Report a taxable gain from the sale of a residence on Schedule D, line 2a or 9a. A loss from such sale is not deductible.

Use Form 2119, Sale or Exchange of Principal Residence, to report the sale of your principal residence whether or not you bought another one. For more information, see **Publication 523**, Tax Information on Selling Your Home.

Installment Sales

If you sold property at a gain, and are to receive any payment in a tax year after the year of sale, you must use the installment method and Form 6252, Computation of Installment Sale Income, unless you elect not to. Also use Form 6252, if you received a payment in 1981 from a sale made in an earlier year on the installment method.

If you want to elect out of the installment method, you must do the following on a timely filed return (including extensions):

(1) Report the full amount of the sale on Schedule D.

(2) If you received a note or other obligation and are reporting it at less than face value (including all contingent payment obligations), complete Part VI. If more than one, enter the amounts separately in the spaces in Part VI.

Investment Interest Expense Deduction Adjustment

If you have an entry on Form 4952, line 20 and Schedule D, line 20 (or Form 4798, line 8), part or all of Form 4952, line 20 may be treated as ordinary income.

Determine the ordinary income for Schedule D or Form 4798 as follows:

Step 1—In a separate computation reduce Form 4952, line 20 to the extent line 15 of that form is more than the sum of lines 16 through 19 of that form.

Step 2—Ordinary income will be the smaller of step 1 or Schedule D, line 20 (or Form 4798, line 8).

Enter the ordinary income in the margin to the right of Schedule D, line 20 (or Form 4798, Part I, line 8). Identify by writing next to it: "From Form 4952." Subtract the ordinary income from the gain on Schedule D, line 20 (or Form 4798, Part I, line 8). In addition, enter the ordinary gain on Form 4797, Part II, line 9. If you do not use Form 4797 for other transactions, enter it on Form 1040, line 14, and identify it in the margin as "From Form 4952."

Commodity Futures and Straddle Positions

For information on how to report gains and losses from regulated futures contracts and straddles, see Form 6781, Gains and Losses From Commodity Futures Contracts and Straddle Positions.

Alternative Tax Computation

It may be to your advantage to use the alternative tax if you have an entry on Schedule D, line 20 (or Form 4798, line 8) and you are filing:

- as a single individual with taxable income over $41,500.
- a joint return, or as a qualifying widow or widower with taxable income over $60,000.
- as a Head of Household with taxable income over $44,700.
- a separate return from your spouse and have taxable income over $30,000.

Figure the tax using the alternative method to see if the resulting tax is less than the tax using the regular method.

In figuring the alternative tax, you may use Schedule G (income averaging) to compute line 33. If so, substitute the amount on Schedule D, line 32 for line 6 of Schedule G.

Specific Instructions

Note: *If you attach your own schedule to show detail of gain or (loss), enter on Schedule D, lines 4 and 11, the total gain and the total loss. Do not combine the total gain with the total loss.*

Column d

Sales Price Less Expense of Sale

Enter in this column the selling price of the property sold. Reduce this by any expense of sale such as broker's fee, commission, etc.

Column e

Cost or Other Basis, as Adjusted

In general, the cost or adjusted basis is the cost of the property plus purchase commissions, improvements and minus depreciation, amortization, and depletion. If you inherited the property or got it as a gift, tax-free exchange, involuntary conversion, or "wash sale" of stock, you may not be able to use the actual cash cost as the basis. If you do not use cash cost, attach an explanation of your basis.

When selling stock, adjust your basis by subtracting all the nontaxable distributions you received before the sale. This includes nontaxable dividends from utility company stock and mutual funds. Also adjust your basis for any stock splits.

The basis of property acquired by gifts made before 1977, generally is the basis of the property in the hands of the donor plus any gift taxes paid on the gift. For gifts made after 1976, only the gift tax on the appreciation in value to the time of the gift is added to the basis of the property in the hands of the donor.

The basis of property acquired from a decedent is generally the fair market value at the date of death.

If a charitable contribution deduction is allowed because of a sale of property to a charitable organization, the adjusted basis for determining gain from the sale is an amount which has the same ratio to the adjusted basis as the amount realized has to the fair market value.

For more information see **Publication 551,** Basis of Assets

Line 6

Short-Term Capital Loss Carryover From Years Beginning After 1969

Enter the amount from your 1980 Schedule D (Form 1040), line 27 or 1980 Form 4798, Part II, line 20.

Line 14

If Form 4797, line 5(a)(1) shows a net gain, enter it in column g. Then refigure Form 4797 for those gains and losses from sales or exchanges after 6/9/81 if you are using the alternative tax computation. Include the net gain or loss after that date on Schedule D, line 26.

Line 17

Long-Term Capital Loss Carryover From Years Beginning After 1969

Enter the amount from your 1980 Schedule D (Form 1040), line 33 or 1980 Form 4798, Part II, line 26.

Note: *If you used Form 4798 in 1980 and had an entry in Part II, lines 17 or 23, use Form 4798 in 1981 instead of completing Schedule D, Parts III or V.*

Line 24 (iii)

(or Form 4798, Part I, line 30c)

Taxable Income, as Adjusted

Figure your taxable income, as adjusted with a separate calculation. Do this in the following way:

a. Figure the amount from Form 1040, line 32c, without regard to gains and losses from sales or exchanges of capital assets.

b. Subtract from the amount in a. one of the following:

1. $2,300 if you are filing as single or head of household.
2. $3,400 if you are married and filing jointly or if you are a qualifying widow(er) with a dependent child.
3. $1,700 if you are married and filing separately.

Lines 25 and 26

Refigure net short-term and net long-term gain or loss reported on lines 5 and 16. Only net gains or losses from sales or exchanges that took place after June 9, 1981, are included in lines 25 and 26.

Instructions for
Schedule E
Supplemental Income

Purpose

Use Schedule E to report income (or loss) from rents and royalties, partnerships, estates and trusts, and small business corporations.

Note: *If you attach your own schedules to report income (or loss) from any of these sources use the same format as the Schedule E. Enter on Schedule E separately the total of net income and the total of net loss for each part. DO NOT combine the total of net income with the total of net loss on the separate schedules.*

"At Risk" Rules (Parts I and II)

Generally, the special "at risk" rules of section 465 of the Internal Revenue Code apply to all activities except real estate (other than mineral property). The "at risk" rules may apply to a member of a partnership or joint venture; shareholder in a small business corporation; beneficiary of an estate or trust; or lessor of certain property. The "at risk" rules only apply if you have a loss from an activity carried on as a trade or business or for the production of income. Generally, the amount you have "at risk" limits the loss you can deduct for any tax year.

You are generally considered "at risk" for an activity for the cash and the adjusted basis of other property you contributed to the activity, and any amounts borrowed for use in the activity for which you are personally liable.

Your "at risk" amount does not include the proceeds from your share of any nonrecourse loan used to finance the activity or the acquisition of property used in the activity. However, you are "at risk" to the extent of the net fair market value of your own property (not used in the activity) that secures borrowed amounts for which you are not liable. Generally, for any "at risk" activity described in section 465(c), you are not "at risk" for any amount that is protected against loss by a guarantee, stop-loss agreement, or similar arrangement. In addition, for the activities described in section 465(c)(1), you are not "at risk" for borrowed amounts from a person who is related to you under section 267(b).

If you have amounts not "at risk" for an activity and you share in the loss for that activity, you must figure the allowable loss to report on Schedule E. Partners, beneficiaries, and shareholders should get a separate statement of income, expenses, deductions, and credits for each activity.

If you sell or otherwise dispose of (1) an asset used in an activity to which the "at risk" rules apply or (2) any part of your interest in an activity to which the "at risk" rules apply (see I.R. Code section 465), combine the gain or loss on the sale or disposition with the profit or loss from the activity to determine your net profit or loss from the activity. If you have a net loss, it may be limited because of the "at risk" rules.

- Part I—Enter in the appropriate column(s) on line 20 the loss from the activity or the amount "at risk" for the activity, whichever is smaller. If your "at risk" amount is smaller than zero, enter zero.
- Part II—Enter in column (c) the loss from the activity or the amount "at risk" for the activity, whichever is smaller. If your "at risk" amount is smaller than zero, enter zero.

Any loss from an activity not allowed for the tax year is treated as a deduction allocable to the activity in the next tax year.

Part I

Rent and Royalty Income or Loss

Generally, you should use this part to report rent and royalty income. Report rents from property you own or control, including room and other space rentals. However, if you provided services to the renter, or if your business was selling real estate, report the income on Schedule C. For more information on rental income

and expenses, see **Publication 527,** Rental Property.

Report royalties from oil, gas, or mineral properties, copyrights, and patents. If you hold an operating oil, gas, or mineral interest, report gross income and expenses on Schedule C.

If you use Part I to report rent and royalty income, enter your rent and royalty expenses for each property in the appropriate columns on lines 4 through 16.

Your share of any loss from an activity except real estate (other than mineral property) for the tax year may be allowed only for the total amount that you are "at risk" for the activity at the close of the tax year.

Rent

If you were not in the real estate sales business and you received rent from property you own or control, report it on line 3a. If you received services or property, instead of money, as rent, report its fair market value.

You can deduct an amount for the depreciation of rental property. You can also deduct all normal expenses, such as taxes, interest, repairs, insurance, maintenance, and agent's commissions. If your total investment interest including investment interest from all other sources is more than $10,000 ($5,000 if married filing separately), see **Form 4952,** Investment Interest Expense Deduction.

Do not deduct the value of your own labor. Do not deduct capital investments or improvements; instead add these to the basis of the property for depreciation. Example: A landlord can deduct the cost of minor repairs, but not the cost of major improvements, such as a new roof.

Did You Rent Out Part of Your Home?

If you rent out only part of your property, deduct the part of your expenses that apply to the rented part. If you do not know the exact amount of these expenses, figure out what share of the total expenses applied to the rented part. Example: You rent out one-quarter of your home and live in the other part. Deduct depreciation on only one-quarter of the home. Deduct any other expenses that apply to the rented part.

Did You Rent Out a Vacation Home Or Similar Dwelling Unit?

Generally, you may deduct only those expenses which apply to the time that the vacation home or similar dwelling unit is rented out. Also, if you or your family used the property as a residence, certain expenses cannot be more than the gross rental income. Only interest, taxes, and casualty losses do not have to be limited. Generally, a vacation home or similar dwelling unit is used as a residence if you or your family used it for personal purposes for more than the larger of:

a. 14 days, or

b. 10% of the number of days during 1981 that the property was actually rented out at a fair rental.

If you used the property as a residence and rented it out for less than 15 days, you may not deduct any rental expenses. However, if you itemized your deductions, you may deduct any interest, taxes, and casualty losses on Schedule A (Form 1040). You do not have to report the rental income.

Your family includes only your brothers, sisters, half brothers, half sisters, spouse, ancestors (parents, grandparents, etc.), and lineal descendants (children, grandchildren, etc.).

Dwelling units include houses, apartments, condominiums, mobile homes, and boats, or similar property. For information on how to figure deductible expenses, see **Publication 527.**

Royalties

Report on line 3b royalties from oil, gas, or mineral properties; copyrights; and patents, not including operating oil, gas, or mineral interests. Under certain circumstances, you can treat amounts received as "royalties" for transfer of a patent or amounts received on the disposal of coal and iron ore as the sale of a capital asset. For more information, please get **Publication 544,** Sales and Other Dispositions of Assets.

If State or local taxes were withheld from oil or gas payments you received, enter on line 3b the gross amount of royalty, and include the taxes withheld by the producer on line 13.

DO NOT include on line 13 the amount of windfall profit taxes actually withheld in 1981. Instead, enter that amount in Part III, line 35.

Rental Income From Farm Production or Crop Shares

Report farm rental income and expenses on **Form 4835,** Farm Rental Income and Expenses and Summary of Gross Income From Farming or Fishing, if you meet these two tests:

a. You received rental income that was based on crops or livestock produced by the tenant.

b. You did not manage or operate the farm to any great extent.

Note: *For estimated tax penalty rules, income received from your share of crops and rental based on farm production is considered income from farming.*

If you use Form 4835, enter on line 24 of Schedule E the net farm rental profit or (loss) from Form 4835, line 50.

Certified Historic Structures

For tax years ending before January 1, 1982, you may elect to amortize rehabilitation expenditures under section 191 or take accelerated depreciation under section 167(o) for a certified historic structure. Accelerated depreciation may be taken for costs attributable to a substantially rehabilitated historic property. Amortization of the rehabilitation costs may be figured using a period of 60 months.

For expenditures incurred after December 31, 1981, in tax years ending after that date, this election is not available.

See **Publication 535,** Business Expenses and Operating Losses, for more information about amortization and depreciation of historic structures.

Part II

Income or Losses from Partnerships, Estates or Trusts, or Small Business Corporations

Partnerships

If you are a member of a partnership or joint venture, include in this part your share of the partnership income (whether you received it or not) or net loss for the partnership tax year that ends during the year covered by your return.

Part or all of your share of partnership income or loss from the operation of the business may be considered net earnings from self-employment that must be reported on Schedule SE. Enter the amount from Schedule K–1 (Form 1065), line 16b, on Schedule SE, Part I or II. For more information, please get **Publication 541,** Tax Information on Partnerships.

Your share of any loss from an activity for the tax year may be allowed only for the total amount that you are "at risk" for the activity at the close of the tax year.

For more information for this part, please see copy C of Schedule K–1 (Form 1065), Partner's Share of Income, Credits, Deductions, etc.

Estates and Trusts

If you are a beneficiary of an estate or trust, you should report your taxable part of the income (whether you received it or not) as follows:

- Interest income (other than All-Savers interest) qualifying for the interest exclusion—enter on Schedule B (Form 1040), Part I, line 1a. If total interest received is $400 or less, enter the total on Form 1040, line 8a. Do not list it on Schedule B.
- Interest income from All-Savers Certificates—see Schedule K–1 (Form 1041) instructions for details.
- Dividends qualifying for the dividend exclusion—enter on Schedule B (Form 1040), Part II, line 3. If total dividends received from all sources are $400 or less, enter the total on Form 1040, line 8b. Do not list them on Schedule B.
- Short-term capital gains—Schedule D.
- Long-term capital gains—Schedule D.
- Other taxable income less deductions—Schedule E, Part II.

For more information, contact the fiduciary or see Schedule K–1 (Form 1041).

Include your share of tax preference items on **Form 4625,** Computation of Minimum Tax—Individuals.

Your share of any loss from an activity for the tax year may be allowed only for the total amount that you are "at risk" for the activity at the close of the tax year.

A U.S. person who transferred property to a foreign trust may have to include the income resulting from it in his or her income if, during 1981, the trust had a U.S. beneficiary. For more information, see **Form 3520–A,** Annual Return of Foreign Trust With U.S. Beneficiaries.

Small Business Corporations

If you are a shareholder in a small business corporation that elected to have its current taxable income taxed to its stockholders, you should report:

- Actual dividend distributions (whether taxable as ordinary income or long-term capital gain) as dividend income in Schedule B (Form 1040), Part II, line 3

Subtract from the actual dividend distribution the nondividend (distribution of previously taxed income) part on Schedule B, Part II, line 6, and the long term capital gain on Schedule B, Part II, line 5. Also include the long-term capital gain part on Schedule D.

- Constructive dividends reported to you on Schedule K–1 (Form 1120S) as ordinary income or (loss), in Schedule E, Part II.

- Constructive dividends reported to you on Schedule K–1 (Form 1120S) taxable as long-term capital gain on Schedule D.

If you are a shareholder claiming a deduction for a net operating loss, please attach to your return a computation of the adjusted basis of your stock in the corporation and the adjusted basis of any debt the corporation owes you. Your net operating loss deduction is limited to that amount.

Your share of any loss from an activity for the tax year may be allowed only for the total amount that you are "at risk" for the activity at the close of the tax year.

Part III

Specific Instructions

Caution: *If you are a member of a partnership, the amounts entered on lines 34 and 35 may affect your net earnings from self-employment on Schedule SE.*

Line 34

Under certain situations, you must report as income on line 34 the amount of any credit or refund of overpaid windfall profit tax you received in 1981 for tax year 1980, based on overwithholding or the net income limitation.

In general, the amount of credit or refund you received is income to the extent you deducted windfall profit tax withheld in 1980 on Schedule E, and received a tax benefit for the deduction on your 1980 tax return.

DO NOT include as income the amount of any royalty owner's credit claimed for tax year 1980.

Line 35

If you are a cash method taxpayer, deduct on line 35 the amount of windfall profit tax actually withheld in 1981.

However, you must reduce the deduction by the amount of any royalty owner's credit or refund you claim for tax year 1981, including any part of the credit you used to offset any outstanding annual windfall profit tax liability.

Part IV

Line 38

Enter on this line your share of gross farming and fishing income from partnerships, estates and trusts, and as shown on Form 4835.

You will not be charged a penalty for underpayment of estimated tax if you meet the following tests:

- your gross farming or fishing income for 1980 or 1981 is at least two-thirds of your gross income, and
- you file your 1981 tax return and pay the tax due by March 1, 1982.

Part V

Depreciation

You can deduct a reasonable allowance for wear and tear of business and investment property. The allowance does not apply to land and personal assets.

Generally, you MUST use the new Accelerated Cost Recovery System (ACRS) for all assets you place in service after December 31, 1980.

However, you cannot use ACRS for:

- assets placed in service before January 1, 1981,
- certain public utility property,
- certain property acquired from related persons, and
- property acquired in certain nonrecognition transactions.

Use Part V to figure your depreciation only if you **did not** place any assets in service after December 31, 1980. For more space, use **Form 4562,** Depreciation.

However, if you placed any assets in service after December 31, 1980, use Form 4562 to figure your deduction for all assets. Enter in Part I, line 18, the amount from Form 4562, line 5.

Please get **Publication 534,** Depreciation, for more information.

Instructions for Schedules R and RP

Credit for the Elderly

Purpose

Some elderly people can pay less tax by using a tax credit. To do this, they must file one of two schedules (R or RP). Your credit cannot be more than your tax (on Form 1040, line 37). The credit is available no matter how long you worked. The amount of the credit is based on your filing status and age, and, if you are married, on your spouse's age. Which schedule you use depends on your age and the kind of income you had.

Schedule R is for people who are 65 or over. However, if you are married filing a joint return and either you or your spouse is under 65 with income from a public retirement system, you may elect to use Schedule RP. The election is made by filing Schedule RP with your return.

Schedule RP is for people under 65 who were employees of Federal, State, or local governments and who had income from a public retirement system.

Examples of these retired employees are: Federal civil service workers, public school teachers, members of police and fire departments, and members of the armed forces. For more information, please get **Publication 524,** Credit for the Elderly.

If you lived with your spouse at any time in 1981, you must file a joint return to take the credit. If you and your spouse lived apart the whole year, you can file either a joint return or separate returns, but you may be limited in what schedule, if any, you can use. If your spouse is 65 or older and you are under 65 with public retirement system income, you cannot use Schedule RP unless your spouse makes the election with you to use Schedule RP. The election is made by both of you filing Schedule RP with your return.

If your spouse does not make the election with you, you cannot claim any credit for the elderly on your separate return.

An individual who is a nonresident alien for any part of the tax year may take the credit if:

a. he or she is married to a U.S. citizen or resident at the end of the tax year, and

b. the couple choose to be taxed on their worldwide income.

Figuring the Credit

If you want us to, we will figure your credit. Please see page 3, "IRS Will Figure Your Tax and Some of Your Credits."

If you figure it yourself, first fill out Form 1040 through line 37. Then, read the instructions for the schedule (R or RP) you would use. If you are married and have a choice of schedules, figure your credit both ways to see which schedule will give you more credit.

Line-by-Line Instructions for Schedule R

Be sure to enter your name and social security number at the top.

Boxes A-D

Filing Status and Age

The largest amount you can use to figure the credit is based on your filing status and age, and, if you are married, on your spouse's age. "Single" includes Head of Household and Qualifying Widow(er) with Dependent Child. Check only one box.

Line 1

Enter the amount for the box you checked.

Line 2a

Report pensions and annuities that are exempt from taxation. (Do not include amounts you received from workmen's compensation insurance, damages, etc., for injury or sickness.) Include payments you received from:

- Social security (before deduction of medicare premiums).
- Railroad retirement (but not supplemental annuities).
- Veterans' pensions (but not military disability pensions).
- A matured U.S. Government life insurance endowment contract (after you subtract all amounts you paid for the contract).

Lines 2b, c, d, and e

Use these lines if your adjusted gross income on Form 1040, line 32a, is MORE than the amount printed on line 2c for the box that you checked.

Line 3

Add lines 2a and 2e. Put total on line 3. If the amount on line 3 is the same or more than the amount on line 1, you cannot take the credit; do not file Schedule R.

Line 4

Subtract line 3 from line 1. This is the amount you use to figure your credit.

Line 5

Multiply line 4 by 15% (.15) and enter the result on line 5

Line 6

Enter the tax from Form 1040, line 37. (If this amount is zero, you cannot take the credit; do not file Schedule R.)

Line 7

Enter the amount from line 5 or line 6, whichever is less. This is your Credit for the Elderly. Put the same amount on Form 1040, line 39.

Line-by-Line Instructions for Schedule RP

Be sure to enter your name and social security number at the top.

Name of Public Retirement System

Please enter the name of the public retirement system of the spouse under 65. If both you and your spouse are under 65 and receive income from a public retirement system(s), enter the name of the public retirement system(s) of both you and your spouse. Identify the husband's public retirement system with an (H) and the wife's with a (W).

Boxes A-E

Filing Status and Age

The largest amount you can use to figure the credit is based on your filing status and age and, if you are married, on your spouse's age. "Single" includes Head of Household and Qualifying Widow(er) with Dependent Child. Check only one box.

If you are filing a joint return and checked box C, use column (a) for the wife and column (b) for the husband. If you checked box B, the spouse under 65 should use column (b).

Community Property Income

If you use Schedule RP and file a joint return, you should disregard community property laws in figuring the credit. (Community property States are: Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Texas, and Washington.) Enter the total of all taxable and nontaxable income in the column of the spouse who received it.

Line 1

Enter the amount for the box you checked. If you file a joint return and you checked box B or C, the $3,750 must be allocated between you and your spouse. No more than $2,500 can be entered for either of you. Generally, you will get more credit if the larger amount is entered for the spouse with more retirement income.

Line 2a

Report pensions and annuities that are exempt from taxation. (Do not include amounts you received from workmen's compensation insurance, damages, etc., for injury or sickness.) Include payments you received from:

- Social security (before deduction of medicare premiums).
- Railroad retirement (but not supplemental annuities).
- Veterans' pensions (but not military disability pensions).
- A matured U.S. Government life insurance endowment contract (after you subtract all amounts you paid for the contract).

Line 2b

Use this line if you had wages, salaries, or other earned income (including disability income that you reported on Form 1040, line 7) of more than:

- $900 and you were under 62, or
- $1,200 and you were at least 62 but under 72.

Skip this line and go to line 3 if you:

- were 72 or over, or
- had earned income of $900 or less, or
- were at least 62 but under 72 and had earned income of $1,200 or less.

Earned income is income you receive for personal services you have performed. It includes wages, salaries, and professional fees.

Generally, your earned income is the total of the amount(s) you reported on Form 1040, lines 7, 11, and 18.

Earned income does not include pay for your services that included a distribution of earnings and profits other than reasonable compensation for your work for a corporation.

If you were engaged in a trade or business in which both your services and capital were important income-producing factors, your earned income will be based on a reasonable allowance for the services you performed. However, the earned income may not be more than 30 percent of your share of the net profits from the business.

If you were engaged in a trade or business in which capital was not an important income-producing factor, your earned income may not be more than the net earnings from the trade or business.

If you were under 62 and had earned income of more than $900, subtract $900 from the amount you earned. Enter the result on line 2b(i).

If you were at least 62 but under 72, and had earned income of more than $1,200 but not more than $1,700, subtract $1,200 from the amount of your earned income. Divide the balance by 2 and enter the result on line 2b(ii).

If you were at least 62 but under 72, and had earned income of more than $1,700, subtract $1,450 from your earned income. Enter the result on line 2b(ii).

Line 3

Add lines 2a, 2b(i), and 2b(ii). Put the total on line 3.

Line 4

Subtract line 3 from line 1. This is the largest amount of income you can use to figure your credit.

If the amount on line 3 is more than the amount on line 1 for a column, do not complete the rest of the lines in that column. If the result for both columns is zero or less, you cannot take the credit; do not file this schedule.

Line 5

The kind of retirement income you enter depends on whether you are under 65 or whether you are 65 or over. Do not include any amount from line 2a; those pensions are not taxable.

Line 5a

If you were under 65 on January 1, 1982, enter the pension or annuity payments you received from a public retirement system and reported as income. Do not enter social security income or railroad retirement that you excluded from gross income.

If your spouse died and you received payments from his or her public retirement plan, enter the payments you reported as income.

If you retired on disability, report your disability annuity payments as retirement income if:

- the payments are for periods after you reached minimum retirement age, and,
- the payments are not reportable on Form 1040, line 7.

Line 5b

If you were 65 or over on January 1, 1982, enter the amount that you reported as income from the sources listed below:

- Individual retirement arrangements (IRA), pension or annuity contracts, and retirement bonds.
- Interest.
- Dividends.
- Rents (before subtracting expenses).

Line 6

Enter the amount from line 4 or 5, whichever is less.

Line 7

If you are filing a joint return, add the amounts in columns (a) and (b) of line 6. Enter the total on line 7. If you are not filing a joint return, enter the amount from column (b) of line 6.

Line 8

Multiply line 7 by 15% (.15) and enter the result on this line.

Line 9

Enter the tax from Form 1040, line 37. (If this amount is zero, you cannot take the credit; do not file Schedule RP.)

Line 10

Enter the amount from line 8 or 9, whichever is less. This is your Credit for the Elderly. Enter the same amount on Form 1040, line 39.

Instructions for Schedule C

Profit or (Loss) From Business or Profession

Purpose

If you operated a business or practiced a profession, complete Schedule C. If you had more than one business, or if you and your spouse had separate businesses, you must complete a Schedule C for each business.

Farmers should use **Schedule F.**

For expenses that are part business and part personal, deduct only the business part. For example, if only half of your car usage was for business, deduct only half of the cost of operating the car.

Deduct interest, taxes, and casualty losses not related to your business as itemized deductions on **Schedule A.**

Report sales, exchanges, and involuntary conversions (other than casualty or theft) of trade or business property on **Form 4797,** Supplemental Schedule of Gains and Losses.

Use **Form 4684,** Casualties and Thefts, to report a casualty or theft involving trade or business, or income-producing property.

You must pay social security self-employment tax on income from any trade or business unless you are specifically excepted. Please see **Schedule SE.**

If you need more information about business income and expenses, get **Publication 334,** Tax Guide for Small Business.

Information Returns

You may have to file information returns for wages paid to employees, certain payments of fees and other non-employee compensation, interest, rents, royalties, annuities, and pensions. For more information, see instructions for **Form W-3,** Transmittal of Income and Tax Statements, and **1096,** Annual Summary and Transmittal of U.S. Information Returns.

Item A

Main Business Activity and Product

Report the business activity that accounted for the most income included on Schedule C, Part I, line 1a. Give the general field as well as the product or service. For example, "wholesale—groceries" or "retail—hardware."

Item C

Employer Identification Number

You don't need an employer identification number unless you had a Keogh (H.R. 10) plan or were required to file an employment, excise, or alcohol, tobacco, and firearms tax return.

Item D

Business Address

Use your home address only if you actually conducted the business from your home. You should show a street address instead of a box number.

Item E

Accounting Method

You must use the cash method on your return unless you kept account books. If you kept such books, you can use the cash method, accrual method, or in some cases, the completed contract or percentage-of-completion method. The method used must clearly reflect your income.

If you want to change your accounting method (including the treatment of any item such as inventories or bad debts), you must usually first get the permission of the Commissioner of Internal Revenue. File **Form 3115** within the first 180 days of the tax year in which you want to make the change.

If you use the **cash method**, show all items of taxable income actually or constructively received during the year (in cash, property, or services). Also show amounts actually paid during the year for deductible expenses. Income is constructively received when it is credited to your account or set aside for you to use.

If you use the **accrual method**, report income when you earn it and deduct expenses when you incur them, even if you do not pay them during the tax year.

Item F

Valuation Methods

Your inventories can be valued at:

- cost,
- cost or market value, whichever is lower, or
- any other method approved by the Commissioner of Internal Revenue.

Item H

Business Use of Your Home

Within certain limits, you may deduct business expenses that apply to a part of your home only if that part is exclusively used on a regular basis:

a. as your principal place of business, or

b. as a place of business used by your patients, clients, or customers in meeting or dealing with you in the normal course of your trade or business, or

c. in connection with your trade or business if it is a separate structure that is not attached to your home.

You may also deduct expenses that apply to space within your home if it is the only fixed location of your trade or business. The space must be used on a regular basis to store inventory held for use in your trade or business of selling products at retail or wholesale.

If you use space in your home on a regular basis in your trade or business of providing day care service, you may be able to deduct the business expenses even though you also use the same space for nonbusiness purposes.

Please get **Publication 587,** Business Use of Your Home, for more information.

Part I

Income (Lines 1 through 5)

Line 1a Gross Receipts or Sales

Enter gross receipts or sales from your business.

Installment Sales. If you use the installment method of reporting sales income, please attach a schedule showing separately for 1981 and the three preceding years: gross sales; cost of goods sold; gross profit; percentage of gross profits to gross sales; amounts collected; and gross profits on amounts collected.

Line 1b Returns and Allowances

You should enter on line 1b such items as returned sales, rebates, and allowances from the sales price.

Line 2

Cost of Goods Sold and/or Operations

Cost of Goods Sold. If you engaged in a trade or business in which the production, purchase, or sale of merchandise was an income producing factor, merchandise inventories must be taken into account at the beginning and end of your tax year. Enter the amount from Schedule C–1, line 8.

Cost of Operations (Inventories Not an Income-Producing Factor). If the amount on line 2 includes the cost of operations, complete the appropriate lines on Schedule C–1.

Line 4a

Income from Overpaid Windfall Profit Tax

Under certain situations, you must report as income on line 4a the amount of any credit or refund of overpaid windfall profit tax you received in 1981 for tax year 1980, based on overwithholding or the net income limitation.

In general, the amount of credit or refund you received is income to the extent you deducted windfall profit tax withheld in 1980 on Schedule C, and received a tax benefit for the deduction on your 1980 tax return.

Line 4b Other Income

Include finance reserve income, scrap sales, amounts recovered from bad debts, interest, and other kinds of miscellaneous income from the business or profession.

Part II

Deductions (Lines 6 through 31)

Line 7 Amortization

You may amortize the cost of pollution-control facilities, on-the-job training facilities (for expenditures made before January 1, 1977) and child-care facilities over a 60-month period instead of taking the depreciation deduction.

You may amortize the following over a period of at least 60 months:

- amounts paid for research, experiments and a trademark or trade name
- certain business startup costs paid or incurred after July 29, 1980, in tax years ending after that date.

You may also amortize up to $10,000 of qualified forestation and reforestation costs over an 84-month period.

You may amortize rehabilitation expenditures for certain certified historic structures over a 60-month period. Or you can take accelerated depreciation if you substantially rehabilitate a certified historic structure

Real property construction period interest and taxes generally cannot be fully deducted in the year you paid or incurred them. You must capitalize and amortize amounts not allowed as a deduction in the current year. This rule does not apply to low-income housing.

For more information on amortization, please get **Publication 535,** Business Expenses and Operating Losses.

Line 8

Bad Debts from Sales or Services

Include debts and partial debts arising from sales or services that were included in income and are definitely known to be worthless. Instead of this, you may deduct a reasonable amount that was added during the tax year to a bad debt reserve.

If you later collect a debt that you deducted as a bad debt, include it as income in the year you collect it unless you use the bad debt reserve method. For more information, please get **Publication 548,** Deduction for Bad Debts.

Line 10 Car and Truck Expenses

You can deduct the actual cost of running your car or truck, or take the fixed mileage rate. You must use actual costs if you use more than one car or truck in your business. If you deduct actual cost, show depreciation on line 13.

The fixed rate is figured at 20 cents a mile for the first 15,000 miles and 11 cents for each mile over 15,000. Add to this amount your parking fees and tolls.

For cars and trucks that have been fully depreciated, the rate is 11 cents a mile.

Note: *If you place a car or truck in service after December 31, 1980, and take the fixed mileage rate, you are treated as having elected to exclude this vehicle from ACRS.*

For more details, get **Publication 463,** Travel, Entertainment, and Gift Expenses.

Line 12 Depletion

Enter your total deduction for depletion on this line. If you claim a deduction for timber depletion, please attach **Form T.**

Line 13 Depreciation

You can deduct a reasonable allowance for the exhaustion, wear and tear, and obsolescence of property used in a trade or business, or property held for the production of income. The allowance does not apply to stock in trade, inventories, land, and personal assets.

Generally, you MUST use the Accelerated Cost Recovery System (ACRS) for all assets you place in service after December 31, 1980.

However, you cannot use ACRS for:

- assets placed in service before January 1, 1981,
- certain public utility property,
- certain property acquired from related persons, and
- property acquired in certain nonrecognition transactions.

Use **Schedule C–2** to figure your depreciation **only if you did not** place any assets in service after December 31, 1980. If you need more space, use **Form 4562, Depreciation, Part II.**

However, if you placed any assets in service after December 31, 1980, use Form 4562 to figure your deduction for all assets. Enter on line 13, the amount from Form 4562, line 5.

Please get **Publication 534,** Depreciation, for more information.

Line 15

Employee Benefit Programs

Enter the amount of your contributions that are not an incidental part of a pension or profit-sharing plan included on line 22. Also include here contributions to insurance, health, and welfare programs.

Line 18

Interest on Business Indebtedness

If you paid interest for years after 1981, deduct only the part you paid for 1981.

Don't take a deduction on Schedule C for interest you paid or accrued on debts from buying or carrying investment property. Deduct this interest on Schedule A. For more information, see **Publication 545,** Interest Expense.

Line 22

Pension and Profit-Sharing Plans

You should enter the amount you claim as a deduction for contributions to a pension, profit-sharing, or annuity plan, or plans, for the benefit of your employees. If the plan includes you as a self-employed person, you should enter contributions made as an employer on your behalf (but not voluntary contributions you made as an employee) on Form 1040, line 25, instead of on Schedule C, line 22.

Generally, you are required to file one of the following forms if you maintain a pension, profit-sharing, or other funded deferred compensation plan (other than a Simplified Employee Pension) whether or not it qualified under the Internal Revenue Code and whether or not you claimed a deduction for the current tax year.

Form 5500.—Complete this form for each plan with 100 or more participants.

Form 5500–C, 5500–K, or 5500–R.—Complete the applicable form for each plan with less than 100 participants.

The Employee Retirement Income Security Act of 1974 imposes a penalty for failure to timely file these forms.

Note: *Only one return is required to be filed for the plan of a group of businesses under common control or a multiemployer-collectively-bargained plan. Individual participating employers or contributing employers are not required to file separately.*

If you need help, contact an IRS office or get **Publication 560,** Tax Information on Self-Employed Retirement Plans.

Line 24 Repairs

You can deduct the cost of repairs including labor, supplies, and other items that do not add to the value or increase the life of the property. Do not deduct the value of your own labor. And do not deduct amounts you spent to restore or replace property. They are chargeable to capital accounts or to depreciation reserve, depending on how depreciation is charged on your books

You can elect to treat as a current expense up to $25,000 spent to remove architectural and transportation barriers to the handicapped and elderly. For more information get **Publication 535.**

Line 27 Travel and Entertainment

You can deduct all ordinary and necessary travel and entertainment expenses paid or incurred in your trade or business.

However, you cannot deduct any expense paid or incurred for a facility (such as a yacht or hunting lodge) that is used for any activity that is usually considered entertainment, amusement, or recreation. Note: You may be able to deduct the expense if the amount is treated as compensation and reported on Form W–2 for an employee or Form 1099–NEC for an independent contractor. Be sure to fill in Schedule C–3 to report expense account information. (See **Publication 463** for more details.)

Line 29 Wages

Enter on line 29a the total salaries and wages (other than salaries and wages deducted elsewhere on your return) paid or incurred for the tax year. Do not include any amount paid to yourself.

Enter on line 29b, the jobs credit from Form **5884** and on line 29c, the WIN credit from **Form 4874.** Subtract the total of these credits from wages shown on line 29a and enter the balance on 29e.

For more details, please get **Publication 906,** Targeted Jobs, WIN, and Research Credits.

Line 30 Windfall Profit Tax Withheld

If you hold an operating oil, gas, or mineral interest, and you are a cash method taxpayer, deduct on line 30 the amount of windfall profit tax actually withheld in 1981. See **Form 6248,** Annual Information Return of Windfall Profit Tax—1981 to figure the amount of windfall profit tax actually withheld in 1981.

Line 31 Other Business Expenses

Include all ordinary and necessary business expenses not deducted elsewhere on Schedule C. Do not include the cost of business equipment or furniture, replacements or permanent improvements to property, or personal living and family expenses.

Any loss from this activity that was not allowed as a deduction last year because of the "at risk" provisions, is treated as a deduction allocable to this activity in 1981.

Line 33 Net Profit or (Loss)

If you have a profit, stop here. Enter the amount here and combine this amount with the profit or (loss) from your other businesses, if any. Enter the total on Form 1040, line 11, and Schedule SE, Part II, line 5a (or Form 1041, line 6).

If you have a loss, go on to line 34 before entering your loss on line 33.

Line 34 "At Risk"

Deductions for losses by persons who are engaged in a trade or business except real estate (other than mineral property) or an activity for the production of income are limited to the amount they have "at risk" in the business. You are "at risk" for an activity for the cash and adjusted basis of property you contributed to the activity and any amount borrowed for use in the activity for which you are personally liable. You are also "at risk" to the extent of the net fair market value of your own property (not used in the activity) that secures borrowed amounts for which you are not liable.

Answer the question "YES" if you have any loans for this business that:

- you borrowed from a person who is related to you under section 267(b); OR
- you borrowed from a person who has an interest in the business (other than as a creditor); OR
- you are protected against loss by a guarantee, stop-loss agreement, or similar arrangement; OR
- you are not personally required to pay back the money.

If you do not have any of these kinds of loans or other amounts for which you are not "at risk" in this business, then answer the question "NO." Enter the full loss on line 33 and combine this amount with the profit or (loss) from your other businesses, if any. Enter the total on Form 1040, line 11, and Schedule SE, Part II, line 5a (or Form 1041, line 6).

If you answered "YES" to the question on line 34, enter on line 33 either the amount of your loss or the amount for which you are considered "at risk," whichever is smaller. For example, if your loss is $1,000 and your amount "at risk" is $400, you would enter "($400)" on line 33. Or, if your loss is $1,000 and your amount "at risk" is $1,200, enter "($1,000)" on line 33.

If your "at risk" amount is smaller than zero, enter zero.

Also enter this amount as your loss from Schedule C on Form 1040, line 11, and Schedule SE, Part II, line 5a (or Form 1041, line 6).

If you dispose of an asset used in an activity to which the "at risk" rules apply (see I.R. Code section 465), combine the gain or loss on the disposition with the profit or loss from the activity. If you have a net loss, you may be subject to the "at risk" provisions.

Schedule C–3

Expense Account Information

Enter here amounts which you are deducting on Schedule C that were:

- amounts other than wages and salaries, received as advances or reimbursements, and
- amounts you paid for expenses incurred by or for yourself or your employees. Include all amounts charged through any type of credit card, for which you claimed a deduction.

Do not include amounts you paid to buy goods to resell or use in the business. Also, do not include incidental expenses, like bus or taxi fares paid for local errands. Be sure to keep detailed records as proof of amounts spent for entertainment.

Foreign Conventions. Generally, beginning in 1981, you cannot deduct expenses for attending a foreign convention unless it is directly related to your trade or business and it is "as reasonable" for the meeting to be held outside the North American area as within it. These rules apply to employers as well as to employees.

Under the new rules, factors to consider in determining reasonableness include:

a. The purpose of the meeting and the activities taking place at the meeting;

b. The purpose and activities of the sponsoring organizations or groups;

c. The residences of the active members of the sponsoring organization and the places at which other meetings of the sponsoring organization or groups have been or will be held; and

d. Other relevant factors you may present.

You cannot deduct expenses for attending meetings held on cruise ships, including those sailing within the territorial waters of the United States.

However, if the foreign convention was scheduled by December 31, 1980, you may choose to apply the rules that were in effect for 1980 to determine whether you can deduct expenses for attending the convention.

For more details, get **Publication 463.**

Instructions for Schedule SE

Social Security Self-Employment Tax

Purpose

Schedule SE is used by the Social Security Administration to figure benefits under the social security program for self-employed people. Social security self-employment tax applies regardless of your age, and even if you are receiving social security benefits.

Who Must Use Schedule SE

You must use Schedule SE if:

1. You were self-employed,
2. Your net earnings from self-employment were $400 or more, and
3. You did not have wages (including tips) of $29,700 or more that were subject to social security tax or railroad retirement tax.

Who Should Use Schedule SE

You should use Schedule SE, even if your self employment income is less than $400 if you were self-employed and:

- Form 1040, line 31, is less than $10,000 and you wish to claim the earned income credit; or
- If you use the optional method of computing self-employment income. See **Publication 533,** Self-Employment Tax.

Note: *If you use either optional method of computing self-employment tax, you may be able to claim the earned income credit even if you had a net operating loss.*

If you were eligible for the earned income credit in 1978, 1979, or 1980, you may be able to get a refund by filing Form 1040X, Amended U.S. Individual Income Tax Return. However, to get the earned income credit for 1978, you must file Form 1040X by April 15, 1982.

If you have income that is exempt from self-employment tax because you filed Form 4029 or Form 4361, the income is only considered earned income for purposes of the earned income credit if it is wages, salaries, tips, or other employee compensation. If the income is not employee compensation, you may not include it as earned income for purposes of the earned income credit.

EXAMPLE: *During 1981 a minister received a part-time salary of $2,800 and a housing allowance of $1,200 as part of his salary. Although the housing allowance is not subject to income tax, and neither amount is subject to self-employment tax because the minister filed Form 4361, the entire $4,000 may be considered earned income for purposes of the credit because it is considered employee compensation.*

Which Parts to Use on Schedule SE

If you had ONLY farm income, complete **Parts I and III.**

If you had ONLY nonfarm income, complete **Parts II and III.**

If you had BOTH farm and nonfarm income, complete **Parts I, II, and III.**

General Information

To assure proper credit to your account, please enter your name and social security number on this schedule exactly as they are shown on your social security card.

Fiscal year filers must use the tax rate and earnings base that apply at the time their fiscal year begins. No proration of the tax or earnings base is required for a fiscal year that overlaps the date of a rate or earnings base change.

More Than One Business

If you farmed and had at least one other trade or business, your net earnings from self-employment are the combined earnings from all your businesses. If you had a loss in one trade or business, it reduces the income from another. In these cases, please use both Schedule F and Schedule C to figure net profit from the farm and nonfarm activities. Figure the combined self-employment tax on Schedule SE.

Joint Returns

Show the name of the spouse with self-employment income on Schedule SE. If both spouses have self-employment income, each must file a separate Schedule SE. Include the total profits or (losses) from all businesses on **Form 1040,** line 11 or 18, as appropriate. Then enter the combined self-employment tax on **Form 1040,** line 48.

Community Income

In figuring net earnings from self-employment, if any of the income from a business, including farming, is community income, all the income from that business is considered the income of the husband, unless the wife managed and controlled the business. In that case, all the income is the wife's.

If you file separate returns, please attach Schedules C and SE (for nonfarm business) or Schedules F and SE (for farm business) to the return of the spouse with the self-employment income. Community income included on these schedules must be divided, for income tax purposes, on the basis of the community property laws.

Partnerships

In figuring your combined net earnings from self-employment, you should include your entire share of earnings from a partnership, including any guaranteed payments. However, limited partners should not include their income or (loss) from a partnership, other than guaranteed payments. No part of that share can be treated as your spouse's even if the income, under State law, is community income. In a husband and wife farm partnership, enter the distributive share of each as partnership income on Schedule E (Form 1040), Part II for income tax purposes, and on Schedule SE, line 1b, for self-employment tax purposes. Report nonfarm partnership income on Schedule SE, line 5b.

If a partner in a continuing partnership dies, that member's distributive share of partnership ordinary income or (loss) for the year must be included in that partner's net earnings from self-employment.

Share-Farming

If you produced crops or livestock on land belonging to another for a share of the crops or livestock produced, or the proceeds from them, you are an independent contractor and a self-employed person rather than an employee. Report your net earnings for income tax on Schedule F and for social security self-employment tax on Schedule SE.

In figuring net earnings from self-employment, do not include income or (loss) or any deductions for expenses connected with this income from the following:

a. Salaries, fees, etc. from the performance of services as:

1. a public official, except as noted below,
2. an employee or employee representative under the railroad retirement system, or
3. an employee, except as noted below.

b. Income you received as a retired partner under a written partnership plan that provides for lifelong periodic retirement payments, if you had no other interest in the partnership and did not perform services for it during the year.

c. Real estate rentals, unless received in the course of a trade or business as a real estate dealer. These include cash and crop shares received from a tenant or sharefarmer. You should report these amounts on Schedule E, Part I.

d. Dividends on shares of stock and interest on bonds, debentures, notes, certificates, or other evidence of corporate indebtedness unless received in the course of your trade or business as a dealer in stocks or securities.

e. Gain or loss from:

1. the sale or exchange of a capital asset,
2. certain transactions in timber, coal, or domestic iron ore, or
3. the sale, exchange, involuntary conversion or other disposition of property unless the property is stock in trade or other property that would be includible in inventory, or held primarily for sale to customers in the ordinary course of the business.

f. Net operating losses from other years.

In figuring your net earnings from self-employment, be sure to include:

- Rental income from a farm if the rental arrangement provides for material participation by the landlord and the landlord participated materially in the production or management of the production of farm products on this land. This income is farm earnings. Report it on Schedules F and SE. To determine whether you participated materially in farm management or production, do not consider the activities of any agent who acted for you.

- Payments for the use of rooms or other space when services are also provided to the occupant, such as rooms in hotels, boarding houses, tourist camps, or homes.
- Payments for space in parking lots, trailer parks, warehouses, or storage garages.
- Income from the retail sale of newspapers and magazines by an employee 18 or over if the employee kept the profits.
- Income received by certain crew members of fishing vessels with a crew of less than 10 individuals. Also, see **Publication 595,** Tax Guide for Commercial Fishermen.

Fee Basis State or Local Government Employees

Fees received for functions and services performed by these employees (including public officers who in this capacity are employees) are subject to self-employment tax if the functions and services are performed in positions which are: a. compensated solely on a fee basis; and b. not covered under a Federal-State social security coverage agreement.

Clergy

If you are a minister or member of a religious order, include in your earnings from self-employment (but not for income tax purposes) the rental value of a home furnished you or an allowance for it. You must also include the value of meals and lodging provided to you for the convenience of your employer.

If you are a duly ordained, commissioned, or licensed minister of a church, member of a religious order (who has not taken a vow of poverty) or a Christian Science practitioner, you are subject to social security self-employment tax. But you can, under certain conditions, request IRS approval to exempt your income from services as a minister, member, or practitioner by filing **Form 4361.** If you have received IRS approval and have no other income subject to social security self-employment tax, write "Exempt—Form 4361" on Form 1040, line 48. If you filed Form 4361, but have $400 or more from other earnings subject to self-employment tax, you must complete Schedule SE.

Note: *If you filed an effective waiver certificate,* **Form 2031,** *to pay social security self-employment tax, you cannot apply for an exemption.*

Members of Certain Religious Sects

If you have conscientious objections to social security insurance because of your belief in the teachings of a recognized religious sect of which you are a member, you can file **Form 4029** to be exempt from self-employment tax. If you filed Form 4029 and have received IRS approval, do not file Schedule SE. Instead, write "Exempt—Form 4029" on Form 1040, line 48.

Coverage for Overseas Missionaries

Ministers and members of religious orders who are U.S. citizens serving outside the U.S. may figure earnings from self-employment as if they were serving in the United States. This applies to those who have not elected exemption from coverage. Christian Science practitioners are not included in this provision.

For more information, please get **Publication 517,** Social Security for Members of the Clergy and Religious Workers.

U.S. Citizens Employed by Foreign Governments or International Organizations

You are subject to the social security self-employment tax if you are a U.S. citizen employed in the United States, Puerto Rico, Guam, American Samoa, Northern Mariana Islands, or the Virgin Islands by a foreign government, in certain cases an instrumentality wholly owned by a foreign government, or an international organization organized under the International Organizations Immunities Act. Report income from this employment on Schedule SE, line 5d.

Self-employed U.S. Citizens Temporarily Living Outside the U.S.

If you are a U.S. citizen self-employed outside the U.S. and keep your residence in the U.S., figure your earnings from self-employment in the same way as those who are self-employed in the U.S. Exclusion of income earned abroad for income tax purposes does not apply to social security self-employment tax. This provision does not apply to U.S. citizens who have established residence in a foreign country.

Self-employed taxpayers residing in Puerto Rico, Guam, American Samoa, Northern Mariana Islands, or the Virgin Islands should get **Publication 570,** Tax Guide for U.S. Citizens Employed in U.S. Possessions, for more details.

Optional Method for Figuring Net Earnings from Farm Self-Employment

If your gross farming profits for the year were not more than $2,400, you can report two-thirds of your gross farm profits instead of your actual net earnings from farming.

If your gross farm profits were more than $2,400, and your net farm earnings were less than $1,600, you can report $1,600 on line 3b.

There is no limit on how many times you can elect this optional method. If you use this method, you must apply it to all farm earnings from self-employment for the year. This method can be used to increase or decrease net farm earnings, even if the farming operation resulted in a loss. You may change the method (from actual net to optional net or the reverse) after you file your return.

For the optional method, figure your share of gross profits from the farm partnership according to the partnership agreement. With guaranteed payments, your share of the partnership's gross profits is your guaranteed payment plus your share of the gross profits after the gross profits are reduced by all guaranteed payments of the partnership. Limited partners should include only guaranteed payments.

Optional Method for Figuring Net Earnings from Nonfarm Self-Employment

You may be able to use an optional method to figure your net earnings from nonfarm self-employment if your actual net earnings from nonfarm self-employment are less than $1,600, and less than two-thirds of your gross nonfarm profits.

You may use this optional method if you are:

a. regularly self-employed, or

b. regularly a member of a partnership.

This requirement is met if you had actual net earnings from self-employment of $400 or more (including your distributive share of the income or loss from any partnership of which you are a member) from nonfarm and farm businesses in at least 2 of the 3 years immediately before the year for which you use the nonfarm option.

In this optional method, you may report two-thirds of your gross nonfarm profits (but not more than $1,600) as your net earnings from self-employment. The nonfarm optional method does not allow you to report less than your actual net earnings from nonfarm self-employment.

The limit for the optional method for nonfarm self-employment is 5 years. The 5 years need not be consecutive.

If both nonfarm and farm businesses are involved, the nonfarm option may be used only if your actual net earnings from nonfarm self-employment are less than $1,600. In all combined cases, your net nonfarm earnings must be less than two-thirds of your gross nonfarm profits to use the nonfarm option. If you qualify to use both options, you may report less than actual total net earnings but not less than actual net earnings from nonfarm self-employment alone.

If you use both options in figuring net earnings from self-employment, your maximum combined total of net earnings from self-employment for any tax year cannot be more than $1,600.

For the nonfarm optional method, figure your share of gross profits from a nonfarm partnership according to the partnership agreement. With guaranteed payments, your share of the partnership's gross profits is your guaranteed payment plus your share of the gross profits after the gross profits are reduced by all guaranteed payments of the partnership. Limited partners should include only guaranteed payments.

For more information, please get **Publication 533,** Self-Employment Tax.

Line-By-Line Instructions

Name of self-employed person. Please enter the name and social security number of the self-employed person as it appears on that person's social security card.

We have provided specific instructions for most of the lines on the schedule. Those lines that do not appear in the instructions are self-explanatory.

Part I

Computation of Net Earnings from Farm Self-Employment

Line 2

Exclude from line 2, any income or expense not included in figuring net earnings from farm self-employment and attach an explanation. Also exclude from line 2 any additional first-year depreciation or unreimbursed expenses from farm partnership income.

Line 3a

If you elect the farm optional method and if the total of the amount from Schedule

F, line 31, or line 88, and the amount from Form 1065, Schedule K–1, line 16a, is not more than $2,400, enter two-thirds of the total of the amount from Schedule F, line 31 or 88, and Form 1065, Schedule K–1, line 16a.

Line 3b

If the total of the amount from Schedule F, line 31, or line 88, and Form 1065, Schedule K–1, line 16a, is more than $2,400, and line 1a is less than $1,600, enter $1,600.

The items taken from these lines may be subject to adjustment. See **Publication 533**, Self-Employment Tax

Line 4

If you elect the Farm Optional Method, enter the amount from line 3; otherwise, enter the amount from line 2.

If you have only farm income, skip Part II and go to Part III.

Part II

Computation of Net Earnings from Nonfarm Self-Employment

Line 5b

Enter the amount of your net profit or (loss) from partnerships, joint ventures, etc. Do not include farming. If you have a loss enter only your deductible loss.

Line 5e

Enter the amount of your net profit or (loss) from other self-employment not covered in the previous items

Line 7

Use line 7 to exclude any amounts reported in Schedule C that should not be taken into account in figuring your nonfarm self-employment income. Deduct any additional first-year depreciation from nonfarm partnerships on this line.

If you deposited earnings into a capital construction fund established under the Merchant Marine Act of 1936, see **Publication 595**, Tax Guide for Commercial Fishermen.

If you are a duly ordained minister who is an employee of a church and if you are subject to self-employment tax, the unreimbursed business expenses that you incurred in performing your services as an employee of the church (allowed only as an itemized deduction) are deducted on this line in figuring self-employment tax. For more information see **Publication 517**, Social Security for Members of the Clergy and Religious Workers.

Line 10

Enter the smaller of:

- $1,600, or
- ⅔ of the total of gross profits from Schedule C, line 3, plus the distributive share of gross profits from nonfarm partnerships (Schedule K–1, line 16c) Also include gross profits from services reported on lines 5c, 5d, and 5e, as adjusted by line 7.

Instructions for Schedule F

Farm Income and Expenses

Purpose

Use Schedule F to report farm income and expenses if you file Forms 1040, 1041, or 1065. Please get **Publication 225**, Farmer's Tax Guide, for additional information. It has samples of filled-in forms and schedules, and Important Dates that apply to farmers. You may also want to get **Publication 534**, Depreciation.

Do not report the following income on Schedule F:

- Rent you received that was based on farm production or crop shares, if you did not run the farm yourself. Report this income on **Form 4835** and **Schedule E** (Form 1040). It is not subject to self-employment tax.
- Rent from your pasture land. Report this income in **Part I of Schedule E** (Form 1040). However, report pasture income received from taking care of someone else's livestock on line 29 of Schedule F.
- Sales, exchanges, or involuntary conversions (other than casualty or theft) of certain trade or business property. Report this income on **Form 4797**.
- Sales of livestock held for draft, breeding, sport, or dairy purposes. Report this income on **Form 4797**.

Which Parts to Use

- Schedule F has 4 parts. The accounting method you used to record your farm income determines which parts you must fill in

Under the **cash method**, you include all of your income in the year you actually get it. Generally, you deduct your expenses when you pay them. If you use the cash method, fill in Parts I and II.

Under the **accrual method**, you include your income in the year you earned it. It does not matter when you get it. You deduct your expenses when you incur them. If you use the accrual method, fill in Parts II, III and IV.

Employer Identification Number

You need an employer identification number only if:

- you had a Keogh (H.R. 10) plan, or
- you were required to file an employment tax, excise tax, or alcohol, tobacco or firearms tax return.

Part I

Farm Income

Cash Method

In Part I show the income you received for the items listed on lines 1 through 28. Count both the cash you received and the fair market value of goods or other property you received for these items.

If you ran the farm yourself and received rents based on farm production or crop shares, report these rents as income on the line for the crop, or on line 29.

Line 1

In column (b) show the amount you received from sales of livestock you bought for resale. In column (c) show the cost or other basis of the livestock.

Line 2

In column (b) show the amount you received from sales of other items you bought for resale. In column (c) show the cost or other basis of those items

Line 4

If you sold livestock because of a drought, you can choose to count the income from the sale in the year after the drought, instead of the year of the sale You can do this IF:

- your main business is farming, AND
- you can show that you sold the livestock only because of the drought, AND
- your area qualified for Federal aid

Lines 5 through 19

Show the amount you got from the sale of livestock and produce you raised

Line 20

Show the amount you were paid for the use of your farm machinery.

Line 21

Show patronage dividends you received in cash, and the dollar amount of qualified written notices of allocation. If you received property as patronage dividends, report the fair market value of the property as income. Include cash advances you received from a marketing cooperative

You do not have to include as income patronage dividends from buying:

- personal or family items.
- capital assets.
- depreciable assets you use in your business

Enter these amounts on line 21b. If you do not report patronage dividends from these items as income, you must subtract the amount of the dividend from the cost or other basis of these items

Line 22

If you get per-unit retains in cash, show the amount of cash. If you get qualified per-unit retain certificates, show the stated dollar amount of the certificate

Line 24

Enter on line 24a cash you got as price support payments, diversion payments, and cost-share payments (sight drafts)

On line 24b, show the amounts the Department of Agriculture paid for materials such as fertilizer or lime, or services such as grading or constructing dams.

Line 25

Report Commodity Credit Corporation loans you received as income if:

- the commodities are delivered or forfeited to the Corporation instead of sold in the market, OR
- you choose to report the loan as income when you receive it. If you do this, attach a statement showing the details of the loan. You must continue to report these loans as income unless the IRS permits you to change your accounting method.

Line 26

If you took a credit for Federal gasoline tax on your 1980 Form 1040, enter the amount of the credit here.

Line 27

Enter the amount of any State gasoline tax refund you got in 1981.

Line 28

In general, you must report crop insurance proceeds in the year you receive them

However, you may choose to include crop insurance proceeds and certain disaster payments in income in the tax year after the year of damage if you can show that it is your practice to report income from these crops in the later tax year.

Line 29

Use this line to report income other than that shown on lines 1 through 28.

Report the sale of commodity futures contracts on this line if they were made to protect you from price changes. These are a form of business insurance and are considered hedges. Enter any profit on line 29. If you had a loss in a closed futures contract, show it as a minus amount.

Caution: *For property acquired and hedging positions established after December 31, 1981, you must clearly identify on your books and records that the transaction was a hedging transaction.*

Purchase or sales contracts are not true hedges if they offset losses that already happened. If you bought or sold commodity futures with the hope of making a profit due to favorable price changes, do not report the profit or loss on this line. Report the gain or loss on **Form 6781**, Gains and Losses from Commodity Futures Contracts and Straddle Positions.

Report as income the amount of the credit for alcohol used as a fuel that was entered on **Form 6478**.

Part II

Farm Deductions

Cash and Accrual Method

Do not deduct:

- personal or living expenses (such as taxes, insurance, or repairs on your home) that do not produce farm income.
- expenses of raising anything you or your family used.
- the value of animals you raised that died.
- loss of inventory.
- personal losses.
- the cost of planting and growing citrus or almond groves for the first four years after you plant them. You must treat these items as part of the cost of the grove. However, you may depreciate the cost of an irrigation system used in connection with the citrus grove, beginning in the year the system is placed in service.

If you were repaid for any part of an expense, you must subtract the amount you were repaid from the deduction.

Farming Syndicates

A farming syndicate may be:

- a partnership, or
- any other noncorporate group, or
- a small business corporation, if

a. the interests in the business have ever been for sale in a way that would require registration with any Federal or State agency, or

b. more than 35% of the loss during any tax year is spread between limited partners or limited entrepreneurs.

(A limited partner or limited entrepreneur is a person who does not take any active part in managing the business, and who can lose only the amount he or she has invested.)

If you are a farming syndicate, your deductions are limited as follows:

- Generally, you can deduct feed, seed, fertilizers and other farm supplies only in the year you actually use them (or only in the year you can deduct them under your accounting method). However, if you bought supplies you could not use because of fire, storm, flood, disease, or other casualty, then you may deduct them in the year you bought them.
- You must spread the cost of poultry you bought to use in business (or to resell) over 12 months, or the useful life, whichever is less.
- You cannot deduct the cost of planting, cultivating, maintaining or developing groves, orchards or vineyards, which produce fruit or nuts, before the tax year in which they produce commercial quantities. You must treat these costs as part of the cost of the grove.

Line 32

Enter the amount you paid for farm labor. You can count the cost of boarding farm labor but not the value of any products they used from the farm. You can count only what you paid household help to care for farm laborers. Do not count the value of your own or your family's labor.

Enter on line 32b the jobs credit from **Form 5884** and on line 32c, the WIN credit from **Form 4874**. Subtract the total of these credits from labor hired on line 32a and enter the balance on line 32e.

For more details, please get **Publication 906**, Targeted Jobs, WIN, and Research Credits

Line 33

Enter what you paid for repairs and upkeep of farm buildings (but not your home), machinery and equipment. You can also include what you paid for tools of short life or small cost, such as shovels and rakes.

Line 34

Show the interest you paid on your farm (but not your home) mortgage. Also include interest on other loans related to this farm. If you prepaid interest in 1981 for years after 1981, include only the part that applies to 1981.

Line 35

If you are a tenant farmer and pay the owner of the land a share of the crop rather than cash, show the cost of raising the crop. Do not enter the value of the crop.

Line 36

If you use the cash method, show what you paid for feed to be consumed by your livestock in the year of payment. If the feed is to be consumed in a later tax year, however, the expense might not be deductible in the year paid. See **Publication 225** for more information on advance payments for feed.

Line 39

Show what you paid to rent machinery used on your farm.

Line 45

You can deduct the following taxes:

- real estate and personal property taxes on farm business assets.
- social security taxes you paid to match what you are required to withhold from farm employees' wages.

Do not deduct:

- Federal income taxes.
- estate and gift taxes.
- taxes assessed to pay for improvements such as paving, sewers, etc.
- taxes on your home or personal property.
- other taxes not related to the farm business.

Line 46

Show only the amount of premiums for fire, storm, crop, and theft insurance for this year for your farm business assets. Do not include insurance on personal assets, or medical, health or disability insurance on yourself or your family

Line 47

Show what you paid for gas, electricity, water, etc. for business use on the farm. Do not include personal utilities.

Line 48

Do not include as freight paid the cost of transportation incurred in purchasing livestock held for resale. Instead, add these costs to the cost of the livestock, and deduct them when the livestock are sold.

Line 49

You can deduct what you spent to conserve soil or water, or to prevent erosion of your land. You can also deduct what you paid to a soil or water district for conservation expenses. Do not deduct more than 25% of your gross income from farming (excluding certain gains from selling assets such as farm machinery and land). If your conservation expenses are more than the limit, you can carry the excess over to following years.

Line 50

Show what you paid to clear land so you could farm it. Do not enter more than $5,000 or 25% of your taxable income from farming, whichever is less.

Line 51

Enter the amount you paid to pension, profit-sharing, or annuity plans for your employees. If the plan included you as an owner-employee, see the instructions for Schedule C, line 22, on page 28. Enter the amount you paid for yourself on Form 1040, line 25

Line 52

Enter any amounts you paid to programs for your employees that are not a part of the plans on line 51. Examples are insurance, health, and welfare programs. Do not include here amounts paid for yourself or your family.

Line 53

Enter expenses not listed on another line, such as:

- office supplies.
- advertising.
- car and truck expenses. You can deduct what it cost you to run your car or truck, or take the fixed mileage rate. The rate is 20 cents a mile for the first 15,000 miles, and 11 cents a mile for each mile after that. If you use more than one vehicle for business, you must use the actual cost. If you use the car for both personal and farm purposes, show only the miles (or costs) which apply to farming.

For cars and trucks that have been fully depreciated, the rate is 11 cents a mile.

Note: *If you place a car or truck in service after December 31, 1980, and take the*

fixed mileage rate, you are treated as having elected to exclude this vehicle from ACRS.

For more details, get **Publication 463,** Travel, Entertainment, and Gift Expenses.

- Any loss from this activity that was not allowed as a deduction last year because of the "at risk" provisions, is treated as a deduction allocable to this activity in 1981.
- amortization of qualifying forestation and reforestation costs over an 84-month period.
- amortization of certain business startup costs, paid or incurred after July 19, 1980, in tax years ending after that date, over a period of at least 60 months.

For more information on amortization, see **Publication 535,** Business Expenses and Operating Losses.

Line 55

You can deduct depreciation of buildings, improvements, cars and trucks, machinery, and other farm equipment of a permanent nature.

Do not include depreciation on:

- your home, furniture, or other personal items,
- land,
- livestock you bought or raised for resale, or
- other property in your inventory.

Generally, you MUST use the new Accelerated Cost Recovery System (ACRS) for all assets you placed in service after December 31, 1980.

However, you cannot use ACRS for:

- assets placed in service before January 1, 1981,
- certain public utility property,
- certain property acquired from related persons, and
- property acquired in certain nonrecognition transactions.

Figure your depreciation deduction on **Form 4562,** Depreciation. Enter on line 55 the amount from Form 4562, line 5.

Please get **Publication 534,** Depreciation, for more information.

Line 57

If you have a profit, stop here. Enter the amount here and on Form 1040, line 18, and Schedule SE, Part I, line 1a (or Form 1041, line 6). Partnerships should stop here and enter the profit or loss on this line and on Form 1065, line 9.

If you have a loss, go on to line 58 before entering your loss on line 57.

Line 58

Deductions for losses by persons who are engaged in farming as a trade or business, or for the production of income, are limited to the amount they have "at risk" in the farm. You are "at risk" for an activity for the cash and adjusted basis of property you contributed to the activity and any amount borrowed for use in the activity for which you are personally liable. You are also "at risk" to the extent of the net fair market value of your own property (not used in the activity) that secures borrowed amounts for which you are not liable.

Answer the question "YES" if you have any loans for this farm that:

- you borrowed from a person who is related to you under section 267(b); OR
- you borrowed from a person who has an interest in the business (other than as a creditor); OR
- you are protected against loss by a guarantee, stop-loss agreement or similar arrangement; OR
- you are not personally required to pay back the money.

If you do not have any of these kinds of loans, or other amounts for which you are not "at risk" in this business, then answer the question "NO." Enter the full loss on line 58 and on Form 1040, line 18, and Schedule SE, Part I, line 1a (or Form 1041, line 6).

If you answered "YES" to the question on line 58, enter on line 57 either the amount of your loss or the amount for which you are considered "at risk," whichever is smaller. For example, if your loss is $1,000 and your amount "at risk" is $400, you would enter ($400) on line 57. Or, if your loss is $1,000 and your amount "at risk" is $1,200, enter ($1,000) on line 57.

If your "at risk" amount is smaller than zero, enter zero.

Also enter this amount as your loss from farming on Form 1040, line 18, and Schedule SE, Part I, line 1a (or Form 1041, line 6).

If you sell or otherwise dispose of (1) an asset used in an activity to which the "at risk" rules apply or (2) any part of your interest in an activity to which the "at risk" rules apply (see I.R. Code section 465), combine the gain or loss on the disposition with the profit or loss from the activity.

If you have a net loss, you may be subject to the "at risk" provisions.

Part III

Farm Income

Accrual Method

If you use the accrual method, report farm income when you earn it, not when you receive it. Generally, you must inventory your animals and crops if you use this method. See **Publication 538,** Accounting Periods and Methods, for exceptions, inventory methods, and how to change from accrual to cash methods of accounting.

Lines 59 through 75

For each item listed, fill in columns (b), (c), (d), and (e) across. See the line-by-line instructions for Part I for more information.

Part IV

Summary of Income and Deductions

Accrual Method

Lines 79 and 80

See instructions for Part I, lines 24 and 25.

Line 81

If you take a credit for Federal gasoline tax on your 1981 income tax return, enter the amount of the credit on this line.

Line 82

If you are due a refund of State gasoline tax for 1981, enter the amount here.

Line 83

See instructions for Part I, line 29.

Lines 90 and 91

See instructions for Part I, lines 57 and 58.

1981 Tax Table

Based on Taxable Income
For persons with taxable incomes of less than $50,000.

Example: Mr. and Mrs. Brown are filing a joint return. Their taxable income on line 34 is $23,270. First, they find the $23,250-23,300 income line. Next, they find the column for married filing jointly and read down the column. The amount shown where the income line and filing status column meet is $4,082. This is the tax amount they must write on line 35 of their return.

At least	But less than	Single	Married filing jointly *	Married filing separately	Head of a household
		Your tax is—			
23,200	23,250	5,204	4,080	6,438	4,805
23,250	23,300	5,224	4,082	6,462	4,820
23,300	23,350	5,243	4,096	6,486	4,836

Caution

You must use the Tax Table instead of these Tax Rate Schedules if your taxable income is less than $50,000 unless you use Form 4726 (maximum tax), Schedule D (alternative tax), or Schedule G (income averaging), to figure your tax. In those cases, even if your taxable income is less than $50,000, use the rate schedules on this page to figure your tax.

Instructions

If you cannot use the Tax Table, figure your tax on the amount on line 34 of Form 1040 by using the appropriate Tax Rate Schedule. Then, unless you use Schedule G or Form 4726, figure your 1981 Rate Reduction Credit (1.25%) on the worksheet below.

Tax Computation Worksheet

(Do not use if you figure your tax on Schedule G or Form 4726.)

1. Taxable income from Form 1040, line 34 . _____
2. Tax on the amount on line 1 from Tax Rate Schedule X, Y, or Z . _____
3. Rate Reduction Credit. Multiply the amount on line 2 by .0125 . . . . _____
4. Subtract line 3 from line 2. Enter here and on Form 1040, line 35 . . . . . _____

Do not file—keep for your records.

Note: *If you use the alternative tax computation on Schedule D (Form 1040), enter the amount from Schedule D, line 32, on line 1 of the worksheet. Complete the worksheet and enter the amount from line 4 of the worksheet on Schedule D, line 33.*

Privacy Act and Paperwork Reduction Act Notice

The Privacy Act of 1974 and Paperwork Reduction Act of 1980 say that when we ask you for information, we must tell you:

a. Our legal right to ask for the information.
b. What major purposes we have in asking for it, and how it will be used.
c. What could happen if we do not receive it.
d. Whether your response is voluntary, required to obtain a benefit, or mandatory under the law.

For the Internal Revenue Service, the laws include:

- Tax returns and any papers filed with them.
- Any questions we need to ask you so we can:

Complete, correct, or process your return.

Figure your tax.

Collect tax, interest, or penalties.

Our legal right to ask for information is Internal Revenue Code sections 6001 and 6011 and their regulations. They say that you must file a return or statement with us for any tax you are liable for. Your response is mandatory under these sections. Code section 6109 and its regulations say that you must show your social security number on what you file. This is so we know who you are, and can process your return and papers.

You must fill in all parts of the tax form that apply to you. But you do not have to check the boxes for the Presidential Election Campaign Fund.

We ask for tax return information to carry out the Internal Revenue laws of the United States. We need it to figure and collect the right amount of tax.

We may give the information to the Department of Justice and to other Federal agencies, as provided by law. We may also give it to States, the District of Columbia, and U.S. commonwealths or possessions to carry out their tax laws. And we may give it to foreign governments because of tax treaties they have with the United States.

If a return is not filed, or if we don't receive the information we ask for, the law provides that a penalty may be charged. And we may have to disallow the exemptions, exclusions, credits, deductions, or adjustments shown on the tax return. This could make the tax higher or delay any refund. Interest may also be charged.

Please keep this notice with your records. It may help you if we ask you for other information.

If you have questions about the rules for filing and giving information, please call or visit any Internal Revenue Service office.

1981 Earned Income Credit Table

Caution: This is Not a Tax Table

To find your earned income credit: Read down the column titled "If line 3 or 4 of the worksheet is—" and find the appropriate amount from the Earned Income Credit Worksheet on page 15. Read across to the right and find the amount of the earned income credit. Enter that amount on line 5 or 6 of the worksheet, whichever applies.

If line 3 or 4 of the worksheet is— Over	But not over	Your earned income credit is—	If line 3 or 4 of the worksheet is— Over	But not over	Your earned income credit is—	If line 3 or 4 of the worksheet is— Over	But not over	Your earned income credit is—	If line 3 or 4 of the worksheet is— Over	But not over	Your earned income credit is—	If line 3 or 4 of the worksheet is— Over	But not over	Your earned income credit is—

1981 Optional State Sales Tax Tables

(If you kept records that show you paid more sales tax than the table for your State indicates, you may claim the higher amount on Schedule A, line 13a.)

You itemized deduction for general sales tax can be estimated from these tables plus any qualifying sales taxes paid on the items listed on page 18.

To use the tables:

Step 1—Figure your total available income. (See note to the right).

Step 2—Count the number of exemptions for you and your family. Do not count exemptions claimed for being 65 or over or blind as part of your family size.

Step 3 A—If your total available income is not over $40,000, find the income line for your State on the tables and read across to find the amount of sales tax for your family size.

Step 3 B—If your income is over $40,000 but not over $100,000, find the deduction listed on the income line "$38,001–$40,000" for your family size and State. For each $5,000 (or part of $5,000) of income over $40,000, increase the deduction by the amount listed for the line "$40,001–$100,000."

Step 3 C—If your income is over $100,000, your sales tax deduction is limited to the deduction for income of $100,000. To figure your sales tax deduction, use Step 3 B but don't go over $100,000.

Note: *Use the total of the amount on Form 1040, line 31, and nontaxable receipts such as social security, veterans', and railroad retirement benefits, workmen's compensation, untaxed portion of long-term capital gains or unemployment compensation, interest and dividends exclusion, disability income exclusion, and public assistance payments.*

[1] Local sales taxes are not included. Add an amount based on the ratio between the local and State sales tax rates considering the number of months the taxes have been in effect.
[2] Local sales taxes are not included. Add the amount paid.
[3] The 1½ percent local sales tax is included. If the ½ of 1 percent sales tax is paid all year (Alameda, Contra Costa, San Francisco, Santa Clara, and Santa Cruz counties) add 8 percent to the table amount. Otherwise add a proportionate amount (see footnote 1).
[4] Local 1 percent sales taxes are included. If public transportation sales taxes are paid, compute the allowable deduction by the method in footnote 1.
[5] If your local sales tax applies to food for home consumption contact your local IRS office for the correct deduction. Otherwise see footnote 1.
[6] Sales tax paid on purchase of electricity of 750 KWH or more per month, can be added to the table amounts.
[7] Sales tax paid on the purchase of any single item of clothing for $175 or more can be added to the table amounts.
[8] Sales tax paid on purchases of natural gas or electricity can be added to the table amounts. For local sales tax see footnote 1.
[9] Local sales taxes are included.
[10] Local sales taxes are not included. If paid all year add 26 percent of the table amount for each 1 percent of local sales tax rate. Otherwise use a proportionate amount. For N.Y. City add 107 percent of the table amount.

[11] Local sales taxes are included. Taxpayers not paying local sales taxes (Burke County) should use 75 percent of the table amount allowed.
[12] Local ¾ percent sales taxes are included. Add 5 percent of table amount if the ¼ percent county sales tax for transportation is paid all year. Otherwise add a proportionate amount (see footnote 1).
[13] Local ½ percent sales taxes are included. If the 3/10's of 1 percent sales tax for public transportation is paid all year add 6 percent to the table amount. Otherwise add a proportionate amount (see footnote 1).
[14] Sales tax paid on purchases of natural gas or electricity (May through October) can be added to the table amounts.

To Call IRS Toll-Free for Answers to Your Federal Tax Questions, Use Only the Number Listed Below for Your Area

Caution:
"Toll-free" is a telephone call for which you pay only local charges with no long-distance charge. Please use a local city number only if it is not a long-distance call for you. Otherwise, use the general toll-free number given.

We are happy to answer questions to help you prepare your return. But you should know that you are responsible for the accuracy of your return. If we do make an error, you are still responsible for the payment of the correct tax.

To make sure that IRS employees give courteous responses and correct information to taxpayers, a second IRS employee sometimes listens in on telephone calls. No record is kept of any taxpayer's name, address, or social security number.

If you find it necessary to write instead of calling, please address your letter to your IRS District Director for a prompt reply.

How to Get Forms

Generally, we mail forms and schedules directly to you based on what seems to be right for you. Schedules and forms you may need are listed below. You can get them from most Internal Revenue Service offices, at many banks and post offices, or by using the order blank on page 47.

Schedule A for itemized deductions

Schedule B for interest income if more than $400 or if from All-Savers Certificates, for dividends and other distributions on stock if more than $400, and for answering the Foreign Accounts or Foreign Trust Questions

Schedule C for income from a personally owned business

Schedule D for income from the sale or exchange of capital assets

Schedule E for income from rents, royalties, partnerships, estates, trusts, etc.

Schedule F for income from farming

Schedule G for income averaging

Schedules R&RP credit for the elderly

Schedule SE for reporting net earnings from self-employment

These forms are available only at Internal Revenue Service offices:

Form 1040–ES to make estimated tax payments

Form 2106, Employee Business Expenses

Form 2119, Sale or Exchange of Principal Residence

Form 2120, Multiple Support Declaration

Form 2210, Underpayment of Estimated Tax by Individuals

Form 2440, Disability Income Exclusion

Form 2441, Credit for Child and Dependent Care Expenses

Form 3468, Computation of Investment Credit

Form 3903, Moving Expense Adjustment

Form 4136, Computation of Credit for Federal Tax on Gasoline, Special Fuels, and Lubricating Oil

Form 4562, Depreciation

Form 4684, Casualties and Thefts

Form 4726, Maximum Tax on Personal Service Income

Form 4797, Supplemental Schedule of Gains and Losses

Form 4835, for farm rental income and expenses

Form 4868, Application for Automatic Extension of Time to File U.S. Individual Income Tax Return

Form 5695, Residential Energy Credit

Form 6251, Alternative Minimum Tax Computation

Form **1040A** (1981)

CAUTION: You may **NOT** file Form 1040A (you must file Form 1040 instead) if any of the following apply to you:

- You could be claimed as a dependent on your parents' return AND had interest, dividends, or other unearned income of $1,000 or more.
- You had a foreign financial account or were a grantor of, or transferor to, a foreign trust.
- You received interest or dividends as a nominee (in your name) for someone else.
- You received or paid accrued interest on securities transferred between interest payment dates.
- You received any capital gain distributions.

Note: *You may also be required to file Form 1040 for other reasons. See pages 4 and 5 of Instructions.*

Part I Interest Income

If you received more than $400 in interest or you received any interest from All-Savers Certificates, you must complete Part I and list the names of the payers and the amounts of the interest on the lines below. See page 10 of the Instructions for what interest to report.

Name of payer	Amount
1a Interest income (other than qualifying interest from All-Savers Certificates).	
1b Total. Add above amounts	
1c Qualifying interest from All-Savers Certificates. (List payers and amounts even if $400 or less.) See page 11 of Instructions.	
1d Total	
1e Exclusion (See page 11 of Instructions) . .	
1f Subtract line 1e from line 1d. **Caution:** *No part of the amount on line 1f may be excluded on Form 1040A, line 8d*	
2 Total interest income (add lines 1b and 1f). Enter here and on Form 1040A, line 8a	

Part II Dividend Income

If you received more than $400 in ordinary dividends and nontaxable distributions, list the names of the payers and the amounts of the dividends on the lines below. Be sure to include any nontaxable distributions on these lines. They will be deducted on line 5 below. See page 10 of the Instructions for a definition of ordinary dividends and nontaxable distributions.

Name of payer	Amount
3	
4 Total. Add above amounts	
5 Nontaxable distributions (See Instructions for adjustment to basis)	
6 Total dividend income (subtract line 5 from line 4). Enter here and on Form 1040A, line 8b

1981 Instructions for preparing Form 1040A

Department of the Treasury / Internal Revenue Service

From the Commissioner

Here is the information you need to prepare Form 1040A. More taxpayers should be able to file Form 1040A this year. We have provided space on the back for taxpayers to report more than $400 of interest and more than $400 of dividends. Also, we have expanded the tax table so that it can be used by taxpayers with taxable incomes up to $50,000. Check "Form 1040A or Form 1040?" on pages 4 and 5 of the instructions to see which form you should use this year.

We have made some changes to the form this year because of recent tax legislation and to permit more taxpayers to use Form 1040A. However, most of the lines on the front of the Form 1040A are the same as last year. Major changes are explained on page 2 under "Changes for 1981."

Be sure to report your taxable income from all sources. In fairness to the vast majority of taxpayers who report all their income, we make every effort to identify others who underreport.

If you need help completing your return, call us at the number listed for your area on page 24 or 25. If you have suggestions for improving the forms or instructions, please write and let us know.

After completing your return, check to make sure it is correct, sign it, and mail it early. If you owe tax, please include payment of the full amount with your return. Be sure to keep a copy of your return for your records.

Thank you for your cooperation.

Roscoe L. Egger, Jr.
Commissioner of Internal Revenue

Changes for 1981

New Rate Reduction Credit

Your 1981 tax has been reduced by a new one-year credit. The rate reduction credit has been built into the Tax Table for you.

Tax Table Changes

Generally, all filers with taxable incomes of less than $50,000 must use the recently expanded Tax Table. See the instructions for **Figuring Your Income Tax** on page 15 for more details.

Also, the built-in deduction for exemptions has been removed from the 1981 Tax Table. Instead, the deduction for exemptions is now shown on line 11 of the 1981 Form 1040A and is then subtracted to arrive at taxable income. You then compute your tax from the Tax Table using this taxable income figure. This change enables us to provide you with one tax table instead of four. Keep this change in mind if you want to compare this year's tax table with last year's tax tables.

Form 1040A Interest and Dividend Ceiling Removed

If you filed Form 1040 last year only because your interest or dividend income was over $400, you may be able to use Form 1040A this year. See **Form 1040A or Form 1040?** instructions on page 4 for more details.

New Exclusion for Interest and Dividend Income

Generally, you can now exclude up to $200 ($400 if married and filing a joint return) of qualifying interest and dividend income. See the instructions for line 8d on page 11 for more details.

New Exclusion for Qualified Interest from All-Savers Certificates

You are entitled to a lifetime exclusion of up to $1,000 ($2,000 if married filing a joint return) of qualifying interest from All-Savers Certificates. Claim this exclusion on page 2 of Form 1040A. Please see the instructions on page 11 for more details.

Important Reminders for 1981

Estimated Tax Payments by Retirees

If you are retired now or plan to retire in 1982, you may have to make estimated tax payments on Form 1040–ES. Or, you may choose to have income tax withheld from your pension or annuity **by giving the payer Form W–4P.** If you do not pay enough estimated tax or have enough tax withheld, you may be charged a penalty. For more details, see **Publication 505,** Tax Withholding and Estimated Tax.

Do You Want More or Less Income Tax Withheld in 1982?

If the refund you receive is large, you may want to decrease your withholding for 1982. If you are a working married couple, or had two or more jobs, or had income not subject to withholding, you may need to have more tax withheld to avoid owing IRS a large amount. See **Income Tax Withholding for 1982** on page 16 for more details.

Could You Pay Less Tax By Income Averaging?

If there has been a large increase in your income this year, you may be able to pay less tax by using the income averaging method to figure your tax. If you can use income averaging, you must file **Form 1040.** To see if you qualify, please get Schedule G (Form 1040).

Divorced Persons—Property Settlement

If you transfer assets to your spouse as part of a property settlement because of divorce, you may have a taxable gain. If you transfer business or investment property, you may have a taxable gain or a deductible loss. Please get **Publication 504,** Tax Information for Divorced or Separated Individuals, for details.

Who Must File a Tax Return

Your income and your filing status generally determine whether you must file a tax return.

You must file a return for 1981, even if you owe no tax:	And your income was at least:
If you were **single** (this also means legally separated, divorced, or married with a dependent child and living apart from your spouse for all of 1981) and:	
Under 65	$3,300
65 or over	4,300
If you were **married filing a joint return** and were living with your spouse at the end of 1981 (or on the date your spouse died), and:	
Both were under 65	5,400
One was 65 or over	6,400
Both were 65 or over	7,400
If you were **married filing a separate return** or married but were not living with your spouse at the end of 1981	1,000
If you could be **claimed as a dependent** on your parents' return, and had taxable dividends, interest, or other unearned income of $1,000 or more	1,000
If you were a **qualifying widow(er)** with a dependent child and:	
Under 65	4,400
65 or over	5,400
(A qualifying widow(er) who is required to file MUST use Form 1040.)	
If you were allowed to **exclude income** from sources within U.S. possessions	1,000

You must file a tax return for 1981 if you were **self-employed** and your net earnings from this work were at least **$400.**

Even if your income is less than the amounts shown, you **must file** a tax return:

- If you **received any advance earned income credit (EIC) payments** from your employer during 1981.
- If you **owe any taxes,** such as FICA (Social Security) on tips you did not report to your employer during 1981.

These rules apply to all U.S. citizens and resident aliens. They also apply to those nonresident aliens who are married to citizens or residents of the United States at the end of 1981 and file a joint return as discussed on page 8.

Different rules apply if you were a nonresident alien at any time during 1981 (unless you file a joint return as mentioned above). You may have to file **Form 1040NR,** U.S. Nonresident Alien Income Tax Return. Also get **Publication 519,** U.S. Tax Guide for Aliens.

Who Should File a Tax Return

Even if you do not have to file a tax return, you should do so if **Federal income tax was withheld** from your pay, or if you can take the **earned income credit.** If either of these apply, you may be able to get money back from the government.

When to File Your Tax Return

You should file as soon as you can after January 1, but not later than **April 15, 1982.** If you file late, you may have to pay penalties and interest. Please see the instructions for **Penalties and Interest** on page 16.

Where to File

Please use the addressed envelope that came with your return. If you do not have an addressed envelope, or if you moved during the year, mail your return to the **Internal Revenue Service Center** for the place where you live. **No street address is needed.**

Form 1040A or Form 1040?

You Should Be Able to Use Form 1040A if:

- You had **only** wages, salaries, tips, interest, dividends, and unemployment compensation.

Note: *If you had more than $400 in interest income or more than $400 in dividends, you may still file Form 1040A, provided you are not required to file Form 1040 instead for any of the reasons listed below under "You Must Use Form 1040 if . . ."*

- Your taxable income (adjusted gross income less personal exemptions) is less than $50,000.
- You do not itemize your deductions.
- You do not claim adjustments to income.
- You do not claim credits other than the Earned Income Credit or the Political Contributions Credit.

You may WANT TO use Form 1040 and you may pay less tax if you can:

- Itemize your deductions.
- Claim adjustments to income.
- Claim credits you can't claim on Form 1040A.

You may HAVE TO use Form 1040 because of:

- The amount or kind of income you receive.
- Your filing status.
- Forms or schedules you file, or other taxes that can be reported only on Form 1040.

You Must Use Form 1040 if:

Amount of Income

- Your taxable income is $50,000 or more.
- Any of the following situations apply to you:

a. You received interest or dividends as a nominee (that is, in your name) for someone else,

b. You received or paid accrued interest on securities transferred between interest payment dates, or

c. You received any capital gain distributions

- You are required to complete Part III of Schedule B (Form 1040) because:

a. At any time during the year you had an interest in or signature or other authority over a bank account, securities account, or other financial account in a foreign country, OR

b. You were a grantor of, or a transferor to, a foreign trust that existed during 1981.

Kinds of Income

You had income other than wages, salaries, tips, interest, dividends, and unemployment compensation, such as:

- Bartering income (fair market value of goods or services you received in return for your goods or services).
- Income from self-employment (including farming).
- Gain from the sale of your home or other property, or capital gain distributions.
- Gain from the sale or exchange (including barter) of coins, gold, silver, gems, etc.
- Pensions or annuities, including lump-sum distributions
- Alimony.

Filing Status

- Your spouse files a separate return and itemizes deductions. *Exception:* You can still use Form 1040A if you have a dependent child and can meet the tests on page 8 under **Married Persons Who Live Apart (and Abandoned Spouses).**
- You can be claimed as a dependent on your parents' return and had interest, dividends, or other unearned income of $1,000 or more.
- You are a qualifying widow(er) with a dependent child. See the filing status instructions for Box 2 under **Qualifying Widow(er) with Dependent Child** on page 7 to see if you can qualify for this filing status. This filing status lets you use the lower tax rates.
- You were a nonresident alien during any part of 1981 and do not file a joint return. You may have to file **Form 1040NR.**
- At the end of 1981 you were married to a nonresident alien or dual status alien who had U.S. source income, and you do not file a joint return. *Exception:* You can still use Form 1040A if you meet the tests on page 8 under **Married Persons Who Live Apart (and Abandoned Spouses).**

Itemized Deductions

You itemize deductions. Examples are:

- Payments for medical insurance and medical and dental care that are more than 3% of your adjusted gross income.
- Interest on loans and mortgages.
- State, local, and real estate taxes.
- Gifts to churches, charities (such as the Cancer Society, Red Cross, United Way), and similar organizations.
- Union dues and safety helmets, tools, professional journals, or other materials used in your job.
- Net personal casualty or theft loss that is more than $100.

Here Is a Test to Help You Decide Whether to Itemize

You should itemize if your deductions are more than:

- $3,400 and you are Married filing a joint return, or a Qualifying widow(er) with a dependent child.
- $1,700 and you are Married filing a separate return.
- $2,300 and you are either Single or a Head of household.

You Must Use Form 1040 if:—Cont'd

Other Forms

You file any of these forms:

- Form 1040–ES, Declaration of Estimated Tax for Individuals, for 1981 (or if you want to apply any part of your 1981 overpayment to estimated tax for 1982).
- Schedule G (Form 1040), Income Averaging.
- Form 2119, Sale or Exchange of Principal Residence.
- Form 2210, Underpayment of Estimated Tax by Individuals.
- Form 2555, Deduction from, or Exclusion of, Income Earned Abroad.
- Form 4563, Exclusion of Income from Sources in United States Possessions.
- Form 4868, Application for Automatic Extension of Time to File U.S. Individual Income Tax Return.

Other Taxes

You owe any of these taxes:

- Uncollected employee social security (FICA) tax on tips shown on your Form W–2.
- Social security (FICA) tax on tips if you received more than $20 in any month and you did not report all of them to your employer (Form 4137).
- Tax on an individual retirement arrangement (IRA) (Form 5329).
- Tax on self-employment income (Schedule SE).

Adjustments to Income

You claim adjustments to income. Examples are:

- Moving expenses due to a change in jobs (Form 3903 or Form 3903F).
- Employee business expenses such as travel (Form 2106).
- Payments to an individual retirement arrangement (IRA) or Keogh plan.
- Interest penalty on early withdrawal of savings.
- Alimony paid.
- Disability income exclusion (Form 2440).
- Repayment of Sub-pay under the Trade Act of 1974.

Tax Credits

You claim any of these tax credits:

- Credit for the elderly if you are 65 or over, or under 65 with a pension from a public (Federal, State, etc.) retirement plan (Schedules R and RP).
- Credit for child and dependent care expenses (Form 2441).
- Investment credit (Form 3468).
- Credit for residential energy saving items (Form 5695).
- Foreign tax credit (Form 1116).
- WIN credit (Form 4874).
- Jobs credit (Form 5884).
- Credit for Federal tax on gasoline, special fuels, and lubricating oil (Form 4136).
- Credit or refund for Federal tax on gasoline, diesel fuel, and special fuels used in qualified taxicabs (Form 4136–T).
- Credit for taxes paid by a regulated investment company (Form 2439).
- Overpaid windfall profit tax (Form 6249 or 6249–A).
- Credit for alcohol used as fuel (Form 6478).
- Credit for increasing research activities (Form 6765).

Form **1040A** Department of the Treasury—Internal Revenue Service **U.S. Individual Income Tax Return** **1981** OMB No. 1545–0085

Use IRS label. Otherwise, please print or type.

Your first name and initial (if joint return, also give spouse's name and initial): John T. + Mary
Last name: Brown
Your social security number: 516 04 1492
Present home address (Number and street, including apartment number, or rural route): 885 Scott Street (1)
Spouse's social security no.: 575 10 1778
City, town or post office, State and ZIP code: Hometown, Maryland 01234
Your occupation ▶ Clerk
Spouse's occupation ▶ Homemaker

Presidential Election Campaign ▶ Do you want $1 to go to this fund? ✓ Yes ___ No (2)
If joint return, does your spouse want $1 to go to this fund? ✓ Yes ___ No
Note: Checking "Yes" will not increase your tax or reduce your refund

Form **1040A** (1981)

Here's How to Fill in Form 1040A

(Circled numbers on the sample form on page 6 are keyed to circled numbers in the explanations that follow.)

① Name, Address, and Social Security Number

Please use the mailing label from the tax forms booklet we sent you. If there is an error in your name, address, or social security number, mark through it and correct it on the label. Show your apartment number if you have one. Using the label helps us identify your account, saves processing time, and speeds refunds. If you did not receive a booklet with a label, print or type your name, address, and social security number on your return.

If you are married, please give social security numbers for both you and your spouse, whether you file joint or separate returns. If you have changed your name because of marriage, divorce, etc., make sure you immediately notify the Social Security Administration (SSA) so the name on your tax return is the same name SSA has on its records. This may prevent delays in issuing your refund.

On a joint return, show the social security numbers in the same order that you show your first names. Correct the label if necessary. If you file a joint return and have different last names, please separate them with an "and." For example: "John Brown and Mary Smith."

If your spouse is a nonresident alien, has no income, and does not have a social security number, please write "NRA" in the block for your spouse's social security number.

If you do not have a social security number, you should get Form SS–5 from an SSA office. File it with your local SSA office early enough to get your number before April 15. If you do not receive a number by then, file your return without it and write "Applied for" in the block for your social security number.

Remember to show your occupation (and that of your spouse, for a joint return) in the space in the upper right corner just below the social security number blocks.

② Presidential Election Campaign Fund

This fund was established by Congress to support public financing of Presidential election campaigns. You may have $1 go to the fund by checking the **Yes** box. On a joint return, both of you may choose to have $1 go to the fund, or, both may choose not to. One may choose to have $1 go to this fund and the other may choose not to.

If you check **Yes**, it will not change the tax or refund shown on your return.

Do not claim this amount as a credit for contributions to candidates for public office on line 13a.

③ Boxes 1 through 4

Filing Status

Were You Single or Married?

Check only one box. Your tax rate depends on the box you check.

Filing Status Box 1

Single

This filing status applies if, on December 31, 1981, you were **one** of the following:

- Not married;
- Separated from your spouse either by divorce or separate maintenance decree (You must follow State law to determine if you are divorced or legally separated.);
- A widow or widower (However, if your spouse died in 1981, or your spouse died in 1979 or 1980 and you have a dependent child, see the instructions for Box 2 under Qualifying widow(er) with dependent child. You may be able to file a joint return or file Form 1040 as a Qualifying widow(er) with dependent child); OR
- Married, not filing a joint return and you meet the tests under **Married Persons Who Live Apart (and Abandoned Spouses)**, explained in the instructions for Box 3.

Filing Status Box 2

Married Filing a Joint Return (even if only one of you had income)

In most cases, married couples will pay less tax if they file a joint return. You must report all income, exemptions, and credits for you and your spouse. Both of you must sign the return, even if only one of you had income.

You and your spouse can file a joint return even if you did not live together for the whole year. Both of you are responsible for any tax due on a joint return, so if one of you does not pay, the other may have to.

Note: *If you are in doubt about whether to file a joint return or separate returns, figure your tax both ways before deciding. If you want us to figure your tax for you (see page 13 for more details), we will do it the way that gives you the smaller tax.*

Widow or Widower

If your spouse died in 1981, and you did not remarry in 1981, or your spouse died in 1982 before filing a return for 1981, you can file a joint return. For more details on how to file the joint return, see the instructions for **Death of Taxpayer** on page 15.

If you decide not to file a joint return and plan to file a separate return, see if you can reduce your tax by meeting the tests described under **Married Persons Who Live Apart (and Abandoned Spouses)** on page 8. If you can, you should check Box 1 for Single or, if you qualify, Box 4 for Head of household.

Qualifying Widow(er) with Dependent Child

If your spouse died in 1979 or 1980 and you did not remarry before the end of 1981, you can file as a Qualifying widow(er) with dependent child if you

meet certain tests. (This filing status lets you use joint tax rates to lower your tax.) However, you must file Form 1040 to use this filing status.

You can use this filing status if you meet tests **a**, **b**, and **c** below:

a. You could have filed a joint return with your spouse for the year your spouse died

b. Your dependent child or stepchild lived with you.

c. You paid over half the cost of keeping up the home for this child for the whole year

Special Rule for Nonresident Aliens

You may file a joint return with your spouse if, at the end of 1981, you were a nonresident alien and married to a citizen or resident of the United States. You and your spouse must also agree to be taxed on your combined worldwide income. For more details, please get **Publication 519**, U.S. Tax Guide for Aliens.

Filing Status Box 3

Married Filing a Separate Return

Some married taxpayers file separate returns because each wants to be responsible for only his or her own tax or wants to receive his or her own refund. Others file separate returns because their total tax may be less than the tax on a joint return.

If you file a separate return, enter your spouse's full name in the space after Box 3 and your spouse's social security number in the block provided. You each report only your own income, exemptions, and credits, and you are responsible only for the tax due on your own return. Both of you must figure your tax the same way. If you itemize your deductions, your spouse must itemize. (In that case, both of you must file Form 1040 instead of Form 1040A.) However, see the rules for **Married Persons Who Live Apart (and Abandoned Spouses)** on this page.

Community Property States

Community property States are: Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Texas, and Washington.

If you and your spouse live in a community property State, you must follow State law to determine what is community income and what is separate income. However, new rules apply for 1981 if.

- You and your spouse lived apart all year;
- You do not file a joint return; and
- No part of the community income earned by you or your spouse is transferred to the other spouse before the end of the calendar year.

For more details, please get **Publication 555**, Community Property and the Federal Income Tax.

Married Persons Who Live Apart (and Abandoned Spouses)

Some married persons can file as Single or as Head of household and take advantage of tax rates that are lower than those for married persons filing separate returns. This means that you may be able to claim the earned income credit. It also means that if your spouse itemizes deductions, you do not have to. Both you and your spouse can file this way if you both meet the tests.

You should check Box 1 for Single, and lower your taxes, if you meet all of the following tests:

a. You file a separate return;

b. You paid more than half the cost to keep up your home for 1981;

c. Your spouse did not live with you at any time during 1981; and

d. For over 6 months of 1981, your home was the principal residence of your child or stepchild **whom you can claim as a dependent.**

You should check Box 4 for Head of household if your home in test **d**, above, was the dependent child's principal residence for ALL of 1981. The tax rates for Head of household are even lower than the rates for Single.

Filing Status Box 4

Head of Household

There are special tax rates for a person who can meet the tests for Head of household. These rates are lower than the rates for Single and Married filing a separate return.

You may use this filing status **only if** on December 31, 1981, you were unmarried (including certain married persons who live apart or are legally separated) and meet test **a** or **b** below:

a. You paid more than half the cost of keeping up a home that was the principal residence of your father or mother whom you can claim as a dependent. Your parent did not have to live with you. But you must be able to claim your parent as your dependent without using the rules on page 10 for **Dependent Supported by Two or More Taxpayers.**

OR

b. You paid more than half the cost of keeping up the home you lived in, and one of the following also lived in your home all year (except for temporary absences for vacation, school, etc.):

1. Your **unmarried** child, grandchild, foster child, or stepchild. This person did not have to be your dependent.

Note: *If you are filing as Head of household because of an unmarried child, grandchild, foster child, or stepchild who is not your dependent, enter that person's name in the space provided on line 4. Enter only one name. If any other person (such as a dependent child) qualifies you for Head of household, no entry is needed on line 4*

2. Your **married** child, grandchild, foster child, or stepchild whom you can claim as a dependent. However, this person does not qualify you if he or she is your dependent under the rules on page 10 for **Dependent Supported by Two or More Taxpayers.**

3. Any other person listed below whom you can claim as a dependent. However, this person does not qualify you if he or she is your dependent under the rules on page 10 for **Dependent Supported by Two or More Taxpayers.**

Grandparent	*Stepfather*	*Son in law or,*
Brother	*Mother-in-law*	*if related by blood:*
Sister	*Father in-law*	*Uncle*
Stepbrother	*Brother-in-law*	*Aunt*
Stepsister	*Sister-in-law*	*Nephew*
Stepmother	*Daughter-in-law*	*Niece*

Note: *If you received payments under the Aid to Families with Dependent Children (AFDC) program and used them to pay part of the cost of keeping up this home, you may not count these amounts as furnished by you.*

4 Lines 5a through 6 Exemptions

Line 5a Boxes For Yourself

Always take one exemption for yourself. Take two exemptions if you were blind or 65 or over. Take three exemptions if you were blind and 65 or over.

Age and blindness are determined as of December 31. However, if your 65th birthday was on January 1, 1982, you can take the extra exemption for age for 1981.

Proof of Blindness

If you are completely blind, attach a statement to this effect. In cases of partial blindness, you must attach to your return each year a certified statement from an eye physician or registered optometrist that:

a. You cannot see over 20/200 in the better eye with glasses, OR

b. Your field of vision is not more than 20 degrees.

If this eye condition will never improve beyond the standards in **a** or **b**, you may attach a certified opinion to this effect from an examining eye physician. You must attach this certification to your return only once. In later years just include a statement referring to it.

Line 5b Boxes For Your Spouse

You can take exemptions for your spouse if you file a joint return. If you file a separate return, you can take your spouse's exemptions only if your spouse is not filing a return, had no taxable income, and was not the dependent of someone else.

Your spouse's exemptions are like your own. Take one exemption for your spouse who is neither blind nor 65 or over. Take two exemptions for your spouse who is blind or 65 or over. Take three exemptions for your spouse who is blind and 65 or over.

If at the end of 1981, you were divorced or legally separated, you cannot take an exemption for your former spouse. If you were separated by a divorce that is not final (interlocutory decree), you may still take an exemption for your spouse if you file a joint return.

Death of Spouse

If your spouse died during 1981, and you did not remarry before the end of 1981, check the boxes for the exemptions you could have taken for your spouse on the date of death. *Please see the instructions for* **Death of Taxpayer** *on page 15.*

Lines 5c and 5d Boxes Children and Other Dependents

Enter on line 5c the first names of your dependent children who lived with you. Enter on line 5d the full names and other information for your other dependents including your dependent children who did **not** live with you.

Each person you claim as a dependent has to meet tests **a** through **e** below:

a. Income

The dependent received less than $1,000 gross income. (This test does not have to be met for your child who was under 19 at the end of the year, or a full-time student at least 5 months of the year. *Please see the instructions for* **Student Dependent** *on page 10.)*

Note: Gross income does not include nontaxable benefits such as social security or welfare benefits.

b. Support

The dependent received over half of his or her support from you, or is treated as receiving over half of his or her support from you under the rules on page 10 for **Children of Divorced or Separated Parents,** or **Dependent Supported by Two or More Taxpayers.** If you file a joint return, the support can be from either spouse.

In figuring total support, you must include money the dependent used for his or her own support, even if this money was not taxable (for example, social security benefits, gifts, savings, welfare benefits, etc.). If your child was a student, do not include amounts he or she received as scholarships.

Support includes items such as food, a place to live, clothes, medical and dental care, and education. In figuring support, use the actual cost of these items. However, the cost of a place to live is figured at its fair rental value.

Do not include in support items like income and social security taxes, premiums for life insurance, or funeral expenses for a deceased dependent.

You must include capital items such as a car or furniture in figuring total support, but only if these items are actually given to, or purchased by, the dependent for the dependent's use or benefit. Do not include the cost of a capital item such as furniture for the household or for use by persons other than the dependent.

If you care for a foster child see **Publication 501,** Exemptions, for special rules that apply.

c. Married Dependent

The dependent did not file a joint return with his or her spouse.

Note: However, if neither the dependent nor the dependent's spouse is required to file, but they file a joint return to get a refund of tax withheld, you may claim him or her if the other four tests are met.

d. Citizenship or Residence

The dependent was a citizen or resident of the United States, a resident of Canada or Mexico, or an alien child adopted by and living with a U.S. citizen in a foreign country.

e. Relationship

The dependent met test **1** or **2** below.

1. Was related to you (or your spouse if you file a joint return) in one of the following ways:

Child	Brother	Stepmother	Daughter-in-law
Stepchild	Sister	Stepfather	Son-in-law
Mother	Grandchild	Mother-in-law	or, if related
Father	Stepbrother	Father-in-law	by blood:
Grandparent	Stepsister	Brother-in-law	Uncle Nephew
		Sister-in-law	Aunt Niece

2. Was any other person who lived in your home as a member of your household for the whole year. **A person is not a member of your household** if at any time during your tax year the relationship between you and that person is against local law.

For this purpose *child* includes:

- Your son, daughter, stepson, stepdaughter;
- A child who lived in your home as a member of your family if placed with you by an authorized placement agency for legal adoption; and

- A foster child (any child who lived in your home as a member of your family for the whole year).

Student Dependent

Even if your child had gross income of $1,000 or more, you can claim the child as a dependent if he or she can meet tests **b, c,** and **d:** AND

- was enrolled as a full-time student at a school during any 5 months of 1981, OR
- took a full-time, on-farm training course during any 5 months of 1981. (The course had to be given by a school or a State, county, or local government agency.)

The school must have a regular teaching staff, course of study, and a regularly enrolled body of students in attendance.

For this purpose *school* includes

- elementary, junior and senior high schools;
- colleges and universities; and
- technical, trade, and mechanical schools.

However, school does not include on-the-job training courses or correspondence schools.

Children of Divorced or Separated Parents

If a child's parents together paid more than half of the child's support, the parent who has custody for most of the year can generally take the exemption for that child. But there are exceptions. The parent who does **not** have custody (or who has the child for the shorter time) may take the exemption if **a** or **b** below applies.

a. That parent gave at least $600 toward the child's support in 1981, and the decree of divorce or separate maintenance (or a written agreement between the parents) states he or she can take the exemption, OR

b. That parent gave $1,200 or more for each child's support in 1981, and the parent who had custody can't prove that he or she gave more than the other parent.

NOTE: *To figure the amount of support, a parent who has remarried and has custody may count the support furnished by the new spouse*

Dependent Supported by Two or More Taxpayers

Sometimes two or more taxpayers together pay more than half of another person's support, but no one alone pays over half of that person's support. One of the taxpayers may claim the person as a dependent if **all** of the following are met:

1. The tests for income, married dependent, citizenship or residence, and relationship discussed on page 9

2. The taxpayer paid more than 10% of the dependent's support, and

3. The taxpayer attaches to his or her return a signed **Form 2120,** Multiple Support Declaration, from every other qualifying person who paid more than 10% of the support. This form states that the person who signs it will not claim an exemption in 1981 for the person he or she helped to support.

Birth or Death of Dependent

You can take an exemption for a dependent who was born or who died during 1981 if he or she met the tests for a dependent while alive. This means that a baby who lived only a few minutes can be claimed as a dependent. For more details, get **Publication 501,** Exemptions.

Rounding Off to Whole Dollars

You may round off cents to the nearest whole dollar on your return. But, if you do round off, do so for all amounts. You can drop amounts under 50 cents. Increase amounts from 50 to 99 cents to the next dollar. Example: $1.39 becomes $1 and $2.69 becomes $3.

5 Line 7 Wages, Salaries, Tips, etc.

Enter the total of all the wages shown on your W–2 forms. For a joint return, add the totals for you and your spouse. Report all wages you received even if you don't have a W–2 form. If all your tips are not shown on your W–2 forms, add these amounts in, too. (If you had any social security tax due on tips you did not report to your employer, you must file Form 1040 to pay this tax.)

If you lose a W–2 form, ask your employer for a new one. If your employer does not give you a W–2 form by January 31, or if the one you have is not correct, contact your employer as soon as possible. Only your employer can issue or correct your W–2 form. If you can't get a W–2 form from your employer by February 15, contact an Internal Revenue Service office

6 Lines 8a through 8e Interest and Dividend Income

Line 8a Interest Income

Enter your total interest income from banks, savings and loan associations, credit unions, notes and loans, U.S. Savings Bonds, and others on line 8a. Include any interest you received or that was credited to your account so you could withdraw it even if it wasn't entered in your passbook. Be sure to include interest on tax refunds.

Note: *If you received interest as a nominee for someone else, or you received or paid accrued interest on securities transferred between interest payment dates, you may NOT file Form 1040A. You MUST file Form 1040 instead*

If your total interest income is more than $400 or you had any interest from any All-Savers Certificates (discussed on page 11), you must list the name of the payer and the amount of interest on page 2 of Form 1040A.

Line 8b Dividends

Enter your total ordinary dividends on line 8b. Ordinary dividends are dividends paid out of earnings and profits. Assume that any dividend you receive is an ordinary dividend unless the paying corporation tells you otherwise.

Do not include nontaxable distributions on line 8b. In general, distributions that are NOT made out of earnings and profits are a return of your investment and will not be taxed until you get back your cost. You must reduce your cost (or other basis) by the amount of nontaxable distributions received. After you get back all of your cost (or other basis), you must report these distributions as capital gains on Form 1040.

Note: *If you received any capital gain distributions, or you received dividends as a nominee for someone else, you may NOT file Form 1040A. You MUST file Form 1040 instead.*

If the total of your ordinary dividends and nontaxable distributions is more than $400, you must list the name of the payer and the amount of dividends on page 2 of Form 1040A.

Line 8c

Add the amounts on lines 8a and 8b and enter the total on line 8c.

Line 8d
Interest and Dividend Exclusion

For 1981, you can exclude (subtract) up to $200 of combined qualifying interest and dividend income you received. On a joint tax return, you can subtract up to $400, regardless of which spouse received the income.

For example, in our filled-in form on page 6, John Brown had $350 in interest from his own savings account, and Mary Brown had $150 in dividends on stock she owns separately. Their combined qualifying interest and dividends are $500. Since they are filing a joint return, they subtract $400. If they were filing separately, John could subtract $200, and Mary could subtract $150.

Qualifying Interest and Dividends

Only certain kinds of interest and dividend income qualify for the exclusion. Qualifying interest includes:

- Interest on U.S. bank deposits;
- Interest paid by mutual savings banks, credit unions, domestic building and loan associations, or any other savings or thrift institution, provided the deposits or accounts are insured under Federal or State law;
- Interest on evidences of indebtedness (including bonds, debentures, notes and certificates) issued by a domestic corporation in registered form;
- Taxable interest on obligations of the United States, a State, or a political subdivision of a State; and
- Interest on participation shares in a trust set up by a corporation established under Federal law.

Interest paid to you by individuals **does not** qualify for the exclusion.

Only dividends from **domestic** corporations qualify for the exclusion.

Dividends from regulated investment companies (including Money Market Funds) and real estate investment trusts (REITS) may qualify. The corporation, however, will tell you how much of the dividend qualifies for the exclusion.

Dividends from foreign corporations and exempt corporations (such as charitable organizations and farmers' cooperative associations) **do not** qualify.

For more details on what kinds of interest and dividend income qualify for the exclusion, get **Publication 550**, Investment Income and Expenses.

Line 8e

Subtract line 8d from line 8c and show the difference on line 8e.

Exclusion of Qualifying Interest from All-Savers Certificates

Beginning in 1981, if you had qualifying interest income from **All-Savers Certificates (ASC's)**, you can exclude, up to a certain amount, the interest received from these certificates. See **Amount of Exclusion** *below for how to figure your exclusion.*

An All-Savers Certificate is a one-year certificate issued by a qualified savings institution after September 30, 1981, and before January 1, 1983, having an investment yield equal to 70% of the average investment yield on 52-week Treasury bills. (For a definition of "qualified savings institution," see **Publication 550.**)

If you received **any** interest from an ASC, you must complete page 2, Part I, of Form 1040A.

Enter all qualifying interest received from ASC's on line 1c of Part I. List the name of the payer and next to the name, show the amount of income.

However, do not include on line 1c any interest you received from an ASC that you redeemed before its maturity. Instead, report the interest on line 1a.

Add up all the qualifying interest on line 1c and enter the total on line 1d.

Enter the amount of your exclusion (see below) on line 1e, then subtract line 1e from line 1d and show the difference on line 1f.

Amount of Exclusion

You can claim a lifetime exclusion of up to $1,000 of qualifying interest received from ASC's. On a joint return, you can exclude up to $2,000, regardless of which spouse received the income.

The exclusion applies to the total of all qualifying interest you received from all ASC's. The amount you can exclude in any year is the amount of qualifying interest you received during the year less the amount you excluded in any earlier year(s), subject to the maximum amount of the exclusion.

Example. You are married filing a joint return and bought an ASC in October 1981 and received $600 of interest from this ASC in 1981. You can exclude the entire $600 in 1981. In 1982, you can exclude up to $1,400 additional interest received from this certificate. (On a joint return, each spouse is treated as having claimed one-half the amount of the exclusion.)

If you redeem any part of an ASC before its maturity, you may NOT exclude any interest received from that certificate during the year. If you exclude the interest in one year, and redeem the certificate before its maturity in the next year, you must include in income in the year you redeem the certificate any interest you excluded in the prior year.

If you use all or part of the certificate as collateral or security for a loan, you are treated as having redeemed the certificate early.

Example. You are single and in October 1981 you bought an ASC. You received $250 of interest from this certificate in 1981, all of which you excluded from your 1981 income. During 1982, you redeem this certificate early. Since you redeemed it before its maturity, you must include in your 1982 income the $250 you excluded in 1981, as well as any additional interest you received from this certificate in 1982. However, if you re-invest in another qualified certificate in 1982, you can exclude up to $1,000 of interest from the new ASC.

You may **NOT** exclude any interest received from an ASC under the general interest and dividend exclusion rules that apply in 1981 (line 8d of Form 1040A). (This applies even if you cannot exclude the interest because you redeem the certificate early.)

For more details on the exclusion, get **Publication 550.**

7 Lines 9a and 9b
Unemployment Compensation

Unemployment compensation (insurance) you received may be taxable under certain conditions.

You should get a statement, on Form 1099–UC, showing the total unemployment compensation paid to you during the year. For payments in 1981, you should receive this statement by January 31, 1982. Enter on line 9a the amount from Form 1099–UC.

Do not include on line 9a any supplemental unemployment benefits you received from a company-financed supplemental unemployment benefit fund. Instead, report these benefits as wages on Form 1040A, line 7. If you paid back these benefits in a later year because you received payments under the Trade Act of 1974, you can deduct the repayment, but you must use Form 1040 to do so. For more details, get **Publication 525,** Taxable and Nontaxable Income.

To see if any of the unemployment compensation you received is taxable, please complete the worksheet below.

Unemployment Compensation Worksheet

Check only one box:

- ☐ A. Single—enter $20,000 on line 6 below.
- ☐ B. Married filing a joint return—enter $25,000 on line 6 below.
- ☐ C Married not filing a joint return and lived with your spouse at any time during the year—enter –0– on line 6 below.
- ☐ D. Married not filing a joint return and DID NOT live with your spouse at any time during the year—enter $20,000 on line 6 below.

1. Enter total unemployment compensation from Form(s) 1099–UC here. Also enter this amount on Form 1040A, line 9a.	
2. If you received an overpayment of unemployment compensation in 1981 and repaid it in 1981, enter the repayment here. Also write "repayment" and the amount you repaid in the margin to the left of line 9a, Form 1040A.	
3. Subtract line 2 from line 1. Enter the result here.	
4. Enter the total of the amounts shown on Form 1040A, lines 7 and 8e.	
5. Add lines 3 and 4. Enter result here.	
6. Enter: $20,000 if you checked Box A or D above. $25,000 if you checked Box B above. –0– if you checked Box C above.	
7. Subtract line 6 from line 5. If zero or less, stop here and enter –0– on Form 1040A, line 9b.	
8. Enter one-half (50%) of the amount on line 7.	
9. Enter the smaller of line 3 or line 8. This is the taxable portion of your unemployment compensation. Enter this amount on Form 1040A, line 9b.	

For example, in our filled-in form, the Browns' taxable unemployment compensation was figured as shown below:

Unemployment Compensation Worksheet

Check only one box: SAMPLE

- ☐ A. Single—enter $20,000 on line 6 below.
- ☒ B. Married filing a joint return—enter $25,000 on line 6 below.
- ☐ C. Married not filing a joint return and lived with your spouse at any time during the year—enter –0– on line 6 below.
- ☐ D. Married not filing a joint return and DID NOT live with your spouse at any time during the year—enter $20,000 on line 6 below.

1. Enter total unemployment compensation from Form(s) 1099–UC here. Also enter this amount on Form 1040A, line 9a.	3,000.00
2. If you received an overpayment of unemployment compensation in 1981 and repaid it in 1981, enter the repayment here. Also write "repayment" and the amount you repaid in the margin to the left of line 9a, Form 1040A.	300.00
3. Subtract line 2 from line 1. Enter the result here.	2,700.00
4. Enter the total of the amounts shown on Form 1040A, lines 7 and 8e.	9,180.00
5. Add lines 3 and 4. Enter result here.	11,880.00
6. Enter: $20,000 if you checked Box A or D above. $25,000 if you checked Box B above. –0– if you checked Box C above.	25,000.00
7. Subtract line 6 from line 5. If zero or less, stop here and enter –0– on Form 1040A, line 9b.	
8. Enter one-half (50%) of the amount on line 7.	
9. Enter the smaller of line 3 or line 8. This is the taxable portion of your unemployment compensation. Enter this amount on Form 1040A, line 9b.	

8 Line 10
Adjusted Gross Income

Add the amounts on lines 7, 8e, and 9b.

If line 10 is less than $10,000, you may be eligible for the Earned Income Credit. Please see Earned Income Credit instructions on page 13.

9 Line 11
Exemptions

You are allowed $1,000 for each exemption you can take. Multiply $1,000 by the number of exemptions shown on line 6. Enter the amount on line 11.

10 Line 12
Taxable Income

Subtract line 11 from line 10. This is your taxable income. Your tax is figured on this amount. If line 12 is less than $50,000, please continue.

If line 12 is $50,000 or more, you **CANNOT** use Form 1040A. You **MUST** file Form 1040.

(11) Line 13a
Credit for Contributions to Candidates for Public Office

Add up the amounts you gave to help pay campaign expenses of candidates for public office, and to newsletter funds and political committees of candidates and elected public officials. Enter HALF the amount you gave, but NOT MORE THAN $50. If you are married filing a joint return, enter HALF the amount you gave, but NOT MORE THAN $100.

Note: *This credit cannot be larger than the amount of the tax shown on line 15a.*

Do not take this credit for the $1 or $2 amount you checked for the Presidential Election Campaign Fund.

(12) If You Qualify, IRS Will Figure Your Tax and Your Earned Income Credit

If you want us to, we will figure your tax for you. If you paid too much, we will send you a refund. If you did not pay enough, we will bill you for the balance. We will not charge you interest or penalties if the bill for tax due is paid within 30 days of the notice date, or by the due date for your return, whichever is later. We can do this if:

a. You fill in the parts of your return through line 13a that apply to you.

b. You use the space to the right of lines 8a through 8d to show your adjusted gross income and your spouse's adjusted gross income separately, if you file a joint return.

c. You attach the first copy or Copy B of all your W–2 forms to your Form 1040A.

d. You complete page 2 of Form 1040A if required.

e. You (and your spouse if filing a joint return) sign and date your return and mail it by April 15, 1982.

If you do not want IRS to figure your tax, complete the rest of your return as follows:

(13) Line 13b
Total Federal Income Tax Withheld

Enter the amount of Federal income tax withheld as shown on your W–2 form. If you have more than one W–2 form, add the amounts of Federal income tax withheld. If you are filing a joint return, add the amounts of Federal income tax withheld for you and your spouse.

Excess FICA and RRTA Tax Withheld

If you had two or more employers in 1981 who together paid you more than $29,700 in wages, too much social security (FICA) tax or railroad retirement tax (RRTA) may have been withheld from your wages. If so, you can add the excess amount to your income tax withheld. If you are filing a joint return, you must figure this **separately** for you and your spouse.

Step 1. Add all FICA tax withheld by employers from your wages for 1981 (but not more than $1,975.05 for each employer).* Enter the total here . . $_____

Step 2. Subtract . . . . . – 1,975.05

Step 3. Add this amount to the Federal income tax withheld and enter it on Form 1040A, line 13b. If you included any excess FICA tax on line 13b, write "excess FICA" and show the amount to the left of the line 13b entry space . . . . . $_____

***Note:** *If any one employer withheld more than $1,975.05, you should ask the employer to refund the excess to you. You cannot claim it on your return.*

If you are a railroad employee, contact an IRS office for information on how to figure your excess RRTA tax. Do not use this worksheet.

(14) Line 13c
Earned Income Credit

What Does the Earned Income Credit Do?

The earned income credit helps many taxpayers who have a child and have incomes under $10,000. If you can take the earned income credit, you can subtract it from tax you owe or get a refund even if you had no tax withheld from your pay. The credit can be as much as $500.

What is Earned Income?

In most cases, you had earned income if you worked last year. Earned income includes:

- wages, salaries, tips, and
- anything else of value (money, goods, or services) you get from your employer for services you performed regardless of whether it is taxable.

Note 1: *In addition to the income listed above, the following are examples of amounts received from your employer that must be included in line 1 of the worksheet, but not on Form 1040A, line 7—*

a. *Housing allowance (or rental value of a parsonage) for members of the clergy.*

b. *Meals and lodging.*

Earned income does **not** include items such as interest, dividends, social security payments, welfare benefits, nondisability pensions, veterans' benefits, workmen's compensation, or unemployment compensation (insurance).

Who Can't Take the Earned Income Credit?

You can't take the earned income credit if:

1. You are **Single** (Filing Status Box 1); **OR**
2. You are **Married filing a separate return** (Filing Status Box 3); **OR**
3. Your income is **$10,000 or more.**

Note 2: *If you got advance earned income credit payments, you must file a tax return. Report these payments on line 15b of Form 1040A. If you expect to answer* **YES** *to all the questions below for 1982 and want to get advance payments of the credit, file Form W–5 with your employer.*

If you are not required to file a return but can claim the earned income credit, file Form 1040A to get a refund of your credit.

All you need to do is:

1. Fill in Form 1040A through line 10. Do not check the Presidential Election Campaign Fund box(es).
2. Use the Earned Income Credit Worksheet on this page to figure your credit.
3. Fill in Form 1040A, lines 13a through 14 and 16.
4. Sign and date the return.
5. Be sure to attach the first copy or Copy B of Form(s) W–2.

If you want IRS to figure your earned income credit for you, skip instructions **2** and **3** above, but please provide all the other information requested.

If you want IRS to figure your tax, including the Earned Income Credit, answer the questions below, but do not fill in the Earned Income Credit Worksheet.

To see if you can take the Earned Income Credit, fill in Form 1040A through line 10, and answer the following:

	Yes	No
1. Is the amount you listed on Form 1040A, line 10, less than $10,000?	☐	☐
2. Did you receive any wages, salaries, tips, or other earned income (see "What is Earned Income?" on page 13)?	☐	☐
3. Did you have a child **(see note 3 below)** who lived with you in the same principal residence in the United States during all of 1981?	☐	☐
4. If you checked Filing Status **Box 2** on Form 1040A, did you claim your child as a dependent on Form 1040A, line 5c? **OR** If you checked Filing Status **Box 4** on Form 1040A, **and your child was married for 1981,** did you claim that child as a dependent on Form 1040A, line 5c? **OR** If you checked Filing Status **Box 4** on Form 1040A, **and your child was unmarried for 1981,** did you enter that child's name on Form 1040A, line 4 (or 5c if you **claimed that child as a dependent)?**	☐	☐

Note 3: *For this purpose, the word* **child** *means:*

- Your son or daughter.
- Your stepchild, adopted child, or a child placed with you by an authorized placement agency for legal adoption (even if the child became your stepchild or adopted child, or was placed with you during the year).
- Any other child whom you cared for as your own child for the whole year, unless the child's natural or adoptive parents provided more than half of the support for that year.

If you answered NO to any question, you can't take the earned income credit. Do not fill in the worksheet. Instead, put "No" on line 13c.

If you answered YES to all the questions, you may be able to take the credit. Use the Earned Income Credit Worksheet below to figure the amount of any credit.

Earned Income Credit Worksheet
(Keep for your tax records)

1. Amount from Form 1040A, line 7. (See **Note 1** under "What is Earned Income?")		$
2. Amount from Form 1040A, line 10.		
3. If line 2 above is **not over $6,000,** use the amount on line 1 to find the credit in the table on page 23. Enter the credit here and on Form 1040A, line 13c.		
4. If line 2 is **over $6,000:**		
a. First, find the amount from line 1 above in the table on page 23, and enter the credit for that amount here.	$_____	
b. Second, find the amount from line 2 in the table, and enter the credit for that amount here.	$_____	
c. Enter the amount from 4a or 4b, whichever is smaller, here and on Form 1040A, line 13c.		$

For example, in our filled-in form, the Browns' earned income credit was figured as follows:

Earned Income Credit Worksheet

1. Amount from Form 1040A, line 7. (See **Note 1** under "What is Earned Income?")		**$9,080.00**
2. Amount from Form 1040A, line 10.		**$9,180.00**
3. If line 2 above is **not over $6,000,** use the amount on line 1 to find the credit in the table on page 23. Enter the credit here and on Form 1040A, line 13c.		SAMPLE
4. If line 2 is **over $6,000:**		
a. First, find the amount from line 1 above in the table on page 23, and enter the credit for that amount here.	**$116.00**	
b. Second, find the amount from line 2 in the table, and enter the credit for that amount here.	**$103.00**	
c. Enter the amount from 4a or 4b, whichever is smaller, here and on Form 1040A, line 13c.		**$103.00**

⑮ Line 15a

Figuring Your Income Tax

If line 12 is less than $50,000, find your tax in the Tax Table on pages 17 through 22.

If line 12 is $50,000 or more, you **CANNOT** file Form 1040A. Instead, you must file Form 1040 and use the Tax Rate Schedules to figure your tax.

Be sure you use the correct column in the Tax Table. After you have found the correct tax, enter that amount on line 15a.

The tax shown in the Tax Table has been figured so that it already includes **your zero bracket amount and the rate reduction credit.**

⑯ Line 15b

Advance Earned Income Credit (EIC) Payments

Enter the total of the Advance Earned Income Credit (EIC) Payments as shown on your W–2 form(s).

⑰ Line 17

Your Refund

If line 14 is larger than line 16, subtract line 16 from line 14 and show the difference on line 17. This is the amount that will be refunded to you.

If line 17 is less than $1, we will not send you a refund unless you ask for it when you file your return.

If the refund IRS owes you is large, you should see your payroll office about reducing the amount of tax that is withheld from your wages. See **Income Tax Withholding for 1982** on page 16.

Note: *If you move after filing your return and you are expecting a refund, you should notify the post office that services your old address. Also, notify the Internal Revenue Service Center where you filed your return of your address change. This will help in forwarding your check to your new address as soon as possible. Please be sure to include your social security number in any correspondence with the IRS.*

⑱ Line 18

Balance Due IRS

If line 16 is larger than line 14, subtract line 14 from line 16 and show the difference on line 18. This is the balance you still owe. If line 18 is less than $1, you do not have to pay.

You may pay by check or money order made payable to "Internal Revenue Service." Write your social security number, and "1981 Form 1040A" on your check or money order and attach it to your return.

Penalty for Not Paying Enough Tax During the Year

If line 18 is $100 or more and more than 20 percent of line 16, file **Form 1040** and attach **Form 2210,** Underpayment of Estimated Tax by Individuals. You may owe a penalty unless you meet one or more of the exceptions explained on Form 2210.

If your payment due IRS is large, you should see your payroll office about increasing the amount of tax withheld from your wages. See **Income Tax Withholding for 1982** on page 16.

⑲ Completing Your Return

Sign and Date Your Return

Form 1040A is not considered a return unless you sign it. Your spouse must also sign if it is a joint return. Attach the first copy or Copy B of your W–2 forms to your return.

Did You Have Someone Else Prepare Your Return?

If you fill in your own return, the Paid Preparer's space under your signature should remain blank. If someone prepares your return and **does not charge you,** that person **should not sign** your return.

Generally, anyone who is paid to prepare your tax return must sign it and fill in the other blanks in the Paid Preparer's Use Only area of your return.

If you have questions about whether a preparer is required to sign your return, please contact an IRS office.

The preparer required to sign your return MUST complete the required preparer information and:

- Sign it, by hand, in the space provided for the preparer's signature. (Signature stamps or labels are not acceptable.)
- Give you a copy of your return in addition to the copy to be filed with IRS.

Tax return preparers should be familiar with their responsibilities. Preparers should see **Publication 1045,** Information and Order Blanks for Preparers of Federal Income Tax Returns, for more details.

General Information

Death of Taxpayer

Did the taxpayer die before filing a return for 1981? If so, the taxpayer's spouse or personal representative may have to sign and file a return for the person who died. A personal representative can be an executor, administrator, or anyone who is in charge of the taxpayer's property. If the taxpayer did not have to file a return but had tax withheld, a return must be filed to get a refund.

If your spouse died in 1981 and you did not remarry in 1981, or if your spouse died in 1982 before filing a return for 1981, you can file a joint return. A joint return should show your spouse's 1981 income before death and your income for all of 1981. Write "deceased" after the deceased taxpayer's name and show the date of death in the name and address space of Form 1040A. Please write "Filing as surviving spouse" in the area where you sign the return. If someone else is the personal representative, he or she must also sign.

If you are claiming a refund as a surviving spouse filing a joint return with the decedent and you follow the above instructions, no other form is needed to have the refund issued to you. However, all other filers requesting a refund due a decedent must file **Form 1310,** Statement of Person Claiming Refund Due a Deceased Taxpayer, to claim the refund.

For more details, get **Publication 559,** Tax Information for Survivors, Executors, and Administrators.

Recordkeeping

Keep records of income and credits appearing on your tax return until the statute of limitations runs out for that return. Usually this is 3 years from the date the return was due or filed, or 2 years from the date the tax was paid, whichever is later. Also keep copies of your filed tax returns as part of your records. You should keep some records longer. For example, keep property records (including those on your own home) as long as they are needed to figure the basis of the original or replacement property.

For more details, get **Publication 552,** Recordkeeping Requirements and a List of Tax Publications.

Penalties and Interest

Late Filing of Return

The law provides a penalty of 5% of the tax due for each month, or part of a month, the return is late (maximum 25%) unless you can show reasonable cause for the delay. If you file a return late, attach a letter clearly explaining why you are filing late.

Late Payment of Tax

The penalty for not paying tax when due is ½ of 1% of the unpaid amount for each month, or part of a month, it remains unpaid. The maximum penalty is 25% of the unpaid amount. The penalty applies to any unpaid tax shown on a return. It also applies to any additional tax shown on a bill that is not paid within 10 days from the date of the bill. This penalty is in addition to the interest charge that applies on late payments.

Interest

Interest will be charged on taxes not paid by their due date.

Income Tax Withholding for 1982

If the amount due IRS on line 18 or the refund IRS owes you on line 17 is large, you should see your payroll office. Ask about filling out a new Form W–4 to change the amount of tax to be withheld from your wages. For example, working married couples and persons with two or more jobs often need to have more tax withheld to avoid owing a large payment when the return is filed. You may also owe more tax because you have other income on which there is no withholding.

If the amount you owe IRS is large, you may have to file a Declaration of Estimated Tax for 1982. (See **Declaration of Estimated Tax,** on this page.)

Or, if you got a large refund, get a copy of Form W–4 from your employer and read the instructions. If you are entitled to additional allowances, file a new W–4 with your employer.

If you go back to work after a period of unemployment, you may reduce the amount of income tax withheld if your employer agrees to use the part-year method of withholding. There are also other methods which could reduce your withholding. For more details, see your employer or get **Publication 505,** Tax Withholding and Estimated Tax.

If you expect your income in 1982 to be less than $10,000, you may be eligible for advance payment of your earned income credit during 1982. See your payroll office for further information on filing Form W–5, Earned Income Credit Advance Payment Certificate.

Declaration of Estimated Tax

In general, you do not have to file a declaration if you expect that your 1982 tax return will show a tax refund, OR a tax balance due IRS of less than $200. However, if you file a declaration for 1982, you **must** use Form 1040 to claim the payments you made. Please see **Form 1040–ES** for more details.

Amended Return

If, after you file your income tax return, you become aware of any changes you must make to income, deductions, or credits, file **Form 1040X,** Amended U.S. Individual Income Tax Return, to change the return you already filed.

If your return is changed for any reason, it may affect your State income tax liability. This would include changes made as a result of an examination of your return by the IRS. Contact your State tax agency for more information.

Voluntary Income Tax Assistance (VITA) and Tax Counseling for the Elderly (TCE)

In addition to the tax assistance available in most local IRS offices, free help is available in most communities to lower income, elderly, handicapped, and non-English-speaking individuals in preparing Form 1040A and the basic Form 1040. Call the toll-free telephone number for your area for the location of the volunteer assistance site near you.

Unresolved Problems

IRS has a Problem Resolution Program for taxpayers who have been unable to resolve their problems with IRS. If you have a tax problem you have been unable to resolve through normal channels, call the toll-free telephone number for your area and ask for the Problem Resolution Office.

This office will take responsibility for your problem and insure that it receives proper attention. Although the Problem Resolution Office cannot change the tax law or technical decisions, it can frequently clear up misunderstandings that resulted from previous contacts.

1981 Tax Table

Based on Taxable Income
For persons with taxable incomes of less than $50,000.

Example: Mr. and Mrs. Green are filing a joint return. Their taxable income on line 12 of Form 1040A is $23,270. First, they find the $23,250-23,300 income line. Next, they find the column for married filing jointly and read down the column. The amount shown where the income line and filing status column meet is $4,082. This is the tax amount they must write on line 15a of their return.

At least	But less than	Single	Married filing jointly	Married filing separately	Head of a household
		Your tax is—			
23,200	23,250	5,208	4,069	6,438	4,865

Privacy Act and Paperwork Reduction Act Notice

The Privacy Act of 1974 and Paperwork Reduction Act of 1980 say that when we ask you for information we must tell you:

a. Our legal right to ask for the information.

b. What major purposes we have in asking for it, and how it will be used.

c. What could happen if we do not receive it.

d. Whether your response is voluntary, required to obtain a benefit, or mandatory under the law.

For the Internal Revenue Service, the laws include:

- Tax returns and any papers filed with them.
- Any questions we need to ask you so we can:

Complete, correct, or process your return.

Figure your tax.

Collect tax, interest, or penalties

Our legal right to ask for information is Internal Revenue Code sections 6001 and 6011 and their regulations. They say that you must file a return or statement with us for any tax you are liable for. Your response is mandatory under these sections. Code section 6109 and its regulations say that you must show your social security number on what you file. This is so we know who you are, and can process your return and papers.

You must fill in all parts of the tax form that apply to you. But you do not have to check the boxes for the Presidential Election Campaign Fund.

We ask for tax return information to carry out the Internal Revenue laws of the United States. We need it to figure and collect the right amount of tax.

We may give the information to the Department of Justice and to other Federal agencies, as provided by law

We may also give it to States, the District of Columbia, and U.S. commonwealths or possessions to carry out their tax laws. And we may give it to foreign governments because of tax treaties they have with the United States.

If a return is not filed, or if we don't receive the information we ask for, the law provides that a penalty may be charged. And we may have to disallow the exemptions, exclusions, credits, deductions, or adjustments shown on the tax return. This could make the tax higher or delay any refund. Interest may also be charged.

Please keep this notice with your records. It may help you if we ask you for other information.

If you have questions about the rules for filing and giving information, please call or visit any Internal Revenue Service office.

1981 Earned Income Credit Table (Caution—This is not a tax table)

Read down the column titled "If line 1 or 2 of the worksheet is—" and find the appropriate amount from the Earned Income Credit Worksheet on page 14 Read across to the right and find the amount of your earned income credit. Enter that amount on line 3 or 4 of the worksheet, whichever applies

If line 1 or 2 of the worksheet is— Over	But not over	Your earned income credit is—	If line 1 or 2 of the worksheet is— Over	But not over	Your earned income credit is—	If line 1 or 2 of the worksheet is— Over	But not over	Your earned income credit is—	If line 1 or 2 of the worksheet is— Over	But not over	Your earned income credit is—	If line 1 or 2 of the worksheet is— Over	But not over	Your earned income credit is—

To Call IRS Toll-Free for Answers to Your Federal Tax Questions, Use Only the Number Listed Below for Your Area

Caution:

"Toll-free" is a telephone call for which you pay only local charges with no long-distance charge. Please use a local city number only if it is not a long-distance call for you. Otherwise, use the general toll-free number given.

We are happy to answer questions to help you prepare your return. But you should know that you are responsible for the accuracy of your return. If we do make an error, you are still responsible for the payment of the correct tax.

To make sure that IRS employees give courteous responses and correct information to taxpayers, a second IRS employee sometimes listens in on telephone calls. No record is kept of any taxpayer's name, address, or social security number.

If you find it necessary to write instead of calling, please address your letter to your IRS District Director for a prompt reply.

Alabama
Birmingham, 252–1155
Huntsville, 539–2751
Montgomery, 264–8441
Elsewhere in Alabama, 1–800–292–6300

Alaska
Anchorage, 276–1040
Elsewhere in Alaska, call operator and ask for Zenith 3700

Arizona

How To Get Forms

Generally, we mail forms and schedules directly to you based on what seems to be right for you. Schedules and forms you may need are listed below. You can get them from most Internal Revenue Service offices, and at many banks and post offices, or by using the order blank on page 27.

Form 1040, U.S. Individual Income Tax Return

Schedule A for itemized deductions

Schedule B for interest income if more than $400 or if from All-Savers Certificates, for dividends and other distributions on stock if more than $400, and for answering the Foreign Accounts or Foreign Trust Questions

Schedule C for income from a personally owned business

Schedule D for income from the sale or exchange of capital assets

Schedule E for income from rents, royalties, partnerships, estates, trusts, etc.

Schedule F for income from farming

Schedule G for income averaging

Schedules R&RP credit for the elderly

Schedule SE for reporting net earnings from self-employment

These forms are available only at Internal Revenue Service offices:

Form 1040–ES to make estimated tax payments

Form 2106, Employee Business Expenses

Form 2119, Sale or Exchange of Principal Residence

Form 2120, Multiple Support Declaration

Form 2210, Underpayment of Estimated Tax by Individuals

Form 2440, Disability Income Exclusion

Form 2441, Credit for Child and Dependent Care Expenses

Form 3468, Computation of Investment Credit

Form 3903, Moving Expense Adjustment

Form 4136, Computation of Credit for Federal Tax on Gasoline, Special Fuels, and Lubricating Oil

Form 4562, Depreciation

Form 4684, Casualties and Thefts

Form 4726, Maximum Tax on Personal Service Income

Form 4797, Supplemental Schedule of Gains and Losses

Form 4835 for farm rental income and expenses

Form 4868, Application for Automatic Extension of Time to File U.S. Individual Income Tax Return

Form 5695, Residential Energy Credit

Form 6251, Alternative Minimum Tax Computation

Some helpful publications you can send for:

Schedules A&B (Form 1040) 1981

Schedule B—Interest and Dividend Income

OMB No 1545-0074 Page 2

Name(s) as shown on Form 1040 (Do not enter name and social security number if shown on other side) | Your social security number

Part I Interest Income

If you received more than $400 in interest or you received any interest from an All-Savers Certificate, you must complete Part I and list ALL interest received. Also complete Part III if you received more than $400 in interest. See page 8 of the Instructions to find out what interest to report. Then answer the questions in Part III, below. If you received interest as a nominee for another, or you received or paid accrued interest on securities transferred between interest payment dates, please see page 20 of the Instructions

Name of payer	Amount
1a Interest income (other than qualifying interest from All-Savers Certificates)	
1b Total. Add above amounts	
1c Qualifying interest from All-Savers Certificates. (List payers and amounts even if $400 or less.) See page 20 of Instructions	
1d Total	
1e Exclusion (See page 20 of Instructions)	
1f Subtract line 1e from line 1d	
Caution: *No part of the amount on line 1f may be excluded on Form 1040, line 8d*	
2 Total interest income (add lines 1b and 1f). Enter here and on Form 1040, line 8a	

Part II Dividend Income

If you received more than $400 in gross dividends (including capital gain distributions) and other distributions on stock, complete Part II and Part III. Please see page 9 of the Instructions. Then answer the questions in Part III, below. If you received dividends as a nominee for another, please see page 21 of the Instructions

Name of payer	Amount
3	
4 Total. Add above amounts	
5 Capital gain distributions. Enter here and on line 13, Schedule D. See Note below	
6 Nontaxable distributions (See Instructions for adjustment to basis)	
7 Total (add lines 5 and 6)	
8 Total dividend income (subtract line 7 from line 4). Enter here and on Form 1040, line 8b	

B

Note: *If you received capital gain distributions for the year and you do not need Schedule D to report any other gains or losses or to compute the alternative tax, do not file that schedule. Instead, enter 40% of your capital gain distributions on Form 1040, line 13*

Part III Foreign Accounts and Foreign Trusts

If you received more than $400 of interest or dividends, OR if you had a foreign account or were a grantor of, or a transferor to, a foreign trust, you must answer both questions in Part III. Please see page 21 of the Instructions

	Yes	No
9 At any time during the tax year, did you have an interest in or a signature or other authority over a bank account, securities account, or other financial account in a foreign country?		
10 Were you the grantor of, or transferor to, a foreign trust which existed during the current tax year, whether or not you have any beneficial interest in it? If "Yes," you may have to file Forms 3520, 3520-A, or 926		

For Paperwork Reduction Act Notice, see Form 1040 Instructions.

b Long-term capital gain from installment sales from Form 6252, line 19 or 27		
10 Enter your share of net long-term gain or (loss) from partnerships and fiduciaries		
11 Add lines 8 through 10 in column f and column g	( )	
12 Combine line 11, column f and line 11, column g and enter the net gain or (loss)		
13 Capital gain distributions		
14 Enter gain from Form 4797, line 5(a)(1)		
15 Enter your share of net long-term gain from small business corporations (Subchapter S)		
16 Combine lines 12 through 15		
17 Long-term capital loss carryover from years beginning after 1969		( )
18 Net long-term gain or (loss), combine lines 16 and 17		

Note: *Complete this form on reverse. However, if you have capital loss carryovers from years beginning before 1970, do not complete Parts III or V. See Form 4798 instead.*

For Paperwork Reduction Act Notice, see Form 1040 instructions

Part III Summary of Parts I and II

19 Combine lines 7 and 18, and enter the net gain or (loss) here. **NOTE:** *If line 19 is a gain complete lines 20 through 22. If line 19 is a loss complete lines 23 and 24.*		
20 If line 19 shows a gain, enter the smaller of line 18 or line 19. Enter zero if there is a loss or no entry on line 18		
21 Enter 60% of line 20. *If line 21 is more than zero, you may be liable for the alternative minimum tax. See Form 6251.*		
22 Subtract line 21 from line 19. Enter here and on Form 1040, line 12		
23 If line 19 shows a loss, enter one of the following amounts: (i) If line 7 is zero or a net gain, enter 50% of line 19, (ii) If line 18 is zero or a net gain, enter line 19; or, (iii) If line 7 and line 18 are net losses, enter amount on line 7 added to 50% of the amount on line 18		
24 Enter here and as a loss on Form 1040, line 12, the smallest of: (i) The amount on line 23; (ii) $3,000 ($1,500 if married and filing a separate return); or, (iii) Taxable income, as adjusted		

Part IV Computation of Alternative Tax

(Complete this part if line 20 (or Form 4798, line 8) shows a gain and your tax rate is above 50%. See instructions page 23.)

25 Net short-term gain or (loss) from line 5, from sales or exchanges after June 9, 1981		
26 Net long-term gain or (loss) from line 16, from sales or exchanges after June 9, 1981		
27 If line 26 shows a gain, combine line 25 and line 26. If line 26 or this line shows a loss or zero, enter zero and do not complete rest of this part		
28 Enter the smaller of line 26 or line 27		
29 Enter the smaller of line 20 (or Form 4798, line 8) or line 28		
30 Enter your Taxable Income from Form 1040, line 34		
31 Enter 40% of line 29		
32 Subtract line 31 from line 30. If line 31 is more than line 30, enter zero		
33 Tax on amount on line 32. ☐ Tax Rate Schedule X, Y, or Z; ☐ Schedule G. (See instructions page 23)		
34 Enter 20% of line 29		
35 Add lines 33 and 34. If the result is less than your tax using other methods, enter this amount on Form 1040, line 35 and check Schedule D box		

Part V Computation of Post-1969 Capital Loss Carryovers from 1981 to 1982

(Complete this part if the loss on line 23 is more than the loss on line 24)

Section A.—Short-term Capital Loss Carryover

36 Enter loss shown on line 7; if none, enter zero and skip lines 37 through 41—then go to line 42		
37 Enter gain shown on line 18. If that line is blank or shows a loss, enter zero		
38 Reduce any loss on line 36 to the extent of any gain on line 37		
39 Enter amount shown on line 24		
40 Enter smaller of line 38 or 39		
41 Subtract line 40 from line 38. This is your short-term capital loss carryover from 1981 to 1982		

Section B.—Long-term Capital Loss Carryover

42 Subtract line 40 from line 39 (**Note:** *If you skipped lines 37 through 41, enter amount from line 24*)		
43 Enter loss from line 18; if none, enter zero and skip lines 44 through 47		
44 Enter gain shown on line 7. If that line is blank or shows a loss, enter zero		
45 Reduce any loss on line 43 to the extent of any gain on line 44		
46 Multiply amount on line 42 by 2		
47 Subtract line 46 from line 45. This is your long-term capital loss carryover from 1981 to 1982		

Part VI Complete this Part Only if You are Electing Out of the Installment Method And are Reporting a Note or Other Obligation at Less Than Full Face Value

☐ Check here if you elect out of the installment method.

Enter the face amount of the note or other obligation ▶

Enter the percentage of valuation of the note or other obligation ▶

Department of the Treasury Internal Revenue Service (0)

Computation of Social Security Self-Employment Tax

▶ See Instructions for Schedule SE (Form 1040).
▶ Attach to Form 1040.

OMB No 1545-0074
1981
22

Name of self-employed person (as shown on social security card) | Social security number of self-employed person ▶

Part I Computation of Net Earnings from FARM Self-Employment

Regular Method

1 Net profit or (loss) from:
a Schedule F (Form 1040) . . . 1a
b Farm partnerships . . . 1b
2 Net earnings from farm self-employment (add lines 1a and 1b) . . . 2

Farm Optional Method

3 If gross profits from farming are:
a Not more than $2,400, enter two-thirds of the gross profits . . . 3
b More than $2,400 and the net farm profit is less than $1,600, enter $1,600 . . .
4 Enter here and on line 12a, the amount on line 2, or line 3 if you elect the farm optional method . 4

Part II Computation of Net Earnings from NONFARM Self-Employment

SE

Regular Method

5 Net profit or (loss) from:
a Schedule C (Form 1040) . . . 5a
b Partnerships, joint ventures, etc. (other than farming) . . . 5b
c Service as a minister, member of a religious order, or a Christian Science practitioner. (Include rental value of parsonage or rental allowance furnished.) If you filed Form 4361 and have not revoked that exemption, check here ▶ ☐ and enter zero on this line . . . 5c
d Service with a foreign government or international organization . . . 5d
e Other (specify) ▶ . . . 5e
6 Total (add lines 5a through 5e) . . . 6
7 Enter adjustments if any (attach statement, see instructions) . . . 7
8 Adjusted net earnings or (loss) from nonfarm self-employment (line 6, as adjusted by line 7). Enter here and on line 12b. (Note: If the amount on line 8 is less than $1,600, you may wish to use the nonfarm optional method instead. See instructions.) . . . 8

Nonfarm Optional Method (Use only if your earnings from nonfarm self-employment are less than $1,600 and less than two-thirds of your gross nonfarm profits.)

9 a Maximum amount reportable under both optional methods combined (farm and nonfarm) . . . 9a $1,600 00
b Enter amount from line 3. (If you have no amount on line 3, enter zero.) . . . 9b
c Balance (subtract line 9b from line 9a) . . . 9c
10 Enter two-thirds of gross nonfarm profits or $1,600, whichever is smaller . . . 10
11 Enter here and on line 12b, the amount on line 9c or line 10, whichever is smaller . . . 11

Part III Computation of Social Security Self-Employment Tax

12 Net earnings or (loss):
a From farming (from line 4) . . . 12a
b From nonfarm (from line 8, or line 11 if you elect to use the Nonfarm Optional Method) . . . 12b
13 Total net earnings or (loss) from self-employment reported on lines 12a and 12b. **(If line 13 is less than $400, you are not subject to self-employment tax. Do not fill in rest of schedule)** . . . 13
14 The largest amount of combined wages and self-employment earnings subject to social security or railroad retirement taxes for 1981 is . . . 14 $29,700 00
15 a Total FICA wages (from Forms W-2) and RRTA compensation 15a
b Unreported tips subject to FICA tax from Form 4137, line 9 or to RRTA . . . 15b
c Add lines 15a and 15b . . . 15c
16 Balance (subtract line 15c from line 14) . . . 16
17 Self-employment income—line 13 or line 16, whichever is smaller . . . 17
18 Self-employment tax. (If line 17 is $29,700, enter $2,762.10; if less, multiply the amount on line 17 by .093.) Enter here and on Form 1040, line 48 . . . 18

*Use Tax Rate Schedules from Form 1040 or Form 1041 Instructions. Do not use Tax Computation Worksheet.

For Paperwork Reduction Act Notice, see back of form.

Form **4726** (1981)

Instructions

(Section references are to the Internal Revenue Code)

Paperwork Reduction Act Notice.—The Paperwork Reduction Act of 1980 says we must tell you why we are collecting this information, how we will use it, and whether you have to give it to us. We ask for the information to carry out the Internal Revenue laws of the United States. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax. You are required to give us this information.

Purpose of Form.—This form may be to your advantage if you have personal service income and your tax rate is above 50%. For more information, see **Publication 909, Minimum Tax and Maximum Tax.**

Line 1. Personal service income.—In the spaces on line 1 show the kinds and amounts of personal service income from your Form 1040 or Form 1041. For an estate or trust, personal service income includes only income in respect of a decedent as defined below. Personal service income for an individual includes:

- wages, salaries, tips, and other compensation for personal services actually rendered.
- professional fees.
- bonuses.
- commissions on sales or insurance premiums.
- prizes and awards that are not gambling winnings.
- taxable pensions and annuities which arise from employer-employee relationship or from tax deductible contributions to a retirement plan.
- taxable group term life insurance.
- property you received as payment for services even if you later transferred the property to someone else.
- gains (except capital gains) and net earnings from the sale or transfer of an interest in, or license for the use of property (other than goodwill) that you created by your personal efforts.
- the portion of income you received from a corporation (including an electing small business corporation) that represents a reasonable allowance as compensation for the services you performed for the corporation.
- the entire amount you receive for professional services if you are a doctor, dentist, lawyer, architect, accountant, etc., and you are personally responsible for the services performed. This is true even if your assistants perform all or part of the services.
- income you receive from a noncorporate trade or business where both personal services and capital are material income producing factors. In this case, your personal service income is a reasonable allowance as compensation for the personal services actually rendered, but not more than the net profits of the business.
- an item of gross income in respect of a decedent if the gross income would have been personal service income for the decedent had he or she lived and received the amount.
- personal service income of a nonresident alien if it is from sources in the U.S. and is effectively connected with the conduct of a trade or business in the U.S.

Personal service income does not include:

- interest and dividends (including undistributed taxable income from an electing small business corporation).
- other distributions of corporate earnings and profits.
- gambling gains.
- gains treated as capital gains.
- premature or excess distributions from a qualified employee pension plan under section 72(m)(5).
- lump-sum distributions from pension, etc., plans taxed under sections 402(a)(2), 402(e) and 403(a)(2).
- certain distributions from Individual Retirement Accounts or Annuities described in sections 408(e)(2), (3), (4), (5), and 408(f).
- redemption of retirement bonds includible in income under section 409 (b) or (c).

Line 2. Deductions against personal service income.—In the spaces on line 2 show the kind and amount of each deduction that is related to your personal service income and is required to be taken into account in determining adjusted gross income.

Examples of these are:

- allowable deduction for expenses from a trade or business from which you received personal service income.
- allowable deduction for expenses from performing services as an employee.
- allowable deduction for payments to a Keogh plan.
- allowable deduction for payments to an IRA.
- allowable deduction for moving expenses.
- deductions allowable to an individual who is a shareholder-employee of an electing small business corporation for the excess of amounts included in gross income due to overpayment on his or her behalf by a corporation to a qualified pension plan over amounts not received as benefits.
- a net operating loss deduction to the extent that the net operating losses carried to the taxable year are properly allocable to or chargeable against personal service income.
- allowable deduction for certain expenses of living abroad under section 913.

When the expenses of a business are more than the income from that business, and both personal services and capital are material income producing factors, deduct only part of the expenses against personal service income. To figure your deduction, multiply the total business expenses of that business by the ratio of a reasonable amount of pay for your services over the gross receipts of that business. You must make the computation separately for each business with a loss. You cannot apply the profits or losses of one business against the profits or losses of another.

Note: *Do not include in line 2, expenses which are properly deductible on Schedule A (Form 1040).*

Line 4. Adjusted gross income.—If you are an estate or trust, adjusted gross income is determined the same as for an individual.

Line 5.—Round percentage to nearest four numbers. For example, a percentage of 68.8456% should be rounded to 68.85%.

Line 8.—Enter on this line the following tax preference items:

- adjusted itemized deductions.
- accelerated depreciation on real and personal property.
- amortization of certified historic structures, certified pollution control facilities, railroad rolling stock, on-the-job training facilities and child care facilities.
- reserves for losses on bad debts of financial institutions.
- stock options.
- depletion.
- intangible drilling costs.

See Form 6251 for adjusted itemized deductions and Form 4625 for the other tax preference items. If you are an estate or trust, see Form 4626 instead of Form 4625.

If there are no tax preference items because of section 58(h), indicate this on line 8.

Lines 20 and 33.—This is your maximum tax. If line 20 is less than your tax by using the tax rate schedule, income averaging, or alternative tax, enter it on Form 1040, line 35 and check the box labeled "Form 4726". If you are an estate or trust, enter this amount on Form 1041, line 26a and write "Form 4726" in the margin. However, if you had an entry on line 29 of Schedule D (Form 1040 or Form 1041), complete lines 21 through 33. If line 33 is less than line 20, use the line 33 amount instead of line 20.

Short Period Returns.—If you are required to prepare a return of less than twelve months, your tax is determined by placing your taxable income, personal service net income, adjusted gross income, and items of tax preference on an annual basis.

Form **4798**

Department of the Treasury
Internal Revenue Service

Carryover of Pre-1970 Capital Losses

(Computations of Capital Loss Carryovers and Summary of Capital Gains and Losses if Pre-1970 Capital Losses are Carried to 1981.)

▶ **Attach to Form 1040.**

OMB No. 1545-0185

1981

Name(s) as shown on Form 1040 | Your social security number

Paperwork Reduction Act Notice.—We ask for the information to carry out the Internal Revenue laws of the United States. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax. You are required to give us this information.

Instructions

A. Purpose of Form.—Use this form only if you have a pre-1970 capital loss carryover to 1981 from your 1980 Form 4798, Part II, line 17 or 23. If so, first fill in your 1981 Schedule D (Form 1040), lines 1 through 18. Then complete Form 4798, Part I. Use Part II to figure your capital loss carryover from 1981 to 1982.

B. Part I, Line 21 or 36.—If the loss is more than the gain, enter zero. If there is a gain and no loss, enter the gain.

C. Part I, Line 24 or 39.—If the gain is more than the loss, enter zero. If there is a loss and no gain, just enter the loss.

D. Married Taxpayers Filing Separate Returns.—If you are married, filing a separate return, and losses are shown on lines 2 and 7 of Part I, complete Section B of Part I. If losses are shown on lines 5 and 7 of Part I, complete lines 16 through 24 of Part I (whether or not you have to complete lines 12 through 28), and ignore the note under line 16. Your limitation for line 30b is the sum of $1,500 plus (1) the loss on line 24 of Part I, and (2) the loss on line 39 of Part I. Your total limitation must not exceed $3,000.

Part I Capital Gains and Losses

Section A.—Summary of Capital Gains and Losses

Short-term	1 Amount from your 1981 Schedule D (Form 1040), Part I, line 7	1		
	2 Pre-1970 short-term capital loss carryover to 1981 from your 1980 Form 4798, Part II, line 17	2 ( )		
	3 Net short-term gain or (loss), combine lines 1 and 2		3	
Long-term	4 Amount from your 1981 Schedule D (Form 1040), Part II, line 18	4		
	5 Pre-1970 long-term capital loss carryover to 1981 from your 1980 Form 4798, Part II, line 23	5 ( )		
	6 Net long-term gain or (loss), combine lines 4 and 5		6	
	7 Combine lines 3 and 6 and enter the net gain or (loss) here. *If line 7 is a gain, complete lines 8 through 10. If line 7 is a loss, skip to line 11.*		7	
	8 If line 7 shows a gain, enter the smaller of line 6 or line 7. Enter zero if there is a loss or no entry on line 6	8		
	9 Enter 60% of line 8		9	
	If line 9 is more than zero, you may be liable for the alternative minimum tax. See Form 6251.			
	10 Subtract line 9 from line 7. Enter here and on Form 1040, line 12		10	
	11 If line 7 shows a loss—if losses are shown on **both** lines 5 and 6, omit line 11 and go to line 12. **Otherwise,** enter one of the following amounts: a If line 3 is zero or a net gain, enter 50% of line 7 b If line 6 is zero or a net gain, enter amount from line 7 or c If line 3 and line 6 are net losses, enter amount on line 3 added to 50% of amount on line 6		11	
	Note: *If there is an entry on line 11, skip lines 12 through 28 and go to line 29.*			
	12 Enter loss from line 3; if line 3 is zero or a gain, enter zero		12	
	13 Enter loss from line 6		13	
	14 Enter gain, if any, from line 3; if line 3 is zero or a loss, enter zero		14	
	15 Reduce loss on line 13 by any gain on line 14		15	
	16 Combine amounts on 1981 Schedule D (Form 1040), lines 5 and 16 If gain, enter gain. If zero or a loss, enter zero	16		
	Note: *If the entry on line 16 is zero, skip lines 17 through 23 and enter on line 24 the loss shown on line 5.*			
	17 Enter gain, if any, from 1981 Schedule D (Form 1040), line 16. If zero or a loss, enter zero	17		
	18 Enter line 16 or line 17, whichever is smaller	18		
	19 Subtract line 18 from line 16	19		
	20 Enter loss from line 2; if line 2 is blank, enter zero	20		
	21 Reduce gain on line 19 by loss on line 20 (see Instruction B)	21		
	22 Enter loss from line 5	22		
	23 Add the gain(s) on line(s) 18 and 21	23		
	24 Reduce the loss on line 22 by any gain on line 23 (see Instruction C)		24	
	25 Enter line 24 or line 15, whichever is smaller (if line 24 is zero, enter zero)		25	
	26 Subtract amount on line 25 from the loss on line 15		26	
	27 Enter 50% of the amount on line 26		27	
	28 Add lines 12, 25, and 27		28	
	29 Enter the amount from line 11 or line 28, whichever applies	29		
	30 Enter here and enter as a (loss) on Form 1040, line 12, the smallest of: a Amount on line 29 b $3,000 (Married taxpayers filing separate returns see Instruction D); or c Taxable income, as adjusted (see page 23 in instructions for Schedule D (Form 1040))		30	( )

Form 4798 (1981) Page 2

Section B.—Complete if You are Married Filing a Separate Return and Losses are Shown on Lines 2 AND 7 of Part I

31 Combine amounts on 1981 Schedule D (Form 1040), lines 5 and 16. If a gain, enter gain; if zero or a loss, enter zero	31		
Note: *If the entry on line 31 is zero, SKIP lines 32 through 38, and enter on line 39 the loss shown on line 2.*			
32 Enter gain, if any, from 1981 Schedule D (Form 1040), line 5. If zero or a loss, enter zero	32		
33 Enter line 31 or 32, whichever is smaller	33		
34 Subtract line 33 from line 31	34		
35 Enter loss from line 5; if line 5 is blank, enter zero	35		
36 Reduce any gain on line 34 by any loss on line 35 (see Instruction B)	36		
37 Enter loss from line 2	37		
38 Add the gain(s) on line(s) 33 and 36	38		
39 Reduce the loss on line 37 by any gain on line 38 (see Instruction C)	39		

Part II **Pre-1970 and Post-1969 Capital Loss Carryovers from 1981 to 1982**
(Complete This Part if the Amount on Part I, Line 29 is Larger Than the Loss on Part I, Line 30)

1 Enter loss shown in Part I, line 3. If none, enter zero and skip lines 2 through 20. Then go to line 21				1	
2 Enter gain shown in Part I, line 6. If that line is blank or shows a loss, enter zero				2	
3 Reduce loss on line 1 by any gain on line 2				3	
Note: *If Part I, line 2 is blank, skip lines 4 through 11 and enter zero on line 12. Then go to line 13.*					
4 Combine lines 5 and 16 on your 1981 Schedule D (Form 1040). Enter the gain; if zero or a loss, enter zero	4				
Note: *If line 4 is zero, skip lines 5 through 11 and enter on line 12 the loss from Part I, line 2. Then go to line 13.*					
5 Enter gain, if any, from 1981 Schedule D (Form 1040), line 5. If zero or a loss, enter zero	5				
6 Enter line 4 or 5, whichever is smaller	6				
7 Subtract line 6 from line 4	7				
8 Enter loss from Part I, line 5, otherwise, enter zero	8				
9 Reduce any gain on line 7 by any loss on line 8	9				
10 Enter loss from Part I, line 2; otherwise, enter zero	10				
11 Add the gains on lines 6 and 9	11				
12 Reduce the loss on line 10 by any gain on line 11				12	
13 Pre-1970 short-term capital loss (enter line 3 or 12, whichever is smaller)				13	
14 Short-term capital loss from years beginning after 1969 (subtract line 13 from line 3)				14	
15 Enter any loss from line 13, above	15				
16 Enter loss from Part I, line 30	16				
17 Pre-1970 short-term loss carryover to 1982 (subtract line 16 from line 15. If the loss on line 15 is smaller than the loss on line 16, enter zero)				17	
18 Enter any loss from line 14, above	18				
19 Subtract line 15 from line 16. If the loss on line 16 is smaller than the loss on line 15, enter zero	19				
20 Post-1969 short-term loss carryover to 1982 (subtract line 19 from line 18. If the loss on line 18 is smaller than the loss on line 19, enter zero)				20	
21 If you had to complete Part I, lines 12 through 28, enter any loss from Part I, line 25. Otherwise, enter zero	21				
22 Subtract line 18 from line 19. If the loss on line 19 is smaller than the loss on line 18, enter zero	22				
Note: *If you skipped lines 2 through 20 above, enter amount from Part I, line 30.*					
23 Pre-1970 long-term loss carryover to 1982 (subtract line 22 from line 21. If the loss on line 21 is smaller than the loss on line 22, enter zero)				23	
24 If you had to complete Part I, lines 12 through 28, enter any loss from Part I, line 26. Otherwise, enter the smaller of the loss on Part I, lines 6 or 7. If Part I, line 6 is zero or a gain, enter zero	24				
25 Subtract line 21 from line 22 ..... × 2. If the loss on line 22 is smaller than the loss on line 21, enter zero	25				
26 Post-1969 long-term loss carryover to 1982 (subtract line 25 from line 24. If the loss on line 24 is smaller than the loss on line 25, enter zero)				26	

Form **5695**
Department of the Treasury
Internal Revenue Service (0)

Residential Energy Credit

▶ Attach to Form 1040. ▶ See Instructions on back.

OMB No. 1545-0214
1981
33

Name(s) as shown on Form 1040 | Your social security number

Enter in the space below the address of your principal residence on which the credit is claimed if it is different from the address shown on Form 1040.

If you have an energy credit carryover from a previous tax year and no energy savings costs this year, skip to Part III, line 24.

Part I **Fill in your energy conservation costs (but do not include repair or maintenance costs).**

1 Was your principal residence substantially completed before April 20, 1977? ▶ ☐ Yes ☐ No

Note: You MUST answer this question. Failure to do so will delay the processing of your return. If you checked the "No" box, you CANNOT claim an energy credit under Part I and you should not fill in lines 2 through 12 of this form.

2 a Insulation	2a		
b Storm (or thermal) windows or doors	2b		
c Caulking or weatherstripping	2c		
d A replacement burner for your existing furnace that reduces fuel use	2d		
e A device for modifying flue openings to make a heating system more efficient	2e		
f An electrical or mechanical furnace ignition system that replaces a gas pilot light	2f		
g A thermostat with an automatic setback	2g		
h A meter that shows the cost of energy used	2h		
3 Total (add lines 2a through 2h)	3		
4 Enter the part of expenditures made from nontaxable government grants and subsidized financing	4		
5 Subtract line 4 from line 3	5		
6 Maximum amount of cost on which credit can be figured	6	$2,000	00
7 Enter the total energy conservation costs for this residence from your 1978, 1979, and 1980 Form 5695, line 2	7		
8 Subtract line 7 from line 6	8		
9 Enter the amount of nontaxable government grants and subsidized financing entered on line 4	9		
10 Subtract line 9 from line 8. If zero or less, do not complete the rest of this part	10		
11 Enter the amount on line 5 or line 10, whichever is less	11		
12 Enter 15% of line 11 here and include in amount on line 23 below	12		

Part II **Fill in your renewable energy source costs (but do not include repair or maintenance costs).**

13 a Solar _____ 13 b Geothermal _____ 13 c Wind _____ Total ▶	13d		
14 Enter the part of expenditures made from nontaxable government grants and subsidized financing	14		
15 Subtract line 14 from line 13	15		
16 Maximum amount of cost on which credit can be figured	16	$10,000	00
17 Enter the total renewable energy source cost for this residence from your 1978 Form 5695, line 5 and your 1979 and 1980 Forms 5695, line 9	17		
18 Subtract line 17 from line 16	18		
19 Enter the amount of nontaxable government grants and subsidized financing entered on line 14	19		
20 Subtract line 19 from line 18. If zero or less, do not complete the rest of this part	20		
21 Enter the amount on line 15 or line 20, whichever is less	21		
22 Enter 40% of line 21 here and include in amount on line 23 below	22		

Part III **Fill in this part to figure the limitation**

23 Add lines 12 and 22. *If less than $10, enter zero*	23		
24 *Enter your energy credit carryover from a previous tax year.* **Caution**—Do not make an entry on this line if your 1980 Form 1040, line 47, showed an amount of more than zero	24		
25 Add lines 23 and 24	25		
26 Enter the amount of tax shown on Form 1040, line 37	26		
27 Add lines 38 through 44 from Form 1040 and enter the total	27		
28 Subtract line 27 from line 26. If zero or less, enter zero	28		
29 Residential energy credit. Enter the amount on line 25 or line 28, whichever is less. Also, enter this amount on Form 1040, line 45. Complete Part IV below if this line is less than line 25	29		

Part IV **Fill in this part to figure your carryover to 1982 (Complete only if line 29 is less than line 25)**

30 Enter amount from Part III, line 25	30		
31 Enter amount from Part III, line 29	31		
32 Credit carryover to 1982 (subtract line 31 from line 30)	32		

For Paperwork Reduction Act Notice, see instructions on back.

Paperwork Reduction Act Notice

The Paperwork Reduction Act of 1980 says we must tell you why we are collecting this information, how we will use it, and whether you have to give it to us. We ask for the information to carry out the Internal Revenue laws of the United States. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax. You are required to give us this information.

General Instructions

Two energy credits make up the residential energy credit, each with its own conditions and limits. These credits are based on: (1) Costs for home energy conservation, and (2) Costs for renewable energy source property.

The credit is based on the cost of items installed in your principal residence after April 19, 1977, and before January 1, 1986

Purpose.—Use this form to figure your residential energy credit if you had qualified energy saving items installed in your principal residence. The instructions below list conditions you must meet to take the credit. If you have an energy credit carryover from the previous tax year and no energy saving costs this year, skip to Part III of the form. Attach Form 5695 to your tax return. For more information, please get **Publication 903,** Energy Credits for Individuals.

What is your principal residence?—To qualify as your principal residence, your residence must be the home in the United States where you live (you may own it or rent it from another person).

A summer or vacation home does not qualify

For energy conservation items to qualify, your principal residence must have been substantially completed before April 20, 1977. A dwelling unit is considered substantially completed when it can be used as a personal residence even though minor items remain unfinished.

Special Rules.—If you live in a condominium, occupy a dwelling unit jointly, or share the cost of energy property, see Publication 903 for more details.

What are energy saving items?—You can take the credit for energy conservation and renewable energy source items.

Energy conservation items are limited to:

- insulation (fiberglass, cellulose, etc.) for ceilings, walls, floors, roofs, water heaters, etc.
- storm (or thermal) windows or doors for the outside of your residence.
- caulking or weatherstripping for windows or doors for the outside of your residence.
- a replacement burner for your existing furnace that reduces fuel use. The burner must replace an existing burner. It does not qualify if it is acquired as a component of, or for use in, a new furnace or boiler.
- a device for modifying flue openings to make a heating system more efficient.
- an electrical or mechanical furnace ignition system that replaces a gas pilot light.
- a thermostat with an automatic setback.
- a meter that shows the cost of energy used.

To take the credit for an energy conservation item, you must:

- install the item in your principal residence which was substantially completed before April 20, 1977,
- be the first one to use the item, and
- expect it to last at least 3 years.

The maximum credit for energy conservation items cannot be more than $300 ($2,000 × 15%) for each principal residence.

Renewable energy source items include solar, wind, and geothermal energy items that heat or cool your principal residence or provide hot water or electricity for it.

Examples of solar energy items that may qualify include:

- collectors,
- rockbeds,
- heat exchangers, and
- solar panels installed on roofs (including those installed as a roof or part of a roof).

An example of an item that uses wind energy is a windmill that produces energy in any form (usually electricity) for your residence

To take the credit for a renewable energy source item, you must:

- be the first one to use the item, and
- expect it to last at least 5 years.

The maximum credit for renewable energy source items cannot be more than $4,000 ($10,000 × 40%) for each principal residence.

What items are NOT eligible for the energy credit?—Do not take credit for:

- carpeting;
- drapes;
- wood paneling;
- wood or peat-burning stoves;
- hydrogen fueled residential equipment;
- siding for the outside of your residence;
- heat pump (both air and water);
- fluorescent replacement lighting system;
- replacement boilers and furnaces; and
- swimming pools used to store energy.

Federal, State, or local government nontaxable grants and subsidized financing.—Qualified expenditures financed with nontaxable Federal, State, or local government grants cannot be used to figure the energy credit. Also, if Federal, State, or local government programs provide subsidized financing for any part of qualified expenditures, that part cannot be used to figure the energy credit. You must reduce the expenditure limits on energy conservation and renewable energy source property for a dwelling by the part of expenditures financed by Federal, State, or local government subsidized energy financing, as well as by the amount of nontaxable Federal, State, or local government grants used to purchase conservation or renewable energy source property.

Figuring the credit for more than one principal residence.—You can take the maximum credit for each principal residence you live in. If you use all of your credit for one residence and then move, you may take the maximum credit amount on your next residence.

To figure your 1981 energy credit for more than one principal residence:

(1) Fill out Part I or II on a separate Form 5695 for each principal residence.

(2) Enter the total of all parts on line 23 of one of the forms.

(3) In the space above line 23, write "More than one principal residence."

(4) Attach all forms to your return.

Caution: *You should keep a copy of each Form 5695 that you file for your records. For example, if you sell your principal residence, you will need to know the amount of the credit claimed in prior tax years. If the items for which you took the credit increased the basis of your principal residence, you must reduce the basis by the credit you took.*

If the credit is more than your tax.—If your energy credit for this year is more than your tax minus certain other credits, you can carry over the excess energy credit to the following tax year.

Specific Instructions

Part I, lines 2a through 2h.—Enter your energy conservation costs (including expenditures made with nontaxable government grants and subsidized financing) only for this tax year. Count the cost of the item and its installation in it on your principal residence. Do not include the cost of repairs or maintenance for energy conservation items.

Part I, line 4.—Enter the amount of nontaxable government grants and subsidized financing used to purchase the energy items. If you do not know the amount check with the government agency that gave you the grant or subsidized financing.

Part I, line 7.—Enter your total energy conservation costs from 1978, 1979, and 1980 for this principal residence. If you had energy conservation costs in the previous tax year but could not take a credit because it was less than $10, enter zero

Part I, line 9.—Enter the part of nontaxable government grants and subsidized financing received under Federal, State, or local programs to purchase energy items. You must use the amounts received under these programs to reduce the maximum amount of cost used to figure the credit If you do not know the amount of the nontaxable grant, check with the government agency which gave you the grant or subsidized financing.

Part II, lines 13a through 13d.—Enter your renewable energy source costs (including expenditures made with nontaxable government grants and subsidized financing) only for this tax year. Do not include the cost of repairs or maintenance for renewable energy source items.

Part II, line 14.—See Part I, line 4 for explanation.

Part II, line 17.—Enter your total renewable energy source costs from 1978, 1979, and 1980 for this principal residence. If you had renewable energy source costs in the previous tax year but could not take a credit because it was less than $10, enter zero.

Part II, line 19.—See Part I, line 9 for explanation.

Part III, line 24.—If line 47 of your 1980 Form 1040 is zero or less and or your 1980 Form 5695, line 20 is less than line 17, enter the difference between line 20 and line 17 on line 24 of this year's form. Exception—If the alternative minimum tax applied, see **Publication 909,** Minimum Tax and Maximum Tax.

Part IV.—Complete this part only if line 29 is less than line 25. You can carryover the amount entered on line 32 to your next tax year. Exception—If the alternative minimum tax applies, see **Publication 909.**

USER SURVEY

Statistics of Income — 1981 Individual Income Tax Returns

Please take a few moments to answer the following questions concerning this Statistics of Income publication. Your responses will enable us to direct our efforts to meeting the needs of our users. After indicating your responses, please fold, tape, and mail. No postage is required. Thank you for your cooperation.

1. How did you obtain this publication?

   ☐ Purchased from the Government Printing Office
   ☐ From a public library
   ☐ From a university or college library
   ☐ Other *(Specify)*_____

2. Have you ever used any other Statistics of Income publication?

   ☐ Yes *(Specify)*_____
   ☐ No

3. Have you ever used the Individual Tax Model?

   Tabulations or tapes ordered from IRS ☐ Yes ☐ No

   Tapes ordered from National Archives ☐ Yes ☐ No

   ☐ Other *(Specify)*_____

4. What subject matter in the report interests you particularly?

   ☐ Sources of Income
   ☐ Income distributions
   ☐ Itemized deductions
   ☐ Exemptions
   ☐ Tax rates
   ☐ Age 65 or over
   ☐ State data
   ☐ High income returns
   ☐ Other (Specify)_____

5. What type of organization are you connected with?

   ☐ Federal government
   ☐ State or local government
   ☐ Trade association
   ☐ Other nonprofit organization
   ☐ Consulting firm
   ☐ Accounting firm
   ☐ University or college
   ☐ Legal firm
   ☐ Other (Specify)_____

6. Rank in order of importance to you the following sections of the publication.

   ☐ Tables
   ☐ Introductory material and changes in law
   ☐ Explanation of terms
   ☐ Sample description
   ☐ Tax form facsimiles

7. How would you describe the text?

   ☐ Too technical
   ☐ Not detailed enough
   ☐ About right
   ☐ Did not use text

8. What changes (additions, deletions, alterations) would you like to see in the contents or format of this publication?

9. What ZIP Code do you—

   live in?_____
   work in?_____

10. Other comments (use other side if needed).
